PERFORMANCE ASSIGNMENT: Students will prepare a poster about their daily routines at school. First, they will write sentences describing their daily routines at school. Then, they will write these sentences on a paper and add some details such as photos, pictures, drawings etc. Finally, they will present their posters in the class and display them on the classroom bulletin board. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students' knowledge of "school life" and its components such as "roles, and responsibilities at school; school routines; national days and celebrations". As they are lower secondary school students in year 6 (six), they can know what "school life" and its components such as "roles, and responsibilities at school; school routines; national days and celebrations" mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 6 of lower secondary school, they can know some basic vocabulary about "school life" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students' physical, cognitive, affective, and social factors are appropriate and suitable for learning about the "school life" and its components such as "roles, and responsibilities at school; school routines; national days and celebrations". Recalling and practising with relevant vocabulary and language grammar items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of "school life". Their knowledge of the days of the week and holidays will help them learn and practise important national holidays such as "the Republic Day of Türkiye". Therefore, a dialogue game can be played to revise all vocabulary and language grammar items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and grammatical items to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students can recall the current (theme) concept of "school life" and its components such as "roles, and responsibilities at school; school routines; national days and celebrations" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the current theme in English without translating anything until they start learning the target words in the current (new) concept in English.

To remind them of the pre-existing background knowledge they already have about the current concept, various materials such as short scene from a film, series, a part from a story, a poster etc. which is appropriate to the age, level, and pedagogy could be used before the main teaching/learning flow of the class begins. They would give a general idea of the theme. Students are facilitated with the relevant materials through various activities. When they have finished working on it, the teacher asks them in English if they understood what it was about. For checking their understanding, she/he can design several activities. For instance, they can write a related word that they know in English on a piece of paper and put it in the jar/box that she/he has prepared. Alternative ways can be tried.

The teacher asks them to wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme "school life" in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being. This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote/a very short story, watching a pantomime/cartoon story, etc. that has no relation or connection to the current theme and does not require any knowledge of English **(D2.5, SELS2.1, V12.1, LS2, LS4)**.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills (listening/watching-comprehension, reading-comprehension, speaking-expression, writing-expression, vocabulary selection and use, grammar selection and use, pronunciation selection and use) are used in an integrated way around "school life" and sub-themes "roles, and responsibilities at school; school routines; national days and celebrations" allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the learning-teaching practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development

and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG6.1.L1.

PREPARING FOR LISTENING/WATCHING-COMPREHENSION: Having seen a visual about and having guessed the topic of “school life” during the background recall session, students can have a vision of the current theme as a general concept in the current (new) theme (**D3.2, SELS1.1, V3.2, V1.1, V3.1, V14.3, LS1, LS4, LS5, LS6, CS2.11, CS2.16.2**). So, a further concept check with listening/watching for gist activities including more guessing games using clues from some pictures, realia, short video clips etc. help them prepare for the current theme (**CS2.6, CS2.8**). For each theme, a digitally constructed story is used as the main context of the theme, and it is visited several times while going through the theme to cover target pronunciation, vocabulary, grammar, social language expressions, and semantic meaning of the whole theme (**CS2.14**). It is both an entry material and the main context to the whole theme at the same time. The teacher asks them whether their guesses during the background recall session were correct and also what they think the introductory digital story that they are going to watch could be about (**CS2.8**). As they have already seen a scene from a film about the theme and the pictures, realia, etc. they can easily answer what the current theme will be about and that their guesses were true (**D1.2, D1.6, D2.3, D3.2, SELS1.2, V1.1, V3.1, V3.3, V3.4, V14.3, LS2, LS4, CS2.10, CS2.17**).

ENG6.1.L2.

BRINGING INFORMATION TOGETHER THROUGH LISTENING/WATCHING: The teacher asks the students to watch the introductory digital story carefully, recalling the work done with visuals (the scene from a film, pictures, realia, or video clips about the theme shown earlier) (**CS2.11**). Students watch the introductory digital story to consolidate the identification of the theme “school life” in it as a whole (**CS2.13**) without stopping the video at any point, so that the students can understand the theme holistically (**D3.2, SELS1.1, V1.1, V3.1, V3.3, V3.4, V14.3, LS2, LS4, CS2.14, CS2.16.2**).

ENG6.1.L3.

MAKING MEANING THROUGH LISTENING/WATCHING-COMPREHENSION: To draw students’ attention to the content, some realia brought into the classroom by the teacher could be used (**V1.1, V3.1, V14.3**). The teacher could show the corresponding objects to the students when the corresponding vocabulary for the main components of the theme “school life” is mentioned in the introductory digital story, without stopping the video while the students watch the story (**CS2.6**). When they have watched the whole story, the teacher could show the realia items on the table and ask questions with two options (**CS2.5**). As one of the words is from the previous themes, students could hear, understand, recognise and learn the (new) target vocabulary for each main component of the theme easily (**CS2.1**). In this way, the teacher could engage in a dialogue with the whole class to check that they have recognised the components of the theme, and that they have understood each realia item is about one component (**CS2.8**). Further activities and games can be played at this stage to reinforce the general meaning of the theme through its main components (**D1.1, D2.5, SELS2.1, V3.4, LS1, LS2, LS4**).

To check whether the students understand the general topic of the theme “school life” and remember the sequence of the scenes of the introductory digital story, the teacher shows an organiser with the mixed images/pictures of the scenes on the Smart Board and asks the students to look at the images/pictures of the scenes for a while (**CS2.3**). She/He then asks them to order the scenes in pairs in their seats with the mixed paper pictures she/he has already given to the students (**SELS2.2, V3.4, V4.2, LS1, LS4, LS6**). When the pairs have finished sorting the pictures for the scenes of the story, the teacher asks the students

to take turns or volunteer to sort the scenes on the screen of the Smart Board (or the pictures on the blackboard) **(SELS1.2, CS2.6, CS2.10)**. This will help the students to organise the story as a whole so that they can identify the main theme and the components of the theme from their memories **(D1.2, D1.6, D2.3, V16.3, V20.4, CS2.12)**.

ENG6.1.L4.

REFLECTING ON THE LISTENING/ WATCHING PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole listening-watching process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3, V3.4)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS1.2, SELS2.2, V4.2, V4.3, V12.1, LS5, LS6)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V10.3)**.

ENG6.1.P1.

RECOGNITION OF TARGET PRONUNCIATION: To practise pronunciation of the new target words, word groups, language chunks, and social language expressions about the theme “school life” and the words and/or word groups for the sub-themes “roles, and responsibilities at school; school routines; national days and celebrations”, the teacher asks the students to listen (to)/watch the whole or some extracts from the introductory digital story by noticing how words are pronounced **(V1.1, V3.1, V3.3, V14.3, LS4, CS2.6)**. She/He asks them to repeat the word aloud when she/he stops the video for a word and says it. The teacher then asks the students to listen and repeat the same words aloud a few times as a whole class after listening to the recordings that she/he has prepared beforehand using some Web 2.0 programmes **(LS2, CS2.16.3)**. The teacher could offer variations with some techniques such as showing the picture of the target word to the students to say the word or pointing to the corresponding picture when they hear the word from the recording, and then both **(CS2.8)**. To help the students pronounce the words accurately, the teacher asks them to repeat each target word aloud a few times as a whole class after her/him or the recording, then in large groups, then in small groups and then again as volunteers **(D3.2, D3.6, SELS1.2, SELS2.1, V4.2, V20.4, LS1, CS2.14)**.

SELECTION AND USE OF TARGET PRONUNCIATION: Practice of pronunciation could be done with different forms of TPR, gamification and drama activities, e.g. first the teacher says the target words/word groups for the sub-themes “roles, and responsibilities at school; school routines; national days and celebrations” the students listen **(CS2.9)**; then the teacher says the target words/word groups and acts them out, the students repeat after her/him **(SELS2.1, CS2.14)**. Then the teacher and the students say the target words/word groups and act them out together at the same time. Then the teacher says the words/word groups and acts them out. These activities can be done through the actions for the sub-themes **(D2.3, D2.5, V1.1, V3.1, V3.3, V14.3)**. As a variation, they can also repeat the words after the teacher happily, sadly, angrily, etc. using different tones of voice **(SELS2.3, CS2.8, CS2.11)**. They also practise for the target social language chunks using the same or similar techniques. During the repetitions, they point to relevant pictures that the teacher has placed in different places in the classroom **(CS2.12)**. Some action sequences are also created in which the students can practise the social language in a fun way by repeating, pointing, miming, and acting out in several games **(SELS2.1, V7.2, LS5, LS6, LS9)**. The teacher facilitates some activities with dialogues and games in which students can practice the target pronunciation by selecting and using them accurately, naturally, and authentically **(CS3.1)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound drills **(SELS2.2)**. The target sounds such as vowels, consonants, and diphthongs of the theme are practised through them **(CS2.13)**. Their learning is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum **(D1.2, D1.6, D2.5, V3.4, LS1, LS2, LS4)**.

ENG6.1.R1

PREPARATION FOR THE READING-COMPREHENSION PROCESS: The teacher facilitates reading and writing activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts. Reading is done in two ways in the theme by using the written version of the introductory digital story and additional reading texts in reading sections of the instructional material to be used **(V3.2, LS2, LS4)**. Various reading styles including silent reading, speed reading, jigsaw reading, and basic reading techniques including skimming, scanning, and reading for details during pre-reading, while-reading, and post-reading phases are used in the theme **(V3.4, LS1, CS2.3, CS2.6)**. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop pre-critical thinking skills and critical thinking skills and the ability to comprehend and talk/write about the content in a meaningful and communicative way **(V3.3, V7.2, LS5, CS3.3)**. For the initial stage of reading, the teacher asks the students to look at the audio/visual/written elements (e.g. sound, voices, scenes, title of the text, written words) surrounding the written version of the contextual introductory story or a new text in the reading section of the instructional material to be used for skimming to recall the conceptual meanings they already have about the theme **(CS2.8)**. At this stage, the teacher could ask the students to read the title of the theme and ask the students which words they already know, and which come to mind in connection with the title **(SELS1.1, CS2.16.2)**. She/He reminds them not to ask the meanings of any new words or the words they do not know. She/He reminds them that this is just a guessing activity by using the words they know and that there is time to work on the new words of the new theme later **(D3.2, D3.6, V3.4, CS2.10, CS2.12)**.

ENG6.1.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students go on with a scanning activity to find out the most important details of the introductory digital story and/or a new text in the reading section which is organised to help students to know more about the reading content **(CS2.6, CS2.7)**. In this way they could be able to recognise the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story **(CS2.4)**. By doing so, they will be able to understand the story/text in general using the main elements **(D3.2, D3.6, V3.3, V3.4, LS1)**.

ENG6.1.R3.

MAKING MEANING THROUGH READING: Then the teacher asks the students to do a jigsaw reading activity, so she/he shows the written version of the introductory digital story or the text in the reading section on the blackboard/Smart Board (or in any other teaching material). She/He asks the students to work in pairs to share the text **(SELS2.2)**. One peer reads the first half of the text and the second peer reads the other half of the text in a given time **(CS2.6)**. They are then asked to share what they have understood from their part with their peer, also in a given time. In this way, they talk about the whole story after reading it silently, in the jigsaw reading style **(D2.4, D3.6, V3.4, V4.2, V16.2, LS1, LS6, CS2.8, CS2.9)**. Some speed-reading activities can be used to develop students' reading and comprehension skills. These activities can be evaluated as explained in the item (6) in the section 1.2. Principles for the Implementation of the English Curriculum. After sharing their parts, students proceed with the activities for dealing with the target vocabulary, grammatical chunks, and semantic meaning relatively with the help of the teacher **(CS2.14)**. For dealing with the semantic meaning, the teacher facilitates the lesson with meaningful activities including closed, semi-closed, free, open-ended, and communicative ones **(SELS2.1)**. From display to communicative open-ended, various types of questions are used to understand the meaning of the text **(SELS3.1, SELS3.2, CS2.6)**. During this process students work collaboratively to exchange information, thoughts, and feelings **(D3.2, D3.7, V3.3, V7.2, V20.2, LS2, LS4, CS2.8)**.

ENG6.1.R4.

REFLECTING ON THE READING-COMPREHENSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole reading-comprehension process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(D2.3, D3.5, V4.2, V6.2, V10.3, V12.1, LS1, LS6)**.

ENG6.1.V1.

PREPARATION TO WORK ON THE TARGET VOCABULARY: At this stage, students remember what the theme is about through the activities that they have done during the background knowledge, pre-listening/ watching, and pre-reading sessions **(SELS1.1)**. As they know the main topic, they get ready to deal with the main components and target vocabulary of the theme **(V3.2, LS1)**.

RECOGNITION OF THE TARGET VOCABULARY: A scanning activity to find out the main details of the introductory digital story (and/or a new text in the reading section) is organised to help students to know more about the content. This could help them identify what the target words in the text could be about. The activity could be designed by listing some important pictures, words or events about the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story. In this way, they will be able to understand the story/text in general by using the main elements and also be ready to work on the target vocabulary items **(D3.2, D3.6, LS1, LS2, LS4, LS5, CS2.4, CS2.6, CS2.7)**. Then the students read the written version of the digital story again silently, (or the reading text in the reading section), to check whether they know any of the target vocabulary items about the theme **(V1.1, V3.1, V14.3, CS2.8)**. They underline the words whose meaning they do not know while reading silently **(CS2.17)**. Students say these words when they finish reading and the teacher writes these words on the Smart Board/blackboard/ white board as they say them. The teacher writes only the target words on the Smart Board/blackboard as active words that the students have said. She/He quickly deals with the non-target passive vocabulary items by using pictures, mimics, gestures, imitations, examples, etc. But she/he takes time to facilitate the teaching of the target words **(D1.2, D1.6, D3.2, V3.3, V3.4, LS2, LS4, CS2.4, CS2.5, CS2.7)**.

To introduce and practise the meanings of the target vocabulary related to the theme, that the students do not know, the teacher asks the students to watch the introductory digital story (or the video of the reading text if there is one) again. From the beginning, whenever a target item is mentioned, the teacher stops the video and asks several questions in the form of two options, one of which is a word from the previous themes that they already know **(V1.1, V3.1, V14.3, CS2.16.1, CS2.6)**. By guessing what they are, the students hear the English equivalents of the words for the theme and they answer as a whole class in chorus. In this way, they are introduced to the meanings of the target words **(D1.2, D1.6, D3.7, CS2.10)**. This is conducted in the form of a dialogue where their learning can be checked as described in items **(SELS2.1)** (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. **(V1.1, V3.1, V3.3, V3.4, V14.3, LS1, LS2, LS4)**. After having watched the introductory digital story, the teacher shows some pictures for the sub-themes, on the walls as clues and says the words aloud several times in sentences by pointing to the pictures and the students repeat after her/him **(D2.3, V1.1, V3.1, V14.3, CS2.6, CS2.11)**. In this way, the main vocabulary items of the theme are introduced to the students in English as described in item (3) in the section 1.2. Principles for the Implementation of the English Curriculum **(V1.1, V3.1, V14.3)**.

SELECTION AND USE OF TARGET VOCABULARY: The teacher can prepare an activity using the Web 2.0 programme with images/pictures, and symbolic images for some categories about the components of the theme "school life ". She/He also prepares mixed images/pictures for target vocabulary items for the

activities which can be done in relation to the components. She/He asks the students to look at the mixed pile of images/pictures of the main components of the theme on the Smart Board screen and scan them for a while to remember them **(V1.1, V3.1, V14.3, CS2.4)**. She/He explains to the students that the items will be placed under the correct category, but first she/he gives the students the cut-out pictures of the activities and a large sheet of paper with the categories written on it and the cut-out pictures will be placed under each category correctly **(V3.3, L2, LS4, CS2.5)**. The teacher asks them to work in pairs and place the cut-out pictures in the right category and ask each other some questions about the theme **(D3.2, D3.8, SELS2.2, V1.1, V3.1, V14.3)**. When the students have finished working with the cut-out pictures and asking and answering questions about them, the teacher asks them to take turns or volunteer to go to the Smart Board and drag the corresponding images/pictures under the right category on the screen **(SELS1.2, V3.4, V20.4, LS1, LS4, CS2.5)**. In this way, images/pictures that are relevant to the main concept and its components are consolidated through categorisation. This activity can be done with real pictures on the white/blackboard if there is a problem with technology. The teacher asks the students to copy the words next to the pictures they have pasted or drawn in their picture dictionaries and then asks them to exchange their picture dictionaries with their peers and check each other's spelling **(D3.2, SELS1.2, SELS2.2, V4.2, V4.3, V6.2, LS9)**. To consolidate the meaning, selection, and use of the new target vocabulary items, the teacher could organise activities and tasks using pictures, flashcards, sounds, realia, and any other materials to play games such as Bingo, Pelmanism, King's game, Odd One out, Wordscapes, Scrabble, Pictionary, Letter Scramble, Acronyms, Charades etc. Games could be adapted according to the teacher's objectives (pronunciation, spelling, meaning, selection, use etc.), age, interests, and language level of the students **(CS2.13)**. Students can be asked to create their own games to use the target vocabulary items in context **(D2.5, D.3.3, SELS3.1, SELS3.2, V1.1, V3.1, V4.2, V4.4, V7.2, V14.3, LS9, CS2.20)**. Students' learning can be checked as described in items (3), and (4) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.1.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS: To draw the students' attention to the target language chunks of the theme "school life", the introductory digital story or an extract from it played so that the students can notice the target language chunks **(D3.2, CS2.2)**. While watching the introductory digital story, the teacher stops at the scenes where the target language chunks are used. She/He imitates the action by showing the scene, saying the chunk, and asking the students to do the same **(V3.2, LS2, CS2.14)**. She could hold up large pictures corresponding to the chunks when they are mentioned in the digital story to draw the students' attention. The sentences with the target chunks are also written and placed on the Smart Board/blackboard/whiteboard. The teacher also points to these sentences while pointing to the scenes in the story where they appear. There is no analysis or teaching of grammatical structures at this stage. Students can automatically and naturally identify the use of the target language chunks in the current context created in the introductory digital story without working on any rules or structures **(SELS3.1, V3.4, LS1, LS4, CS2.3, CS2.4, CS2.16.2)**. To check the students' identification of the target language chunks, after the students have finished watching the introductory digital story, the teacher asks them to read the sentences with the target language chunks written by the teacher on the Smart Board /blackboard/whiteboard and asks them to find the same or similar sentences in the written version of the introductory digital story or another text that is shown on the Smart Board **(D3.2, SELS3.2, V3.3)**. She/He also asks them to find the same or similar sentences with these chunks which are given in different types of tables prepared by the teacher **(CS2.7)**. These tables do not include any explanations of grammatical rules, explanations, or formulas, and they only contain example sentences with target chunks in which important words with the target grammar are written in bold or different colours to attract students' attention. The teacher asks them to look at the words in bold or in different colours and asks students to examine them **(CS2.9)**. Then the teacher asks the students to copy these sentences with target chunks written in bold or different colours into their notebooks. The teacher asks the students to make very similar sentences using the target words and asks them to share their sentences with each other in pairs, and then with the class **(SELS2.2, SELS3.2, D3.2, V4.2, CS2.13, CS2.14, CS2.16.1, CS2.16.2)**. Both the teacher and the class members give feedback to the students as they say their

sentences **(CS2.19)**. The teacher gives all students a checklist with simple symbols to evaluate each other's work as explained in the items (5) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum **(V4.3, V6.2, V10.3, LS6)**.

SELECTION AND USE OF THE TARGET GRAMMAR: To facilitate students' further practice with the target language chunks in the theme "school life", the teacher shows some other sentences with these chunks in another context such as a short story, a short paragraph, and a short dialogue etc. and asks students to find the sentences with the target chunks in them and asks if they understand them **(SELS3.2, V1.1, V3.1, V3.3, V14.3, CS2.4, CS2.6, CS2.8)**. She/He gives some written activities and exercises to practise the target chunks in context. She/He also facilitates more fun activities and as described in items (5), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. To consolidate the target language chunks, the teacher organises different fun activity and game bundles that the students can practise and consolidate them **(CS2.13)** where their learning can be checked as described in item (10) in the section 1.2. Principles for the Implementation of the English Curriculum **(D2.5, V4.4)**.

ENG6.1.W1.

PREPARATION FOR THE WRITING-EXPRESSION SESSION: Practising through writing: Writing activities help students to produce and display meaningful written language for their personal expression and communication with others, by using language including target words, grammatical structures in use and the social language in this theme, as in other themes **(V1.1, V3.1, V3.2, V14.3)**.

ENG6.1.W2.

RECOGNISING THE MODEL: Initially, students produce very limited and short pieces of writing such as sentences to practise the language including the target vocabulary and grammatical structures, after hearing and seeing them through listening and reading activities in the theme "school life". They practise the language in a more controlled way in the beginning, by writing to repeat or simply explain what they hear and see in context and what they are asked to do. They are provided a written model/example to copy to be able to notice significant points and elements in it **(SELS3.1)**. While copying a short model writing, they become aware of the aspects such as the use of words, language chunks, punctuation, spelling and so on **(D3.1, V3.4, LS1, CS2.4, CS2.16.3)**.

ENG6.1.W3.

CREATING THE WRITING CONTENT: Controlled writing of words and sentences turns to short paragraphs in a process writing manner with the support of the teacher's feedback in the theme. This process is expanded and supported by several practical activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(D1.3, D3.1, SELS3.2, V3.4, V4.4, V7.2, LS2, LS4, LS9, CS2.20)**.

ENG6.1.W4.

CONSTRUCTING AND PRACTISING WRITING: Storification and gamification techniques are actively and extensively used for further writing practice tasks. Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, projects, scripts for plays, diaries/journals, blogs, very short film scenarios, etc. to express their ideas, thoughts, and feelings **(D2.5, D3.3, SELS3.2, CS2.13)**. All the content is expected to be contextual, practical, authentic, real, and appropriate to the students' interests and language level **(V3.4, V7.2, V12.1, LS1, LS4, LS9)**.

ENG6.1.W5.

RECONSTRUCTING AND COMMUNICATING THROUGH WRITING: Students interact and communicate with peers and/or other people inside or outside school by using the language including the target words, language chunks, and the social language for the theme in their writing (**SELS2.2, SELS2.3, V1.1, V3.1, V3.4, V4.2, V14.3, LS9, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home in a variety of ways (**D3.3, SELS3.2, SELS3.3, V7.2, LS2, CS2.20**). These activities are evaluated as described in items (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.1.W6.

REFLECTING ON THE WRITING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole writing-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them (**D1.5, SELS1.3, CS2.15**). Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive (**D2.4, D3.5, SELS2.2**). The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design (**V4.3, V6.2, V10.3, V20.4, LS1, LS6**).

ENG6.1.S1.

PREPARATION FOR SPEAKING: The teacher facilitates speaking activities throughout the theme from the first lesson to the end. Speaking activities enhance students' learning and help them produce and display meaningful language for personal expression and communication with others by using the language including the target words, grammatical structures in use and the social language expressions of the theme (**V1.1, V3.1, V3.2, V3.4, V14.3**).

ENG6.1.S2

RECOGNISING AND USING THE MODEL: In the beginning, through listening/watching and reading, students recognise how the language with the target language items is used (**CS2.6**). They practise the language in a controlled way, by telling, repeating, explaining what they hear and see in the context (**D1.3, D3.2, SELS3.1, V3.3, LS1, LS2, LS4, CS2.4**).

ENG6.1.S3

CONSTRUCTING SPOKEN CONTENT: In the later stages of the lessons after controlled practice sessions, the teacher creates new contexts in the form of new written/photo-picture strip/pantomime/video stories, dialogues etc. as new opportunities for the students to talk about them for practising further through questions, explanations, inferences etc. (**D1.3, SELS3.2, V3.4, V4.2, V7.2, V12.1, LS1, LS4, LS9, CS2.13**).

ENG6.1.S4.

CONSTRUCTING SPOKEN MATERIALS: Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme (**SELS2.2, SELS3.2, V4.2, V1.1, V3.1, V14.3, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings (**D1.2, D1.6, D3.3, V7.2, LS2, LS9, CS2.20**).

ENG6.1.S5.

RECONSTRUCTING AND COMMUNICATING THROUGH SPEAKING: Students communicate with each other by seeing/hearing/reading/using the language including the target words and grammatical structures related to the theme “school life” in fun, enjoyable, varied, and versatile activities **(SELS2.3, CS2.20)**. Picture strip stories can be used at the end of each theme to provide a consolidation and revision **(V3.4, V4.2, V12.1, LS1, LS4, LS9, CS2.13, CS2.14)**. These new contents created are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. Storification and gamification techniques are actively and extensively used together with other further speaking practice throughout the theme. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact and to communicate with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme and its components such as “roles, and responsibilities at school; school routines; national days and celebrations” **(V3.4, V4.2, V1.1, V3.1, V14.3, LS4, CS3.1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings **(D2.5, D3.3, SELS3.3, V7.2, LS2, CS2.20)**. These are evaluated as described in items (7), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. Then they can expand their language use and practise by communicating with others.

ENG6.1.S6.

REFLECTING ON THE SPEAKING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole speaking-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them **(SELS1.3, CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V4.3, V6.2, V10.3, V20.4, LS1, LS6)**.

DIFFERENTIATION**Expansion**

Objective: To practise daily routines and habits in English by encouraging students to use the target grammar chunks and vocabulary.

Activity 1: Frequency Matters

The teacher divides the class into pairs or small groups of 3–4 students and gives each group a survey sheet with questions about routines, habits, and frequency. For example: “How often do you eat vegetables?”, “How do you go to school?” or “Do you ever watch TV in the morning?”. Students ask and answer the questions in pairs or small groups. They respond using the Present Simple and include adverbs of frequency in their answers. For example: “I always eat vegetables for lunch”, “I usually take the bus to school” or “I never watch TV in the morning”. After the survey, the teacher asks students to report back to the class using full sentences such as “Student A always eats vegetables for lunch”, “Student B never watches TV in the morning”. She/He asks students to share some of the most interesting or surprising routines they heard from their classmates. Then she/he writes some of the correct and incorrect sentences on the board (without identifying the students) and corrects any mistakes related to adverb placement and Present Simple Tense usage. She/He reminds students that they can practice discussing their routines and habits outside of class by focusing on adverbs of frequency in daily conversations. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practise daily routines and habits in English by encouraging students to use the target grammar chunks and vocabulary.

Activity 1: Frequency Matters

The teacher divides the class into pairs or small groups of 3-4 students and gives each group a sheet with questions about routines, habits, and frequency. For example: "How often do you eat vegetables?", "How do you go to school?" or "Do you ever watch TV in the morning?". Students ask and answer the questions in pairs or small groups. They respond using the Present Simple and include adverbs of frequency in their answers. The teacher moves around the class and gives guidance to students who need help with the sentence structure or adverb placement. Students share their sentences with their peer. The teacher asks students to share some of the most interesting or surprising routines they heard from their classmates. She/He writes some of the correct and incorrect sentences on the board (without identifying the students) and corrects any mistakes related to adverb placement and Present Simple Tense usage. She/He reminds students that they can practise discussing their routines and habits outside of class by focusing on adverbs of frequency in daily conversations. Students reflect on their thoughts and feelings about the activity.

THEME 2: CLASSROOM LIFE

Sub-themes: Daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50

This theme is centred on the concept of “classroom life” and covers the sub-themes of “daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 10

FIELD SKILLS AND SUPPORTIVE SKILLS FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammmaring: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS -

DISPOSITIONS D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.5. Self-Confidence, D1.6. Selectivity, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning

INTERCURRICULAR COMPONENTS

Social-Emotional

Learning Skills SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1. Adaptability Skill, SELS3.2. Flexibility Skill, SELS3.3. Responsible Decision-Making Skill

Values

V3. Diligence, V4. Friendship, V6. Honesty, V7. Aesthetics, V9. Compassion, V10. Modesty, V12. Patience, V16. Responsibility, V20. Benevolence

Literacy Skills LS1. Information Literacy, LS2. Digital Literacy, LS4. Visual Literacy, LS5. Cultural Literacy, LS6. Civic Literacy, LS9. Art Literacy

INTERDISCIPLINARY

RELATIONS Turkish, Maths, Social Studies, Physical Education and Sports, Visual Arts, Music, Information Technologies and Software

INTERSKILLS CS2.1. Conflict Resolution Skill, CS2.2. Observation Skill, CS2.3. Summarising Skill, CS2.4. Analysis Skill, CS2.5. Classification Skill, CS2.6. Information Gathering Skill, CS2.7. Comparison Skill, CS2.8. Inquiry Skill, CS2.9. Generalisation Skill, CS2.10. Inference Skill, CS2.11. Observation-Based Prediction Skill, CS2.12. Data-Based Prediction Skill, CS2.13. Analogical Reasoning Skill, CS2.17. Evaluation Skill, CS2.19. Logical Auditing Skill, CS2.20. Synthesis Skill, CS3.1. Decision-Making Skill, CS3.3. Critical Thinking Skill

Year 6 is structured based on semi-holistic/semi-inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.6.2.L1. Students can get ready for the listening/watching-comprehension process for the current content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” carefully.

- a) *Students activate their pre-existing knowledge and experience related to the current theme and content by recalling their background knowledge imaginatively in her/his own language without speaking it.*
- b) *Students identify significant relationships between their pre-existing knowledge and experiences and the clues to the current content without translation.*
- c) *Students make predictions about the current content on “classroom life” by using the relationships that they recognised accurately by looking at the provided realia, pictures, and context.*
- d) *Students make predictions about the current content based on the surrounding audio/visual elements in relation to the current theme.*

ENG.6.2.L2. Students can bring information about the current content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” together through significant details and main components while listening/watching it.

- a) *Students comprehend the topic of the current content by listening (to)/watching it as a whole.*
- b) *Students recognise the significant details and components within the whole current content by listening (to) and watching it again in a careful manner.*

ENG.6.2.L3. Students can make meaning of/derive meaning from the current content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” through significant details by listening/watching it carefully.

- a) *Students check any initial predictions related to the current content by being aware of the commonalities between self-predictions and clues provided as visuals surrounding the current content.*
- b) *Students make important and necessary classifications in the current content that help them to understand it better with details.*
- c) *Students make important and necessary comparisons in the current content that help them to understand it better with details.*
- d) *Students recognise significant horizontal/vertical/spiral relationships (if any) within the generally perceived current content with the help of classifications and comparisons made earlier.*
- e) *Students make significant inferences that contribute to the understanding of the meaning of the generally perceived current content.*
- f) *Students construct the meaning of the current content in detail through the classifications/comparisons/inferences made earlier in relation to it.*
- g) *Students internalise the current content in an individualised and appropriate way according to age and language level.*

ENG.6.2.L4. Students can convey their knowledge, experience, thoughts, and feelings examined carefully about the whole listening/watching-comprehension process in relation to the current content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50”.

- a) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content.*
- b) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content by sharing them with others.*

ENG.6.2.P1. Students can select and use the target phonological elements of the current content about “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” accurately, authentically, and naturally through spontaneous decision-making processes and use it in an appropriate and effective way when communicating with others.

- a) *Students listen to the current content by paying attention to the target phonological aspects including pronunciation and intonation of utterances.*
- b) *Students reinforce the target phonological elements by repeating them after the source several times as a whole class, in groups and individually.*
- c) *Students recognise the target phonological elements of the current content when they are heard in different contexts.*
- d) *Students recognise target phonological elements specific to the current content when they are heard in different contexts and use them accurately, authentically, and naturally through spontaneous decision-making processes.*
- e) *Students use the target theme-specific phonological elements of the current content appropriately, spontaneously and effectively when communicating with others.*

ENG.6.2.R1. Students can get ready for the reading-comprehension process about the current content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50”.

- a) *Students activate their pre-existing knowledge and past experiences related to the current theme and content efficiently.*
- b) *Students recognise significant relationships between their pre-existing knowledge, past experiences and clues to the current content.*
- c) *Students make significant preliminary predictions about the current content based on recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring the audio-visual clues surrounding it.*

ENG.6.2.R2. Students can bring information about the current content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” through skimming (looking quickly at) the audio-visual elements and reading the content very quickly.

- a) *Students review the current content by looking at the surrounding audio/visual materials to identify what it is about in general through skimming.*
- b) *Students read the current content to scan the major components silently and quickly with the help of the clues provided.*
- c) *Students carefully read the current content silently and carefully to find significant details and components belonging to the theme.*

ENG.6.2.R3. Students can make meaning of / derive meaning from the current content about “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” by reading it carefully.

- a) *Students carefully check the current content in detail for the accuracy of initial and detailed predictions that are made earlier.*
- b) *Students classify the significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- c) *Students compare significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- d) *Students recognise significant horizontal/vertical/spiral relationships within the current content that contribute to the perception of the content in a meaningful way.*
- e) *Students make meaningful inferences from the information in the current content by examining it carefully.*
- f) *Students internalise the information in the current content in an individualised and appropriate way according to age and language level.*

ENG.6.2.R4. Students can convey their knowledge, experiences, thoughts, and feelings related to the reading-comprehension process about the current content, “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process.*
- b) *Students convey the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process by sharing them with others.*
- c) *Students produce new products related to the current reading-comprehension content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.2.V1. Students can select and use the target vocabulary of the current content about “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students guess the main topic of the current content from the audio/visual/written elements (e.g. sound, voices, scenes, written words) in the contextual material by listening (to)/watching/reading it several times for recognition.*
- b) *Students recognise sub-themes/key components of the target words to which they belong in the current content by scanning.*
- c) *Students recognise the target words related to the main components of the current content with the help of the audio/visual/written elements and other clues.*
- d) *Students repeat aloud the relevant target key components and target vocabulary in the current content with the whole class, in groups, and then individually together with or after listening (to)/watching/reading the source material.*
- e) *Students recognise the use of target words and expressions in the current content by making various guesses with the help of supplementary elements.*
- f) *Students make context-appropriate selections automatically by associating target words with their pre-existing conceptual meanings in the mind without analysing their contextual meaning in detail.*
- g) *Students use the target words spontaneously and appropriately in different communicative contexts by being aware of their differences when communicating with others.*

ENG.6.2.G1. Students can select and use the target grammatical elements of the current content about “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students become familiar with the current content by listening (to)/watching/reading it a few times attentively.*
- b) *Students listen (to)/watch/read the same content, attentively and mindfully, including the use of target grammatical chunks presented verbally in context with the help of body language.*
- c) *Students verbally and automatically repeat simple and meaningful clauses/sentences containing target grammatical chunks that they have noticed in the current content that they have heard/viewed/read without explicit knowledge of the rules.*
- d) *Students act out physically the clauses/sentences containing the target grammatical chunks in the current content heard/viewed/read by repeating them several times without knowing, analysing, and thinking about their rules.*
- e) *Students see and read the example sentences containing target grammatical chunks provided for language awareness carefully.*
- f) *Students gain awareness of clauses/sentences that contain target grammatical chunks that are presented for the purpose of raising language awareness.*
- g) *Students recognise the clauses/sentences containing the target grammatical chunks when they encounter them by seeing and/or hearing them in different contexts.*
- h) *Students use the recognised target grammatical chunks naturally, authentically, and automatically in new contextual tasks and activities without analysing their rules.*
- i) *Students produce new and meaningful verbal/written content about the current theme by using the target grammatical chunks in meaningful tasks without knowing and analysing their rules.*
- j) *Students use the target language chunks authentically, automatically, and naturally in communication processes without analysing their rules in meaningful contexts.*

ENG.6.2.W1. Students can get ready for the writing-expression process about the current content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50”.

- a) *Students relate their pre-existing knowledge and experience used in the initial processes of writing-expression skills to the current content by activating them in relation with the current content.*
- b) *Students understand what the writing task and its content are in relation to the current content correctly by making use of their pre-existing knowledge and experience as guided and assigned.*

ENG.6.2.W2. Students can understand the model/example for the writing task about the current content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50”.

- a) *Students understand the components and details of the content in the provided model/sample which is displayed as a guide, by examining it carefully.*

ENG.6.2.W3. Students can organise a content for the assigned writing task on the current content “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” based on the model/example provided.

- a) *Students conduct preliminary research for a prepared writing situation according to the current content appropriate to the assigned writing type, age, and language level.*

- b) *Students develop a simple draft for a prepared/or unprepared writing task about the current content appropriate to the assigned writing type, age, and language level.*
- c) *Students organise and/or produce materials relevant to the content for a prepared/or unprepared writing task, appropriate to the assigned writing type, age, and language level.*

ENG.6.2.W4. Students can individually construct/form content for the assigned writing task on the current content “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100–500; ordinal numbers 1–50”.

- a) *Students present appropriate and accurate materials for a prepared and/or unprepared writing task about the current theme according to the assigned writing type, age, and language level.*
- b) *Students use appropriate discourse forms, styles, and rules relevant to the assigned writing type for a prepared and/or unprepared writing task.*
- c) *Students use target words and grammatical language chunks accurately and appropriately for a prepared and/or unprepared writing task about the current content by selecting them according to the assigned writing type, age, and language level.*
- d) *Students express important messages in the written current content to the reader accurately and appropriately for a prepared and/or unprepared writing task.*

ENG.6.2.W5. Students can reorganise (reconstruct) and use information in the new written tasks about the “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100–500; ordinal numbers 1–50” to communicate with other people.

- a) *Students use the information in the current content or similar information in a different content by internalising and selecting it individually and reorganising it as required and meaningfully in different contexts.*
- b) *Students exchange information/ideas in written communication by sharing reconstructed meaningful knowledge meaningfully with others.*

ENG.6.2.W6. Students can reflect on their knowledge, experiences, thoughts, and feelings related to the writing-expression process about the current content, “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100–500; ordinal numbers 1–50” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings reviewed in relation to the current writing-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings reviewed in relation to the writing-expression process about the current content with others.*
- c) *Students produce new written products related to the current writing-expression content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.2.S1. Students can get ready for speaking-expression process about the current content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100–500; ordinal numbers 1–50”.

- a) *Students make connections with the current content by activating their pre-existing knowledge and experiences that they have recalled in the listening (to)/watching/reading sections previously.*

ENG.6.2.S2. Students can use the model/example for producing verbal content about the current content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100–500; ordinal numbers 1–50”.

- a) *Students listen (to)/watch/read the model/example for the current content with the help of audio/visual/written elements.*

ENG.6.2.S3. Students can organise a new verbal content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” by speaking accurately, efficiently, and authentically.

- a) Students recognise what form and type of content is expected and assigned for prepared/unprepared speaking situations based on audio/visual/written content as provided in the model/example.*
- b) Students organise the content for prepared/unprepared speaking situations in an appropriate and accurate way as they have heard/seen/read in the model/example.*
- c) Students develop a draft for prepared/unprepared speaking situations, appropriate to the age and language level as presented in the model/sample content.*
- d) Students organise supplementary audio/visual/written materials for prepared/or unprepared speaking situations, appropriate to age and language level, as provided in the model/sample content.*
- e) Students organise the information about the current content to be presented for prepared/or unprepared speaking situations in an appropriate way as required.*

ENG.6.2.S4. Students can construct a new verbal content on “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” by speaking accurately, efficiently, and authentically.

- a) Students use target pronunciation, vocabulary, language chunks, and forms of discourse related to the current content effectively by selecting them accurately and appropriately for prepared/unprepared speaking situations.*
- b) Students present individually prepared content in an accurate and efficient way as presented in the model/example for prepared speaking situations clearly, efficiently, and appropriately.*
- c) Students present individually prepared information in an accurate and efficient way as presented in the model/example for unprepared speaking situations.*
- d) Students express the message about the current content clearly to the reader by using all supplementary elements and body language in an appropriate and accurate way in context for prepared and/or unprepared speaking situations.*

ENG.6.2.S5. Students can reorganise (reconstruct) and use information about the “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” to communicate with other people.

- a) Students use the information presented in the current content by reorganising it appropriately, efficiently, individually, and verbally in different contexts.*
- b) Students engage in appropriate and efficient verbal communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.6.2.S6. Students can convey their knowledge, experiences, thoughts, and feelings related to the speaking-expression process about the current content, “classroom life with daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” to communicate with other people in relation to themselves or others, both individually and/or with others.

- a) Students convey individually the knowledge, experiences, thoughts, and feelings examined carefully in relation to the current speaking-expression content and process.*
- b) Students share the knowledge, experiences, thoughts, and feelings examined carefully in relation to the speaking-expression process about the current content with others.*

CONTENT FRAME

CLASSROOM LIFE

Sub-themes: Daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for daily and study routines:

Nouns: A habit, a research.

Verbs: To brush, to rest, to search, to focus, to review, to recycle, to repeat, to revise, to remember, to practise, to work in pairs, to work in groups, to share.

Adjectives: Regular, after, before.

Adverbs: Firstly, normally.

Vocabulary for learning activities in the classroom:

Nouns: A diary, a level, a sort, learning, a method, teaching, an activity, a task, an exercise, a peer, a pair, a group.

Verbs: To continue, to mark, to count, to read silently, to read aloud.

Adjectives: Creative, effective.

Adverbs: Easily, in turns, one after another, to each other, together.

Vocabulary for cardinal numbers 100-500: From 100 to 500.

Vocabulary for ordinal numbers 1-50: From 1st to 50th.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social, and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Present Progressive Tense: (I am reviewing my notes for the test now).

-The Present Progressive Tense vs the Simple Present Tense: (I brush my teeth every morning, but today I am brushing them after breakfast).

-Question tags for The Present Progressive Tense and the Simple Present Tense: (She is marking the tests now, isn't she? They study in the library every day, don't they?)

-Possessive adjectives: (I always keep my diary on the table).

-Word order with adverbs: (He normally brushes his teeth after breakfast).

-Question: How often: (How often do you review your notes before a test?)

Functions of the Grammatical Structures in Use:

-Use of The Present Progressive Tense: Indicating actions happening right now or ongoing activities.

-Use of Present Progressive Tense vs Present Simple Tense: Comparing actions happening right now and general truths, habits, routines.

-Use of question tags for the Simple Present Tense and Progressive Tense: Confirming general truths, actions or habits and confirming ongoing action.

- Use of possessive adjectives: Showing ownership in relation to nouns.
- Use of the word order with adverbs: Organizing adverbs correctly to modify verbs, adjectives, or other adverbs.
- Use of question: How often: Asking about the frequency of an action.

Target Social Language in Use:

I got full marks on the English test!

Do we have to discuss the answers in pairs?

I need some help with vocabulary work!

Target Phonological Sounds in Use:

Intonation of negative statements

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme "classroom life" and its components such as "daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50" is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what "classroom life" and its components such as "daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50" means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts

Daily routines, study routines, learning activities, learning activities in the classroom, cardinal numbers: 100-500; ordinal numbers: 1-50.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will prepare a game about numbers focusing on using cardinal numbers (100-500) and ordinal numbers (1-50). They will design a game, such as a board game, card game, or quiz, where players solve problems or answer questions about these numbers. They will also place questions about school routines and learning activities to be answered in an order with given numbers. They will write simple rules for their games and create challenges related to classroom life, such as arranging items in order or counting objects. They will present their games to classmates, explain how to play, and let others try them. The project should include colourful designs, creative questions, and clear instructions. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students' knowledge of "classroom life" and its components such as "daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50". As they are lower secondary school students in year 6 (six), they can know what "classroom life" and its components such as "daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50" mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 6 of lower secondary school, they can know some basic vocabulary about

“classroom life” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “classroom life” and its components such as “daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “classroom life”. Therefore, a dialogue game can be played to revise all vocabulary and language grammar items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and grammatical items to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students can recall the current (theme) concept of “classroom life” and its components such as “daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the current theme in English without translating anything until they start learning the target words in the current (new) concept in English.

To remind them of the pre-existing background knowledge they already have about the current concept, various materials such as short scene from a film, series, a part from a story, a poster etc. which is appropriate to the age, level, and pedagogy could be used before the main teaching/learning flow of the class begins. They would give a general idea of the theme. Students are facilitated with the relevant materials through various activities. When they have finished working on it, the teacher asks them in English if they understood what it was about. For checking their understanding, she/he can design several activities. For instance, they can write a related word that they know in English on a piece of paper and put it in the jar/box that she/he has prepared. Alternative ways can be tried.

The teacher asks them to wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “classroom life” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being. This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote/a very short story, watching a pantomime/cartoon story, etc. that has no relation or connection to the current theme and does not require any knowledge of English **(D2.5, SELS2.1, V12.1, LS2, LS4)**.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills (listening/watching-comprehension, reading-comprehension, speaking-expression, writing-expression, vocabulary selection and use, grammar selection and use, pronunciation selection and use) are used in an integrated way around “classroom life” and sub-themes “daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50”, allowing students to build

background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG6.2.L1.

PREPARING FOR LISTENING/WATCHING-COMPREHENSION: Having seen a visual about and having guessed the topic of “classroom life” during the background recall session, students can have a vision of the current theme as a general concept in the current (new) theme **(D3.2, SELS1.1, V3.1, V3.2, V4.2, LS1, LS4, CS2.11, CS2.16.2)**. So, a further concept check with listening/watching for gist activities including more guessing games using clues from some pictures, realia, short video clips etc. help them prepare for the current theme **(CS2.6, CS2.8)**. For each theme, a digitally constructed story is used as the main context of the theme, and it is visited several times while going through the theme to cover target pronunciation, vocabulary, grammar, social language expressions, and semantic meaning of the whole theme **(CS2.14)**. It is both an entry material and the main context to the whole theme at the same time. The teacher asks them whether their guesses during the background recall session were correct and also what they think the introductory digital story that they are going to watch could be about **(CS2.8)**. As they have already seen a scene from a film about the theme and the pictures, realia, etc. they can easily answer what the current theme will be about and that their guesses were true **(D1.2, D1.6, D2.3, D3.2, SELS1.2, V3.1, V3.2, V3.3, V3.4, V4.2, LS2, LS4, CS2.10, CS2.17)**.

ENG6.2.L2.

BRINGING INFORMATION TOGETHER THROUGH LISTENING/WATCHING: The teacher asks the students to watch the introductory digital story carefully, recalling the work done with visuals (the scene from a film, pictures, realia, or video clips about the theme shown earlier) **(CS2.11)**. Students watch the introductory digital story to consolidate the identification of the theme “classroom life” in it as a whole **(CS2.13)** without stopping the video at any point, so that the students can understand the theme holistically **(D3.2, SELS1.1, V3.1, V3.2, V3.3, V3.4, V4.2, LS2, LS4, CS2.14, CS2.16.2)**.

ENG6.2.L3.

MAKING MEANING THROUGH LISTENING/WATCHING-COMPREHENSION: To draw students’ attention to the content, some realia brought into the classroom by the teacher could be used **(V3.1, V3.2, V4.2)**. The teacher could show the corresponding objects to the students when the corresponding vocabulary for the main components of the theme “classroom life” is mentioned in the introductory digital story, without stopping the video while the students watch the story **(CS2.6)**. When they have watched the whole story, the teacher could show the realia items on the table and ask questions with two options **(CS2.5)**. As one of the words is from the previous themes, students could hear, understand, recognise and learn the (new) target vocabulary for each main component of the theme easily **(CS2.1)**. In this way, the teacher could engage in a dialogue with the whole class to check that they have recognised the components of the theme, and that they have understood each realia item is about one component **(CS2.8)**. Further activities and games can be played at this stage to reinforce the general meaning of the theme through its main components **(D1.1, D2.5, SELS2.1, V3.4, LS1, LS2, LS4)**.

To check whether the students understand the general topic of the theme “classroom life” and remember the sequence of the scenes of the introductory digital story, the teacher shows an organiser with the mixed

images/pictures of the scenes on the Smart Board and asks the students to look at the images/pictures of the scenes for a while **(CS2.3)**. She/He then asks them to order the scenes in pairs in their seats with the mixed paper pictures she/he has already given to the students **(SELS2.2, V3.4, V4.2, LS1, LS4, LS6)**. When the pairs have finished sorting the pictures for the scenes of the story, the teacher asks the students to take turns or volunteer to sort the scenes on the screen of the Smart Board (or the pictures on the blackboard) **(SELS1.2, CS2.6, CS2.10)**. This will help the students to organise the story as a whole so that they can identify the main theme and the components of the theme from their memories **(D1.2, D1.6, D2.3, V16.3, V20.4, CS2.12)**.

ENG6.2.L4.

REFLECTING ON THE LISTENING/ WATCHING PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole listening-watching process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3, V3.4)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS1.2, SELS2.2, V4.2, V4.3, V12.1, LS5, LS6)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V10.3)**.

ENG6.2.P1.

RECOGNITION OF TARGET PRONUNCIATION: To practise pronunciation of the new target words, word groups, language chunks, and social language expressions about the theme “classroom life” and the words and/or word groups for the sub-themes “daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50”, the teacher asks the students to listen (to)/watch the whole or some extracts from the introductory digital story by noticing how words are pronounced **(V3.1, V3.2, V3.3, V4.2, LS4, CS2.6)**. She/He asks them to repeat the word aloud when she/he stops the video for a word and says it. The teacher then asks the students to listen and repeat the same words aloud a few times as a whole class after listening to the recordings that she/he has prepared beforehand using some Web 2.0 programmes **(LS2, CS2.16.3)**. The teacher could offer variations with some techniques such as showing the picture of the target word to the students to say the word or pointing to the corresponding picture when they hear the word from the recording, and then both **(CS2.8)**. To help the students pronounce the words accurately, the teacher asks them to repeat each target word aloud a few times as a whole class after her/him or the recording, then in large groups, then in small groups and then again as volunteers **(D3.2, D3.6, SELS1.2, SELS2.1, V4.2, V20.4, LS1, CS2.14)**.

SELECTION AND USE OF TARGET PRONUNCIATION: Practice of pronunciation could be done with different forms of TPR, gamification and drama activities, e.g. first the teacher says the target words/word groups for the sub-themes “daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50”, the students listen **(CS2.9)**; then the teacher says the target words/word groups and acts them out, the students repeat after her/him **(SELS2.1, CS2.14)**. Then the teacher and the students say the target words/word groups and act them out together at the same time. Then the teacher says the words/word groups and acts them out. These activities can be done through the actions for the sub-themes **(D2.3, D2.5, V3.1, V3.2, V3.3, V4.2)**. As a variation, they can also repeat the words after the teacher happily, sadly, angrily, etc. using different tones of voice **(SELS2.3, CS2.8, CS2.11)**. They also practise for the target social language chunks using the same or similar techniques. During the repetitions, they point to relevant pictures that the teacher has placed in different places in the classroom **(CS2.12)**. Some action sequences are also created in which the students can practise the social language in a fun way by repeating, pointing, miming, and acting out in several games **(SELS2.1, V7.2, LS5, LS6, LS9)**. The teacher facilitates some activities with dialogues and games in which students can practice the target pronunciation by selecting and using them accurately, naturally, and authentically **(CS3.1)**. Several fun pronunciation games could be played, such

as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound drills **(SELS2.2)**. The target sounds such as vowels, consonants, and diphthongs of the theme are practised through them **(CS2.13)**. Their learning is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum **(D1.2, D1.6, D2.5, V3.4, LS1, LS2, LS4)**.

ENG6.2.R1.

PREPARATION FOR THE READING-COMPREHENSION PROCESS: The teacher facilitates reading and writing activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts. Reading is done in two ways in the theme by using the written version of the introductory digital story and additional reading texts in reading sections of the instructional material to be used **(V3.2, LS2, LS4)**. Various reading styles including silent reading, speed reading, jigsaw reading and basic reading techniques including skimming, scanning, and reading for details during pre-reading, while-reading and post-reading phases are used in the theme **(V3.4, LS1, CS2.3, CS2.6)**. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop pre-critical thinking skills and critical thinking skills and the ability to comprehend and talk/write about the content in a meaningful and communicative way **(V3.3, V7.2, LS5, CS3.3)**. For the initial stage of reading, the teacher asks the students to look at the audio/visual/written elements (e.g. sound, voices, scenes, title of the text, written words) surrounding the written version of the contextual introductory story or a new text in the reading section of the instructional material to be used for skimming to recall the conceptual meanings they already have about the theme **(CS2.8)**. At this stage, the teacher could ask the students to read the title of the theme and ask the students which words they already know, and which come to mind in connection with the title **(SELS1.1, CS2.16.2)**. She/He reminds them not to ask the meanings of any new words or the words they do not know. She/He reminds them that this is just a guessing activity by using the words they know and that there is time to work on the new words of the new theme later **(D3.2, D3.6, V3.4, CS2.10, CS2.12)**.

ENG6.2.R2.

BRINGING INFORMATION TOGETHER THROUGH READING: Students go on with a scanning activity to find out the most important details of the introductory digital story and/or a new text in the reading section which is organised to help students to know more about the reading content **(CS2.6, CS2.7)**. In this way they could be able to recognise the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story **(CS2.4)**. By doing so, they will be able to understand the story/text in general using the main elements **(D3.2, D3.6, V3.3, V3.4, LS1)**.

ENG6.2.R3.

MAKING MEANING THROUGH READING: Then the teacher asks the students to do a jigsaw reading activity, so she/he shows the written version of the introductory digital story or the text in the reading section on the blackboard/Smart Board (or in any other teaching material). She/He asks the students to work in pairs to share the text **(SELS2.2)**. One peer reads the first half of the text and the second peer reads the other half of the text in a given time **(CS2.6)**. They are then asked to share what they have understood from their part with their peer, also in a given time. In this way, they talk about the whole story after reading it silently, in the jigsaw reading style **(D2.4, D3.6, V3.4, V4.2, V16.2, LS1, LS6, CS2.8, CS2.9)**. Some speed-reading activities can be used to develop students' reading and comprehension skills. These activities can be evaluated as explained in the item (6) in the section 1.2. Principles for the Implementation of the English Curriculum. After sharing their parts, students proceed with the activities for dealing with the target vocabulary, grammatical chunks, and semantic meaning relatively with the help of the teacher **(CS2.14)**. For dealing with the semantic meaning, the teacher facilitates the lesson with meaningful activities including closed, semi-closed, free, open-ended, and communicative ones **(SELS2.1)**. From display to communicative open-ended, various

types of questions are used to understand the meaning of the text **(SELS3.1, SELS3.2, CS2.6)**. During this process students work collaboratively to exchange information, thoughts, and feelings **(D3.2, D3.7, V3.3, V7.2, V20.2, LS2, LS4, CS2.8)**.

ENG6.2.R4.

REFLECTING ON THE READING-COMPREHENSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole reading-comprehension process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(D 2.3, D3.5, V4.2, V6.2, V10.3, V12.1, LS1, LS6)**.

ENG6.2.V1.

PREPARATION TO WORK ON THE TARGET VOCABULARY: At this stage, students remember what the theme is about through the activities that they have done during the background knowledge, pre-listening/ watching, and pre-reading sessions **(SELS1.1)**. As they know the main topic, they get ready to deal with the main components and target vocabulary of the theme **(V3.2, LS1)**.

RECOGNITION OF THE TARGET VOCABULARY: A scanning activity to find out the main details of the introductory digital story (and/or a new text in the reading section) is organised to help students to know more about the content. This could help them identify what the target words in the text could be about. The activity could be designed by listing some important pictures, words or events about the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story. In this way, they will be able to understand the story/text in general by using the main elements and also be ready to work on the target vocabulary items **(D3.2, D3.6, LS1, LS2, LS4, LS5, CS2.4, CS2.6, CS2.7)**. Then the students read the written version of the digital story again silently, (or the reading text in the reading section), to check whether they know any of the target vocabulary items about the theme **(V3.1, V3.2, V4.2, CS2.8)**. They underline the words whose meaning they do not know while reading silently **(CS2.17)**. Students say these words when they finish reading and the teacher writes these words on the Smart Board/blackboard/ white board as they say them. The teacher writes only the target words on the Smart Board/blackboard as active words that the students have said. She/He quickly deals with the non-target passive vocabulary items by using pictures, mimics, gestures, imitations, examples, etc. But she/he takes time to facilitate the teaching of the target words **(D1.2, D1.6, D3.2, V3.3, V3.4, LS2, LS4, CS2.4, CS2.5, CS2.7)**.

To introduce and practise the meanings of the target vocabulary related to the theme, that the students do not know, the teacher asks the students to watch the introductory digital story (or the video of the reading text if there is one) again. From the beginning, whenever a target item is mentioned, the teacher stops the video and asks several questions in the form of two options, one of which is a word from the previous themes that they already know **(V3.1, V3.2, V4.2, CS2.16.1, CS2.6)**. By guessing what they are, the students hear the English equivalents of the words for the theme and they answer as a whole class in chorus. In this way, they are introduced to the meanings of the target words **(D1.2, D1.6, D3.7, CS2.10)**. This is conducted in the form of a dialogue where their learning can be checked as described in items **(SELS2.1)** (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum **(V3.1, V3.2, V3.3, V3.4, V4.2, LS1, LS2, LS4)**. After having watched the introductory digital story, the teacher shows some pictures for the sub-themes, on the walls as clues and says the words aloud several times in sentences by pointing to the pictures and the students repeat after her/him **(D2.3, V3.1, V3.2, CS2.6, CS2.11)**. In this way, the main vocabulary items of the theme are introduced to the students in English (3) in the section 1.2. Principles for the Implementation of the English Curriculum **(V3.1, V3.2, V4.2)**.

SELECTION AND USE OF TARGET VOCABULARY: The teacher can prepare an activity using the Web 2.0 programme with images/pictures, and symbolic images for some categories about the components of the theme “classroom life”. She/He also prepares mixed images/pictures for target vocabulary items for the activities which can be done in relation to the components. She/He asks the students to look at the mixed pile of images/pictures of the main components of the theme on the Smart Board screen and scan them for a while to remember them **(V3.1, V3.2, V4.2 CS2.4)**. She/He explains to the students that the items will be placed under the correct category, but first she/he gives the students the cut-out pictures of the activities and a large sheet of paper with the categories written on it and the cut-out pictures will be placed under each category correctly **(V3.3, L2, LS4, CS2.5)**. The teacher asks them to work in pairs and place the cut-out pictures in the right category and ask each other some questions about the theme **(D3.2, D3.8, SELS2.2, V3.1, V3.2, V4.2)**. When the students have finished working with the cut-out pictures and asking and answering questions about them, the teacher asks them to take turns or volunteer to go to the Smart Board and drag the corresponding images/pictures under the right category on the screen **(SELS1.2, V3.4, V20.4, LS1, LS4, CS2.5)**. In this way, images/pictures that are relevant to the main concept and its components are consolidated through categorisation. This activity can be done with real pictures on the white/blackboard if there is a problem with technology. The teacher asks the students to copy the words next to the pictures they have pasted or drawn in their picture dictionaries and then asks them to exchange their picture dictionaries with their peers and check each other’s spelling **(D3.2, SELS1.2, SELS2.2, V4.2, V4.3, V6.2, LS9)**. To consolidate the meaning, selection, and use of the new target vocabulary items, the teacher could organise activities and tasks using pictures, flashcards, sounds, realia, and any other materials to play games such as Bingo, Pelmanism, King’s game, Odd One out, Wordscapes, Scrabble, Pictionary, Letter Scramble, Acronyms, Charades etc. Games could be adapted according to the teacher’s objectives (pronunciation, spelling, meaning, selection, use etc.), age, interests and language level of the students **(CS2.13)**. Students can be asked to create their own games to use the target vocabulary items in context **(D2.5, D.3.3, SELS3.1, SELS3.2, V3.1, V3.2, V4.2, V4.4, V7.2, LS9, CS2.20)** Students’ learning can be checked as described in items (3), and (4) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.2.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS: To draw the students’ attention to the target language chunks of the theme “classroom life”, the introductory digital story or an extract from it played so that the students can notice the target language chunks **(D3.2, CS2.2)**. While watching the introductory digital story, the teacher stops at the scenes where the target language chunks are used. She/He imitates the action by showing the scene, saying the chunk, and asking the students to do the same **(V3.2, LS2, CS2.14)**. She could hold up large pictures corresponding to the chunks when they are mentioned in the digital story to draw the students’ attention. The sentences with the target chunks are also written and placed on the Smart Board/blackboard/ whiteboard. The teacher also points to these sentences while pointing to the scenes in the story where they appear. There is no analysis or teaching of grammatical structures at this stage. Students can automatically and naturally identify the use of the target language chunks in the current context created in the introductory digital story without working on any rules or structures **(SELS3.1, V3.4, LS1, LS4, CS2.3, CS2.4, CS2.16.2)**. To check the students’ identification of the target language chunks, after the students have finished watching the introductory digital story, the teacher asks them to read the sentences with the target language chunks written by the teacher on the Smart Board /blackboard/whiteboard and asks them to find the same or similar sentences in the written version of the introductory digital story or another text that is shown on the Smart Board **(D3.2, SELS3.2, V3.3)**. She/He also asks them to find the same or similar sentences with these chunks which are given in different types of tables prepared by the teacher **(CS2.7)**. These tables do not include any explanations of grammatical rules, explanations, or formulas, and they only contain example sentences with target chunks in which important words with the target grammar are written in bold or different colours to attract students’ attention. The teacher asks them to look at the words in bold or in different colours and asks students to examine them **(CS2.9)**. Then the teacher asks the students to copy these sentences with target chunks written in bold or different colours into their notebooks. The

teacher asks the students to make very similar sentences using the target words and asks them to share their sentences with each other in pairs, and then with the class **(SELS2.2, SELS3.2, D3.2, V4.2, CS2.13, CS2.14, CS2.16.1, CS2.16.2)**. Both the teacher and the class members give feedback to the students as they say their sentences **(CS2.19)**. The teacher gives all students a checklist with simple symbols to evaluate each other's work as explained in the items (5) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum **(V4.3, V6.2, V10.3, LS6)**.

SELECTION AND USE OF THE TARGET GRAMMAR: To facilitate students' further practice with the target language chunks in the theme, the teacher shows some other sentences with these chunks in another context such as a short story, a short paragraph, and a short dialogue etc. and asks students to find the sentences with the target chunks in them and asks if they understand them **(SELS3.2, V3.1, V3.2, V3.3, V4.2, CS2.4, CS2.6, CS2.8)**. She/He gives some written activities and exercises to practise the target chunks in context. She/He also facilitates more fun activities and as described in items (5), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. To consolidate the target language chunks, the teacher organises different fun activity and game bundles that the students can practise and consolidate them **(CS2.13)** where their learning can be checked as described in item (10) in the section 1.2. Principles for the Implementation of the English Curriculum **(D2.5, V4.4)**.

ENG6.2.W1.

PREPARATION FOR THE WRITING-EXPRESSION SESSION: Practising through writing: Writing activities help students to produce and display meaningful written language for their personal expression and communication with others, by using language including target words, grammatical structures in use and the social language in this theme, as in other themes **(V3.1, V3.2, V4.2)**.

ENG6.2.W2.

RECOGNISING THE MODEL: Initially, students produce very limited and short pieces of writing such as sentences to practise the language including the target vocabulary and grammatical structures, after hearing and seeing them through listening and reading activities in the theme "classroom life". They practise the language in a more controlled way in the beginning, by writing to repeat or simply explain what they hear and see in context and what they are asked to do. They are provided a written model/example to copy to be able to notice significant points and elements in it **(SELS3.1)**. While copying a short model writing, they become aware of the aspects such as the use of words, language chunks, punctuation, spelling and so on **(D3.1, V3.4, LS1, CS2.4, CS2.16.3)**.

ENG6.2.W3.

CREATING THE WRITING CONTENT: Controlled writing of words and sentences turns to short paragraphs in a process writing manner with the support of the teacher's feedback in the theme. This process is expanded and supported by several practical activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(D1.3, D3.1, SELS3.2, V3.4, V4.4, V7.2, LS2, LS4, LS9, CS2.20)**.

ENG6.2.W4.

CONSTRUCTING AND PRACTISING WRITING: Storification and gamification techniques are actively and extensively used for further writing practice tasks. Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs,

projects, scripts for plays, diaries/journals, blogs, very short film scenarios, etc. to express their ideas, thoughts, and feelings **(D2.5, D3.3, SELS3.2, CS2.13)**. All the content is expected to be contextual, practical, authentic, real, and appropriate to the students' interests and language level **(V3.4, V7.2, V12.1, LS1, LS4, LS9)**.

ENG6.2.W5.

RECONSTRUCTING AND COMMUNICATING THROUGH WRITING: Students interact and communicate with peers and/or other people inside or outside school by using the language including the target words, language chunks, and the social language for the theme in their writing **(SELS2.2, SELS2.3, V3.1, V3.2, V3.4, V4.2, LS9, CS2.20)**. AI- based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home in a variety of ways **(D3.3, SELS3.2, SELS3.3, V7.2, LS2, CS2.20)**. These activities are evaluated as described in items (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.2.W6.

REFLECTING ON THE WRITING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole writing-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them **(D1.5, SELS1.3, CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V4.3, V6.2, V10.3, V20.4, LS1, LS6)**.

ENG6.2.S1.

PREPARATION FOR SPEAKING: The teacher facilitates speaking activities throughout the theme from the first lesson to the end. Speaking activities enhance students' learning and help them produce and display meaningful language for personal expression and communication with others by using the language including the target words, grammatical structures in use and the social language expressions of the theme **(V3.1, V3.2, V3.4)**.

ENG6.2.S2

RECOGNISING AND USING THE MODEL: In the beginning, through listening/watching and reading, students recognise how the language with the target language items is used **(CS2.6)**. They practise the language in a controlled way, by telling, repeating, explaining what they hear and see in the context **(D1.3, D3.2, SELS3.1, V3.3, LS1, LS2, LS4, CS2.4)**.

ENG6.2.S3

CONSTRUCTING SPOKEN CONTENT: In the later stages of the lessons after controlled practice sessions, the teacher creates new contexts in the form of new written/photo-picture strip/pantomime/video stories, dialogues etc. as new opportunities for the students to talk about them for practising further through questions, explanations, inferences etc. **(D1.3, SELS3.2, V3.4, V4.2, V7.2, V12.1, LS1, LS4, LS9, CS2.13)**.

ENG6.2.S4.

CONSTRUCTING SPOKEN MATERIALS: Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact with peers and/or other people in or outside the school by using the language including the target words, language

grammar in use, and the social language for the theme **(SELS2.2, SELS3.2, V3.1, V3.2, V4.2, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings **(D1.2, D1.6, D3.3, V7.2, LS2, LS9, CS2.20)**.

ENG6.2.S5.

RECONSTRUCTING AND COMMUNICATING THROUGH SPEAKING: Students communicate with each other by seeing/hearing/reading/using the language including the target words and grammatical structures related to the theme “classroom life” in fun, enjoyable, varied, and versatile activities **(SELS2.3, CS2.20)**. Picture strip stories can be used at the end of each theme to provide a consolidation and revision **(V3.4, V4.2, V12.1, LS1, LS4, LS9, CS2.13, CS2.14)**. These new contents created are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. Storification and gamification techniques are actively and extensively used together with other further speaking practice throughout the theme. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact and to communicate with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme and its components such as “daily and study routines; learning activities in the classroom; cardinal numbers 100-500; ordinal numbers 1-50” **(V3.1, V3.2, V3.4, V4.2, LS4, CS3.1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings **(D2.5, D3.3, SELS3.3, V7.2, LS2, CS2.20)**. These are evaluated as described in items (7), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. Then they can expand their language use and practise by communicating with others.

ENG6.2.S6.

REFLECTING ON THE SPEAKING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole speaking-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them **(SELS1.3, CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V4.3, V6.2, V10.3, V20.4, LS1, LS6)**.

DIFFERENTIATION

Expansion

Objective: To practise actions happening at present in English by creating a short, imaginative story based on a given scenario.

Activity 1: Scene Creators

The teacher divides the class into pairs or small groups of 3-4 students and gives each group a set of “What’s Happening Right Now?” scenario cards (e.g., “You are at a circus”, “You are in a shopping centre”, “You are at a birthday party”). Each group chooses a scenario card and discusses the actions happening in that scene. Each group works together to list the actions happening in their scenario in a specific and imaginative way (e.g., “People are swimming”, “A dog is barking”, “The sun is shining”). Once they have their list, they combine the actions into a cohesive short story, creating a narrative that describes what’s happening in the scene in real-time. The teacher encourages students to think about the setting, the characters involved, and how they can create a detailed and engaging story using the target grammar. For example: “At the beach, people are playing volleyball. Some children are building sandcastles, and a man is selling ice cream. A family is sitting on a blanket and having a picnic”. Students share their stories with the rest of the class, reading them aloud or presenting them as a group. After each group shares their story, the teacher provides feedback on

language use and focuses on how well students have applied the target grammar and any common errors. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practise actions happening at present in English by creating a short, imaginative dialogue between two friends based on a given scenario.

Activity 1: Scene Creators

The teacher divides the class into pairs or small groups of 3–4 students and gives each group a set of “What’s Happening Right Now?” scenario cards (e.g., “You are at a circus”, “You are in a shopping centre”, “You are at a birthday party”). Each group chooses a scenario card and discusses the actions happening in that scene. Each group works together to create a dialogue between two characters in the scene (e.g., two friends at the zoo). Students read their dialogue aloud to the rest of the class. After each group shares their dialogue, the teacher provides feedback on language use and focuses on how well students have applied the target grammar and any common errors. Students reflect on their thoughts and feelings about the activity.

THEME 3: PERSONAL LIFE

Sub-themes: Body parts, physical appearance and clothes; personality and character

This theme is centred on the concept of “personal life” and covers the sub-themes of “body parts, physical appearance and clothes; personality and character”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

Year 6 is structured based on semi-holistic/semi-inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.6.3.L1. Students can get ready for the listening/watching-comprehension process for the current content on “personal life with body parts, physical appearance and clothes; personality and character” carefully.

- a) *Students activate their pre-existing knowledge and experience related to the current theme and content by recalling their background knowledge imaginatively in her/his own language without speaking it.*
- b) *Students identify significant relationships between their pre-existing knowledge and experiences and the clues to the current content without translation.*
- c) *Students make predictions about the current content on “personal life” by using the relationships that they recognised accurately by looking at the provided realia, pictures, and context.*
- d) *Students make predictions about the current content based on the surrounding audio/visual elements in relation to the current theme.*

ENG.6.3.L2. Students can bring information about the current content on “personal life with body parts, physical appearance and clothes; personality and character” together through significant details and main components while listening/watching it.

- a) *Students comprehend the topic of the current content by listening(to)/watching it as a whole.*
- b) *Students recognise the significant details and components within the whole current content by listening(to) and watching it again in a careful manner.*

ENG.6.3.L3. Students can make meaning of/derive meaning from the current content on “personal life with body parts, physical appearance and clothes; personality and character” through significant details by listening/watching it carefully.

- a) *Students check any initial predictions related to the current content by being aware of the commonalities between self-predictions and clues provided as visuals surrounding the current content.*
- b) *Students make important and necessary classifications in the current content that help them to understand it better with details.*
- c) *Students make important and necessary comparisons in the current content that help them to understand it better with details.*
- d) *Students recognise significant horizontal/vertical/spiral relationships (if any) within the generally perceived current content with the help of classifications and comparisons made earlier.*
- e) *Students make significant inferences that contribute to the understanding of the meaning of the generally perceived current content.*
- f) *Students construct the meaning of the current content in detail through the classifications/comparisons/inferences made earlier in relation to it.*
- g) *Students internalise the current content in an individualised and appropriate way according to age and language level.*

ENG.6.3.L4. Students can convey their knowledge, experience, thoughts, and feelings examined carefully about the whole listening/watching-comprehension process in relation to the current content on “personal life with body parts, physical appearance and clothes; personality and character”.

- a) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content.*

- b) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content by sharing them with others.*

ENG.6.3.P1. Students can select and use the target phonological elements of the current content about “personal life with body parts, physical appearance and clothes; personality and character” accurately, authentically, and naturally through spontaneous decision-making processes and use it in an appropriate and effective way when communicating with others.

- a) *Students listen to the current content by paying attention to the target phonological aspects including pronunciation and intonation of utterances.*
- b) *Students reinforce the target phonological elements by repeating them after the source several times as a whole class, in groups and individually.*
- c) *Students recognise the target phonological elements of the current content when they are heard in different contexts.*
- d) *Students recognise target phonological elements specific to the current content when they are heard in different contexts and use them accurately, authentically, and naturally through spontaneous decision-making processes.*
- e) *Students use the target theme-specific phonological elements of the current content appropriately, spontaneously and effectively when communicating with others.*

ENG.6.3.R1. Students can get ready for the reading-comprehension process about the current content on “personal life with body parts, physical appearance and clothes; personality and character”.

- a) *Students activate their pre-existing knowledge and past experiences related to the current theme and content efficiently.*
- b) *Students recognise significant relationships between their pre-existing knowledge, past experiences and clues to the current content.*
- c) *Students make significant preliminary predictions about the current content based on recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring the audio-visual clues surrounding it.*

ENG.6.3.R2. Students can bring information about the current content on “personal life with body parts, physical appearance and clothes; personality and character” through skimming (looking quickly at) the audio-visual elements and reading the content very quickly.

- a) *Students review the current content by looking at the surrounding audio/visual materials to identify what it is about in general through skimming.*
- b) *Students read the current content to scan the major components silently and quickly with the help of the clues provided.*
- c) *Students carefully read the current content silently and carefully to find significant details and components belonging to the theme.*

ENG.6.3.R3. Students can make meaning of / derive meaning from the current content about “personal life with body parts, physical appearance and clothes; personality and character” by reading it carefully.

- a) *Students carefully check the current content in detail for the accuracy of initial and detailed predictions that are made earlier.*
- b) *Students classify the significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- c) *Students compare significant elements of the current content that contribute to the perception of the content in a meaningful way.*

- d) *Students recognise significant horizontal/vertical/spiral relationships within the current content that contribute to the perception of the content in a meaningful way.*
- e) *Students make meaningful inferences from the information in the current content by examining it carefully.*
- f) *Students internalise the information in the current content in an individualised and appropriate way according to age and language level.*

ENG.6.3.R4. Students can convey their knowledge, experiences, thoughts, and feelings related to the reading-comprehension process about the current content, “personal life with body parts, physical appearance and clothes; personality and character” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process.*
- b) *Students convey the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process by sharing them with others.*
- c) *Students produce new products related to the current reading-comprehension content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.3.V1. Students can select and use the target vocabulary of the current content about “personal life with body parts, physical appearance and clothes; personality and character” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students guess the main topic of the current content from the audio/visual/written elements (e.g. sound, voices, scenes, written words) in the contextual material by listening (to)/watching/reading it several times for recognition.*
- b) *Students recognise sub-themes/key components of the target words to which they belong in the current content by scanning.*
- c) *Students recognise the target words related to the main components of the current content with the help of the audio/visual/written elements and other clues.*
- d) *Students repeat aloud the relevant target key components and target vocabulary in the current content with the whole class, in groups, and then individually together with or after listening (to)/watching/reading the source material.*
- e) *Students recognise the use of target words and expressions in the current content by making various guesses with the help of supplementary elements.*
- f) *Students make context-appropriate selections automatically by associating target words with their pre-existing conceptual meanings in the mind without analysing their contextual meaning in detail.*
- g) *Students use the target words spontaneously and appropriately in different communicative contexts by being aware of their differences when communicating with others.*

ENG.6.3.G1. Students can select and use the target grammatical elements of the current content about “personal life with body parts, physical appearance and clothes; personality and character” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students become familiar with the current content by listening (to)/watching/reading it a few times attentively.*
- b) *Students listen (to)/watch/read the same content, attentively and mindfully, including the use of target grammatical chunks presented verbally in context with the help of body language.*

- c) *Students verbally and automatically repeat simple and meaningful clauses/sentences containing target grammatical chunks that they have noticed in the current content that they have heard/viewed/read without explicit knowledge of the rules.*
- d) *Students act out physically the clauses/sentences containing the target grammatical chunks in the current content heard/viewed/read by repeating them several times without knowing, analysing, and thinking about their rules.*
- e) *Students see and read the example sentences containing target grammatical chunks provided for language awareness carefully.*
- f) *Students gain awareness of clauses/sentences that contain target grammatical chunks that are presented for the purpose of raising language awareness.*
- g) *Students recognise the clauses/sentences containing the target grammatical chunks when they encounter them by seeing and/or hearing them in different contexts.*
- h) *Students use the recognised target grammatical chunks naturally, authentically, and automatically in new contextual tasks and activities without analysing their rules.*
- i) *Students produce new and meaningful verbal/written content about the current theme by using the target grammatical chunks in meaningful tasks without knowing and analysing their rules.*
- j) *Students use the target language chunks authentically, automatically, and naturally in communication processes without analysing their rules in meaningful contexts.*

ENG.6.3.W1. Students can get ready for the writing-expression process about the current content on “personal life with body parts, physical appearance and clothes; personality and character”.

- a) *Students relate their pre-existing knowledge and experience used in the initial processes of writing-expression skills to the current content by activating them in relation with the current content.*
- b) *Students understand what the writing task and its content are in relation to the current content correctly by making use of their pre-existing knowledge and experience as guided and assigned.*

ENG.6.3.W2. Students can understand the model/example for the writing task about the current content on “personal life with body parts, physical appearance and clothes; personality and character”.

- a) *Students understand the components and details of the content in the provided model/sample which is displayed as a guide, by examining it carefully.*

ENG.6.3.W3. Students can organise a content for the assigned writing task on the current content “personal life with body parts, physical appearance and clothes; personality and character” based on the model/example provided.

- a) *Students conduct preliminary research for a prepared writing situation according to the current content appropriate to the assigned writing type, age, and language level.*
- b) *Students develop a simple draft for a prepared/or unprepared writing task about the current content appropriate to the assigned writing type, age, and language level.*
- c) *Students organise and/or produce materials relevant to the content for a prepared/unprepared writing task, appropriate to the assigned writing type, age, and language level.*

ENG.6.3.W4. Students can individually construct/form content for the assigned writing task on the current content “personal life with body parts, physical appearance and clothes; personality and character”.

- a) *Students present appropriate and accurate materials for a prepared and/or unprepared writing task about the current theme according to the assigned writing type, age, and language level.*

- b) *Students use appropriate discourse forms, styles, and rules relevant to the assigned writing type for a prepared and/or unprepared writing task.*
- c) *Students use target words and grammatical language chunks accurately and appropriately for a prepared and/or unprepared writing task about the current content by selecting them according to the assigned writing type, age, and language level.*
- d) *Students express important messages in the written current content to the reader accurately and appropriately for a prepared and/or unprepared writing task.*

ENG.6.3.W5. Students can reorganise (reconstruct) and use information in the new written tasks about the “personal life with body parts, physical appearance and clothes; personality and character” to communicate with other people.

- a) *Students use the information in the current content or similar information in a different content by internalising and selecting it individually and reorganising it as required and meaningfully in different contexts.*
- b) *Students exchange information/ideas in written communication by sharing reconstructed meaningful knowledge meaningfully with others.*

ENG.6.3.W6. Students can reflect on their knowledge, experiences, thoughts, and feelings related to the writing-expression process about the current content, “personal life with body parts, physical appearance and clothes; personality and character” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings reviewed in relation to the current writing-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings reviewed in relation to the writing-expression process about the current content with others.*
- c) *Students produce new written products related to the current writing-expression content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.3.S1. Students can get ready for speaking-expression process about the current content on “personal life with body parts, physical appearance and clothes; personality and character”.

- a) *Students make connections with the current content by activating their pre-existing knowledge and experiences that they have recalled in the listening (to)/watching/reading sections previously.*

ENG.6.3.S2. Students can use the model/example for producing verbal content about the current content on “personal life with body parts, physical appearance and clothes; personality and character”.

- a) *Students listen (to)/watch/read the model/example for the current content with the help of audio/visual/written elements.*

ENG.6.3.S3. Students can organise a new verbal content on “personal life with body parts, physical appearance and clothes; personality and character” by speaking accurately, efficiently, and authentically.

- a) *Students recognise what form and type of content is expected and assigned for prepared/unprepared speaking situations based on audio/visual/written content as provided in the model/example.*
- b) *Students organise the content for prepared/unprepared speaking situations in an appropriate and accurate way as they have heard/seen/read in the model/example.*
- c) *Students develop a draft for prepared/unprepared speaking situations, appropriate to the age and language level as presented in the model/sample content.*
- d) *Students organise supplementary audio/visual/written materials for prepared/or unprepared speaking situations, appropriate to age and language level, as provided in the model/sample content.*

- e) *Students organise the information about the current content to be presented for prepared/or unprepared speaking situations in an appropriate way as required.*

ENG.6.3.S4. Students can construct a new verbal content on “personal life with body parts, physical appearance and clothes; personality and character” by speaking accurately, efficiently, and authentically.

- a) *Students use target pronunciation, vocabulary, language chunks, and forms of discourse related to the current content effectively by selecting them accurately and appropriately for prepared/unprepared speaking situations.*
- b) *Students present individually prepared content in an accurate and efficient way as presented in the model/example for prepared speaking situations clearly, efficiently, and appropriately.*
- c) *Students present individually prepared information in an accurate and efficient way as presented in the model/example for unprepared speaking situations.*
- d) *Students express the message about the current content clearly to the reader by using all supplementary elements and body language in an appropriate and accurate way in context for prepared and/or unprepared speaking situations.*

ENG.6.3.S5. Students can reorganise (reconstruct) and use information about the “personal life with body parts, physical appearance and clothes; personality and character” to communicate with other people.

- a) *Students use the information presented in the current content by reorganising it appropriately, efficiently, individually, and verbally in different contexts.*
- b) *Students engage in appropriate and efficient verbal communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.6.3.S6. Students can convey their knowledge, experiences, thoughts, and feelings related to the speaking-expression process about the current content, “personal life with body parts, physical appearance and clothes; personality and character” to communicate with other people in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings examined carefully in relation to the current speaking-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings examined carefully in relation to the speaking-expression process about the current content with others.*

CONTENT FRAME

PERSONAL LIFE

Sub-themes: body parts, physical appearance and clothes; personality and character

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for body parts, physical appearance and clothes

Nouns: Image, look, back, a leg, a heart, stomach, an ankle, skin, a swimsuit, tights, trainers, a necklace, a kit, a pocket, jewellery, a wallet, a bracelet, a purse, a chain, a knee.

Verbs: To seem.

Adjectives: Attractive, lovely, physical.

Adverbs: Simply.

Vocabulary for clothes Personality and character: Character, personality, sense.

Verbs: to look.

Adjectives: Brilliant, clever, crazy, lazy, rude, social, weak, polite, caring, patient, serious, independent, organised, lazy, helpful, focused, simple, tidy.

Adverbs: Happily, sadly.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Have/Has got: (She has got a lovely necklace. I have got a new swimsuit for the summer).

-Wh questions (whose): (Whose wallet is this?)

-Comparative and superlative adjectives (regular and irregular): (She is taller than her sister. She is the tallest person in the room).

Functions of the Grammatical Structures in Use:

-Use of have/has got: Expressing possession.

-Use of wh- questions (whose): Requesting information about property, belongings, or association.

-Use of comparative and superlative adjectives (regular and irregular): Comparing two things or people and comparing three or more things or people.

Target Social Language in Use:

OK smarty pants, stop showing off!

You're full of beans this morning!

Don't panic, just keep your cool!

Target Phonological Sounds in Use:

Intonation of questions and question tags

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme "personal life" and its components such as "body parts, physical appearance and clothes; personality and character" is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what "personal life" and its components such as "body

parts, physical appearance and clothes; personality and character” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

body parts, physical appearance, clothes; personality, character

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will create a personal profile poster to introduce themselves in a creative way. They will include a drawing or a photo of themselves and label body parts, such as arms, legs, hands, and feet. They will describe their physical appearance using adjectives like tall, short, curly, or straight and list their favourite clothes, explaining when they wear them. They will also write a few sentences about their personality and character traits, such as being friendly, shy, or energetic. They can choose to write about their best friends if they like. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “personal life” and its components such as “body parts, physical appearance and clothes; personality and character”. As they are lower secondary school students in year 6 (six), they can know what “personal life” and its components such as “body parts, physical appearance and clothes; personality and character” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 6 of lower secondary school, they can know some basic vocabulary about “personal life” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “personal life” and its components such as “body parts, physical appearance and clothes; personality and character”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “personal life”. Therefore, a dialogue game can be played to revise all vocabulary and language chunks from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students can recall the current (theme) concept of “personal life” and its components such as “body parts, physical appearance and clothes; personality and character” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the current theme in English without translating anything until they start learning the target words in the current (new) concept in English.

To remind them of the pre-existing background knowledge they already have about the current concept, various materials such as short scene from a film, series, a part from a story, a poster etc. which is appropriate to the age, level, and pedagogy could be used before the main teaching/learning flow of the class begins. They would give a general idea of the theme. Students are facilitated with the relevant materials through various activities. When they have finished working on it, the teacher asks them in English if they understood what it was about. For checking their understanding, she can design several activities. For instance, they can write a related word that they know in English on a piece of paper and put it in the jar/box that she/he has prepared. Alternative ways can be tried.

The teacher asks them to wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “personal life” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being. This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote/a very short story, watching a pantomime/cartoon story, etc. that has no relation or connection to the current theme and does not require any knowledge of English **(D2.5, SELS2.1, V12.1, LS2, LS4)**.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills (listening/watching-comprehension, reading-comprehension, speaking-expression, writing-expression, vocabulary selection and use, grammar selection and use, pronunciation selection and use) are used in an integrated way around “personal life” and sub-themes “body parts, physical appearance and clothes; personality and character”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG6.3.L1.

PREPARING FOR LISTENING/WATCHING-COMPREHENSION: Having seen a visual about and having guessed the topic of “personal life” during the background recall session, students can have a vision of the current theme as a general concept in the current (new) theme **(D3.2, SELS1.1, V3.2, V10.1, V14.2, V15.2, V16.1, LS1, LS4, CS2.11, CS2.16.2)**. So, a further concept check with listening/watching for gist activities including more guessing games using clues from some pictures, realia, short video clips etc. help them prepare for the current theme **(CS2.6, CS2.8)**. For each theme, a digitally constructed story is used as the main context of the theme, and it is visited several times while going through the theme to cover target pronunciation, vocabulary, grammar, social language expressions, and semantic meaning of the whole theme **(CS2.14)**. It is both an entry material and the main context to the whole theme at the same time. The teacher asks them whether their guesses during the background recall session were correct and also what they think the introductory digital story that they are going to watch could be about **(CS2.8)**. As they have already seen a scene from a film about the theme and the pictures, realia, etc. they can easily answer what the

current theme will be about and that their guesses were true **(D1.2, D1.6, D2.3, D3.2, SELS1.2, V3.3, V3.4, V10.1, V14.2, V15.2, V16.1, LS2, LS4, CS2.10, CS2.17)**.

ENG6.3.L2.

BRINGING INFORMATION TOGETHER THROUGH LISTENING/WATCHING: The teacher asks the students to watch the introductory digital story carefully, recalling the work done with visuals (the scene from a film, pictures, realia, or video clips about the theme shown earlier) **(CS2.11)**. Students watch the introductory digital story to consolidate the identification of the “personal life” in it as a whole **(CS2.13)** without stopping the video at any point, so that the students can understand the theme holistically **(D3.2, SELS1.1, V3.3, V3.4, V10.1, V14.2, V15.2, V16.1, LS2, LS4, CS2.14, CS2.16.2)**.

ENG6.3.L3.

MAKING MEANING THROUGH LISTENING/WATCHING-COMPREHENSION: To draw students’ attention to the content, some realia brought into the classroom by the teacher could be used **(V10.1, V14.2, V15.2, V16.1)**. The teacher could show the corresponding objects to the students when the corresponding vocabulary for the main components of the theme “personal life” is mentioned in the introductory digital story, without stopping the video while the students watch the story **(CS2.6)**. When they have watched the whole story, the teacher could show the realia items on the table and ask questions with two options **(CS2.5)**. As one of the words is from the previous themes, students could hear, understand, recognise and learn the (new) target vocabulary for each main component of the theme easily **(CS2.1)**. In this way, the teacher could engage in a dialogue with the whole class to check that they have recognised the components of the theme, and that they have understood each realia item is about one component **(CS2.8)**. Further activities and games can be played at this stage to reinforce the general meaning of the theme through its main components **(D1.1, D2.5, SELS2.1, V3.4, LS1, LS2, LS4)**.

To check whether the students understand the general topic of the theme “personal life” and remember the sequence of the scenes of the introductory digital story, the teacher shows an organiser with the mixed images/pictures of the scenes on the Smart Board and asks the students to look at the images/pictures of the scenes for a while **(CS2.3)**. She/He then asks them to order the scenes in pairs in their seats with the mixed paper pictures she/he has already given to the students **(SELS2.2, V3.4, V4.2, LS1, LS4, LS6)**. When the pairs have finished sorting the pictures for the scenes of the story, the teacher asks the students to take turns or volunteer to sort the scenes on the screen of the Smart Board (or the pictures on the blackboard) **(SELS1.2, CS2.6, CS2.10)**. This will help the students to organise the story as a whole so that they can identify the main theme and the components of the theme from their memories **(D1.2, D1.6, D2.3, V16.3, V20.4, CS2.12)**.

ENG6.3.L4.

REFLECTING ON THE LISTENING/ WATCHING PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole listening-watching process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3, V3.4)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS1.2, SELS2.2, V4.2, V4.3, V12.1, LS5, LS6)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V10.3)**.

ENG6.3.P1.

RECOGNITION OF TARGET PRONUNCIATION: To practise pronunciation of the new target words, word groups, language chunks, and social language expressions about the theme “personal life” and the words and/or word groups for the sub-themes “body parts, physical appearance and clothes; personality and character”, the teacher asks the students to listen (to)/watch the whole or some extracts from the introductory digital story by noticing how words are pronounced **(V3.3, V10.1, V14.2, V15.2, V16.1 LS4, CS2.6)**. She/He asks them to repeat the word aloud when she/he stops the video for a word and says it. The teacher then asks the students to listen and repeat the same words aloud a few times as a whole class after listening to the recordings that she/he has prepared beforehand using some Web 2.0 programmes **(LS2, CS2.16.3)**. The teacher could offer variations with some techniques such as showing the picture of the target word to the students to say the word or pointing to the corresponding picture when they hear the word from the recording, and then both **(CS2.8)**. To help the students pronounce the words accurately, the teacher asks them to repeat each target word aloud a few times as a whole class after her/him or the recording, then in large groups, then in small groups and then again as volunteers **(D3.2, D3.6, SELS1.2, SELS2.1, V4.2, V20.4, LS1, CS2.14)**.

SELECTION AND USE OF TARGET PRONUNCIATION: Practice of pronunciation could be done with different forms of TPR, gamification and drama activities, e.g. first the teacher says the target words/word groups for the sub-themes “body parts, physical appearance and clothes; personality and character”, the students listen **(CS2.9)**; then the teacher says the target words/word groups and acts them out, the students repeat after her/him **(SELS2.1, CS2.14)**. Then the teacher and the students say the target words/word groups and act them out together at the same time. Then the teacher says the words/word groups and acts them out. These activities can be done through the actions for the sub-themes **(D2.3, D2.5, V3.3, V10.1, V14.2, V15.2, V16.1)**. As a variation, they can also repeat the words after the teacher happily, sadly, angrily, etc. using different tones of voice **(SELS2.3, CS2.8, CS2.11)**. They also practise for the target social language chunks using the same or similar techniques. During the repetitions, they point to relevant pictures that the teacher has placed in different places in the classroom **(CS2.12)**. Some action sequences are also created in which the students can practise the social language in a fun way by repeating, pointing, miming, and acting out in several games **(SELS2.1, V7.2, LS5, LS6, LS9)**. The teacher facilitates some activities with dialogues and games in which students can practice the target pronunciation by selecting and using them accurately, naturally, and authentically **(CS3.1)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound drills **(SELS2.2)**. The target sounds such as vowels, consonants, and diphthongs of the theme are practised through them **(CS2.13)**. Their learning is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. **(D1.2, D1.6, D2.5, V3.4, LS1, LS2, LS4)**.

ENG6.3.R1

PREPARATION FOR THE READING-COMPREHENSION PROCESS: The teacher facilitates reading and writing activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts. Reading is done in two ways in the theme by using the written version of the introductory digital story and additional reading texts in reading sections of the instructional material to be used **(V3.2, LS2, LS4)**. Various reading styles including silent reading, speed reading, jigsaw reading and basic reading techniques including skimming, scanning, and reading for details during pre-reading, while-reading and post-reading phases are used in the theme **(V3.4, LS1, CS2.3, CS2.6)**. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop pre-critical thinking skills and critical thinking skills and the ability to comprehend and talk/write about the content in a meaningful and communicative way **(V3.3, V7.2, LS5, CS3.3)**. For the initial stage of reading, the teacher asks the students to look at the audio/visual/written elements (e.g. sound, voices, scenes, title of the text, written words) surrounding the written version of the contextual introductory story or a new text in the reading section of

the instructional material to be used for skimming to recall the conceptual meanings they already have about the theme **(CS2.8)**. At this stage, the teacher could ask the students to read the title of the theme and ask the students which words they already know, and which come to mind in connection with the title **(SELS1.1, CS2.16.2)**. She/He reminds them not to ask the meanings of any new words or the words they do not know. She/He reminds them that this is just a guessing activity by using the words they know and that there is time to work on the new words of the new theme later **(D3.2, D3.6, V3.4, CS2.10, CS2.12)**.

ENG6.3.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students go on with a scanning activity to find out the most important details of the introductory digital story and/or a new text in the reading section which is organised to help students to know more about the reading content **(CS2.6, CS2.7)**. In this way they could be able to recognise the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story **(CS2.4)**. By doing so, they will be able to understand the story/text in general using the main elements **(D3.2, D3.6, V3.3, V3.4, LS1)**.

ENG6.3.R3.

MAKING MEANING THROUGH READING: Then the teacher asks the students to do a jigsaw reading activity, so she/he shows the written version of the introductory digital story or the text in the reading section on the blackboard/Smart Board (or in any other teaching material). She/He asks the students to work in pairs to share the text **(SELS2.2)**. One peer reads the first half of the text and the second peer reads the other half of the text in a given time **(CS2.6)**. They are then asked to share what they have understood from their part with their peer, also in a given time. In this way, they talk about the whole story after reading it silently, in the jigsaw reading style **(D2.4, D3.6, V3.4, V4.2, V16.2, LS1, LS6, CS2.8, CS2.9)**. Some speed-reading activities can be used to develop students' reading and comprehension skills. These activities can be evaluated as explained in the item (6) in the section 1.2. Principles for the Implementation of the English Curriculum. After sharing their parts, students proceed with the activities for dealing with the target vocabulary, grammatical chunks, and semantic meaning relatively with the help of the teacher **(CS2.14)**. For dealing with the semantic meaning, the teacher facilitates the lesson with meaningful activities including closed, semi-closed, free, open-ended, and communicative ones **(SELS2.1)**. From display to communicative open-ended, various types of questions are used to understand the meaning of the text **(SELS3.1, SELS3.2, CS2.6)**. During this process students work collaboratively to exchange information, thoughts, and feelings **(D3.2, D3.7, V3.3, V7.2, V20.2, LS2, LS4, CS2.8)**.

ENG6.3.R4.

REFLECTING ON THE READING-COMPREHENSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole reading-comprehension process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(D2.3, D3.5, V4.2, V6.2, V10.3, V12.1, LS1, LS6)**.

ENG6.3.V1.

PREPARATION TO WORK ON THE TARGET VOCABULARY: At this stage, students remember what the theme is about through the activities that they have done during the background knowledge, pre-listening/watching, and pre-reading sessions **(SELS1.1)**. As they know the main topic, they get ready to deal with the main components and target vocabulary of the theme **(V3.2, LS1)**.

RECOGNITION OF THE TARGET VOCABULARY: A scanning activity to find out the main details of the introductory digital story (and/or a new text in the reading section) is organised to help students to know more about the content. This could help them identify what the target words in the text could be about. The activity could be designed by listing some important pictures, words or events about the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story. In this way, they will be able to understand the story/text in general by using the main elements and also be ready to work on the target vocabulary items **(D3.2, D3.6, LS1, LS2, LS4, LS5, CS2.4, CS2.6, CS2.7)**. Then the students read the written version of the digital story again silently, (or the reading text in the reading section), to check whether they know any of the target vocabulary items about the theme **(V10.1, V14.2, V15.2, V16.1, CS2.8)**. They underline the words whose meaning they do not know while reading silently **(CS2.17)**. Students say these words when they finish reading and the teacher writes these words on the Smart Board/blackboard/ white board as they say them. The teacher writes only the target words on the Smart Board/blackboard as active words that the students have said. She/He quickly deals with the non-target passive vocabulary items by using pictures, mimics, gestures, imitations, examples, etc. But she/he takes time to facilitate the teaching of the target words **(D1.2, D1.6, D3.2, V3.3, V3.4, LS2, LS4, CS2.4, CS2.5, CS2.7)**.

To introduce and practise the meanings of the target vocabulary related to the theme, that the students do not know, the teacher asks the students to watch the introductory digital story (or the video of the reading text if there is one) again. From the beginning, whenever a target item is mentioned, the teacher stops the video and asks several questions in the form of two options, one of which is a word from the previous themes that they already know **(V10.1, V14.2, V15.2, V16.1, CS2.16.1, CS2.6)**. By guessing what they are, the students hear the English equivalents of the words for the theme and they answer as a whole class in chorus. In this way, they are introduced to the meanings of the target words **(D1.2, D1.6, D3.7, CS2.10)**. This is conducted in the form of a dialogue where their learning can be checked as described in items **(SELS2.1)** (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. **(V3.3, V3.4, V10.1, V14.2, V15.2, V16.1, LS1, LS2, LS4)**. After having watched the introductory digital story, the teacher shows some pictures for the sub-themes, on the walls as clues and says the words aloud several times in sentences by pointing to the pictures and the students repeat after her/him **(D2.3, V10.1, V14.2, V15.2, V16.1, CS2.6, CS2.11)**. In this way, the main vocabulary items of the theme are introduced to the students in English as described in item (3) in the section 1.2. Principles for the Implementation of the English Curriculum **(V10.1, V14.2, V15.2, V16.1)**.

SELECTION AND USE OF TARGET VOCABULARY: The teacher can prepare an activity using the Web 2.0 programme with images/pictures, and symbolic images for some categories about the components of the theme “personal life”. She/He also prepares mixed images/pictures for target vocabulary items for the activities which can be done in relation to the components. She/He asks the students to look at the mixed pile of images/pictures of the main components of the theme on the Smart Board screen and scan them for a while to remember them **(V10.1, V14.2, V15.2, V16.1, CS2.4)**. She/He explains to the students that the items will be placed under the correct category, but first she/he gives the students the cut-out pictures of the activities and a large sheet of paper with the categories written on it and the cut-out pictures will be placed under each category correctly **(V3.3, L2, LS4, CS2.5)**. The teacher asks them to work in pairs and place the cut-out pictures in the right category and ask each other some questions about the theme **(D3.2, D3.8, SELS2.2, V10.1, V14.2, V15.2, V16.1)**. When the students have finished working with the cut-out pictures and asking and answering questions about them, the teacher asks them to take turns or volunteer to go to the Smart Board and drag the corresponding images/pictures under the right category on the screen **(SELS1.2, V3.4, V20.4, LS1, LS4, CS2.5)**. In this way, images/pictures that are relevant to the main concept and its components are consolidated through categorisation. This activity can be done with real pictures on the white/blackboard if there is a problem with technology. The teacher asks the students to copy the words next to the pictures they have pasted or drawn in their picture dictionaries and then asks them to exchange their picture dictionaries with their peers and check each other’s spelling **(D3.2, SELS1.2, SELS2.2, V4.2, V4.3, V6.2, LS9)**. To consolidate the meaning, selection, and use of the new target vocabulary items, the teacher could organise activities and tasks using pictures, flashcards, sounds, realia, and any other materials

to play games such as Bingo, Pelmanism, King's game, Odd One out, Wordscapes, Scrabble, Pictionary, Letter Scramble, Acronyms, Charades etc. Games could be adapted according to the teacher's objectives (pronunciation, spelling, meaning, selection, use etc.), age, interests and language level of the students **(CS2.13)**. Students can be asked to create their own games to use the target vocabulary items in context **(D2.5, D3.3, SELS3.1, SELS3.2, V4.2, V4.4, V7.2, V10.1, V14.2, V15.2, V16.1, LS9, CS2.20)**. Students' learning can be checked as described in items (3), and (4) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.3.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS: To draw the students' attention to the target language chunks of the theme "personal life", the introductory digital story or an extract from it played so that the students can notice the target language chunks **(D3.2, CS2.2)**. While watching the introductory digital story, the teacher stops at the scenes where the target language chunks are used. She/He imitates the action by showing the scene, saying the chunk, and asking the students to do the same **(V3.2, LS2, CS2.14)**. She could hold up large pictures corresponding to the chunks when they are mentioned in the digital story to draw the students' attention. The sentences with the target chunks are also written and placed on the Smart Board/blackboard/whiteboard. The teacher also points to these sentences while pointing to the scenes in the story where they appear. There is no analysis or teaching of grammatical structures at this stage. Students can automatically and naturally identify the use of the target language chunks in the current context created in the introductory digital story without working on any rules or structures **(SELS3.1, V3.4, LS1, LS4, CS2.3, CS2.4, CS2.16.2)**. To check the students' identification of the target language chunks, after the students have finished watching the introductory digital story, the teacher asks them to read the sentences with the target language chunks written by the teacher on the Smart Board /blackboard/whiteboard and asks them to find the same or similar sentences in the written version of the introductory digital story or another text that is shown on the Smart Board **(D3.2, SELS3.2, V3.3)**. She/He also asks them to find the same or similar sentences with these chunks which are given in different types of tables prepared by the teacher **(CS2.7)**. These tables do not include any explanations of grammatical rules, explanations, or formulas, and they only contain example sentences with target chunks in which important words with the target grammar are written in bold or different colours to attract students' attention. The teacher asks them to look at the words in bold or in different colours and asks students to examine them **(CS2.9)**. Then the teacher asks the students to copy these sentences with target chunks written in bold or different colours into their notebooks. The teacher asks the students to make very similar sentences using the target words and asks them to share their sentences with each other in pairs, and then with the class **(SELS2.2, SELS3.2, D3.2, V4.2, CS2.13, CS2.14, CS2.16.1, CS2.16.2)**. Both the teacher and the class members give feedback to the students as they say their sentences **(CS2.19)**. The teacher gives all students a checklist with simple symbols to evaluate each other's work as explained in the items (5) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum **(V4.3, V6.2, V10.3, LS6)**.

SELECTION AND USE OF THE TARGET GRAMMAR: To facilitate students' further practice with the target language chunks in the theme "personal life", the teacher shows some other sentences with these chunks in another context such as a short story, a short paragraph, and a short dialogue etc. and asks students to find the sentences with the target chunks in them and asks if they understand them **(SELS3.2, V3.3, V10.1, V14.2, V15.2, V16.1, CS2.4, CS2.6, CS2.8)**. She/He gives some written activities and exercises to practise the target chunks in context. She/He also facilitates more fun activities and as described in items (5), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. To consolidate the target language chunks, the teacher organises different fun activity and game bundles that the students can practise and consolidate them **(CS2.13)** where their learning can be checked as described in item (10) in the section 1.2. Principles for the Implementation of the English Curriculum **(D2.5, V4.4)**.

ENG6.3.W1.

PREPARATION FOR THE WRITING-EXPRESSION SESSION: Practising through writing: Writing activities help students to produce and display meaningful written language for their personal expression and communication with others, by using language including target words, grammatical structures in use and the social language in this theme, as in other themes **(V3.2, V10.1, V14.2, V15.2, V16.1)**.

ENG6.3.W2.

RECOGNISING THE MODEL: Initially, students produce very limited and short pieces of writing such as sentences to practise the language including the target vocabulary and grammatical structures, after hearing and seeing them through listening and reading activities in the theme "personal life". They practise the language in a more controlled way in the beginning, by writing to repeat or simply explain what they hear and see in context and what they are asked to do. They are provided a written model/example to copy to be able to notice significant points and elements in it **(SELS3.1)**. While copying a short model writing, they become aware of the aspects such as the use of words, language chunks, punctuation, spelling and so on **(D3.1, V3.4, LS1, CS2.4, CS2.16.3)**.

ENG6.3.W3.

CREATING THE WRITING CONTENT: Controlled writing of words and sentences turns to short paragraphs in a process writing manner with the support of the teacher's feedback in the theme. This process is expanded and supported by several practical activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(D1.3, D3.1, SELS3.2, V3.4, V4.4, V7.2, LS2, LS4, LS9, CS2.20)**.

ENG6.3.W4.

CONSTRUCTING AND PRACTISING WRITING: Storification and gamification techniques are actively and extensively used for further writing practice tasks. Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, projects, scripts for plays, diaries/journals, blogs, very short film scenarios, etc. to express their ideas, thoughts, and feelings **(D2.5, D3.3, SELS3.2, CS2.13)**. All the content is expected to be contextual, practical, authentic, real, and appropriate to the students' interests and language level **(V3.4, V7.2, V9.3, V12.1, LS1, LS4, LS9)**.

ENG6.3.W5.

RECONSTRUCTING AND COMMUNICATING THROUGH WRITING: Students interact and communicate with peers and/or other people inside or outside school by using the language including the target words, language chunks, and the social language for the theme in their writing **(SELS2.2, SELS2.3, V3.4, V4.2, V10.1, V14.2, V15.2, V16.1, LS9, CS2.20)**. AI- based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home in a variety of ways **(D3.3, SELS3.2, SELS3.3, V7.2, LS2, CS2.20)**. These activities are evaluated as described in items (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.3.W6.

REFLECTING ON THE WRITING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole writing-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them (**D1.5, SELS1.3, CS2.15**). Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive (**D2.4, D3.5, SELS2.2**). The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design (**V4.3, V6.2, V10.3, V20.4, LS1, LS6**).

ENG6.3.S1.

PREPARATION FOR SPEAKING: The teacher facilitates speaking activities throughout the theme from the first lesson to the end. Speaking activities enhance students' learning and help them produce and display meaningful language for personal expression and communication with others by using the language including the target words, grammatical structures in use and the social language expressions of the theme (**V3.2, V3.4, V10.1, V14.2, V15.2, V16.1**).

ENG6.3.S2

RECOGNISING AND USING THE MODEL: In the beginning, through listening/watching and reading, students recognise how the language with the target language items is used (**CS2.6**). They practise the language in a controlled way, by telling, repeating, explaining what they hear and see in the context (**D1.3, D3.2, SELS3.1, V3.3, LS1, LS2, LS4, CS2.4**).

ENG6.3.S3

CONSTRUCTING SPOKEN CONTENT: In the later stages of the lessons after controlled practice sessions, the teacher creates new contexts in the form of new written/photo-picture strip/pantomime/video stories, dialogues etc. as new opportunities for the students to talk about them for practising further through questions, explanations, inferences etc (**D1.3, SELS3.2, V3.4, V4.2, V7.2, V12.1, LS1, LS4, LS9, CS2.13**).

ENG6.3.S4.

CONSTRUCTING SPOKEN MATERIALS: Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme (**SELS2.2, SELS3.2, V4.2, V10.1, V14.2, V15.2, V16.1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings (**D1.2, D1.6, D3.3, V7.2, LS2, LS9, CS2.20**).

ENG6.3.S5.

RECONSTRUCTING AND COMMUNICATING THROUGH SPEAKING: Students communicate with each other by seeing/hearing/reading/using the language including the target words and grammatical structures related to the theme "personal life" in fun, enjoyable, varied, and versatile activities (**SELS2.3, CS2.20**). Picture strip stories can be used at the end of each theme to provide a consolidation and revision (**V3.4, V4.2, V12.1, LS1, LS4, LS9, CS2.13, CS2.14**). These new contents created are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. Storification and gamification techniques are actively and extensively used together with other further speaking practice throughout the theme. Students

are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact and to communicate with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme and its components such as "body parts, physical appearance and clothes; personality and character" (**V3.4, V4.2, V10.1, V14.2, V15.2, V16.1, LS4, CS3.1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings (**D2.5, D3.3, SELS3.3, V7.2, LS2, CS2.20**). These are evaluated as described in items (7), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. Then they can expand their language use and practise by communicating with others.

ENG6.3.S6.

REFLECTING ON THE SPEAKING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole speaking-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them (**SELS1.3, CS2.15**). Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive (**D2.4, D3.5, SELS2.2**). The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design (**V4.3, V6.2, V10.3, V20.4, LS1, LS6**).

DIFFERENTIATION

Expansion

Objective: To practise comparing three or more things or people in English by using superlative and comparative forms of adjectives in an engaging, rotating activity.

Activity title: The Comparison Carousel

The teacher divides the class into small groups and sets up 3-4 stations around the classroom and explains the rules to students. Each station has a card with pictures or names of three or more items/people to compare (e.g., fruits, animals, countries, famous people, films). Example cards for comparison are as follows: Three Countries: "Türkiye, Canada, Mexico", Three Foods: "Kebab, Burger, Tacos", Three Animals: "Cat, Dog, Rabbit". The students rotate between stations, where they compare three or more items or people using comparative and superlative forms. At each station, they discuss the differences and similarities between the items using comparative forms (e.g., "The lion is bigger than the tiger."). They also use superlative forms for comparing within the group of three or more (e.g., "The giraffe is the tallest of all the animals."). After 3-4 minutes at one station, students rotate to the next station until they've compared all sets of three or more items. When the rotation of each group is completed, the students share their favourite comparisons with the class and the teacher provides feedback on the use of comparatives and superlatives. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practise comparing three or more things or people in English by using superlative and comparative forms of adjectives in an engaging, rotating activity.

Activity title: The Comparison Carousel

The teacher divides the class into small groups and sets up 3-4 stations around the classroom and explains the rules to students. Each station has a card with pictures or names of three or more items/people to compare (e.g., fruits, animals, countries, famous people, or films). Example cards for comparison are as follows: Three Countries: "Türkiye, Canada, Mexico", Three Foods: "Kebab, Burger, Tacos" Three Animals: "Cat, Dog, Rabbit". The teacher provides students with a template with sentence structures (e.g., "X is taller than Y. Y is the tallest."). They rotate between stations. At each station, they discuss the differences and similarities between the items and try to find the missing items/people on the template (e.g., "The lion is bigger than the tiger."). They also use superlative forms for comparing within the group of three or more (e.g.,

"The giraffe is the tallest of all the animals."). After 3–4 minutes at one station, students rotate to the next station until they've compared all sets of three or more items. When the rotation of each group is completed, the students share their favourite comparisons with the class and the teacher provides feedback on the use of comparatives and superlatives. Students reflect on their thoughts and feelings about the activity.

THEME 4: FAMILY LIFE

Sub-themes: family members' jobs, working places, and job routines; different types of family homes and houses

This theme is centred on the concept of "family life" and covers the sub-themes of "family members' jobs, working places, and job routines; different types of family homes and houses". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 10

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
 FLFS2. Reading-Comprehension
 FLFS3. Speaking-Expression
 FLFS4. Writing-Expression
 FLSS1. Grammaring: Selection and Use
 FLSS2. Vocabulary: Selection and Use
 FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS

DISPOSITIONS D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.5. Self-Confidence, D1.6. Selectivity, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning

INTERCURRICULAR COMPONENTS

Social-Emotional Learning Skills

Year 6 is structured based on semi-holistic/semi-inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.6.4.L1. Students can get ready for the listening/watching-comprehension process for the current content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” carefully.

- a) *Students activate their pre-existing knowledge and experience related to the current theme and content by recalling their background knowledge imaginatively in her/his own language without speaking it.*
- b) *Students identify significant relationships between their pre-existing knowledge and experiences and the clues to the current content without translation.*
- c) *Students make predictions about the current content on “family life” by using the relationships that they recognised accurately by looking at the provided realia, pictures, and context.*
- d) *Students make predictions about the current content based on the surrounding audio/visual elements in relation to the current theme.*

ENG.6.4.L2. Students can bring information about the current content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” together through significant details and main components while listening/watching it.

- a) *Students comprehend the topic of the current content by listening (to)/watching it as a whole.*
- b) *Students recognise the significant details and components within the whole current content by listening (to) and watching it again in a careful manner.*

ENG.6.4.L3. Students can make meaning of/derive meaning from the current content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” through significant details by listening/watching it carefully.

- a) *Students check any initial predictions related to the current content by being aware of the commonalities between self-predictions and clues provided as visuals surrounding the current content.*
- b) *Students make important and necessary classifications in the current content that help them to understand it better with details.*
- c) *Students make important and necessary comparisons in the current content that help them to understand it better with details.*
- d) *Students recognise significant horizontal/vertical/spiral relationships (if any) within the generally perceived current content with the help of classifications and comparisons made earlier.*
- e) *Students make significant inferences that contribute to the understanding of the meaning of the generally perceived current content.*
- f) *Students construct the meaning of the current content in detail through the classifications/comparisons/inferences made earlier in relation to it.*
- g) *Students internalise the current content in an individualised and appropriate way according to age and language level.*

ENG.6.4.L4. Students can convey their knowledge, experience, thoughts, and feelings examined carefully about the whole listening/watching-comprehension process in relation to the current content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses”.

- a) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content.*

- b) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content by sharing them with others.*

ENG.6.4.P1. Students can select and use the target phonological elements of the current content about “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” accurately, authentically, and naturally through spontaneous decision-making processes and use it in an appropriate and effective way when communicating with others.

- a) *Students listen to the current content by paying attention to the target phonological aspects including pronunciation and intonation of utterances.*
- b) *Students reinforce the target phonological elements by repeating them after the source several times as a whole class, in groups and individually.*
- c) *Students recognise the target phonological elements of the current content when they are heard in different contexts.*
- d) *Students recognise target phonological elements specific to the current content when they are heard in different contexts and use them accurately, authentically, and naturally through spontaneous decision-making processes.*
- e) *Students use the target theme-specific phonological elements of the current content appropriately, spontaneously and effectively when communicating with others.*

ENG.6.4.R1. Students can get ready for the reading-comprehension process about the current content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses”.

- a) *Students activate their pre-existing knowledge and past experiences related to the current theme and content efficiently.*
- b) *Students recognise significant relationships between their pre-existing knowledge, past experiences and clues to the current content.*
- c) *Students make significant preliminary predictions about the current content based on recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring the audio-visual clues surrounding it.*

ENG.6.4.R2. Students can bring information about the current content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” through skimming (looking quickly at) the audio-visual elements and reading the content very quickly.

- a) *Students review the current content by looking at the surrounding audio/visual materials to identify what it is about in general through skimming.*
- b) *Students read the current content to scan the major components silently and quickly with the help of the clues provided.*
- c) *Students carefully read the current content silently and carefully to find significant details and components belonging to the theme.*

ENG.6.4.R3. Students can make meaning of / derive meaning from the current content about “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” by reading it carefully.

- a) *Students carefully check the current content in detail for the accuracy of initial and detailed predictions that are made earlier.*
- b) *Students classify the significant elements of the current content that contribute to the perception of the content in a meaningful way.*

- c) *Students compare significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- d) *Students recognise significant horizontal/vertical/spiral relationships within the current content that contribute to the perception of the content in a meaningful way.*
- e) *Students make meaningful inferences from the information in the current content by examining it carefully.*
- f) *Students internalise the information in the current content in an individualised and appropriate way according to age and language level.*

ENG.6.4.R4. Students can convey their knowledge, experiences, thoughts, and feelings related to the reading-comprehension process about the current content, “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process.*
- b) *Students convey the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process by sharing them with others.*
- c) *Students produce new products related to the current reading-comprehension content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.4.V1. Students can select and use the target vocabulary of the current content about “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students guess the main topic of the current content from the audio/visual/written elements (e.g. sound, voices, scenes, written words) in the contextual material by listening(to)/watching/reading it several times for recognition.*
- b) *Students recognise sub-themes/key components of the target words to which they belong in the current content by scanning.*
- c) *Students recognise the target words related to the main components of the current content with the help of the audio/visual/written elements and other clues.*
- d) *Students repeat aloud the relevant target key components and target vocabulary in the current content with the whole class, in groups, and then individually together with or after listening(to)/watching/reading the source material.*
- e) *Students recognise the use of target words and expressions in the current content by making various guesses with the help of supplementary elements.*
- f) *Students make context-appropriate selections automatically by associating target words with their pre-existing conceptual meanings in the mind without analysing their contextual meaning in detail.*
- g) *Students use the target words spontaneously and appropriately in different communicative contexts by being aware of their differences when communicating with others.*

ENG.6.4.G1. Students can select and use the target grammatical elements of the current content about “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students become familiar with the current content by listening(to)/watching/reading it a few times attentively.*

- b) *Students listen (to)/watch/read the same content, attentively and mindfully, including the use of target grammatical chunks presented verbally in context with the help of body language.*
- c) *Students verbally and automatically repeat simple and meaningful clauses/sentences containing target grammatical chunks that they have noticed in the current content that they have heard/viewed/read without explicit knowledge of the rules.*
- d) *Students act out physically the clauses/sentences containing the target grammatical chunks in the current content heard/viewed/read by repeating them several times without knowing, analysing, and thinking about their rules.*
- e) *Students see and read the example sentences containing target grammatical chunks provided for language awareness carefully.*
- f) *Students gain awareness of clauses/sentences that contain target grammatical chunks that are presented for the purpose of raising language awareness.*
- g) *Students recognise the clauses/sentences containing the target grammatical chunks when they encounter them by seeing and/or hearing them in different contexts.*
- h) *Students use the recognised target grammatical chunks naturally, authentically, and automatically in new contextual tasks and activities without analysing their rules.*
- i) *Students produce new and meaningful verbal/written content about the current theme by using the target grammatical chunks in meaningful tasks without knowing and analysing their rules.*
- j) *Students use the target language chunks authentically, automatically, and naturally in communication processes without analysing their rules in meaningful contexts.*

ENG.6.4.W1. Students can get ready for the writing-expression process about the current content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses”.

- a) *Students relate their pre-existing knowledge and experience used in the initial processes of writing-expression skills to the current content by activating them in relation with the current content.*
- b) *Students understand what the writing task and its content are in relation to the current content correctly by making use of their pre-existing knowledge and experience as guided and assigned.*

ENG.6.4.W2. Students can understand the model/example for the writing task about the current content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses”.

- a) *Students understand the components and details of the content in the provided model/sample which is displayed as a guide, by examining it carefully.*

ENG.6.4.W3. Students can organise a content for the assigned writing task on the current content “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” based on the model/example provided.

- a) *Students conduct preliminary research for a prepared writing situation according to the current content appropriate to the assigned writing type, age, and language level.*
- b) *Students develop a simple draft for a prepared/or unprepared writing task about the current content appropriate to the assigned writing type, age, and language level.*
- c) *Students organise and/or produce materials relevant to the content for a prepared/unprepared writing task, appropriate to the assigned writing type, age, and language level.*

ENG.6.4.W4. Students can individually construct/form content for the assigned writing task on the current content “family life with family members’ jobs, working places, and job routines; different types of family homes and houses”.

- a) *Students present appropriate and accurate materials for a prepared and/or unprepared writing task about the current theme according to the assigned writing type, age, and language level.*
- b) *Students use appropriate discourse forms, styles, and rules relevant to the assigned writing type for a prepared and/or unprepared writing task.*
- c) *Students use target words and grammatical language chunks accurately and appropriately for a prepared and/or unprepared writing task about the current content by selecting them according to the assigned writing type, age, and language level.*
- d) *Students express important messages in the written current content to the reader accurately and appropriately for a prepared and/or unprepared writing task.*

ENG.6.4.W5. Students can reorganise (reconstruct) and use information in the new written tasks about the “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” to communicate with other people.

- a) *Students use the information in the current content or similar information in a different content by internalising and selecting it individually and reorganising it as required and meaningfully in different contexts.*
- b) *Students exchange information/ideas in written communication by sharing reconstructed meaningful knowledge meaningfully with others.*

ENG.6.4.W6. Students can reflect on their knowledge, experiences, thoughts, and feelings related to the writing-expression process about the current content, “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings reviewed in relation to the current writing-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings reviewed in relation to the writing-expression process about the current content with others.*
- c) *Students produce new written products related to the current writing-expression content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.4.S1. Students can get ready for speaking-expression process about the current content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses”.

- a) *Students make connections with the current content by activating their pre-existing knowledge and experiences that they have recalled in the listening (to)/watching/reading sections previously.*

ENG.6.4.S2. Students can use the model/example for producing verbal content about the current content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses”.

- a) *Students listen (to)/watch/read the model/example for the current content with the help of audio/visual/written elements.*

ENG.6.4.S3. Students can organise a new verbal content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” by speaking accurately, efficiently, and authentically.

- a) *Students recognise what form and type of content is expected and assigned for prepared/unprepared speaking situations based on audio/visual/written content as provided in the model/example.*
- b) *Students organise the content for prepared/unprepared speaking situations in an appropriate and accurate way as they have heard/seen/read in the model/example.*

- c) *Students develop a draft for prepared/unprepared speaking situations, appropriate to the age and language level as presented in the model/sample content.*
- d) *Students organise supplementary audio/visual/written materials for prepared/or unprepared speaking situations, appropriate to age and language level, as provided in the model/sample content.*
- e) *Students organise the information about the current content to be presented for prepared/or unprepared speaking situations in an appropriate way as required.*

ENG.6.4.S4. Students can construct a new verbal content on “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” by speaking accurately, efficiently, and authentically.

- a) *Students use target pronunciation, vocabulary, language chunks, and forms of discourse related to the current content effectively by selecting them accurately and appropriately for prepared/unprepared speaking situations.*
- b) *Students present individually prepared content in an accurate and efficient way as presented in the model/example for prepared speaking situations clearly, efficiently, and appropriately.*
- c) *Students present individually prepared information in an accurate and efficient way as presented in the model/example for unprepared speaking situations.*
- d) *Students express the message about the current content clearly to the reader by using all supplementary elements and body language in an appropriate and accurate way in context for prepared and/or unprepared speaking situations.*

ENG.6.4.S5. Students can reorganise (reconstruct) and use information about the “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” to communicate with other people.

- a) *Students use the information presented in the current content by reorganising it appropriately, efficiently, individually, and verbally in different contexts.*
- b) *Students engage in appropriate and efficient verbal communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.6.4.S6. Students can convey their knowledge, experiences, thoughts, and feelings related to the speaking-expression process about the current content, “family life with family members’ jobs, working places, and job routines; different types of family homes and houses” to communicate with other people in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings examined carefully in relation to the current speaking-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings examined carefully in relation to the speaking-expression process about the current content with others.*

CONTENT FRAME

FAMILY LIFE

Sub-themes: family members' jobs, working places, and job routines; different types of family homes and houses

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for family members' jobs, working places, and job routines:

Nouns: An author, a boss, a businessman, a cook, a dentist, a designer, a detective, a director, an employee, an employer, a soldier, an assistant, a journalist, a lawyer, a manager, a painter, a pilot, a professor, a reporter, an engineer, an officer, a restaurant, a factory, a company, construction.

Verbs: To report, to employ, to earn, to farm.

Vocabulary for different types of family homes and houses:

Nouns: Rest (remaining part), an address, an apartment, a bin, a blanket, bookshelf, a box, a carpet, a mirror, a clock, a cooker, a curtain, a drawer, an entrance, floor, furniture, heating, a key, a light, a pillow, a refrigerator, a roof, rubbish, a shelf, a sink, a towel, a chopping board, a youth room set.

Adjectives: Downstairs, upstairs, flat, strict, ambitious.

Adverbs: Double.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Present Progressive Tense for the future: (We are moving to a new apartment next week).

-The Simple Present Tense for the future: (The plane to London takes off at 9:15 tomorrow morning).

-Conjunctions (when, while): (The cook prepares the food when the guests arrive. I will wait for you outside while you are in the meeting).

-Wh- questions (Which): (Which job does your cousin do? Which room is upstairs?)

-Reflexive pronouns: (The reporter is introducing herself to the audience).

Functions of the Grammatical Structures in Use:

-The Present Progressive Tense for the future: Talking about planned future events or arrangements.

-The Simple Present for the future: Expressing scheduled or regular events in the future.

-Conjunctions (when, while): Describing actions or events that happen at the same time or one after the other.

-Wh questions (Which): Asking for specific information or making distinctions.

-Reflexive pronouns: Emphasizing that the subject and object of an action are the same.

Target Social Language in Use:

Keep that secret in the family, please!

My father works all hours on his new job!

Please make yourself at home!

Target Phonological Sounds in Use:

a, b, c, d, e,

Vowels: a: (/æ/, /ae/, /ə/, /a:/, /eɪ/, /a:/, /a/, /ɔ:/, /eə/); e: (/e/, /i:/, /ə/)

Consonants: b: (/b/), silent /b/); c: (/si/, /k/); d: (/d/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “family life” and its components such as “family members’ jobs, working places, and job routines; different types of family homes and houses” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “family life” and its components such as “family members’ jobs, working places, and job routines; different types of family homes and houses” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts

family members’ jobs, working places, and job routines; different types of family homes and houses

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will write a short descriptive booklet about one of their family members, focusing on their job, workplace, and daily routine. They will also include details about the type of home this family member lives in, describing its features such as the number of rooms, outdoor spaces, or special areas. To make their work more engaging, students will draw a simple illustration of the home and explain how it supports their family member’s daily activities and routines. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “family life” and its components such as “family members’ jobs, working places, and job routines; different types of family homes and houses”. As they are lower secondary school students in year 6 (six), they can know what “family life” and its components such as “family members’ jobs, working places, and job routines; different types of family homes and houses” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 6 of lower secondary school, they can know some basic vocabulary about “family life” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “family life” and its components such as “family members’ jobs, working places, and job routines; different types of family homes and houses”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “family life”. Therefore, a dialogue game can be played to revise all vocabulary and language grammar items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and grammatical items to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics throughout these practices).

Establishing Links

Students can recall the current (theme) concept of “family life” and its components such as “family members’ jobs, working places, and job routines; different types of family homes and houses” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the current theme in English without translating anything until they start learning the target words in the current (new) concept in English.

To remind them of the pre-existing background knowledge they already have about the current concept, various materials such as short scene from a film, series, a part from a story, a poster etc. which is appropriate to the age, level, and pedagogy could be used before the main teaching/learning flow of the class begins. They would give a general idea of the theme. Students are facilitated with the relevant materials through various activities. When they have finished working on it, the teacher asks them in English if they understood what it was about. For checking their understanding, she/he can design several activities. For instance, they can write a related word that they know in English on a piece of paper and put it in the jar/box that she/he has prepared. Alternative ways can be tried.

The teacher asks them to wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “family life” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being. This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote/a very short story, watching a pantomime/cartoon story, etc. that has no relation or connection to the current theme and does not require any knowledge of English **(D2.5, SELS2.1, V12.1, LS2, LS4)**.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills (listening/watching-comprehension, reading-comprehension, speaking-expression, writing-expression, vocabulary selection and use, grammar selection and use, pronunciation selection and use) are used in an integrated way around “family life” and sub-themes “family members’ jobs, working places, and job routines; different types of family homes and houses”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG6.4.L1.

PREPARING FOR LISTENING/WATCHING-COMPREHENSION: Having seen a visual about and having guessed the topic of “family life” during the background recall session, students can have a vision of the current theme as a general concept in the current (new) theme **(D3.2, SELS1.1, V3.2, V2.2,V2.4, V2.3, LS1, LS4, CS2.11, CS2.16.2)**. So, a further concept check with listening/watching for gist activities including more guessing games using clues from some pictures, realia, short video clips etc. help them prepare for the current theme **(CS2.6, CS2.8)**. For each theme, a digitally constructed story is used as the main context of the theme,

and it is visited several times while going through the theme to cover target pronunciation, vocabulary, grammar, social language expressions, and semantic meaning of the whole theme **(CS2.14)**. It is both an entry material and the main context to the whole theme at the same time. The teacher asks them whether their guesses during the background recall session were correct and also what they think the introductory digital story that they are going to watch could be about **(CS2.8)**. As they have already seen a scene from a film about the theme and the pictures, realia, etc. they can easily answer what the current theme will be about and that their guesses were true **(D1.2, D1.6, D2.3, D3.2, SELS1.2, V3.3, V3.4, V2.2, V2.4, V2.3, LS2, LS4, CS2.10, CS2.17)**.

ENG6.4.L2.

BRINGING INFORMATION TOGETHER THROUGH LISTENING/WATCHING: The teacher asks the students to watch the introductory digital story carefully, recalling the work done with visuals (the scene from a film, pictures, realia, or video clips about the theme shown earlier) **(CS2.11)**. Students watch the introductory digital story to consolidate the identification of the “family life” in it as a whole **(CS2.13)** without stopping the video at any point, so that the students can understand the theme holistically **(D3.2, SELS1.1, V3.3, V3.4, V2.2, V2.4, V2.3, LS2, LS4, CS2.14, CS2.16.2)**.

ENG6.4.L3.

MAKING MEANING THROUGH LISTENING/WATCHING-COMPREHENSION: To draw students’ attention to the content, some realia brought into the classroom by the teacher could be used **(V2.2, V2.4, V2.3)**. The teacher could show the corresponding objects to the students when the corresponding vocabulary for the main components of the theme “family life” is mentioned in the introductory digital story, without stopping the video while the students watch the story **(CS2.6)**. When they have watched the whole story, the teacher could show the realia items on the table and ask questions with two options **(CS2.5)**. As one of the words is from the previous themes, students could hear, understand, recognise and learn the (new) target vocabulary for each main component of the theme easily **(CS2.1)**. In this way, the teacher could engage in a dialogue with the whole class to check that they have recognised the components of the theme, and that they have understood each realia item is about one component **(CS2.8)**. Further activities and games can be played at this stage to reinforce the general meaning of the theme through its main components **(D1.1, D2.5, SELS2.1, V3.4, LS1, LS2, LS4)**.

To check whether the students understand the general topic of the theme “family life” and remember the sequence of the scenes of the introductory digital story, the teacher shows an organiser with the mixed images/pictures of the scenes on the Smart Board and asks the students to look at the images/pictures of the scenes for a while **(CS2.3)**. She/He then asks them to order the scenes in pairs in their seats with the mixed paper pictures she/he has already given to the students **(SELS2.2, V3.4, V4.2, LS1, LS4, LS6)**. When the pairs have finished sorting the pictures for the scenes of the story, the teacher asks the students to take turns or volunteer to sort the scenes on the screen of the Smart Board (or the pictures on the blackboard) **(SELS1.2, CS2.6, CS2.10)**. This will help the students to organise the story as a whole so that they can identify the main theme and the components of the theme from their memories **(D1.2, D1.6, D2.3, V16.3, V20.4, CS2.12)**.

ENG6.4.L4.

REFLECTING ON THE LISTENING/ WATCHING PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole listening–watching process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3, V3.4)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS1.2, SELS2.2, V4.2, V4.3, V12.1, LS5, LS6)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V10.3)**.

ENG6.4.P1.

RECOGNITION OF TARGET PRONUNCIATION: To practise pronunciation of the new target words, word groups, language chunks, and social language expressions about the theme “family life” and the words and/or word groups for the sub-themes “family members’ jobs, working places, and job routines; different types of family homes and houses”, the teacher asks the students to listen (to)/watch the whole or some extracts from the introductory digital story by noticing how words are pronounced **(V3.3, V2.2, V2.4, V2.3, LS4, CS2.6)**. She/He asks them to repeat the word aloud when she/he stops the video for a word and says it. The teacher then asks the students to listen and repeat the same words aloud a few times as a whole class after listening to the recordings that she/he has prepared beforehand using some Web 2.0 programmes **(LS2, CS2.16.3)**. The teacher could offer variations with some techniques such as showing the picture of the target word to the students to say the word or pointing to the corresponding picture when they hear the word from the recording, and then both **(CS2.8)**. To help the students pronounce the words accurately, the teacher asks them to repeat each target word aloud a few times as a whole class after her/him or the recording, then in large groups, then in small groups and then again as volunteers **(D3.2, D3.6, SELS1.2, SELS2.1, V4.2, V20.4, LS1, CS2.14)**.

SELECTION AND USE OF TARGET PRONUNCIATION: Practice of pronunciation could be done with different forms of TPR, gamification and drama activities, e.g. first the teacher says the target words/word groups for the sub-themes “family members’ jobs, working places, and job routines; different types of family homes and houses”, the students listen **(CS2.9)**; then the teacher says the target words/word groups and acts them out, the students repeat after her/him **(SELS2.1, CS2.14)**. Then the teacher and the students say the target words/word groups and act them out together at the same time. Then the teacher says the words/word groups and acts them out. These activities can be done through the actions for the sub-themes **(D2.3, D2.5, V3.3, V2.2, V2.4, V2.3)**. As a variation, they can also repeat the words after the teacher happily, sadly, angrily, etc. using different tones of voice **(SELS2.3, CS2.8, CS2.11)**. They also practise for the target social language chunks using the same or similar techniques. During the repetitions, they point to relevant pictures that the teacher has placed in different places in the classroom **(CS2.12)**. Some action sequences are also created in which the students can practise the social language in a fun way by repeating, pointing, miming, and acting out in several games **(SELS2.1, V7.2, LS5, LS6, LS9)**. The teacher facilitates some activities with dialogues and games in which students can practice the target pronunciation by selecting and using them accurately, naturally, and authentically **(CS3.1)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound drills **(SELS2.2)**. The target sounds such as vowels, consonants, and diphthongs of the theme are practised through them **(CS2.13)**. Their learning is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum **(D1.2, D1.6, D2.5, V3.4, LS1, LS2, LS4)**.

ENG6.4.R1

PREPARATION FOR THE READING-COMPREHENSION PROCESS: The teacher facilitates reading and writing activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts. Reading is done in two ways in the theme by using the written version of the introductory digital story and additional reading texts in reading sections of the instructional material to be used **(V3.2, LS2, LS4)**. Various reading styles including silent reading, speed reading, jigsaw reading and basic reading techniques including skimming, scanning, and reading for details during pre-reading, while-reading and post-reading phases are used in the theme **(V3.4, LS1, CS2.3, CS2.6)**. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop pre-critical thinking skills and critical thinking skills and the ability to comprehend and talk/write about the content in a meaningful and communicative way **(V3.3, V7.2, LS5, CS3.3)**. For the initial stage of reading, the teacher asks the students to look at the audio/visual/written elements (e.g. sound, voices, scenes, title of the text, written words)

surrounding the written version of the contextual introductory story or a new text in the reading section of the instructional material to be used for skimming to recall the conceptual meanings they already have about the theme **(CS2.8)**. At this stage, the teacher could ask the students to read the title of the theme and ask the students which words they already know, and which come to mind in connection with the title **(SELS1.1, CS2.16.2)**. She/He reminds them not to ask the meanings of any new words or the words they do not know. She/He reminds them that this is just a guessing activity by using the words they know and that there is time to work on the new words of the new theme later **(D3.2, D3.6, V3.4, CS2.10, CS2.12)**.

ENG6.4.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students go on with a scanning activity to find out the most important details of the introductory digital story and/or a new text in the reading section which is organised to help students to know more about the reading content **(CS2.6, CS2.7)**. In this way they could be able to recognise the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story **(CS2.4)**. By doing so, they will be able to understand the story/text in general using the main elements **(D3.2, D3.6, V3.3, V3.4, LS1)**.

ENG6.4.R3.

MAKING MEANING THROUGH READING: Then the teacher asks the students to do a jigsaw reading activity, so she/he shows the written version of the introductory digital story or the text in the reading section on the blackboard/Smart Board (or in any other teaching material). She/He asks the students to work in pairs to share the text **(SELS2.2)**. One peer reads the first half of the text and the second peer reads the other half of the text in a given time **(CS2.6)**. They are then asked to share what they have understood from their part with their peer, also in a given time. In this way, they talk about the whole story after reading it silently, in the jigsaw reading style **(D2.4, D3.6, V3.4, V4.2, V16.2, LS1, LS6, CS2.8, CS2.9)**. Some speed-reading activities can be used to develop students' reading and comprehension skills. These activities can be evaluated as explained in the item (6) in the section 1.2. Principles for the Implementation of the English Curriculum. After sharing their parts, students proceed with the activities for dealing with the target vocabulary, grammatical chunks, and semantic meaning relatively with the help of the teacher **(CS2.14)**. For dealing with the semantic meaning, the teacher facilitates the lesson with meaningful activities including closed, semi-closed, free, open-ended, and communicative ones **(SELS2.1)**. From display to communicative open-ended, various types of questions are used to understand the meaning of the text **(SELS3.1, SELS3.2, CS2.6)**. During this process students work collaboratively to exchange information, thoughts, and feelings **(D3.2, D3.7, V3.3, V7.2, V20.2, LS2, LS4, CS2.8)**.

ENG6.4.R4.

REFLECTING ON THE READING-COMPREHENSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole reading-comprehension process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(D2.3, D3.5, V4.2, V6.2, V10.3, V12.1, LS1, LS6)**.

ENG6.4.V1.

PREPARATION TO WORK ON THE TARGET VOCABULARY: At this stage, students remember what the theme is about through the activities that they have done during the background knowledge, pre-listening/watching, and pre-reading sessions **(SELS1.1)**. As they know the main topic, they get ready to deal with the main components and target vocabulary of the theme **(V3.2, LS1)**.

RECOGNITION OF THE TARGET VOCABULARY: A scanning activity to find out the main details of the introductory digital story (and/or a new text in the reading section) is organised to help students to know more about the content. This could help them identify what the target words in the text could be about. The activity could be designed by listing some important pictures, words or events about the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story. In this way, they will be able to understand the story/text in general by using the main elements and also be ready to work on the target vocabulary items **(D3.2, D3.6, LS1, LS2, LS4, LS5, CS2.4, CS2.6, CS2.7)**. Then the students read the written version of the digital story again silently, (or the reading text in the reading section), to check whether they know any of the target vocabulary items about the theme **(V2.2, V2.4, V2.3, CS2.8)**. They underline the words whose meaning they do not know while reading silently **(CS2.17)**. Students say these words when they finish reading and the teacher writes these words on the Smart Board/blackboard/ white board as they say them. The teacher writes only the target words on the Smart Board/blackboard as active words that the students have said. She/He quickly deals with the non-target passive vocabulary items by using pictures, mimics, gestures, imitations, examples, etc. But she/he takes time to facilitate the teaching of the target words **(D1.2, D1.6, D3.2, V3.3, V3.4, LS2, LS4, CS2.4, CS2.5, CS2.7)**.

To introduce and practise the meanings of the target vocabulary related to the theme, that the students do not know, the teacher asks the students to watch the introductory digital story (or the video of the reading text if there is one) again. From the beginning, whenever a target item is mentioned, the teacher stops the video and asks several questions in the form of two options, one of which is a word from the previous themes that they already know **(V2.2, V2.4, V2.3, CS2.16.1, CS2.6)**. By guessing what they are, the students hear the English equivalents of the words for the theme and they answer as a whole class in chorus. In this way, they are introduced to the meanings of the target words **(D1.2, D1.6, D3.7, CS2.10)**. This is conducted in the form of a dialogue where their learning can be checked as described in items **(SELS2.1)** (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum **(V3.3, V3.4, V16.3, LS1, LS2, LS4)**. After having watched the introductory digital story, the teacher shows some pictures for the sub-themes, on the walls as clues and says the words aloud several times in sentences by pointing to the pictures and the students repeat after her/him **(D2.3, V2.2, V2.4, V2.3, CS2.6, CS2.11)**. In this way, the main vocabulary items of the theme are introduced to the students in English as described in item (3) in the section 1.2. Principles for the Implementation of the English Curriculum **(V2.2, V2.4, V2.3)**.

SELECTION AND USE OF TARGET VOCABULARY: The teacher can prepare an activity using the Web 2.0 programme with images/pictures, and symbolic images for some categories about the components of the theme "family life". She/He also prepares mixed images/pictures for target vocabulary items for the activities which can be done in relation to the components. She/He asks the students to look at the mixed pile of images/pictures of the main components of the theme on the Smart Board screen and scan them for a while to remember them **(V2.2, V2.4, V2.3, CS2.4)**. She/He explains to the students that the items will be placed under the correct category, but first she/he gives the students the cut-out pictures of the activities and a large sheet of paper with the categories written on it and the cut-out pictures will be placed under each category correctly **(V3.3, L2, LS4, CS2.5)**. The teacher asks them to work in pairs and place the cut-out pictures in the right category and ask each other some questions about the theme **(D3.2, D3.8, SELS2.2, V2.2, V2.4, V2.3)**. When the students have finished working with the cut-out pictures and asking and answering questions about them, the teacher asks them to take turns or volunteer to go to the Smart Board and drag the corresponding images/pictures under the right category on the screen **(SELS1.2, V3.4, V20.4, LS1, LS4, CS2.5)**. In this way, images/pictures that are relevant to the main concept and its components are consolidated through categorisation. This activity can be done with real pictures on the white/blackboard if there is a problem with technology. The teacher asks the students to copy the words next to the pictures they have pasted or drawn in their picture dictionaries and then asks them to exchange their picture dictionaries with their peers and check each other's spelling **(D3.2, SELS1.2, SELS2.2, V4.2, V4.3, V6.2, LS9)**. To consolidate the meaning, selection, and use of the new target vocabulary items, the teacher could organise activities and tasks using pictures, flashcards, sounds, realia, and any other materials to play games

such as Bingo, Pelmanism, King's game, Odd One out, Wordscapes, Scrabble, Pictionary, Letter Scramble, Acronyms, Charades etc. Games could be adapted according to the teacher's objectives (pronunciation, spelling, meaning, selection, use etc.), age, interests and language level of the students **(CS2.13)**. Students can be asked to create their own games to use the target vocabulary items in context **(D2.5, D.3.3, SELS3.1, SELS3.2, V2.2, V2.3, V2.4, V4.2, V4.4, V7.2, LS9, CS2.20)**. Students' learning can be checked as described in items (3), and (4) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.4.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS: To draw the students' attention to the target language chunks of the theme "family life", the introductory digital story or an extract from it played so that the students can notice the target language chunks **(D3.2, CS2.2)**. While watching the introductory digital story, the teacher stops at the scenes where the target language chunks are used. She/He imitates the action by showing the scene, saying the chunk, and asking the students to do the same **(V3.2, LS2, CS2.14)**. She/he could hold up large pictures corresponding to the chunks when they are mentioned in the digital story to draw the students' attention. The sentences with the target chunks are also written and placed on the Smart Board/blackboard/ whiteboard. The teacher also points to these sentences while pointing to the scenes in the story where they appear. There is no analysis or teaching of grammatical structures at this stage. Students can automatically and naturally identify the use of the target language chunks in the current context created in the introductory digital story without working on any rules or structures **(SELS3.1, V3.4, LS1, LS4, CS2.3, CS2.4, CS2.16.2)**. To check the students' identification of the target language chunks, after the students have finished watching the introductory digital story, the teacher asks them to read the sentences with the target language chunks written by the teacher on the Smart Board /blackboard/ whiteboard and asks them to find the same or similar sentences in the written version of the introductory digital story or another text that is shown on the Smart Board **(D3.2, SELS3.2, V3.3)**. She/He also asks them to find the same or similar sentences with these chunks which are given in different types of tables prepared by the teacher **(CS2.7)**. These tables do not include any explanations of grammatical rules, explanations, or formulas, and they only contain example sentences with target chunks in which important words with the target grammar are written in bold or different colours to attract students' attention. The teacher asks them to look at the words in bold or in different colours and asks students to examine them **(CS2.9)**. Then the teacher asks the students to copy these sentences with target chunks written in bold or different colours into their notebooks. The teacher asks the students to make very similar sentences using the target words and asks them to share their sentences with each other in pairs, and then with the class **(SELS2.2, SELS3.2, D3.2, V4.2, CS2.13, CS2.14, CS2.16.1, CS2.16.2)**. Both the teacher and the class members give feedback to the students as they say their sentences **(CS2.19)**. The teacher gives all students a checklist with simple symbols to evaluate each other's work as explained in the items (5) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum **(V4.3, V6.2, V10.3, LS6)**.

SELECTION AND USE OF THE TARGET GRAMMAR: To facilitate students' further practice with the target language chunks in the theme "family life" the teacher shows some other sentences with these chunks in another context such as a short story, a short paragraph, and a short dialogue etc. and asks students to find the sentences with the target chunks in them and asks if they understand them **(SELS3.2, V3.3, V2.2, V2.3, V2.4, CS2.4, CS2.6, CS2.8)**. She/He gives some written activities and exercises to practise the target chunks in context. She/He also facilitates more fun activities and as described in items (5), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. To consolidate the target language chunks, the teacher organises different fun activity and game bundles that the students can practise and consolidate them **(CS2.13)** where their learning can be checked as described in item (10) in the section 1.2. Principles for the Implementation of the English Curriculum **(D2.5, V4.4)**.

ENG6.4.W1.

PREPARATION FOR THE WRITING-EXPRESSION SESSION: Practising through writing: Writing activities help students to produce and display meaningful written language for their personal expression and communication with others, by using language including target words, grammatical structures in use and the social language in this theme, as in other themes **(V2.2, V2.3, V2.4, V3.2)**.

ENG6.4.W2.

RECOGNISING THE MODEL: Initially, students produce very limited and short pieces of writing such as sentences to practise the language including the target vocabulary and grammatical structures, after hearing and seeing them through listening and reading activities in the theme “family life”. They practise the language in a more controlled way in the beginning, by writing to repeat or simply explain what they hear and see in context and what they are asked to do. They are provided a written model/example to copy to be able to notice significant points and elements in it **(SELS3.1)**. While copying a short model writing, they become aware of the aspects such as the use of words, language chunks, punctuation, spelling and so on **(D3.1, V3.4, LS1, CS2.4, CS2.16.3)**.

ENG6.4.W3.

CREATING THE WRITING CONTENT: Controlled writing of words and sentences turns to short paragraphs in a process writing manner with the support of the teacher’s feedback in the theme. This process is expanded and supported by several practical activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(D1.3, D3.1, SELS3.2, V3.4, V4.4, V7.2, LS2, LS4, LS9, CS2.20)**.

ENG6.4.W4.

CONSTRUCTING AND PRACTISING WRITING: Storification and gamification techniques are actively and extensively used for further writing practice tasks. Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, projects, scripts for plays, diaries/journals, blogs, very short film scenarios, etc. to express their ideas, thoughts, and feelings **(D2.5, D3.3, SELS3.2, CS2.13)**. All the content is expected to be contextual, practical, authentic, real, and appropriate to the students’ interests and language level **(V3.4, V7.2, V12.1, LS1, LS4, LS9)**.

ENG6.4.W5.

RECONSTRUCTING AND COMMUNICATING THROUGH WRITING: Students interact and communicate with peers and/or other people inside or outside school by using the language including the target words, language chunks, and the social language for the theme in their writing **(SELS2.2, SELS2.3, V3.4, V4.2, V2.2, V2.3, V2.4, LS9, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home in a variety of ways **(D3.3, SELS3.2, SELS3.3, V7.2, LS2, CS2.20)**. These activities are evaluated as described in items (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.4.W6.

REFLECTING ON THE WRITING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole writing-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them **(D1.5, SELS1.3, CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V4.3, V6.2, V10.3, V20.4, LS1, LS6)**.

ENG6.4.S1.

PREPARATION FOR SPEAKING: The teacher facilitates speaking activities throughout the theme from the first lesson to the end. Speaking activities enhance students' learning and help them produce and display meaningful language for personal expression and communication with others by using the language including the target words, grammatical structures in use and the social language expressions of the theme **(V3.2, V3.4, V2.2, V2.3, V2.4)**.

ENG6.4.S2

RECOGNISING AND USING THE MODEL: In the beginning, through listening/watching and reading, students recognise how the language with the target language items is used **(CS2.6)**. They practise the language in a controlled way, by telling, repeating, explaining what they hear and see in the context **(D1.3, D3.2, SELS3.1, V3.3, LS1, LS2, LS4, CS2.4)**.

ENG6.4.S3

CONSTRUCTING SPOKEN CONTENT: In the later stages of the lessons after controlled practice sessions, the teacher creates new contexts in the form of new written/photo-picture strip/pantomime/video stories, dialogues etc. as new opportunities for the students to talk about them for practising further through questions, explanations, inferences etc **(D1.3, SELS3.2, V3.4, V4.2, V7.2, V12.1, LS1, LS4, LS9, CS2.13)**.

ENG6.4.S4.

CONSTRUCTING SPOKEN MATERIALS: Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme **(SELS2.2, SELS3.2, V4.2, V2.2, V2.3, V2.4, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings **(D1.2, D1.6, D3.3, V7.2, LS2, LS9, CS2.20)**.

ENG6.4.S5.

RECONSTRUCTING AND COMMUNICATING THROUGH SPEAKING: Students communicate with each other by seeing/hearing/reading/using the language including the target words and grammatical structures related to the theme "family life" in fun, enjoyable, varied, and versatile activities **(SELS2.3, CS2.20)**. Picture strip stories can be used at the end of each theme to provide a consolidation and revision **(V3.4, V4.2, V12.1, LS1, LS4, LS9, CS2.13, CS2.14)**. These new contents created are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. Storification and gamification techniques are actively and extensively used together with other further speaking practice throughout the theme. Students

are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact and to communicate with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme and its components such as “family members’ jobs, working places, and job routines; different types of family homes and houses” **(V2.2, V2.3, V2.4, V3.4, V4.2, LS4, CS3.1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings **(D2.5, D3.3, SELS3.3, V7.2, LS2, CS2.20)**. These are evaluated as described in items (7), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. Then they can expand their language use and practise by communicating with others.

ENG6.4.S6.

REFLECTING ON THE SPEAKING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole speaking-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them **(SELS1.3, CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V4.3, V6.2, V10.3, V20.4, LS1, LS6)**.

DIFFERENTIATION

Expansion

Objective: To practise future arrangements in English through a creative and interactive speaking activity where students describe their future travel plans in detail.

Activity title: Future Travel Diaries

The teacher divides the class into pairs or small groups of 3-4 students and gives each group a set of Travel Destination Cards and Travel Activity Cards. The Travel Destination Cards have places like “İstanbul”, “Paris”, “Antalya”, “New York”, “Maldives”, “Rome”, “Tokyo”, etc. The Travel Activity Cards contain activities people can do while travelling (e.g., “attending a local festival”, “going on a city tour”, “trying new foods”, etc.). Each group selects a destination card and a travel activity card and forms their travel plan using a destination and activities they pick from the cards. For example: “We are flying to Paris next month. First, we are visiting the Eiffel Tower, and then we are eating at a famous French café”. Students take turns speaking about their future trip. For example: “Next summer, we are visiting the Maldives, and we are snorkelling with dolphins every morning”, “I am flying to Rome next month to visit my cousin. We are going on a historical tour of the Colosseum because I’m really interested in Roman history”. The teacher encourages students to add as many details as possible to make the travel plan sound exciting, like when they are leaving, who they are traveling with, and how they feel about the trip. After 3-5 minutes, the groups switch to the next destination and activity, continuing to create new travel plans and speaking about their future plans. In pairs or groups, students can ask follow-up questions based on the plans their peers describe. For example: “Why are you visiting Rome?”, “What other activities are you doing in İstanbul?” After the activity, the teacher asks a few students or groups to share their travel plans with the class and writes their sentences on the board to emphasize correct use of the target grammar. She/He praises students for being creative and using detailed descriptions and encourages them to continue practising by imagining future trips or activities. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practise future arrangements in English through a creative and interactive speaking activity where students describe their future travel plans.

Activity Title: Future Travel Diaries

For the same activity, the teacher provides sentence starters or a template to help guide the students through their descriptions. For example: "I am going to _____ next _____.", "We are visiting _____ and then _____.", "I am meeting my friend at the airport, and we are _____." Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 5: LIFE IN THE NEIGHBOURHOOD & CITY

Sub-themes: Festivals and events in the neighbourhood and city; transportation in the neighbourhood and the city

This theme is centred on the concept of “life in the neighbourhood and the city” and covers the sub-themes of “festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

Year 6 is structured based on semi-holistic/semi-inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.6.5.L1. Students can get ready for the listening/watching-comprehension process for the current content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” carefully.

- a) Students activate their pre-existing knowledge and experience related to the current theme and content by recalling their background knowledge imaginatively in her/his own language without speaking it.*
- b) Students identify significant relationships between their pre-existing knowledge and experiences and the clues to the current content without translation.*
- c) Students make predictions about the current content on “life in the neighbourhood and the city” by using the relationships that they recognised accurately by looking at the provided realia, pictures, and context.*
- d) Students make predictions about the current content based on the surrounding audio/visual elements in relation to the current theme.*

ENG.6.5.L2. Students can bring information about the current content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” together through significant details and main components while listening/watching it.

- a) Students comprehend the topic of the current content by listening (to)/watching it as a whole.*
- b) Students recognise the significant details and components within the whole current content by listening (to) and watching it again in a careful manner.*

ENG.6.5.L3. Students can make meaning of/derive meaning from the current content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” through significant details by listening/watching it carefully.

- a) Students check any initial predictions related to the current content by being aware of the commonalities between self-predictions and clues provided as visuals surrounding the current content.*
- b) Students make important and necessary classifications in the current content that help them to understand it better with details.*
- c) Students make important and necessary comparisons in the current content that help them to understand it better with details.*
- d) Students recognise significant horizontal/vertical/spiral relationships (if any) within the generally perceived current content with the help of classifications and comparisons made earlier.*
- e) Students make significant inferences that contribute to the understanding of the meaning of the generally perceived current content.*
- f) Students construct the meaning of the current content in detail through the classifications/comparisons/inferences made earlier in relation to it.*
- g) Students internalise the current content in an individualised and appropriate way according to age and language level.*

ENG.6.5.L4. Students can convey their knowledge, experience, thoughts, and feelings examined carefully about the whole listening/watching-comprehension process in relation to the current content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”.

- a) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content.*
- b) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content by sharing them with others.*

ENG.6.5.P1. Students can select and use the target phonological elements of the current content about “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” accurately, authentically, and naturally through spontaneous decision-making processes and use it in an appropriate and effective way when communicating with others.

- a) *Students listen to the current content by paying attention to the target phonological aspects including pronunciation and intonation of utterances.*
- b) *Students reinforce the target phonological elements by repeating them after the source several times as a whole class, in groups and individually.*
- c) *Students recognise the target phonological elements of the current content when they are heard in different contexts.*
- d) *Students recognise target phonological elements specific to the current content when they are heard in different contexts and use them accurately, authentically, and naturally through spontaneous decision-making processes.*
- e) *Students use the target theme-specific phonological elements of the current content appropriately, spontaneously and effectively when communicating with others.*

ENG.6.5.R1. Students can get ready for the reading-comprehension process about the current content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”.

- a) *Students activate their pre-existing knowledge and past experiences related to the current theme and content efficiently.*
- b) *Students recognise significant relationships between their pre-existing knowledge, past experiences and clues to the current content.*
- c) *Students make significant preliminary predictions about the current content based on recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring the audio-visual clues surrounding it.*

ENG.6.5.R2. Students can bring information about the current content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” through skimming (looking quickly at) the audio-visual elements and reading the content very quickly.

- a) *Students review the current content by looking at the surrounding audio/visual materials to identify what it is about in general through skimming.*
- b) *Students read the current content to scan the major components silently and quickly with the help of the clues provided.*
- c) *Students carefully read the current content silently and carefully to find significant details and components belonging to the theme.*

ENG.6.5.R3. Students can make meaning of / derive meaning from the current content about “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” by reading it carefully.

- a) *Students carefully check the current content in detail for the accuracy of initial and detailed predictions that are made earlier.*
- b) *Students classify the significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- c) *Students compare significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- d) *Students recognise significant horizontal/vertical/spiral relationships within the current content that contribute to the perception of the content in a meaningful way.*
- e) *Students make meaningful inferences from the information in the current content by examining it carefully.*
- f) *Students internalise the information in the current content in an individualised and appropriate way according to age and language level.*

ENG.6.5.R4. Students can convey their knowledge, experiences, thoughts, and feelings related to the reading-comprehension process about the current content, “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process.*
- b) *Students convey the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process by sharing them with others.*
- c) *Students produce new products related to the current reading-comprehension content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.5.V1. Students can select and use the target vocabulary of the current content about “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students guess the main topic of the current content from the audio/visual/written elements (e.g. sound, voices, scenes, written words) in the contextual material by listening (to)/watching/reading it several times for recognition.*
- b) *Students recognise sub-themes/key components of the target words to which they belong in the current content by scanning.*
- c) *Students recognise the target words related to the main components of the current content with the help of the audio/visual/written elements and other clues.*
- d) *Students repeat aloud the relevant target key components and target vocabulary in the current content with the whole class, in groups, and then individually together with or after listening (to)/watching/reading the source material.*
- e) *Students recognise the use of target words and expressions in the current content by making various guesses with the help of supplementary elements.*
- f) *Students make context-appropriate selections automatically by associating target words with their pre-existing conceptual meanings in the mind without analysing their contextual meaning in detail.*
- g) *Students use the target words spontaneously and appropriately in different communicative contexts by being aware of their differences when communicating with others.*

ENG.6.5.G1. Students can select and use the target grammatical elements of the current content about “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students become familiar with the current content by listening (to)/watching/reading it a few times attentively.*
- b) *Students listen (to)/watch/read the same content, attentively and mindfully, including the use of target grammatical chunks presented verbally in context with the help of body language.*
- c) *Students verbally and automatically repeat simple and meaningful clauses/sentences containing target grammatical chunks that they have noticed in the current content that they have heard/viewed/read without explicit knowledge of the rules.*
- d) *Students act out physically the clauses/sentences containing the target grammatical chunks in the current content heard/viewed/read by repeating them several times without knowing, analysing, and thinking about their rules.*
- e) *Students see and read the example sentences containing target grammatical chunks provided for language awareness carefully.*
- f) *Students gain awareness of clauses/sentences that contain target grammatical chunks that are presented for the purpose of raising language awareness.*
- g) *Students recognise the clauses/sentences containing the target grammatical chunks when they encounter them by seeing and/or hearing them in different contexts.*
- h) *Students use the recognised target grammatical chunks naturally, authentically, and automatically in new contextual tasks and activities without analysing their rules.*
- i) *Students produce new and meaningful verbal/written content about the current theme by using the target grammatical chunks in meaningful tasks without knowing and analysing their rules.*
- j) *Students use the target language chunks authentically, automatically, and naturally in communication processes without analysing their rules in meaningful contexts.*

ENG.6.5.W1. Students can get ready for the writing-expression process about the current content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”.

- a) *Students relate their pre-existing knowledge and experience used in the initial processes of writing-expression skills to the current content by activating them in relation with the current content.*
- b) *Students understand what the writing task and its content are in relation to the current content correctly by making use of their pre-existing knowledge and experience as guided and assigned.*

ENG.6.5.W2. Students can understand the model/example for the writing task about the current content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”.

- a) *Students understand the components and details of the content in the provided model/sample which is displayed as a guide, by examining it carefully.*

ENG.6.5.W3. Students can organise a content for the assigned writing task on the current content “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” based on the model/example provided.

- a) *Students conduct preliminary research for a prepared writing situation according to the current content appropriate to the assigned writing type, age, and language level.*
- b) *Students develop a simple draft for a prepared/or unprepared writing task about the current content appropriate to the assigned writing type, age, and language level.*
- c) *Students organise and/or produce materials relevant to the content for a prepared/or unprepared writing task, appropriate to the assigned writing type, age, and language level.*

ENG.6.5.W4. Students can individually construct/form content for the assigned writing task on the current content “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”.

- a) *Students present appropriate and accurate materials for a prepared and/or unprepared writing task about the current theme according to the assigned writing type, age, and language level.*
- b) *Students use appropriate discourse forms, styles, and rules relevant to the assigned writing type for a prepared and/or unprepared writing task.*
- c) *Students use target words and grammatical language chunks accurately and appropriately for a prepared and/or unprepared writing task about the current content by selecting them according to the assigned writing type, age, and language level.*
- d) *Students express important messages in the written current content to the reader accurately and appropriately for a prepared and/or unprepared writing task.*

ENG.6.5.W5. Students can reorganise (reconstruct) and use information in the new written tasks about the “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” to communicate with other people.

- a) *Students use the information in the current content or similar information in a different content by internalising and selecting it individually and reorganising it as required and meaningfully in different contexts.*
- b) *Students exchange information/ideas in written communication by sharing reconstructed meaningful knowledge meaningfully with others.*

ENG.6.5.W6. Students can reflect on their knowledge, experiences, thoughts, and feelings related to the writing-expression process about the current content, “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings reviewed in relation to the current writing-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings reviewed in relation to the writing-expression process about the current content with others.*
- c) *Students produce new written products related to the current writing-expression content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.5.S1. Students can get ready for speaking-expression process about the current content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”.

- a) *Students make connections with the current content by activating their pre-existing knowledge and experiences that they have recalled in the listening (to)/watching/reading sections previously.*

ENG.6.5.S2. Students can use the model/example for producing verbal content about the current content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”.

- a) *Students listen (to)/watch/read the model/example for the current content with the help of audio/visual/written elements.*

ENG.6.5.S3. Students can organise a new verbal content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” by speaking accurately, efficiently, and authentically.

- a) *Students recognise what form and type of content is expected and assigned for prepared/unprepared speaking situations based on audio/visual/written content as provided in the model/example.*
- b) *Students organise the content for prepared/unprepared speaking situations in an appropriate and accurate way as they have heard/seen/read in the model/example.*
- c) *Students develop a draft for prepared/unprepared speaking situations, appropriate to the age and language level as presented in the model/sample content.*
- d) *Students organise supplementary audio/visual/written materials for prepared/or unprepared speaking situations, appropriate to age and language level, as provided in the model/sample content.*
- e) *Students organise the information about the current content to be presented for prepared/or unprepared speaking situations in an appropriate way as required.*

ENG.6.5.S4. Students can construct a new verbal content on “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” by speaking accurately, efficiently, and authentically.

- a) *Students use target pronunciation, vocabulary, language chunks, and forms of discourse related to the current content effectively by selecting them accurately and appropriately for prepared/unprepared speaking situations.*
- b) *Students present individually prepared content in an accurate and efficient way as presented in the model/example for prepared speaking situations clearly, efficiently, and appropriately.*
- c) *Students present individually prepared information in an accurate and efficient way as presented in the model/example for unprepared speaking situations.*
- d) *Students express the message about the current content clearly to the reader by using all supplementary elements and body language in an appropriate and accurate way in context for prepared and/or unprepared speaking situations.*

ENG.6.5.S5. Students can reorganise (reconstruct) and use information about the “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” to communicate with other people.

- a) *Students use the information presented in the current content by reorganising it appropriately, efficiently, individually, and verbally in different contexts.*
- b) *Students engage in appropriate and efficient verbal communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.6.5.S6. Students can convey their knowledge, experiences, thoughts, and feelings related to the speaking-expression process about the current content, “life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” to communicate with other people in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings examined carefully in relation to the current speaking-expression content and process.*

- b) *Students share the knowledge, experiences, thoughts, and feelings examined carefully in relation to the speaking-expression process about the current content with others.*

CONTENT FRAME

LIFE IN THE NEIGHBOURHOOD AND CITY

Sub-themes: festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for festivals and events in the neighbourhood and city:

Nouns: A festival, an audience, a musician, a platform, a wedding, jazz, pop, rock, rap.

Verbs: To celebrate, to perform, to raise (money), to organise, to practice, to ride, to skate.

Adjectives: Pleased, social, tired, creative, local.

Adverbs: Any, better, best.

Vocabulary for transportation in the neighbourhood and city:

Nouns: Means of transport, parking, driving, a sign, a direction, a vehicle, a railway, a link, a tube, underground (official name of tube in Britain)(subway-AmE.), a drive, a ride, a van, a ship, a lorry (truck-AmE.), a motorcycle, a wheel, gas, petrol, an overpass, an underpass, tram (trolley-AmE.).

Verbs: To catch, to cross, to ride, to link, to count someone in, to hang on, to rush.

Adjectives: Pleased, crowded, social, tired, creative, local.

Phrases: Public transport.

Adverbs: Along, straight, past, slowly.

Target Grammatical Structures in Use:

-The Simple Past Tense (was-were): (The train was late yesterday because of the rain. The guests were pleased with the meals).

-Wh- questions (why, when): (What did they celebrate last night? When did the lorry cross the overpass?)

-Gerunds and infinitives: (I enjoy listening to rock music at festivals. We planned to raise money for the jazz performers).

-Question tags for the Simple Past Tense (to be): (The festival was amazing, wasn't it? There weren't many people at the wedding, were there?)

-Prepositions (prepositions of place: at, in, on, in front of, under, behind, among, beside, near, next to, between, across, into, through, onto, out of. Prepositions of time: on, in, for, at; Prepositions of phrases: on foot, by car): (The truck stopped near the railway crossing. The audience sat on the grass during the concert. The jazz concert started at 7 p.m. last night. He travelled to the city park by car with his family. She walked across the road to catch the bus-AmE.).

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Functions of the Grammatical Structures in Use:

-Use of the Simple Past Tense (was-were): Describing past events, states, or conditions.

-Use of Wh questions (why, when): Asking for reasons or time-related information about events, actions, or situations.

- Use of Gerunds and infinitives: Talking about likes, dislikes, plans, and actions.
- Use of Question tags for past tense (to be): Confirming or seeking agreement about past events or states.
- Use of Prepositions (prepositions of place: at, in, on, in front of, under, behind, among, beside, near, next to, between, across, into, through, onto, out of and prepositions of time: on, in, for, at; prepositions of phrases: on foot, by car): Describing the location and time of objects, people, or events.

Target Social Language in Use:

The music festival is the talk of the town!

We were stuck in a traffic jam on the way to the concert!

Can I get a lift to the station?

Target Phonological Sounds in Use:

Vowel: i: (/aɪ/, /ɪ/, /i:/)

Consonants: f: (/f/); g: (/g/, /dʒ/); h: (/h/); j: (/dʒeɪ/, /dʒ/); k: (/k/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme.)

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “life in the neighbourhood and the city” and its components such as “festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “life in the neighbourhood and the city” and its components such as “festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts

festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will create a poster or a short presentation about a festival or event in their neighbourhood or city and explain how people can travel to this event using different transportation options. Students will include details about the festival or event, such as its name, type (sports, music, arts), time, and location. They will describe at least two transportation methods available, explaining which one is better for the event and why. Students will also add pictures or drawings to make their work visually appealing and informative. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “life in the neighbourhood and the city” and its components such as “festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”. As they are lower secondary school students in year 6 (six), they can know what “life in the neighbourhood and the city” and its components such as “festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand,

and learn them more easily in a foreign language, in this case English.

As they are students in year 6 of lower secondary school, they can know some basic vocabulary about “life in the neighbourhood and the city” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in the neighbourhood and the city” and its components such as “festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “life in the neighbourhood and the city”. Therefore, a dialogue game can be played to revise all vocabulary and language grammar items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and grammatical items to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students can recall the current (theme) concept of “life in the neighbourhood and the city” and its components such as “festivals and events in the neighbourhood and city; transportation in the neighbourhood and the city” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the current theme in English without translating anything until they start learning the target words in the current (new) concept in English.

To remind them of the pre-existing background knowledge they already have about the current concept, various materials such as short scene from a film, series, a part from a story, a poster etc. which is appropriate to the age, level, and pedagogy could be used before the main teaching/learning flow of the class begins. They would give a general idea of the theme. Students are facilitated with the relevant materials through various activities. When they have finished working on it, the teacher asks them in English if they understood what it was about. For checking their understanding, she/he can design several activities. For instance, they can write a related word that they know in English on a piece of paper and put it in the jar/box that she/he has prepared. Alternative ways can be tried.

The teacher asks them to wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “life in the neighbourhood and the city” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being. This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote/a very short story, watching a pantomime/cartoon story, etc. that has no relation or connection to the current theme and does not require any knowledge of English **(D2.5, SELS2.1, V12.1, LS2, LS4)**.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills (listening/watching-comprehension, reading-comprehension, speaking-expression, writing-expression, vocabulary selection and use, grammar selection and use, pronunciation selection and use) are used in an integrated way around “life in the neighbourhood and the city” and sub-themes “festivals

and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG6.5.L1.

PREPARING FOR LISTENING/WATCHING-COMPREHENSION: Having seen a visual about and having guessed the topic of “life in the neighbourhood and the city” during the background recall session, students can have a vision of the current theme as a general concept in the current (new) theme **(D3.2, SELS1.1, V3.2, V10.3, V14.3, V16.2, LS1, LS4, CS2.11, CS2.16.2)**. So, a further concept check with listening/watching for gist activities including more guessing games using clues from some pictures, realia, short video clips etc. help them prepare for the current theme **(CS2.6, CS2.8)**. For each theme, a digitally constructed story is used as the main context of the theme, and it is visited several times while going through the theme to cover target pronunciation, vocabulary, grammar, social language expressions, and semantic meaning of the whole theme **(CS2.14)**. It is both an entry material and the main context to the whole theme at the same time. The teacher asks them whether their guesses during the background recall session were correct and also what they think the introductory digital story that they are going to watch could be about **(CS2.8)**. As they have already seen a scene from a film about the theme and the pictures, realia, etc. they can easily answer what the current theme will be about and that their guesses were true **(D1.2, D1.6, D2.3, D3.2, SELS1.2, V3.3, V3.4, V10.3, V14.3, V16.2, LS2, LS4, CS2.10, CS2.17)**.

ENG6.5.L2.

BRINGING INFORMATION TOGETHER THROUGH LISTENING/WATCHING: The teacher asks the students to watch the introductory digital story carefully, recalling the work done with visuals (the scene from a film, pictures, realia, or video clips about the theme shown earlier) **(CS2.11)**. Students watch the introductory digital story to consolidate the identification of the “life in the neighbourhood and the city” in it as a whole **(CS2.13)** without stopping the video at any point, so that the students can understand the theme holistically **(D3.2, SELS1.1, V3.3, V3.4, V10.3, V14.3, V16.2, LS2, LS4, CS2.14, CS2.16.2)**.

ENG6.5.L3.

MAKING MEANING THROUGH LISTENING/WATCHING-COMPREHENSION: To draw students’ attention to the content, some realia brought into the classroom by the teacher could be used **(V10.3, V14.3, V16.2)**. The teacher could show the corresponding objects to the students when the corresponding vocabulary for the main components of the theme “life in the neighbourhood and the city” is mentioned in the introductory digital story, without stopping the video while the students watch the story **(CS2.6)**. When they have watched the whole story, the teacher could show the realia items on the table and ask questions with two options **(CS2.5)**. As one of the words is from the previous themes, students could hear, understand, recognise and learn the (new) target vocabulary for each main component of the theme easily **(CS2.1)**. In this way, the teacher could engage in a dialogue with the whole class to check that they have recognised the components of the theme, and that they have understood each realia item is about one component **(CS2.8)**. Further activities and games can be played at this stage to reinforce the general meaning of the theme through its main components **(D1.1, D2.5, SELS2.1, V3.4, LS1, LS2, LS4)**.

To check whether the students understand the general topic of the theme “life in the neighbourhood and the city” and remember the sequence of the scenes of the introductory digital story, the teacher shows an organiser with the mixed images/pictures of the scenes on the Smart Board and asks the students to look at the images/pictures of the scenes for a while **(CS2.3)**. She/He then asks them to order the scenes in pairs in their seats with the mixed paper pictures she/he has already given to the students **(SELS2.2, V3.4, V4.2, LS1, LS4, LS6)**. When the pairs have finished sorting the pictures for the scenes of the story, the teacher asks the students to take turns or volunteer to sort the scenes on the screen of the Smart Board (or the pictures on the blackboard) **(SELS1.2, CS2.6, CS2.10)**. This will help the students to organise the story as a whole so that they can identify the main theme and the components of the theme from their memories **(D1.2, D1.6, D2.3, V16.3, V20.4, CS2.12)**.

ENG6.5.L4.

REFLECTING ON THE LISTENING/ WATCHING PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole listening–watching process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3, V3.4)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS1.2, SELS2.2, V4.2, V4.3, V12.1, LS5, LS6)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V10.3)**.

ENG6.5.P1.

RECOGNITION OF TARGET PRONUNCIATION: To practise pronunciation of the new target words, word groups, language chunks, and social language expressions about the theme “life in the neighbourhood and the city” and the words and/or word groups for the sub-themes “festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”, the teacher asks the students to listen (to)/watch the whole or some extracts from the introductory digital story by noticing how words are pronounced **(V3.3, V10.3, V14.3, V16.2, LS4, CS2.6)**. She/He asks them to repeat the word aloud when she/he stops the video for a word and says it. The teacher then asks the students to listen and repeat the same words aloud a few times as a whole class after listening to the recordings that she/he has prepared beforehand using some Web 2.0 programmes **(LS2, CS2.16.3)**. The teacher could offer variations with some techniques such as showing the picture of the target word to the students to say the word or pointing to the corresponding picture when they hear the word from the recording, and then both **(CS2.8)**. To help the students pronounce the words accurately, the teacher asks them to repeat each target word aloud a few times as a whole class after her/him or the recording, then in large groups, then in small groups and then again as volunteers **(D3.2, D3.6, SELS1.2, SELS2.1, V4.2, V20.4, LS1, CS2.14)**.

SELECTION AND USE OF TARGET PRONUNCIATION: Practice of pronunciation could be done with different forms of TPR, gamification and drama activities, e.g. first the teacher says the target words/word groups for the sub-themes “festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city”, the students listen **(CS2.9)**; then the teacher says the target words/word groups and acts them out, the students repeat after her/him **(SELS2.1, CS2.14)**. Then the teacher and the students say the target words/word groups and act them out together at the same time. Then the teacher says the words/word groups and acts them out. These activities can be done through the actions for the sub-themes **(D2.3, D2.5, V3.3, V10.3, V14.3, V16.2)**. As a variation, they can also repeat the words after the teacher happily, sadly, angrily, etc. using different tones of voice **(SELS2.3, CS2.8, CS2.11)**. They also practise for the target social language chunks using the same or similar techniques. During the repetitions, they point to relevant pictures that the teacher has placed in different places in the classroom **(CS2.12)**. Some action sequences are also created in which the students can practise the social language in a fun way by repeating, pointing, miming, and acting out in several games **(SELS2.1, V7.2, LS5, LS6, LS9)**. The teacher

facilitates some activities with dialogues and games in which students can practice the target pronunciation by selecting and using them accurately, naturally, and authentically **(CS3.1)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound drills **(SELS2.2)**. The target sounds such as vowels, consonants, and diphthongs of the theme are practised through them **(CS2.13)**. Their learning is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum **(D1.2, D1.6, D2.5, V3.4, LS1, LS2, LS4)**.

ENG6.5.R1

PREPARATION FOR THE READING-COMPREHENSION PROCESS: The teacher facilitates reading and writing activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts. Reading is done in two ways in the theme by using the written version of the introductory digital story and additional reading texts in reading sections of the instructional material to be used **(V3.2, LS2, LS4)**. Various reading styles including silent reading, speed reading, jigsaw reading and basic reading techniques including skimming, scanning, and reading for details during pre-reading, while-reading and post-reading phases are used in the theme **(V3.4, LS1, CS2.3, CS2.6)**. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop pre-critical thinking skills and critical thinking skills and the ability to comprehend and talk/write about the content in a meaningful and communicative way **(V3.3, V7.2, LS5, CS3.3)**. For the initial stage of reading, the teacher asks the students to look at the audio/visual/written elements (e.g. sound, voices, scenes, title of the text, written words) surrounding the written version of the contextual introductory story or a new text in the reading section of the instructional material to be used for skimming to recall the conceptual meanings they already have about the theme **(CS2.8)**. At this stage, the teacher could ask the students to read the title of the theme and ask the students which words they already know, and which come to mind in connection with the title **(SELS1.1, CS2.16.2)**. She/He reminds them not to ask the meanings of any new words or the words they do not know. She/He reminds them that this is just a guessing activity by using the words they know and that there is time to work on the new words of the new theme later **(D3.2, D3.6, V3.4, CS2.10, CS2.12)**.

ENG6.5.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students go on with a scanning activity to find out the most important details of the introductory digital story and/or a new text in the reading section which is organised to help students to know more about the reading content **(CS2.6, CS2.7)**. In this way they could be able to recognise the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story **(CS2.4)**. By doing so, they will be able to understand the story/text in general using the main elements **(D3.2, D3.6, V3.3, V3.4, LS1)**.

ENG6.5.R3.

MAKING MEANING THROUGH READING: Then the teacher asks the students to do a jigsaw reading activity, so she/he shows the written version of the introductory digital story or the text in the reading section on the blackboard/Smart Board (or in any other teaching material). She/He asks the students to work in pairs to share the text **(SELS2.2)**. One peer reads the first half of the text and the second peer reads the other half of the text in a given time **(CS2.6)**. They are then asked to share what they have understood from their part with their peer, also in a given time. In this way, they talk about the whole story after reading it silently, in the jigsaw reading style **(D2.4, D3.6, V3.4, V4.2, V16.2, LS1, LS6, CS2.8, CS2.9)**. Some speed-reading activities can be used to develop students' reading and comprehension skills. These activities can be evaluated as explained in the item (6) in the section 1.2. Principles for the Implementation of the English Curriculum. After sharing their parts, students proceed with the activities for dealing with the target vocabulary, grammatical

chunks, and semantic meaning relatively with the help of the teacher **(CS2.14)**. For dealing with the semantic meaning, the teacher facilitates the lesson with meaningful activities including closed, semi-closed, free, open-ended, and communicative ones **(SELS2.1)**. From display to communicative open-ended, various types of questions are used to understand the meaning of the text **(SELS3.1, SELS3.2, CS2.6)**. During this process students work collaboratively to exchange information, thoughts, and feelings **(D3.2, D3.7, V3.3, V7.2, V20.2, LS2, LS4, CS2.8)**.

ENG6.5.R4.

REFLECTING ON THE READING-COMPREHENSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole reading-comprehension process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(D 2.3, D3.5, V4.2, V6.2, V10.3, V12.1, LS1, LS6)**.

ENG6.5.V1.

PREPARATION TO WORK ON THE TARGET VOCABULARY: At this stage, students remember what the theme is about through the activities that they have done during the background knowledge, pre-listening/watching, and pre-reading sessions **(SELS1.1)**. As they know the main topic, they get ready to deal with the main components and target vocabulary of the theme **(V3.2, LS1)**.

RECOGNITION OF THE TARGET VOCABULARY: A scanning activity to find out the main details of the introductory digital story (and/or a new text in the reading section) is organised to help students to know more about the content. This could help them identify what the target words in the text could be about. The activity could be designed by listing some important pictures, words or events about the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story. In this way, they will be able to understand the story/text in general by using the main elements and also be ready to work on the target vocabulary items **(D3.2, D3.6, LS1, LS2, LS4, LS5, CS2.4, CS2.6, CS2.7)**. Then the students read the written version of the digital story again silently, (or the reading text in the reading section), to check whether they know any of the target vocabulary items about the theme **(V10.3, V14.3, V16.2, CS2.8)**. They underline the words whose meaning they do not know while reading silently **(CS2.17)**. Students say these words when they finish reading and the teacher writes these words on the Smart Board/blackboard/ white board as they say them. The teacher writes only the target words on the Smart Board/blackboard as active words that the students have said. She/He quickly deals with the non-target passive vocabulary items by using pictures, mimics, gestures, imitations, examples, etc. But she/he takes time to facilitate the teaching of the target words **(D1.2, D1.6, D3.2, V3.3, V3.4, LS2, LS4, CS2.4, CS2.5, CS2.7)**.

To introduce and practise the meanings of the target vocabulary related to the theme, that the students do not know, the teacher asks the students to watch the introductory digital story (or the video of the reading text if there is one) again. From the beginning, whenever a target item is mentioned, the teacher stops the video and asks several questions in the form of two options, one of which is a word from the previous themes that they already know **(V10.3, V14.3, V16.2, CS2.16.1, CS2.6)**. By guessing what they are, the students hear the English equivalents of the words for the theme and they answer as a whole class in chorus. In this way, they are introduced to the meanings of the target words **(D1.2, D1.6, D3.7, CS2.10)**. This is conducted in the form of a dialogue where their learning can be checked as described in items **(SELS2.1)** (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum **(V3.3, V3.4, V10.3, V14.3, V16.2, LS1, LS2, LS4)**. After having watched the introductory digital story, the teacher shows some pictures for the sub-themes, on the walls as clues and says the words aloud several times in sentences by pointing to the

pictures and the students repeat after her/him **(D2.3, V10.3, V14.3, V16.2, CS2.6, CS2.11)**. In this way, the main vocabulary items of the theme are introduced to the students in English as described in item (3) in the section 1.2. Principles for the Implementation of the English Curriculum **(V10.3, V14.3, V16.2)**.

SELECTION AND USE OF TARGET VOCABULARY: The teacher can prepare an activity using the Web 2.0 programme with images/pictures, and symbolic images for some categories about the components of the theme “life in the neighbourhood and the city”. She/He also prepares mixed images/pictures for target vocabulary items for the activities which can be done in relation to the components. She/He asks the students to look at the mixed pile of images/pictures of the main components of the theme on the Smart Board screen and scan them for a while to remember them **(V10.3, V14.3, V16.2, CS2.4)**. She/He explains to the students that the items will be placed under the correct category, but first she/he gives the students the cut-out pictures of the activities and a large sheet of paper with the categories written on it and the cut-out pictures will be placed under each category correctly **(V3.3, L2, LS4, CS2.5)**. The teacher asks them to work in pairs and place the cut-out pictures in the right category and ask each other some questions about the theme **(D3.2, D3.8, SELS2.2, V10.3, V14.3, V16.2)**. When the students have finished working with the cut-out pictures and asking and answering questions about them, the teacher asks them to take turns or volunteer to go to the Smart Board and drag the corresponding images/pictures under the right category on the screen **(SELS1.2, V3.4, V20.4, LS1, LS4, CS2.5)**. In this way, images/pictures that are relevant to the main concept and its components are consolidated through categorisation. This activity can be done with real pictures on the white/blackboard if there is a problem with technology. The teacher asks the students to copy the words next to the pictures they have pasted or drawn in their picture dictionaries and then asks them to exchange their picture dictionaries with their peers and check each other’s spelling **(D3.2, SELS1.2, SELS2.2, V4.2, V4.3, V6.2, LS9)**. To consolidate the meaning, selection, and use of the new target vocabulary items, the teacher could organise activities and tasks using pictures, flashcards, sounds, realia, and any other materials to play games such as Bingo, Pelmanism, King’s game, Odd One out, Wordscapes, Scrabble, Pictionary, Letter Scramble, Acronyms, Charades etc. Games could be adapted according to the teacher’s objectives (pronunciation, spelling, meaning, selection, use etc.), age, interests and language level of the students **(CS2.13)**. Students can be asked to create their own games to use the target vocabulary items in context **(D2.5, D3.3, SELS3.1, SELS3.2, V4.2, V4.4, V7.2, V10.3, V14.3, V16.2, LS9, CS2.20)**. Students’ learning can be checked as described in items (3), and (4) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.5.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS: To draw the students’ attention to the target language chunks of the theme “life in the neighbourhood and the city”, the introductory digital story or an extract from it played so that the students can notice the target language chunks **(D3.2, CS2.2)**. While watching the introductory digital story, the teacher stops at the scenes where the target language chunks are used. She/He imitates the action by showing the scene, saying the chunk, and asking the students to do the same **(V3.2, LS2, CS2.14)**. She/he could hold up large pictures corresponding to the chunks when they are mentioned in the digital story to draw the students’ attention. The sentences with the target chunks are also written and placed on the Smart Board/blackboard/ whiteboard. The teacher also points to these sentences while pointing to the scenes in the story where they appear. There is no analysis or teaching of grammatical structures at this stage. Students can automatically and naturally identify the use of the target language chunks in the current context created in the introductory digital story without working on any rules or structures **(SELS3.1, V3.4, LS1, LS4, CS2.3, CS2.4, CS2.16.2)**. To check the students’ identification of the target language chunks, after the students have finished watching the introductory digital story, the teacher asks them to read the sentences with the target language chunks written by the teacher on the Smart Board /blackboard/whiteboard and asks them to find the same or similar sentences in the written version of the introductory digital story or another text that is shown on the Smart Board **(D3.2, SELS3.2, V3.3)**. She/He also asks them to find the same or similar sentences with these chunks which are given in different types of

tables prepared by the teacher **(CS2.7)**. These tables do not include any explanations of grammatical rules, explanations, or formulas, and they only contain example sentences with target chunks in which important words with the target grammar are written in bold or different colours to attract students' attention. The teacher asks them to look at the words in bold or in different colours and asks students to examine them **(CS2.9)**. Then the teacher asks the students to copy these sentences with target chunks written in bold or different colours into their notebooks. The teacher asks the students to make very similar sentences using the target words and asks them to share their sentences with each other in pairs, and then with the class **(SELS2.2, SELS3.2, D3.2, V4.2, CS2.13, CS2.14, CS2.16.1, CS2.16.2)**. Both the teacher and the class members give feedback to the students as they say their sentences **(CS2.19)**. The teacher gives all students a checklist with simple symbols to evaluate each other's work as explained in the items (5) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum **(V4.3, V6.2, V10.3, LS6)**.

SELECTION AND USE OF THE TARGET GRAMMAR: To facilitate students' further practice with the target language chunks in the theme "life in the neighbourhood and the city", the teacher shows some other sentences with these chunks in another context such as a short story, a short paragraph, and a short dialogue etc. and asks students to find the sentences with the target chunks in them and asks if they understand them **(SELS3.2, V3.3, V10.3, V14.3, V16.2, CS2.4, CS2.6, CS2.8)**. She/He gives some written activities and exercises to practise the target chunks in context. She/He also facilitates more fun activities and as described in items (5), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. To consolidate the target language chunks, the teacher organises different fun activity and game bundles that the students can practise and consolidate them **(CS2.13)** where their learning can be checked as described in item (10) in the section 1.2. Principles for the Implementation of the English Curriculum **(D2.5, V4.4)**.

ENG6.5.W1.

PREPARATION FOR THE WRITING-EXPRESSION SESSION: Practising through writing: Writing activities help students to produce and display meaningful written language for their personal expression and communication with others, by using language including target words, grammatical structures in use and the social language in this theme, as in other themes **(V3.2, V10.3, V14.3, V16.2)**.

ENG6.5.W2.

RECOGNISING THE MODEL: Initially, students produce very limited and short pieces of writing such as sentences to practise the language including the target vocabulary and grammatical structures, after hearing and seeing them through listening and reading activities in the theme "life in the neighbourhood and the city". They practise the language in a more controlled way in the beginning, by writing to repeat or simply explain what they hear and see in context and what they are asked to do. They are provided a written model/ example to copy to be able to notice significant points and elements in it **(SELS3.1)**. While copying a short model writing, they become aware of the aspects such as the use of words, language chunks, punctuation, spelling and so on **(D3.1, V3.4, LS1, CS2.4, CS2.16.3)**.

ENG6.5.W3.

CREATING THE WRITING CONTENT: Controlled writing of words and sentences turns to short paragraphs in a process writing manner with the support of the teacher's feedback in the theme. This process is expanded and supported by several practical activities. New contexts in the form of written/photo-picture strip/ pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(D1.3, D3.1, SELS3.2, V3.4, V4.4, V7.2, LS2, LS4, LS9, CS2.20)**.

ENG6.5.W4.

CONSTRUCTING AND PRACTISING WRITING: Storification and gamification techniques are actively and extensively used for further writing practice tasks. Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, projects, scripts for plays, diaries/journals, blogs, very short film scenarios, etc. to express their ideas, thoughts, and feelings **(D2.5, D3.3, SELS3.2, CS2.13)**. All the content is expected to be contextual, practical, authentic, real, and appropriate to the students' interests and language level **(V3.4, V7.2, V12.1, LS1, LS4, LS9)**.

ENG6.5.W5.

RECONSTRUCTING AND COMMUNICATING THROUGH WRITING: Students interact and communicate with peers and/or other people inside or outside school by using the language including the target words, language chunks, and the social language for the theme in their writing **(SELS2.2, SELS2.3, V3.4, V4.2, V10.3, V14.3, V16.2, LS9, CS2.20)**. AI- based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home in a variety of ways **(D3.3, SELS3.2, SELS3.3, V7.2, LS2, CS2.20)**. These activities are evaluated as described in items (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.5.W6.

REFLECTING ON THE WRITING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole writing-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them **(D1.5, SELS1.3, CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V4.3, V6.2, V10.3, V20.4, LS1, LS6)**.

ENG6.5.S1.

PREPARATION FOR SPEAKING: The teacher facilitates speaking activities throughout the theme from the first lesson to the end. Speaking activities enhance students' learning and help them produce and display meaningful language for personal expression and communication with others by using the language including the target words, grammatical structures in use and the social language expressions of the theme about "life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city" **(V3.2, V3.4, V10.3, V14.3, V16.2)**.

ENG6.5.S2

RECOGNISING AND USING THE MODEL: In the beginning, through listening/watching and reading, students recognise how the language with the target language items is used **(CS2.6)**. They practise the language in a controlled way, by telling, repeating, explaining what they hear and see in the context **(D1.3, D3.2, SELS3.1, V3.3, LS1, LS2, LS4, CS2.4)**.

ENG6.5.S3

CONSTRUCTING SPOKEN CONTENT: In the later stages of the lessons after controlled practice sessions, the teacher creates new contexts in the form of new written/photo-picture strip/pantomime/video stories, dialogues etc. as new opportunities for the students to talk about them for practising further through questions, explanations, inferences etc (**D1.3, SELS3.2, V3.4, V4.2, V7.2, V12.1, LS1, LS4, LS9, CS2.13**).

ENG6.5.S4.

CONSTRUCTING SPOKEN MATERIALS: Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme "life in the neighbourhood and the city with festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city" (**SELS2.2, SELS3.2, V4.2, V10.3, V14.3, V16.2, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings (**D1.2, D1.6, D3.3, V7.2, LS2, LS9, CS2.20**).

ENG6.5.S5.

RECONSTRUCTING AND COMMUNICATING THROUGH SPEAKING: Students communicate with each other by seeing/hearing/reading/using the language including the target words and grammatical structures related to the theme "life in the neighbourhood and the city" in fun, enjoyable, varied, and versatile activities (**SELS2.3, CS2.20**). Picture strip stories can be used at the end of each theme to provide a consolidation and revision (**V3.4, V4.2, V12.1, LS1, LS4, LS9, CS2.13, CS2.14**). These new contents created are contextual, practical, authentic, real, and appropriate to the students' age, interests, and language level. Storification and gamification techniques are actively and extensively used together with other further speaking practice throughout the theme. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact and to communicate with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme and its components such as "festivals and events (sports, music, arts) in the neighbourhood and city; transportation in the neighbourhood and the city" (**V3.4, V4.2, V10.3, V14.3, V16.2, LS4, V10.3, V14.3, V16.2, CS3.1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings (**D2.5, D3.3, SELS3.3, V7.2, LS2, CS2.20**). These are evaluated as described in items (7), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. Then they can expand their language use and practise by communicating with others.

ENG6.5.S6.

REFLECTING ON THE SPEAKING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole speaking-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them (**SELS1.3, CS2.15**). Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive (**D2.4, D3.5, SELS2.2**). The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design (**V4.3, V6.2, V10.3, V20.4, LS1, LS6**).

DIFFERENTIATION

Expansion

Objective: To practise talking about complex directions in English by using the prepositions of place in a fun and interactive treasure hunt game.

Activity title: Treasure Hunt Adventure

The teacher divides the class into small groups (3-4 students each) and tells them that they are going on an exciting treasure hunt. She/He gives each group a Treasure Hunt Map (a hand-drawn or printed map of a fictional place like a pirate island, a mysterious castle, a hidden city with various landmarks and locations) and a set of Treasure Clue Cards (cards with clues or directions that lead students to the next location or object in the hunt). The cards describe where the next clue or "treasure" (a small object hidden on the map) is located using prepositions of place. Each group goes on a treasure hunt and follows the clues and describes where objects or locations are according to the prepositions of place. The teacher reads the first clue aloud to the class. For example: "The treasure is under the big tree near the castle". Groups discuss and figure out the location based on the clue. Students describe the position of the treasure on their map, using the correct prepositions of place. For example: "The treasure is under the big tree". Once they find the location of the treasure, they check their answer with the teacher. If they are correct, they receive the next clue to continue the hunt. As groups move through the map, they encounter more clues with complex prepositions (e.g., "The hidden door is between the bookshelf and the window" or "The key is behind the painting in the corridor"). The first group to solve all the clues and find the final treasure (a hidden object somewhere in the room or on the map) wins the game. Once all the groups have completed the treasure hunt, ask them to share their favourite clues or most difficult clues with the class. The teacher praises students for their teamwork and creativity during the hunt. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practise talking about complex directions in English by using the prepositions of place in a fun and interactive treasure hunt game.

Activity title: Treasure Hunt Adventure

The teacher divides the class into small groups (3-4 students each) and tells them that they are going on an exciting treasure hunt. The teacher hides a small object, such as a coin, or sticker that will be the final treasure in the classroom or in a specific area. Clue cards are also placed in different spots, each one leading to the next clue. Each clue describes the location of the next clue using a preposition of place. For example: "The treasure is under the desk", "Look behind the door". The teacher gives the class the first clue aloud. For example: "The treasure is under the table". Students follow the clue and find the location described using prepositions. When students find the correct location (e.g., under the table), they read the next clue. Example: "The next clue is behind the bookshelf". As students move from one location to the next, they describe where things are located using prepositions, such as: "The book is on the shelf". The first group to find the final treasure wins the game! Once the treasure is found, the teacher reviews the prepositions of the place used during the activity and discusses any mistakes. She/He provides feedback and praises students for their participation and teamwork! Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 6: LIFE IN THE WORLD & CULTURE

Sub-themes: Countries, nationalities, and languages in the world; food types and events from different parts of the world

This theme is centred on the concept of “life in the world and culture” and covers the sub-themes of “countries, nationalities, and languages in the world; food types and events from different parts of the world”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 10

FIELD SKILLS AND SUPPORTIVE SKILLS

- FLFS1. Listening/Watching-Comprehension
- FLFS2. Reading-Comprehension
- FLFS3. Speaking-Expression
- FLFS4. Writing-Expression
- FLSS1. Grammaticing: Selection and Use
- FLSS2. Vocabulary: Selection and Use
- FLSS3. Pronunciation: Selection and Use

Year 6 is structured based on semi-holistic/semi-inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.6.6.L1. Students can get ready for the listening/watching-comprehension process for the current content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” carefully.

- a) *Students activate their pre-existing knowledge and experience related to the current theme and content by recalling their background knowledge imaginatively in her/his own language without speaking it.*
- b) *Students identify significant relationships between their pre-existing knowledge and experiences and the clues to the current content without translation.*
- c) *Students make predictions about the current content on “life in the world and culture” by using the relationships that they recognised accurately by looking at the provided realia, pictures, and context.*
- d) *Students make predictions about the current content based on the surrounding audio/visual elements in relation to the current theme.*

ENG.6.6.L2. Students can bring information about the current content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” together through significant details and main components while listening/watching it.

- a) *Students comprehend the topic of the current content by listening (to)/watching it as a whole.*
- b) *Students recognise the significant details and components within the whole current content by listening (to) and watching it again in a careful manner.*

ENG.6.6.L3. Students can make meaning of/derive meaning from the current content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” through significant details by listening/watching it carefully.

- a) *Students check any initial predictions related to the current content by being aware of the commonalities between self-predictions and clues provided as visuals surrounding the current content.*
- b) *Students make important and necessary classifications in the current content that help them to understand it better with details.*
- c) *Students make important and necessary comparisons in the current content that help them to understand it better with details.*
- d) *Students recognise significant horizontal/vertical/spiral relationships (if any) within the generally perceived current content with the help of classifications and comparisons made earlier.*
- e) *Students make significant inferences that contribute to the understanding of the meaning of the generally perceived current content.*
- f) *Students construct the meaning of the current content in detail through the classifications/comparisons/inferences made earlier in relation to it.*
- g) *Students internalise the current content in an individualised and appropriate way according to age and language level.*

ENG.6.6.L4. Students can convey their knowledge, experience, thoughts, and feelings examined carefully about the whole listening/watching-comprehension process in relation to the current content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world”.

- a) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content.*
- b) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content by sharing them with others.*

ENG.6.6.P1. Students can select and use the target phonological elements of the current content about “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” accurately, authentically, and naturally through spontaneous decision-making processes and use it in an appropriate and effective way when communicating with others.

- a) *Students listen to the current content by paying attention to the target phonological aspects including pronunciation and intonation of utterances.*
- b) *Students reinforce the target phonological elements by repeating them after the source several times as a whole class, in groups and individually.*
- c) *Students recognise the target phonological elements of the current content when they are heard in different contexts.*
- d) *Students recognise target phonological elements specific to the current content when they are heard in different contexts and use them accurately, authentically, and naturally through spontaneous decision-making processes.*
- e) *Students use the target theme-specific phonological elements of the current content appropriately, spontaneously and effectively when communicating with others.*

ENG.6.6.R1. Students can get ready for the reading-comprehension process about the current content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world”.

- a) *Students activate their pre-existing knowledge and past experiences related to the current theme and content efficiently.*
- b) *Students recognise significant relationships between their pre-existing knowledge, past experiences and clues to the current content.*
- c) *Students make significant preliminary predictions about the current content based on recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring the audio-visual clues surrounding it.*

ENG.6.6.R2. Students can bring information about the current content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” through skimming (looking quickly at) the audio-visual elements and reading the content very quickly.

- a) *Students review the current content by looking at the surrounding audio/visual materials to identify what it is about in general through skimming.*
- b) *Students read the current content to scan the major components silently and quickly with the help of the clues provided.*
- c) *Students carefully read the current content silently and carefully to find significant details and components belonging to the theme.*

ENG.6.6.R3. Students can make meaning of / derive meaning from the current content about “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” by reading it carefully.

- a) *Students carefully check the current content in detail for the accuracy of initial and detailed predictions that are made earlier.*
- b) *Students classify the significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- c) *Students compare significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- d) *Students recognise significant horizontal/vertical/spiral relationships within the current content that contribute to the perception of the content in a meaningful way.*
- e) *Students make meaningful inferences from the information in the current content by examining it carefully.*
- f) *Students internalise the information in the current content in an individualised and appropriate way according to age and language level.*

ENG.6.6.R4. Students can convey their knowledge, experiences, thoughts, and feelings related to the reading-comprehension process about the current content, “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process.*
- b) *Students convey the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process by sharing them with others.*
- c) *Students produce new products related to the current reading-comprehension content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.6.V1. Students can select and use the target vocabulary of the current content about “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students guess the main topic of the current content from the audio/visual/written elements (e.g. sound, voices, scenes, written words) in the contextual material by listening(to)/watching/reading it several times for recognition.*
- b) *Students recognise sub-themes/key components of the target words to which they belong in the current content by scanning.*
- c) *Students recognise the target words related to the main components of the current content with the help of the audio/visual/written elements and other clues.*
- d) *Students repeat aloud the relevant target key components and target vocabulary in the current content with the whole class, in groups, and then individually together with or after listening(to)/watching/reading the source material.*
- e) *Students recognise the use of target words and expressions in the current content by making various guesses with the help of supplementary elements.*
- f) *Students make context-appropriate selections automatically by associating target words with their pre-existing conceptual meanings in the mind without analysing their contextual meaning in detail.*

- g) *Students use the target words spontaneously and appropriately in different communicative contexts by being aware of their differences when communicating with others.*

ENG.6.6.G1. Students can select and use the target grammatical elements of the current content about “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students become familiar with the current content by listening (to)/watching/reading it a few times attentively.*
- b) *Students listen (to)/watch/read the same content, attentively and mindfully, including the use of target grammatical chunks presented verbally in context with the help of body language.*
- c) *Students verbally and automatically repeat simple and meaningful clauses/sentences containing target grammatical chunks that they have noticed in the current content that they have heard/viewed/read without explicit knowledge of the rules.*
- d) *Students act out physically the clauses/sentences containing the target grammatical chunks in the current content heard/viewed/read by repeating them several times without knowing, analysing, and thinking about their rules.*
- e) *Students see and read the example sentences containing target grammatical chunks provided for language awareness carefully.*
- f) *Students gain awareness of clauses/sentences that contain target grammatical chunks that are presented for the purpose of raising language awareness.*
- g) *Students recognise the clauses/sentences containing the target grammatical chunks when they encounter them by seeing and/or hearing them in different contexts.*
- h) *Students use the recognised target grammatical chunks naturally, authentically, and automatically in new contextual tasks and activities without analysing their rules.*
- i) *Students produce new and meaningful verbal/written content about the current theme by using the target grammatical chunks in meaningful tasks without knowing and analysing their rules.*
- j) *Students use the target language chunks authentically, automatically, and naturally in communication processes without analysing their rules in meaningful contexts.*

ENG.6.6.W1. Students can get ready for the writing-expression process about the current content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world”.

- a) *Students relate their pre-existing knowledge and experience used in the initial processes of writing-expression skills to the current content by activating them in relation with the current content.*
- b) *Students understand what the writing task and its content are in relation to the current content correctly by making use of their pre-existing knowledge and experience as guided and assigned.*

ENG.6.6.W2. Students can understand the model/example for the writing task about the current content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world”.

- a) *Students understand the components and details of the content in the provided model/sample which is displayed as a guide by examining it carefully.*

ENG.6.6.W3. Students can organise a content for the assigned writing task on the current content “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” based on the model/example provided.

- a) *Students conduct preliminary research for a prepared writing situation according to the current content appropriate to the assigned writing type, age, and language level.*
- b) *Students develop a simple draft for a prepared/or unprepared writing task about the current content appropriate to the assigned writing type, age, and language level.*
- c) *Students organise and/or produce materials relevant to the content for a prepared/or unprepared writing task, appropriate to the assigned writing type, age, and language level.*

ENG.6.6.W4. Students can individually construct/form content for the assigned writing task on the current content “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world”.

- a) *Students present appropriate and accurate materials for a prepared and/or unprepared writing task about the current theme according to the assigned writing type, age, and language level.*
- b) *Students use appropriate discourse forms, styles, and rules relevant to the assigned writing type for a prepared and/or unprepared writing task.*
- c) *Students use target words and grammatical language chunks accurately and appropriately for a prepared and/or unprepared writing task about the current content by selecting them according to the assigned writing type, age, and language level.*
- d) *Students express important messages in the written current content to the reader accurately and appropriately for a prepared and/or unprepared writing task.*

ENG.6.6.W5. Students can reorganise (reconstruct) and use information in the new written tasks about the “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” to communicate with other people.

- a) *Students use the information in the current content or similar information in a different content by internalising and selecting it individually and reorganising it as required and meaningfully in different contexts.*
- b) *Students exchange information/ideas in written communication by sharing reconstructed meaningful knowledge meaningfully with others.*

ENG.6.6.W6. Students can reflect on their knowledge, experiences, thoughts, and feelings related to the writing-expression process about the current content, “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings reviewed in relation to the current writing-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings reviewed in relation to the writing-expression process about the current content with others.*
- c) *Students produce new written products related to the current writing-expression content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.6.S1. Students can get ready for speaking-expression process about the current content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world”.

- a) *Students make connections with the current content by activating their pre-existing knowledge and experiences that they have recalled in the listening (to)/watching/reading sections previously.*

ENG.6.6.S2. Students can use the model/example for producing verbal content about the current content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world”.

- a) *Students listen (to)/watch/read the model/example for the current content with the help of audio/visual/written elements.*

ENG.6.6.S3. Students can organise a new verbal content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” by speaking accurately, efficiently, and authentically.

- a) *Students recognise what form and type of content is expected and assigned for prepared/unprepared speaking situations based on audio/visual/written content as provided in the model/example.*
- b) *Students organise the content for prepared/unprepared speaking situations in an appropriate and accurate way as they have heard/seen/read in the model/example.*
- c) *Students develop a draft for prepared/unprepared speaking situations, appropriate to the age and language level as presented in the model/sample content.*
- d) *Students organise supplementary audio/visual/written materials for prepared/or unprepared speaking situations, appropriate to age and language level, as provided in the model/sample content.*
- e) *Students organise the information about the current content to be presented for prepared/or unprepared speaking situations in an appropriate way as required.*

ENG.6.6.S4. Students can construct a new verbal content on “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” by speaking accurately, efficiently, and authentically.

- a) *Students use target pronunciation, vocabulary, language chunks, and forms of discourse related to the current content effectively by selecting them accurately and appropriately for prepared/unprepared speaking situations.*
- b) *Students present individually prepared content in an accurate and efficient way as presented in the model/example for prepared speaking situations clearly, efficiently, and appropriately.*
- c) *Students present individually prepared information in an accurate and efficient way as presented in the model/example for unprepared speaking situations.*
- d) *Students express the message about the current content clearly to the reader by using all supplementary elements and body language in an appropriate and accurate way in context for prepared and/or unprepared speaking situations.*

ENG.6.6.S5. Students can reorganise (reconstruct) and use information about the “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” to communicate with other people.

- a) *Students use the information presented in the current content by reorganising it appropriately, efficiently, individually, and verbally in different contexts.*
- b) *Students engage in appropriate and efficient verbal communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.6.6.S6. Students can convey their knowledge, experiences, thoughts, and feelings related to the speaking-expression process about the current content, “life in the world and culture with countries, nationalities, and languages in the world; food types and events from different parts of the world” to communicate with other people in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings examined carefully in relation to the current speaking-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings examined carefully in relation to the speaking-expression process about the current content with others.*

CONTENT FRAME

LIFE IN THE WORLD & CULTURE

Sub-themes: Countries, nationalities, and languages in the world; food types and events from different parts of the world

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for countries, nationalities and languages in the world:

Nouns: A country, a nation, a capital, a flag, a government, a tradition, a heritage.

Countries: Türkiye, England, Germany, Austria, Greece, Turkish Republic of Northern Cyprus, Poland, Denmark, Belgium, the Netherlands, Sweden, India, Spain, Italy.

Nationalities/Languages: Turkish/Turkish, English/English, German/German, Austrian/German, Greek/Greek, Turkish Cypriot/Turkish, Polish/Polish, Danish/Danish, Belgian/Dutch-French-German, Dutch/Dutch, Swedish/Swedish, Spanish/Spanish, French/French, Italian/Italian, Indian/Hindu-English.

Adjectives: National, official, foreign, historic, traditional, worth.

Vocabulary for food types and events from different parts of the world: Nouns: Experience, a cuisine, an ingredient, an appetiser, a main course, a dessert, dumplings, a dish, a competition.

Verbs: To experience, to dry, to heat.

Adjectives: Sour, bitter, incredible, gorgeous, crunchy, high-quality, homemade, spicy, crispy, flavourful.

Adverbs: Everywhere, somewhere, anywhere, nowhere.

Phrases: Enjoy your meal!, street food, food stalls, pop-up markets.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Simple Past Tense: (We enjoyed the delicious cuisine at the street food festival).

-Question tags for The Simple Past Tense (regular verbs): (They visited the capital of Greece, didn't they?)

Functions of the Target Grammatical Structures in Use:

-Use of The Simple Past Tense: Expressing actions, events, or situations that started and finished at a specific time in the past.

-Use of question tags for The Simple Past Tense (regular verbs): Confirming information or asking for agreement about past actions.

Target Social Language in Use:

I had culture shock when we moved to Spain!

We both love football so we speak the same language!

The Topkapı Palace is world famous!

Target Phonological Sounds in Use:

l, m, n, (ng), o, p

Vowel: o: (/əʊ/, /ɒ/, /əʊ/)

Consonants: l: (/ɛl/ /l/); m: (/ɛm/, /m/); n: (/ɛn/, /n/); p: (/pi:/ /p/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Principles/Key Concepts**Generalisations**

The target concept of this theme “life in the world and culture” and its components such as “countries, nationalities, and languages in the world; food types and events from different parts of the world” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower secondary school student will know what “life in the world and culture” and its components such as “countries, nationalities, and languages in the world; food types and events from different parts of the world” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

countries, nationalities, languages, languages in the world, food types, food events, food types from different parts of the world, food events from different parts of the world

INDICATORS FOR LEARNING (Assessment and Evaluation)**EVALUATION FOR THE SKILLS AND THE CONTENT:**

PERFORMANCE ASSIGNMENT: Students will design a creative poster about a country of their choice. The poster will show the country’s name, the nationality of its people, and the language they speak. It will also include a description of a traditional food from the country, detailing its ingredients and cultural importance. Additionally, students will provide information about a cultural event or festival where the food is served, describing the traditions and activities related to it. The poster should be visually appealing with drawings, images, and descriptive text to focus on the unique aspects of the country. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES**Basic Acceptations: Preparedness/ Readiness**

This theme is based on the students’ knowledge of “life in the world and culture” and its components such as “countries, nationalities, and languages in the world; food types and events from different parts of the world”. As they are lower secondary school students in year 6 (six), they can know what “life in the world and culture” and its components such as “countries, nationalities, and languages in the world; food types and events from different parts of the world” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 6 of lower secondary school, they can know some basic vocabulary about “life in the world and culture” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students' physical, cognitive, affective, and social factors are appropriate and suitable for learning about the "life in the world and culture" and its components such as "countries, nationalities, and languages in the world; food types and events from different parts of the world". Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of "life in the world and culture". Therefore, a dialogue game can be played to revise all vocabulary and language grammar items from the themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and grammatical items to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics throughout these practices).

Establishing Links

Students can recall the current (theme) concept of "life in the world and culture" and its components such as "countries, nationalities, and languages in the world; food types and events from different parts of the world" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the current theme in English without translating anything until they start learning the target words in the current (new) concept in English.

To remind them of the pre-existing background knowledge they already have about the current concept, various materials such as short scene from a film, series, a part from a story, a poster etc. which is appropriate to the age, level, and pedagogy could be used before the main teaching/learning flow of the class begins. They would give a general idea of the theme. Students are facilitated with the relevant materials through various activities. When they have finished working on it, the teacher asks them in English if they understood what it was about. For checking their understanding, she/he can design several activities. For instance, they can write a related word that they know in English on a piece of paper and put it in the jar/box that she/he has prepared. Alternative ways can be tried.

The teacher asks them to wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme "life in the world and culture" in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being. This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote/a very short story, watching a pantomime/cartoon story, etc. that has no relation or connection to the current theme and does not require any knowledge of English **(D2.5, SELS2.1, V12.1, LS2, LS4)**.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills (listening/watching-comprehension, reading-comprehension, speaking-expression, writing-expression, vocabulary selection and use, grammar selection and use, pronunciation selection and use) are used in an integrated way around "life in the world and culture" and sub-themes "countries, nationalities, and languages in the world; food types and events from different parts of the world", allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds

on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG6.6.L1.

PREPARING FOR LISTENING/WATCHING-COMPREHENSION: Having seen a visual about and having guessed the topic of “life in the world and culture” during the background recall session, students can have a vision of the current theme as a general concept in the current (new) theme (**D3.2, SELS1.1, V3.2, V3.3, V4.5, LS1, LS4, CS2.11, CS2.16.2**). So, a further concept check with listening/watching for gist activities including more guessing games using clues from some pictures, realia, short video clips etc. help them prepare for the current theme (**CS2.6, CS2.8**). For each theme, a digitally constructed story is used as the main context of the theme, and it is visited several times while going through the theme to cover target pronunciation, vocabulary, grammar, social language expressions, and semantic meaning of the whole theme (**CS2.14**). It is both an entry material and the main context to the whole theme at the same time. The teacher asks them whether their guesses during the background recall session were correct and also what they think the introductory digital story that they are going to watch could be about (**CS2.8**). As they have already seen a scene from a film about the theme and the pictures, realia, etc. they can easily answer what the current theme will be about and that their guesses were true (**D1.2, D1.6, D2.3, D3.2, SELS1.2, V3.3, V3.4, V3.3, V4.5, LS2, LS4, CS2.10, CS2.17**).

ENG6.6.L2.

BRINGING INFORMATION TOGETHER THROUGH LISTENING/WATCHING: The teacher asks the students to watch the introductory digital story carefully, recalling the work done with visuals (the scene from a film, pictures, realia, or video clips about the theme shown earlier) (**CS2.11**). Students watch the introductory digital story to consolidate the identification of the theme “life in the world and culture” in it as a whole (**CS2.13**) without stopping the video at any point, so that the students can understand the theme holistically (**D3.2, SELS1.1, V3.3, V3.4, V3.3, V4.5, LS2, LS4, CS2.14, CS2.16.2**).

ENG6.6.L3.

MAKING MEANING THROUGH LISTENING/WATCHING-COMPREHENSION: To draw students’ attention to the content, some realia brought into the classroom by the teacher could be (**V3.3, V4.5**). The teacher could show the corresponding objects to the students when the corresponding vocabulary for the main components of the theme “life in the world and culture” is mentioned in the introductory digital story, without stopping the video while the students watch the story (**CS2.6**). When they have watched the whole story, the teacher could show the realia items on the table and ask questions with two options (**CS2.5**). As one of the words is from the previous themes, students could hear, understand, recognise and learn the (new) target vocabulary for each main component of the theme easily (**CS2.1**). In this way, the teacher could engage in a dialogue with the whole class to check that they have recognised the components of the theme, and that they have understood each realia item is about one component (**CS2.8**). Further activities and games can be played at this stage to reinforce the general meaning of the theme through its main components (**D1.1, D2.5, SELS2.1, V3.4, LS1, LS2, LS4**).

To check whether the students understand the general topic of the theme “life in the world and culture” and remember the sequence of the scenes of the introductory digital story, the teacher shows an organiser with the mixed images/pictures of the scenes on the Smart Board and asks the students to look at the images/pictures of the scenes for a while (**CS2.3**). She/He then asks them to order the scenes in pairs in their seats with the mixed paper pictures she/he has already given to the students (**SELS2.2, V3.4, V4.2, LS1, LS4, LS6**). When the pairs have finished sorting the pictures for the scenes of the story, the teacher asks the

students to take turns or volunteer to sort the scenes on the screen of the Smart Board (or the pictures on the blackboard) **(SELS1.2, CS2.6, CS2.10)**. This will help the students to organise the story as a whole so that they can identify the main theme and the components of the theme from their memories **(D1.2, D1.6, D2.3, V16.3, V20.4, CS2.12)**.

ENG6.6.L4.

REFLECTING ON THE LISTENING/ WATCHING PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole listening-watching process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3, V3.4)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS1.2, SELS2.2, V4.2, V4.3, V12.1, LS5, LS6)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V10.3)**.

ENG6.6.P1.

RECOGNITION OF TARGET PRONUNCIATION: To practise pronunciation of the new target words, word groups, language chunks, and social language expressions about the theme “life in the world and culture” and the words and/or word groups for the sub-themes “countries, nationalities, and languages in the world; food types and events from different parts of the world”, the teacher asks the students to listen (to)/watch the whole or some extracts from the introductory digital story by noticing how words are pronounced **V3.3, V3.3, V4.5 LS4, CS2.6)**. She/He asks them to repeat the word aloud when she/he stops the video for a word and says it. The teacher then asks the students to listen and repeat the same words aloud a few times as a whole class after listening to the recordings that she/he has prepared beforehand using some Web 2.0 programmes **(LS2, CS2.16.3)**. The teacher could offer variations with some techniques such as showing the picture of the target word to the students to say the word or pointing to the corresponding picture when they hear the word from the recording, and then both **(CS2.8)**. To help the students pronounce the words accurately, the teacher asks them to repeat each target word aloud a few times as a whole class after her/him or the recording, then in large groups, then in small groups and then again as volunteers **(D3.2, D3.6, SELS1.2, SELS2.1, V4.2, V20.4, LS1, CS2.14)**.

SELECTION AND USE OF TARGET PRONUNCIATION: Practice of pronunciation could be done with different forms of TPR, gamification and drama activities, e.g. first the teacher says the target words/word groups for the sub-themes “countries, nationalities, and languages in the world; food types and events from different parts of the world”, the students listen **(CS2.9)**; then the teacher says the target words/word groups and acts them out, the students repeat after her/him **(SELS2.1, CS2.14)**. Then the teacher and the students say the target words/word groups and act them out together at the same time. Then the teacher says the words/word groups and acts them out. These activities can be done through the actions for the sub-themes **(D2.3, D2.5, V3.3, V3.3, V4.5)**. As a variation, they can also repeat the words after the teacher happily, sadly, angrily, etc. using different tones of voice **(SELS2.3, CS2.8, CS2.11)**. They also practise for the target social language chunks using the same or similar techniques. During the repetitions, they point to relevant pictures that the teacher has placed in different places in the classroom **(CS2.12)**. Some action sequences are also created in which the students can practise the social language in a fun way by repeating, pointing, miming, and acting out in several games **(SELS2.1, V7.2, LS5, LS6, LS9)**. The teacher facilitates some activities with dialogues and games in which students can practice the target pronunciation by selecting and using them accurately, naturally, and authentically **(CS3.1)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound drills **(SELS2.2)**. The target sounds such as vowels, consonants, and diphthongs of the theme are practised through them **(CS2.13)**. Their learning is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. **(D1.2, D1.6, D2.5, V3.4, LS1, LS2, LS4)**.

ENG6.6.R1

PREPARATION FOR THE READING-COMPREHENSION PROCESS: The teacher facilitates reading and writing activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts. Reading is done in two ways in the theme by using the written version of the introductory digital story and additional reading texts in reading sections of the instructional material to be used **(V3.2, LS2, LS4)**. Various reading styles including silent reading, speed reading, jigsaw reading and basic reading techniques including skimming, scanning, and reading for details during pre-reading, while-reading and post-reading phases are used in the theme **(V3.4, LS1, CS2.3, CS2.6)**. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop pre-critical thinking skills and critical thinking skills and the ability to comprehend and talk/write about the content in a meaningful and communicative way **(V3.3, V7.2, LS5, CS3.3)**. For the initial stage of reading, the teacher asks the students to look at the audio/visual/written elements (e.g. sound, voices, scenes, title of the text, written words) surrounding the written version of the contextual introductory story or a new text in the reading section of the instructional material to be used for skimming to recall the conceptual meanings they already have about the theme **(CS2.8)**. At this stage, the teacher could ask the students to read the title of the theme and ask the students which words they already know, and which come to mind in connection with the title **(SELS1.1, CS2.16.2)**. She/He reminds them not to ask the meanings of any new words or the words they do not know. She/He reminds them that this is just a guessing activity by using the words they know and that there is time to work on the new words of the new theme later **(D3.2, D3.6, V3.4, CS2.10, CS2.12)**.

ENG6.6.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students go on with a scanning activity to find out the most important details of the introductory digital story and/or a new text in the reading section which is organised to help students to know more about the reading content **(CS2.6, CS2.7)**. In this way they could be able to recognise the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story **(CS2.4)**. By doing so, they will be able to understand the story/text in general using the main elements **(D3.2, D3.6, V3.3, V3.4, LS1)**.

ENG6.6.R3.

MAKING MEANING THROUGH READING: Then the teacher asks the students to do a jigsaw reading activity, so she/he shows the written version of the introductory digital story or the text in the reading section on the blackboard/Smart Board (or in any other teaching material). She/He asks the students to work in pairs to share the text **(SELS2.2)**. One peer reads the first half of the text and the second peer reads the other half of the text in a given time **(CS2.6)**. They are then asked to share what they have understood from their part with their peer, also in a given time. In this way, they talk about the whole story after reading it silently, in the jigsaw reading style **(D2.4, D3.6, V3.4, V4.2, V16.2, LS1, LS6, CS2.8, CS2.9)**. Some speed-reading activities can be used to develop students' reading and comprehension skills. These activities can be evaluated as explained in the item (6) in the section 1.2. Principles for the Implementation of the English Curriculum. After sharing their parts, students proceed with the activities for dealing with the target vocabulary, grammatical chunks, and semantic meaning relatively with the help of the teacher **(CS2.14)**. For dealing with the semantic meaning, the teacher facilitates the lesson with meaningful activities including closed, semi-closed, free, open-ended, and communicative ones **(SELS2.1)**. From display to communicative open-ended, various types of questions are used to understand the meaning of the text **(SELS3.1, SELS3.2, CS2.6)**. During this process students work collaboratively to exchange information, thoughts, and feelings **(D3.2, D3.7, V3.3, V7.2, V20.2, LS2, LS4, CS2.8)**.

ENG6.6.R4.

REFLECTING ON THE READING-COMPREHENSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole reading-comprehension process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(D2.3, D3.5, V4.2, V6.2, V10.3, V12.1, LS1, LS6)**.

ENG6.6.V1.

PREPARATION TO WORK ON THE TARGET VOCABULARY: At this stage, students remember what the theme is about through the activities that they have done during the background knowledge, pre-listening/ watching, and pre-reading sessions **(SELS1.1)**. As they know the main topic, they get ready to deal with the main components and target vocabulary of the theme **(V3.2, LS1)**.

RECOGNITION OF THE TARGET VOCABULARY: A scanning activity to find out the main details of the introductory digital story (and/or a new text in the reading section) is organised to help students to know more about the content. This could help them identify what the target words in the text could be about. The activity could be designed by listing some important pictures, words or events about the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story. In this way, they will be able to understand the story/text in general by using the main elements and also be ready to work on the target vocabulary items **(D3.2, D3.6, LS1, LS2, LS4, LS5, CS2.4, CS2.6, CS2.7)**. Then the students read the written version of the digital story again silently, (or the reading text in the reading section), to check whether they know any of the target vocabulary items about the theme **(V3.3, V4.5, CS2.8)**. They underline the words whose meaning they do not know while reading silently **(CS2.17)**. Students say these words when they finish reading and the teacher writes these words on the Smart Board/blackboard/ white board as they say them. The teacher writes only the target words on the Smart Board/blackboard as active words that the students have said. She/He quickly deals with the non-target passive vocabulary items by using pictures, mimics, gestures, imitations, examples, etc. But she/he takes time to facilitate the teaching of the target words **(D1.2, D1.6, D3.2, V3.3, V3.4, LS2, LS4, CS2.4, CS2.5, CS2.7)**.

To introduce and practise the meanings of the target vocabulary related to the theme, that the students do not know, the teacher asks the students to watch the introductory digital story (or the video of the reading text if there is one) again. From the beginning, whenever a target item is mentioned, the teacher stops the video and asks several questions in the form of two options, one of which is a word from the previous themes that they already know **(V3.3, V4.5, CS2.16.1, CS2.6)**. By guessing what they are, the students hear the English equivalents of the words for the theme and they answer as a whole class in chorus. In this way, they are introduced to the meanings of the target words **(D1.2, D1.6, D3.7, CS2.10)**. This is conducted in the form of a dialogue where their learning can be checked as described in items **(SELS2.1)** (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum **(V3.3, V3.4, V3.3, V4.5, LS1, LS2)**. After having watched the introductory digital story, the teacher shows some pictures for the sub-themes, on the walls as clues and says the words aloud several times in sentences by pointing to the pictures and the students repeat after her/him **(D2.3, V3.3, V4.5 CS2.6, CS2.11)**. In this way, the main vocabulary items of the theme are introduced to the students in English as described in item (3) in the section 1.2. Principles for the Implementation of the English Curriculum **(V3.3, V4.5)**.

SELECTION AND USE OF TARGET VOCABULARY: The teacher can prepare an activity using the Web 2.0 programme with images/pictures, and symbolic images for some categories about the components of the theme "life in the world and culture". She/He also prepares mixed images/pictures for target vocabulary

items for the activities which can be done in relation to the components. She/He asks the students to look at the mixed pile of images/pictures of the main components of the theme on the Smart Board screen and scan them for a while to remember them (**V4.5, V14.3, V16.3, V19.1, V19.2, LS5, LS6, CS2.4**). She/He explains to the students that the items will be placed under the correct category, but first she/he gives the students the cut-out pictures of the activities and a large sheet of paper with the categories written on it and the cut-out pictures will be placed under each category correctly (**V3.3, L2, LS4, CS2.5**). The teacher asks them to work in pairs and place the cut-out pictures in the right category and ask each other some questions about the theme (**D3.2, D3.8, SELS2.2, V3.3, V4.5**). When the students have finished working with the cut-out pictures and asking and answering questions about them, the teacher asks them to take turns or volunteer to go to the Smart Board and drag the corresponding images/pictures under the right category on the screen (**SELS1.2, V3.4, V20.4, LS1, LS4, CS2.5**). In this way, images/pictures that are relevant to the main concept and its components are consolidated through categorisation. This activity can be done with real pictures on the white/blackboard if there is a problem with technology. The teacher asks the students to copy the words next to the pictures they have pasted or drawn in their picture dictionaries and then asks them to exchange their picture dictionaries with their peers and check each other's spelling (**D3.2, SELS1.2, SELS2.2, V4.2, V4.3, V6.2, LS9**). To consolidate the meaning, selection, and use of the new target vocabulary items, the teacher could organise activities and tasks using pictures, flashcards, sounds, realia, and any other materials to play games such as Bingo, Pelmanism, King's game, Odd One out, Wordscapes, Scrabble, Pictionary, Letter Scramble, Acronyms, Charades etc. Games could be adapted according to the teacher's objectives (pronunciation, spelling, meaning, selection, use etc.), age, interests and language level of the students (**CS2.13**). Students can be asked to create their own games to use the target vocabulary items in context (**D2.5, D.3.3, SELS3.1, SELS3.2, V4.2, V4.4, V7.2, V3.3, V4.5, LS9, CS2.20**). Students' learning can be checked as described in items (3), and (4) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.6.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS: To draw the students' attention to the target language chunks of the theme "life in the world and culture", the introductory digital story or an extract from it played so that the students can notice the target language chunks (**D3.2, CS2.2**). While watching the introductory digital story, the teacher stops at the scenes where the target language chunks are used. She/He imitates the action by showing the scene, saying the chunk, and asking the students to do the same (**V3.2, LS2, CS2.14**). She could hold up large pictures corresponding to the chunks when they are mentioned in the digital story to draw the students' attention. The sentences with the target chunks are also written and placed on the Smart Board/blackboard/ whiteboard. The teacher also points to these sentences while pointing to the scenes in the story where they appear. There is no analysis or teaching of grammatical structures at this stage. Students can automatically and naturally identify the use of the target language chunks in the current context created in the introductory digital story without working on any rules or structures (**SELS3.1, V3.4, LS1, LS4, CS2.3, CS2.4, CS2.16.2**). To check the students' identification of the target language chunks, after the students have finished watching the introductory digital story, the teacher asks them to read the sentences with the target language chunks written by the teacher on the Smart Board /blackboard/ whiteboard and asks them to find the same or similar sentences in the written version of the introductory digital story or another text that is shown on the Smart Board (**D3.2, SELS3.2, V3.3**). She/He also asks them to find the same or similar sentences with these chunks which are given in different types of tables prepared by the teacher (**CS2.7**). These tables do not include any explanations of grammatical rules, explanations, or formulas, and they only contain example sentences with target chunks in which important words with the target grammar are written in bold or different colours to attract students' attention. The teacher asks them to look at the words in bold or in different colours and asks students to examine them (**CS2.9**). Then the teacher asks the students to copy these sentences with target chunks written in bold or different colours into their notebooks. The teacher asks the students to make very similar sentences using the target words and asks them to share their sentences with each other in pairs, and then with the class (**SELS2.2, SELS3.2,**

D3.2, V4.2, CS2.13, CS2.14, CS2.16.1, CS2.16.2). Both the teacher and the class members give feedback to the students as they say their sentences **(CS2.19)**. The teacher gives all students a checklist with simple symbols to evaluate each other's work as explained in the items (5) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum **(V4.3, V6.2, V10.3, LS6)**.

SELECTION AND USE OF THE TARGET GRAMMAR: To facilitate students' further practice with the target language chunks in the theme "life in the world and culture", the teacher shows some other sentences with these chunks in another context such as a short story, a short paragraph, and a short dialogue etc. and asks students to find the sentences with the target chunks in them and asks if they understand them **(SELS3.2, V3.3, V3.3, V4.5, CS2.4, CS2.6, CS2.8)**. She/He gives some written activities and exercises to practise the target chunks in context. She/He also facilitates more fun activities and as described in items (5), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. To consolidate the target language chunks, the teacher organises different fun activity and game bundles that the students can practise and consolidate them **(CS2.13)** where their learning can be checked as described in item (10) in the section 1.2. Principles for the Implementation of the English Curriculum **(D2.5, V4.4)**.

ENG6.6.W1.

PREPARATION FOR THE WRITING-EXPRESSION SESSION: Practising through writing: Writing activities help students to produce and display meaningful written language for their personal expression and communication with others, by using language including target words, grammatical structures in use and the social language in this theme, as in other themes **(V3.2, V3.3, V4.5)**.

ENG6.6.W2.

RECOGNISING THE MODEL: Initially, students produce very limited and short pieces of writing such as sentences to practise the language including the target vocabulary and grammatical structures, after hearing and seeing them through listening and reading activities in the theme "life in the world and culture". They practise the language in a more controlled way in the beginning, by writing to repeat or simply explain what they hear and see in context and what they are asked to do. They are provided a written model/example to copy to be able to notice significant points and elements in it **(SELS3.1)**. While copying a short model writing, they become aware of the aspects such as the use of words, language chunks, punctuation, spelling and so on **(D3.1, V3.4, LS1, CS2.4, CS2.16.3)**.

ENG6.6.W3.

CREATING THE WRITING CONTENT: Controlled writing of words and sentences turns to short paragraphs in a process writing manner with the support of the teacher's feedback in the theme. This process is expanded and supported by several practical activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(D1.3, D3.1, SELS3.2, V3.4, V4.4, V7.2, LS2, LS4, LS9, CS2.20)**.

ENG6.6.W4.

CONSTRUCTING AND PRACTISING WRITING: Storification and gamification techniques are actively and extensively used for further writing practice tasks. Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, projects, scripts for plays, diaries/journals, blogs, very short film scenarios, etc. to express their ideas, thoughts, and feelings **(D2.5, D3.3, SELS3.2, CS2.13)**. All the content is expected to be contextual, practical,

authentic, real, and appropriate to the students' interests and language level (**V3.4, V7.2, V12.1, LS1, LS4, LS9**).

ENG6.6.W5.

RECONSTRUCTING AND COMMUNICATING THROUGH WRITING: Students interact and communicate with peers and/or other people inside or outside school by using the language including the target words, language chunks, and the social language for the theme in their writing (**SELS2.2, SELS2.3, V3.4, V4.2, V3.3, V4.5, LS9, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home in a variety of ways (**D3.3, SELS3.2, SELS3.3, V7.2, LS2, CS2.20**). These activities are evaluated as described in items (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.6.W6.

REFLECTING ON THE WRITING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole writing-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them (**D1.5, SELS1.3, CS2.15**). Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive (**D2.4, D3.5, SELS2.2**). The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design (**V4.3, V6.2, V10.3, V20.4, LS1, LS6**).

ENG6.6.S1.

PREPARATION FOR SPEAKING: The teacher facilitates speaking activities throughout the theme from the first lesson to the end. Speaking activities enhance students' learning and help them produce and display meaningful language for personal expression and communication with others by using the language including the target words, grammatical structures in use and the social language expressions of the theme (**V3.2, V3.4, V3.3, V4.5**).

ENG6.6.S2

RECOGNISING AND USING THE MODEL: In the beginning, through listening/watching and reading, students recognise how the language with the target language items is used (**CS2.6**). They practise the language in a controlled way, by telling, repeating, explaining what they hear and see in the context (**D1.3, D3.2, SELS3.1, V3.3, LS1, LS2, LS4, CS2.4**).

ENG6.6.S3

CONSTRUCTING SPOKEN CONTENT: In the later stages of the lessons after controlled practice sessions, the teacher creates new contexts in the form of new written/photo-picture strip/pantomime/video stories, dialogues etc. as new opportunities for the students to talk about them for practising further through questions, explanations, inferences etc (**D1.3, SELS3.2, V3.4, V4.2, V7.2, V12.1, LS1, LS4, LS9, CS2.13**).

ENG6.6.S4.

CONSTRUCTING SPOKEN MATERIALS: Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme (**SELS2.2, SELS3.2, V4.2, V3.3, V4.5,**

CS2.20). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings **(D1.2, D1.6, D3.3, V7.2, LS2, LS9, CS2.20).**

ENG6.6.S5.

RECONSTRUCTING AND COMMUNICATING THROUGH SPEAKING: Students communicate with each other by seeing/hearing/reading/using the language including the target words and grammatical structures related to the theme “life in the world and culture” in fun, enjoyable, varied, and versatile activities **(SELS2.3, CS2.20).** Picture strip stories can be used at the end of each theme to provide a consolidation and revision **(V3.4, V4.2, V12.1, LS1, LS4, LS9, CS2.13, CS2.14).** These new contents created are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. Storification and gamification techniques are actively and extensively used together with other further speaking practice throughout the theme. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact and to communicate with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme and its components such as “countries, nationalities, and languages in the world; food types and events from different parts of the world” **(V3.4, V4.2, V3.3, V4.5, LS4, CS3.1, CS2.20).** AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings **(D2.5, D3.3, SELS3.3, V7.2, LS2, CS2.20).** These are evaluated as described in items (7), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. Then they can expand their language use and practise by communicating with others.

ENG6.6.S6.

REFLECTING ON THE SPEAKING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole speaking-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them **(SELS1.3, CS2.15).** Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2).** The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V4.3, V6.2, V10.3, V20.4, LS1, LS6).**

DIFFERENTIATION

Expansion

Objective: To practice the language for actions, events, or situations that started and finished at a specific time in the past in English through a fun and creative writing activity.

Activity 1: Time Traveller’s Diary

The teacher divides the class into pairs and tells students they are time travellers who have just returned from an adventurous trip to the past. She/He uses pictures or a timeline to help students visualize different time periods. Students select a time period they want to visit. The teacher provides a list of options, or lets them choose freely (e.g., Prehistoric Era, ancient Anatolia, ancient Egypt, Ancient Rome, the 1990s). She/He asks them to write an entry in their “Time Traveller’s Diary”, describing what they saw, did, and experienced while visiting a different time period. She/He challenges them to write full paragraphs with more complex sentences, adding details to their descriptions. Example: “I visited ancient Egypt. The pyramids were huge, and I met a friendly merchant. He sold me a beautiful necklace”. After pairs finish their entry, she/he allows them to share their diary entries with the class and asks them to discuss the different time periods that their classmates visited. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practice the language for actions, events, or situations that started and finished at a specific time in the past in English through a fun and creative writing activity.

Activity 1: Time Traveller's Diary

The teacher divides the class into pairs and tells students they are time travellers who have just returned from an adventurous trip to the past. She/He gives a visual timeline or images of each era to help them imagine what might happen there. She/He instructs students to write a brief diary entry describing their experiences using the simple past tense and provides a list of common verbs in the past tense (e.g., "saw, went, met, ate") for students who need additional support with vocabulary. After pairs finish their entries, she/he allows them to share their diary entries with the class and asks students to interview each other about their time travel adventures. One student becomes the "time traveller", and the other asks questions like, "What did you see?" or "Who did you meet?". Then she/he asks them to highlight the verbs they used in the past tense and discuss the different time periods that their classmates visited. Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 7: LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: Activities in nature; environmental problems in the world and solutions

This theme is centred on the concept of “life in nature and global problems” and covers the sub-themes of “activities in nature; environmental problems in the world and solutions”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 10

FIELD SKILLS AND SUPPORTIVE SKILLS	FLFS1. Listening/Watching-Comprehension
	FLFS2. Reading-Comprehension
	FLFS3. Speaking-Expression
	FLFS4. Writing-Expression
	FLSS1. Grammmaring: Selection and Use
	FLSS2. Vocabulary: Selection and Use
	FLSS3. Pronunciation: Selection and Use

Year 6 is structured based on semi-holistic/semi-inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.6.7.L1. Students can get ready for the listening/watching-comprehension process for the current content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions” carefully.

- a) *Students activate their pre-existing knowledge and experience related to the current theme and content by recalling their background knowledge imaginatively in her/his own language without speaking it.*
- b) *Students identify significant relationships between their pre-existing knowledge and experiences and the clues to the current content without translation.*
- c) *Students make predictions about the current content on “life in nature and global problems” by using the relationships that they recognised accurately by looking at the provided realia, pictures, and context.*
- d) *Students make predictions about the current content based on the surrounding audio/visual elements in relation to the current theme.*

ENG.6.7.L2. Students can bring information about the current content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions” together through significant details and main components while listening/watching it.

- a) *Students comprehend the topic of the current content by listening (to)/watching it as a whole.*
- b) *Students recognise the significant details and components within the whole current content by listening (to) and watching it again in a careful manner.*

ENG.6.7.L3. Students can make meaning of/derive meaning from the current content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions” through significant details by listening/watching it carefully.

- a) *Students check any initial predictions related to the current content by being aware of the commonalities between self-predictions and clues provided as visuals surrounding the current content.*
- b) *Students make important and necessary classifications in the current content that help them to understand it better with details.*
- c) *Students make important and necessary comparisons in the current content that help them to understand it better with details.*
- d) *Students recognise significant horizontal/vertical/spiral relationships (if any) within the generally perceived current content with the help of classifications and comparisons made earlier.*
- e) *Students make significant inferences that contribute to the understanding of the meaning of the generally perceived current content.*
- f) *Students construct the meaning of the current content in detail through the classifications/comparisons/inferences made earlier in relation to it.*
- g) *Students internalise the current content in an individualised and appropriate way according to age and language level.*

ENG.6.7.L4. Students can convey their knowledge, experience, thoughts, and feelings examined carefully about the whole listening/watching-comprehension process in relation to the current content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions”.

- a) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content.*
- b) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content by sharing them with others.*

ENG.6.7.P1. Students can select and use the target phonological elements of the current content about “life in nature and global problems with activities in nature; environmental problems in the world and solutions” accurately, authentically, and naturally through spontaneous decision-making processes and use it in an appropriate and effective way when communicating with others.

- a) *Students listen to the current content by paying attention to the target phonological aspects including pronunciation and intonation of utterances.*
- b) *Students reinforce the target phonological elements by repeating them after the source several times as a whole class, in groups and individually.*
- c) *Students recognise the target phonological elements of the current content when they are heard in different contexts.*
- d) *Students recognise target phonological elements specific to the current content when they are heard in different contexts and use them accurately, authentically, and naturally through spontaneous decision-making processes.*
- e) *Students use the target theme-specific phonological elements of the current content appropriately, spontaneously and effectively when communicating with others.*

ENG.6.7.R1. Students can get ready for the reading-comprehension process about the current content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions”.

- a) *Students activate their pre-existing knowledge and past experiences related to the current theme and content efficiently.*
- b) *Students recognise significant relationships between their pre-existing knowledge, past experiences and clues to the current content.*
- c) *Students make significant preliminary predictions about the current content based on recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring the audio-visual clues surrounding it.*

ENG.6.7.R2. Students can bring information about the current content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions” through skimming (looking quickly at) the audio-visual elements and reading the content very quickly.

- a) *Students review the current content by looking at the surrounding audio/visual materials to identify what it is about in general through skimming.*
- b) *Students read the current content to scan the major components silently and quickly with the help of the clues provided.*
- c) *Students carefully read the current content silently and carefully to find significant details and components belonging to the theme.*

ENG.6.7.R3. Students can make meaning of / derive meaning from the current content about “life in nature and global problems with activities in nature; environmental problems in the world and solutions” by reading it carefully.

- a) *Students carefully check the current content in detail for the accuracy of initial and detailed predictions that are made earlier.*

- b) *Students classify the significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- c) *Students compare significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- d) *Students recognise significant horizontal/vertical/spiral relationships within the current content that contribute to the perception of the content in a meaningful way.*
- e) *Students make meaningful inferences from the information in the current content by examining it carefully.*
- f) *Students internalise the information in the current content in an individualised and appropriate way according to age and language level.*

ENG.6.7.R4. Students can convey their knowledge, experiences, thoughts, and feelings related to the reading-comprehension process about the current content, “life in nature and global problems with activities in nature; environmental problems in the world and solutions” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process.*
- b) *Students convey the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process by sharing them with others.*
- c) *Students produce new products related to the current reading-comprehension content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.7.V1. Students can select and use the target vocabulary of the current content about “life in nature and global problems with activities in nature; environmental problems in the world and solutions” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students guess the main topic of the current content from the audio/visual/written elements (e.g. sound, voices, scenes, written words) in the contextual material by listening(to)/watching/reading it several times for recognition.*
- b) *Students recognise sub-themes/key components of the target words to which they belong in the current content by scanning.*
- c) *Students recognise the target words related to the main components of the current content with the help of the audio/visual/written elements and other clues.*
- d) *Students repeat aloud the relevant target key components and target vocabulary in the current content with the whole class, in groups, and then individually together with or after listening(to)/watching/reading the source material.*
- e) *Students recognise the use of target words and expressions in the current content by making various guesses with the help of supplementary elements.*
- f) *Students make context-appropriate selections automatically by associating target words with their pre-existing conceptual meanings in the mind without analysing their contextual meaning in detail.*
- g) *Students use the target words spontaneously and appropriately in different communicative contexts by being aware of their differences when communicating with others.*

ENG.6.7.G1. Students can select and use the target grammatical elements of the current content about “life in nature and global problems with activities in nature; environmental problems in the world and solutions” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students become familiar with the current content by listening (to)/watching/reading it a few times attentively.*
- b) *Students listen (to)/watch/read the same content, attentively and mindfully, including the use of target grammatical chunks presented verbally in context with the help of body language.*
- c) *Students verbally and automatically repeat simple and meaningful clauses/sentences containing target grammatical chunks that they have noticed in the current content that they have heard/viewed/read without explicit knowledge of the rules.*
- d) *Students act out physically the clauses/sentences containing the target grammatical chunks in the current content heard/viewed/read by repeating them several times without knowing, analysing, and thinking about their rules.*
- e) *Students see and read the example sentences containing target grammatical chunks provided for language awareness carefully.*
- f) *Students gain awareness of clauses/sentences that contain target grammatical chunks that are presented for the purpose of raising language awareness.*
- g) *Students recognise the clauses/sentences containing the target grammatical chunks when they encounter them by seeing and/or hearing them in different contexts.*
- h) *Students use the recognised target grammatical chunks naturally, authentically, and automatically in new contextual tasks and activities without analysing their rules.*
- i) *Students produce new and meaningful verbal/written content about the current theme by using the target grammatical chunks in meaningful tasks without knowing and analysing their rules.*
- j) *Students use the target language chunks authentically, automatically, and naturally in communication processes without analysing their rules in meaningful contexts.*

ENG.6.7.W1. Students can get ready for the writing-expression process about the current content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions”.

- a) *Students relate their pre-existing knowledge and experience used in the initial processes of writing-expression skills to the current content by activating them in relation with the current content.*
- b) *Students understand what the writing task and its content are in relation to the current content correctly by making use of their pre-existing knowledge and experience as guided and assigned.*

ENG.6.7.W2. Students can understand the model/example for the writing task about the current content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions”.

- a) *Students understand the components and details of the content in the provided model/sample which is displayed as a guide, by examining it carefully.*

ENG.6.7.W3. Students can organise a content for the assigned writing task on the current content “life in nature and global problems with activities in nature; environmental problems in the world and solutions” based on the model/example provided.

- a) *Students conduct preliminary research for a prepared writing situation according to the current content appropriate to the assigned writing type, age, and language level.*
- b) *Students develop a simple draft for a prepared/or unprepared writing task about the current content appropriate to the assigned writing type, age, and language level.*
- c) *Students organise and/or produce materials relevant to the content for a prepared/unprepared writing task, appropriate to the assigned writing type, age, and language level.*

ENG.6.7.W4. Students can individually construct/form content for the assigned writing task on the current content “life in nature and global problems with activities in nature; environmental problems in the world and solutions”.

- a) *Students present appropriate and accurate materials for a prepared and/or unprepared writing task about the current theme according to the assigned writing type, age, and language level.*
- b) *Students use appropriate discourse forms, styles, and rules relevant to the assigned writing type for a prepared and/or unprepared writing task.*
- c) *Students use target words and grammatical language chunks accurately and appropriately for a prepared and/or unprepared writing task about the current content by selecting them according to the assigned writing type, age, and language level.*
- d) *Students express important messages in the written current content to the reader accurately and appropriately for a prepared and/or unprepared writing task.*

ENG.6.7.W5. Students can reorganise (reconstruct) and use information in the new written tasks about the “life in nature and global problems with activities in nature; environmental problems in the world and solutions” to communicate with other people.

- a) *Students use the information in the current content or similar information in a different content by internalising and selecting it individually and reorganising it as required and meaningfully in different contexts.*
- b) *Students exchange information/ideas in written communication by sharing reconstructed meaningful knowledge meaningfully with others.*

ENG.6.7.W6. Students can reflect on their knowledge, experiences, thoughts, and feelings related to the writing-expression process about the current content, “life in nature and global problems with activities in nature; environmental problems in the world and solutions” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings reviewed in relation to the current writing-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings reviewed in relation to the writing-expression process about the current content with others.*
- c) *Students produce new written products related to the current writing-expression content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.7.S1. Students can get ready for speaking-expression process about the current content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions”.

- a) *Students make connections with the current content by activating their pre-existing knowledge and experiences that they have recalled in the listening (to)/watching/reading sections previously.*

ENG.6.7.S2. Students can use the model/example for producing verbal content about the current content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions”.

- a) *Students listen (to)/watch/read the model/example for the current content with the help of audio/visual/written elements.*

ENG.6.7.S3. Students can organise a new verbal content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions” by speaking accurately, efficiently, and authentically.

- a) *Students recognise what form and type of content is expected and assigned for prepared/unprepared speaking situations based on audio/visual/written content as provided in the model/example.*
- b) *Students organise the content for prepared/unprepared speaking situations in an appropriate and accurate way as they have heard/seen/read in the model/example.*
- c) *Students develop a draft for prepared/unprepared speaking situations, appropriate to the age and language level as presented in the model/sample content.*
- d) *Students organise supplementary audio/visual/written materials for prepared/or unprepared speaking situations, appropriate to age and language level, as provided in the model/sample content.*
- e) *Students organise the information about the current content to be presented for prepared/or unprepared speaking situations in an appropriate way as required.*

ENG.6.7.S4. Students can construct a new verbal content on “life in nature and global problems with activities in nature; environmental problems in the world and solutions” by speaking accurately, efficiently, and authentically.

- a) *Students use target pronunciation, vocabulary, language chunks, and forms of discourse related to the current content effectively by selecting them accurately and appropriately for prepared/unprepared speaking situations.*
- b) *Students present individually prepared content in an accurate and efficient way as presented in the model/example for prepared speaking situations clearly, efficiently, and appropriately.*
- c) *Students present individually prepared information in an accurate and efficient way as presented in the model/example for unprepared speaking situations.*
- d) *Students express the message about the current content clearly to the reader by using all supplementary elements and body language in an appropriate and accurate way in context for prepared and/or unprepared speaking situations.*

ENG.6.7.S5. Students can reorganise (reconstruct) and use information about the “life in nature and global problems with activities in nature; environmental problems in the world and solutions” to communicate with other people.

- a) *Students use the information presented in the current content by reorganising it appropriately, efficiently, individually, and verbally in different contexts.*
- b) *Students engage in appropriate and efficient verbal communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.6.7.S6. Students can convey their knowledge, experiences, thoughts, and feelings related to the speaking-expression process about the current content, “life in nature and global problems with activities in nature; environmental problems in the world and solutions” to communicate with other people in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings examined carefully in relation to the current speaking-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings examined carefully in relation to the speaking-expression process about the current content with others.*

CONTENT FRAME

LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: activities in nature; environmental problems in the world and solutions

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for activities in nature: An adventure, sailing, snowboarding, hiking, rafting, climbing.

Verbs: To camp, to cycle, to fish, to plant, to run, to sail, to ski, to ride, to pick.

Adverbs: High.

Vocabulary for environmental problems in the world and solutions: A danger, an effect, energy, heat, pollution, rubbish, smoke, rubbish.

Verb: To destroy, to increase, to prevent, to protect, to realize, to recycle, to reduce, to remove, to replace, to save, to solve.

Adjective: Plastic, reusable.

Preposition: Against.

Adverbs: Little, less, least, mostly.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Simple Past Tense: (People mostly ignored the importance of recycling).

-Question tags for The Simple Past Tense (irregular verbs): (Energy consumption became less sustainable over the years, didn't it?)

-Must and have to for obligation: (We must reduce plastic waste to protect marine life).

Functions of the Grammatical Structures in Use:

-Use of The Simple Past Tense: Expressing actions, events, or situations that started and finished at a specific time in the past.

-Use of Question tags for The Simple Past Tense (irregular verbs): Confirming information or asking for agreement about past actions.

-Use of "must and have to" for obligation: Expressing strong obligation or necessity, often related to rules, responsibilities, or urgent actions.

Target Social Language in Use:

I'm going to go hiking, nature's calling!

My dad has green fingers, his garden looks amazing!

She's wild about protecting nature!

Target Phonological Sounds in Use:

q, r, s, t, u

u: (/ju: /, /ʌ /, /ju: /)

Consonants: q: (/kju: /); r: (/ɑ: / (BrE.), /r / (AmE.)); s: (/s /, /ɛs /, /z /); t: (/ti: /, /t /)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme.)

Generalisations/Principles/Key Concepts**Generalisations**

The target concept of this theme “life in nature and global problems” and its components such as “activities in nature; environmental problems in the world and solutions” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “life in nature and global problems” and its components such as “activities in nature; environmental problems in the world and solutions” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

activities, nature, activities in nature; environment, environmental problems, environmental problems in the world, solutions to the environmental problems

INDICATORS FOR LEARNING (Assessment and Evaluation)**EVALUATION FOR THE SKILLS AND THE CONTENT:**

PERFORMANCE ASSIGNMENT: Students will write a short report about an environmental problem in the world or in their neighbourhood. First, they will search for environmental problems and choose one of them. Then, they will write sentences suggesting possible solutions to this problem. The paragraphs may include quotes. Finally, they will read the reports in the classroom loudly. They should focus on the pronunciation and intonation, too. The paragraphs may be displayed on an online noticeboard. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES**Basic Acceptations: Preparedness/ Readiness**

This theme is based on the students’ knowledge of “life in nature and global problems” and its components such as “activities in nature; environmental problems in the world and solutions”. As they are lower secondary school students in year 6 (six), they can know what “life in nature and global problems” and its components such as “activities in nature; environmental problems in the world and solutions” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 6 of lower secondary school, they can know some basic vocabulary about “life in nature and global problems” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in nature and global problems” and its components such as “activities in nature; environmental problems in the world and solutions”. Recalling and practising with relevant vocabulary and

grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “life in nature and global problems”. Therefore, a dialogue game can be played to revise all vocabulary and language grammar items from the themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and grammatical items to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and grammatical items in the current theme. (Their performance can be evaluated by rubrics throughout these practices).

Establishing Links

Students can recall the current (theme) concept of “life in nature and global problems” and its components such as “activities in nature; environmental problems in the world and solutions” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the current theme in English without translating anything until they start learning the target words in the current (new) concept in English.

To remind them of the pre-existing background knowledge they already have about the current concept, various materials such as short scene from a film, series, a part from a story, a poster etc. which is appropriate to the age, level, and pedagogy could be used before the main teaching/learning flow of the class begins. They would give a general idea of the theme. Students are facilitated with the relevant materials through various activities. When they have finished working on it, the teacher asks them in English if they understood what it was about. For checking their understanding, she/he can design several activities. For instance, they can write a related word that they know in English on a piece of paper and put it in the jar/box that she/he has prepared. Alternative ways can be tried.

The teacher asks them to wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “life in nature and global problems” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being. This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote/a very short story, watching a pantomime/cartoon story, etc. that has no relation or connection to the current theme and does not require any knowledge of English **(D2.5, SELS2.1, V12.1, LS2, LS4)**.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills (listening/watching-comprehension, reading-comprehension, speaking-expression, writing-expression, vocabulary selection and use, grammar selection and use, pronunciation selection and use) are used in an integrated way around “life in nature and global problems” and sub-themes “activities in nature; environmental problems in the world and solutions”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG6.7.L1.

PREPARING FOR LISTENING/WATCHING-COMPREHENSION: Having seen a visual about and having guessed the topic of “life in nature and global problems” during the background recall session, students can have a vision of the current theme as a general concept in the current (new) theme (**D3.2, SELS1.1, V3.2, V5.2, V5.3, V18.3, LS1, LS4, CS2.11, CS2.16.2**). So, a further concept check with listening/watching for gist activities including more guessing games using clues from some pictures, realia, short video clips etc. help them prepare for the current theme (**CS2.6, CS2.8**). For each theme, a digitally constructed story is used as the main context of the theme, and it is visited several times while going through the theme to cover target pronunciation, vocabulary, grammar, social language expressions, and semantic meaning of the whole theme (**CS2.14**). It is both an entry material and the main context to the whole theme at the same time. The teacher asks them whether their guesses during the background recall session were correct and also what they think the introductory digital story that they are going to watch could be about (**CS2.8**). As they have already seen a scene from a film about the theme and the pictures, realia, etc. they can easily answer what the current theme will be about and that their guesses were true (**D1.2, D1.6, D2.3, D3.2, SELS1.2, V3.3, V3.4, V5.2, V5.3, V18.3, LS2, LS4, CS2.10, CS2.17**).

ENG6.7.L2.

BRINGING INFORMATION TOGETHER THROUGH LISTENING/WATCHING: The teacher asks the students to watch the introductory digital story carefully, recalling the work done with visuals (the scene from a film, pictures, realia, or video clips about the theme shown earlier) (**CS2.11**). Students watch the introductory digital story to consolidate the identification of the theme “life in nature and global problems” in it as a whole (**CS2.13**) without stopping the video at any point, so that the students can understand the theme holistically (**D3.2, SELS1.1, V3.3, V3.4, V5.2, V5.3, V18.3, LS2, LS4, CS2.14, CS2.16.2**).

ENG6.7.L3.

MAKING MEANING THROUGH LISTENING/WATCHING-COMPREHENSION: To draw students’ attention to the content, some realia brought into the classroom by the teacher could be used (**V5.2, V5.3, V18.3**). The teacher could show the corresponding objects to the students when the corresponding vocabulary for the main components of the theme “life in nature and global problems” is mentioned in the introductory digital story, without stopping the video while the students watch the story (**CS2.6**). When they have watched the whole story, the teacher could show the realia items on the table and ask questions with two options (**CS2.5**). As one of the words is from the previous themes, students could hear, understand, recognise and learn the (new) target vocabulary for each main component of the theme easily (**CS2.1**). In this way, the teacher could engage in a dialogue with the whole class to check that they have recognised the components of the theme, and that they have understood each realia item is about one component (**CS2.8**). Further activities and games can be played at this stage to reinforce the general meaning of the theme through its main components (**D1.1, D2.5, SELS2.1, V3.4, LS1, LS2, LS4**).

To check whether the students understand the general topic of the theme “life in nature and global problems” and remember the sequence of the scenes of the introductory digital story, the teacher shows an organiser with the mixed images/pictures of the scenes on the Smart Board and asks the students to look at the images/pictures of the scenes for a while (**CS2.3**). She/He then asks them to order the scenes in pairs in their seats with the mixed paper pictures she/he has already given to the students (**SELS2.2, V3.4, V4.2, LS1, LS4, LS6**). When the pairs have finished sorting the pictures for the scenes of the story, the teacher asks the students to take turns or volunteer to sort the scenes on the screen of the Smart Board (or the pictures on the blackboard) (**SELS1.2, CS2.6, CS2.10**). This will help the students to organise the story as a whole so that they can identify the main theme and the components of the theme from their memories (**D1.2, D1.6, D2.3, V16.3, V20.4, CS2.12**).

ENG6.7.L4.

REFLECTING ON THE LISTENING/ WATCHING PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole listening–watching process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3, V3.4)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS1.2, SELS2.2, V4.2, V4.3, V12.1, LS5, LS6)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V10.3)**.

ENG6.7.P1.

RECOGNITION OF TARGET PRONUNCIATION: To practise pronunciation of the new target words, word groups, language chunks, and social language expressions about the theme “life in nature and global problems” and the words and/or word groups for the sub-themes “activities in nature; environmental problems in the world and solutions”, the teacher asks the students to listen (to)/watch the whole or some extracts from the introductory digital story by noticing how words are pronounced **(V3.3, V5.2, V5.3, V18.3, LS4, CS2.6)**. She/He asks them to repeat the word aloud when she/he stops the video for a word and says it. The teacher then asks the students to listen and repeat the same words aloud a few times as a whole class after listening to the recordings that she/he has prepared beforehand using some Web 2.0 programmes **(LS2, CS2.16.3)**. The teacher could offer variations with some techniques such as showing the picture of the target word to the students to say the word or pointing to the corresponding picture when they hear the word from the recording, and then both **(CS2.8)**. To help the students pronounce the words accurately, the teacher asks them to repeat each target word aloud a few times as a whole class after her/him or the recording, then in large groups, then in small groups and then again as volunteers **(D3.2, D3.6, SELS1.2, SELS2.1, V4.2, V20.4, LS1, CS2.14)**.

SELECTION AND USE OF TARGET PRONUNCIATION: Practice of pronunciation could be done with different forms of TPR, gamification and drama activities, e.g. first the teacher says the target words/word groups for the sub-themes “activities in nature; environmental problems in the world and solutions” the students listen **(CS2.9)**; then the teacher says the target words/word groups and acts them out, the students repeat after her/him **(SELS2.1, CS2.14)**. Then the teacher and the students say the target words/word groups and act them out together at the same time. Then the teacher says the words/word groups and acts them out. These activities can be done through the actions for the sub-themes **(D2.3, D2.5, V3.3, V5.2, V5.3, V18.3)**. As a variation, they can also repeat the words after the teacher happily, sadly, angrily, etc. using different tones of voice **(SELS2.3, CS2.8, CS2.11)**. They also practise for the target social language chunks using the same or similar techniques. During the repetitions, they point to relevant pictures that the teacher has placed in different places in the classroom **(CS2.12)**. Some action sequences are also created in which the students can practise the social language in a fun way by repeating, pointing, miming, and acting out in several games **(SELS2.1, V7.2, LS5, LS6, LS9)**. The teacher facilitates some activities with dialogues and games in which students can practice the target pronunciation by selecting and using them accurately, naturally, and authentically **(CS3.1)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound drills **(SELS2.2)**. The target sounds such as vowels, consonants, and diphthongs of the theme are practised through them **(CS2.13)**. Their learning is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum **(D1.2, D1.6, D2.5, V3.4, LS1, LS2, LS4)**.

ENG6.7.R1

PREPARATION FOR THE READING-COMPREHENSION PROCESS: The teacher facilitates reading and writing activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts. Reading is done in two ways in the theme by using the written version of the introductory digital story and additional reading texts in reading sections of the instructional material to be used **(V3.2, LS2, LS4)**. Various reading styles including silent reading, speed reading, jigsaw reading and basic reading techniques including skimming, scanning, and reading for details during pre-reading, while-reading and post-reading phases are used in the theme **(V3.4, LS1, CS2.3, CS2.6)**. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop pre-critical thinking skills and critical thinking skills and the ability to comprehend and talk/write about the content in a meaningful and communicative way **(V3.3, V7.2, LS5, CS3.3)**. For the initial stage of reading, the teacher asks the students to look at the audio/visual/written elements (e.g. sound, voices, scenes, title of the text, written words) surrounding the written version of the contextual introductory story or a new text in the reading section of the instructional material to be used for skimming to recall the conceptual meanings they already have about the theme **(CS2.8)**. At this stage, the teacher could ask the students to read the title of the theme and ask the students which words they already know, and which come to mind in connection with the title **(SELS1.1, CS2.16.2)**. She/He reminds them not to ask the meanings of any new words or the words they do not know. She/He reminds them that this is just a guessing activity by using the words they know and that there is time to work on the new words of the new theme later **(D3.2, D3.6, V3.4, CS2.10, CS2.12)**.

ENG6.7.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students go on with a scanning activity to find out the most important details of the introductory digital story and/or a new text in the reading section which is organised to help students to know more about the reading content **(CS2.6, CS2.7)**. In this way they could be able to recognise the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story **(CS2.4)**. By doing so, they will be able to understand the story/text in general using the main elements **(D3.2, D3.6, V3.3, V3.4, LS1)**.

ENG6.7.R3.

MAKING MEANING THROUGH READING: Then the teacher asks the students to do a jigsaw reading activity, so she/he shows the written version of the introductory digital story or the text in the reading section on the blackboard/Smart Board (or in any other teaching material). She/He asks the students to work in pairs to share the text **(SELS2.2)**. One peer reads the first half of the text and the second peer reads the other half of the text in a given time **(CS2.6)**. They are then asked to share what they have understood from their part with their peer, also in a given time. In this way, they talk about the whole story after reading it silently, in the jigsaw reading style **(D2.4, D3.6, V3.4, V4.2, V16.2, LS1, LS6, CS2.8, CS2.9)**. Some speed-reading activities can be used to develop students' reading and comprehension skills. These activities can be evaluated as explained in the item (6) in the section 1.2. Principles for the Implementation of the English Curriculum. After sharing their parts, students proceed with the activities for dealing with the target vocabulary, grammatical chunks, and semantic meaning relatively with the help of the teacher **(CS2.14)**. For dealing with the semantic meaning, the teacher facilitates the lesson with meaningful activities including closed, semi-closed, free, open-ended, and communicative ones **(SELS2.1)**. From display to communicative open-ended, various types of questions are used to understand the meaning of the text **(SELS3.1, SELS3.2, CS2.6)**. During this process students work collaboratively to exchange information, thoughts, and feelings **(D3.2, D3.7, V3.3, V7.2, V20.2, LS2, LS4, CS2.8)**.

ENG6.7.R4.

REFLECTING ON THE READING-COMPREHENSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole reading-comprehension process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(D2.3, D3.5, V4.2, V6.2, V10.3, V12.1, LS1, LS6)**.

ENG6.7.V1.

PREPARATION TO WORK ON THE TARGET VOCABULARY: At this stage, students remember what the theme is about through the activities that they have done during the background knowledge, pre-listening/ watching, and pre-reading sessions **(SELS1.1)**. As they know the main topic, they get ready to deal with the main components and target vocabulary of the theme **(V3.2, LS1)**.

RECOGNITION OF THE TARGET VOCABULARY: A scanning activity to find out the main details of the introductory digital story (and/or a new text in the reading section) is organised to help students to know more about the content. This could help them identify what the target words in the text could be about. The activity could be designed by listing some important pictures, words or events about the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story. In this way, they will be able to understand the story/text in general by using the main elements and also be ready to work on the target vocabulary items **(D3.2, D3.6, LS1, LS2, LS4, LS5, CS2.4, CS2.6, CS2.7)**. Then the students read the written version of the digital story again silently, (or the reading text in the reading section), to check whether they know any of the target vocabulary items about the theme **(V5.2, V5.3, V18.3, CS2.8)**. They underline the words whose meaning they do not know while reading silently **(CS2.17)**. Students say these words when they finish reading and the teacher writes these words on the Smart Board/blackboard/ white board as they say them. The teacher writes only the target words on the Smart Board/blackboard as active words that the students have said. She/He quickly deals with the non-target passive vocabulary items by using pictures, mimics, gestures, imitations, examples, etc. But she/he takes time to facilitate the teaching of the target words **(D1.2, D1.6, D3.2, V3.3, V3.4, LS2, LS4, CS2.4, CS2.5, CS2.7)**.

To introduce and practise the meanings of the target vocabulary related to the theme, that the students do not know, the teacher asks the students to watch the introductory digital story (or the video of the reading text if there is one) again. From the beginning, whenever a target item is mentioned, the teacher stops the video and asks several questions in the form of two options, one of which is a word from the previous themes that they already know **(V5.2, V5.3, V18.3, CS2.16.1, CS2.6)**. By guessing what they are, the students hear the English equivalents of the words for the theme and they answer as a whole class in chorus. In this way, they are introduced to the meanings of the target words **(D1.2, D1.6, D3.7, CS2.10)**. This is conducted in the form of a dialogue where their learning can be checked as described in items **(SELS2.1)** (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. **(V3.3, V3.4, V5.2, V5.3, V18.3, LS1, LS2, LS4)**. After having watched the introductory digital story, the teacher shows some pictures for the sub-themes, on the walls as clues and says the words aloud several times in sentences by pointing to the pictures and the students repeat after her/him **(D2.3, V5.2, V5.3, V18.3, CS2.6, CS2.11)**. In this way, the main vocabulary items of the theme are introduced to the students in English as described in item (3) in the section 1.2. Principles for the Implementation of the English Curriculum **(V5.2, V5.3, V18.3)**.

SELECTION AND USE OF TARGET VOCABULARY: The teacher can prepare an activity using the Web 2.0 programme with images/pictures, and symbolic images for some categories about the components of the theme "life in nature and global problems". She/He also prepares mixed images/pictures for target vocabulary

items for the activities which can be done in relation to the components. She/He asks the students to look at the mixed pile of images/pictures of the main components of the theme on the Smart Board screen and scan them for a while to remember them **(V5.2, V5.3, V18.3, CS2.4)**. She/He explains to the students that the items will be placed under the correct category, but first she/he gives the students the cut-out pictures of the activities and a large sheet of paper with the categories written on it and the cut-out pictures will be placed under each category correctly **(V3.3, L2, LS4, CS2.5)**. The teacher asks them to work in pairs and place the cut-out pictures in the right category and ask each other some questions about the theme **(D3.2, D3.8, SELS2.2, V5.2, V5.3, V18.3)**. When the students have finished working with the cut-out pictures and asking and answering questions about them, the teacher asks them to take turns or volunteer to go to the Smart Board and drag the corresponding images/pictures under the right category on the screen **(SELS1.2, V3.4, V20.4, LS1, LS4, CS2.5)**. In this way, images/pictures that are relevant to the main concept and its components are consolidated through categorisation. This activity can be done with real pictures on the white/blackboard if there is a problem with technology. The teacher asks the students to copy the words next to the pictures they have pasted or drawn in their picture dictionaries and then asks them to exchange their picture dictionaries with their peers and check each other's spelling **(D3.2, SELS1.2, SELS2.2, V4.2, V4.3, V6.2, LS9)**. To consolidate the meaning, selection, and use of the new target vocabulary items, the teacher could organise activities and tasks using pictures, flashcards, sounds, realia, and any other materials to play games such as Bingo, Pelmanism, King's game, Odd One out, Wordscapes, Scrabble, Pictionary, Letter Scramble, Acronyms, Charades etc. Games could be adapted according to the teacher's objectives (pronunciation, spelling, meaning, selection, use etc.), age, interests and language level of the students **(CS2.13)**. Students can be asked to create their own games to use the target vocabulary items in context **(D2.5, D3.3, SELS3.1, SELS3.2, V4.2, V4.4, V7.2, V5.2, V5.3, V18.3, LS9, CS2.20)**. Students' learning can be checked as described in items (3), and (4) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.7.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS: To draw the students' attention to the target language chunks of the theme "life in nature and global problems", the introductory digital story or an extract from it played so that the students can notice the target language chunks **(D3.2, CS2.2)**. While watching the introductory digital story, the teacher stops at the scenes where the target language chunks are used. She/He imitates the action by showing the scene, saying the chunk, and asking the students to do the same **(V3.2, LS2, CS2.14)**. She/He could hold up large pictures corresponding to the chunks when they are mentioned in the digital story to draw the students' attention. The sentences with the target chunks are also written and placed on the Smart Board/blackboard/ whiteboard. The teacher also points to these sentences while pointing to the scenes in the story where they appear. There is no analysis or teaching of grammatical structures at this stage. Students can automatically and naturally identify the use of the target language chunks in the current context created in the introductory digital story without working on any rules or structures **(SELS3.1, V3.4, LS1, LS4, CS2.3, CS2.4, CS2.16.2)**. To check the students' identification of the target language chunks, after the students have finished watching the introductory digital story, the teacher asks them to read the sentences with the target language chunks written by the teacher on the Smart Board /blackboard/whiteboard and asks them to find the same or similar sentences in the written version of the introductory digital story or another text that is shown on the Smart Board **(D3.2, SELS3.2, V3.3)**. She/He also asks them to find the same or similar sentences with these chunks which are given in different types of tables prepared by the teacher **(CS2.7)**. These tables do not include any explanations of grammatical rules, explanations, or formulas, and they only contain example sentences with target chunks in which important words with the target grammar are written in bold or different colours to attract students' attention. The teacher asks them to look at the words in bold or in different colours and asks students to examine them **(CS2.9)**. Then the teacher asks the students to copy these sentences with target chunks written in bold or different colours into their notebooks. The teacher asks the students to make very similar sentences using the target words and asks them to share their sentences with each other in pairs, and then

with the class (**SELS2.2, SELS3.2, D3.2, V4.2, CS2.13, CS2.14, CS2.16.1, CS2.16.2**). Both the teacher and the class members give feedback to the students as they say their sentences (**CS2.19**). The teacher gives all students a checklist with simple symbols to evaluate each other's work as explained in the items (5) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum (**V4.3, V6.2, V10.3, LS6**).

SELECTION AND USE OF THE TARGET GRAMMAR: To facilitate students' further practice with the target language chunks in the theme "life in nature and global problems", the teacher shows some other sentences with these chunks in another context such as a short story, a short paragraph, and a short dialogue etc. and asks students to find the sentences with the target chunks in them and asks if they understand them (**SELS3.2, V3.3, V5.2, V5.3, V18.3, CS2.4, CS2.6, CS2.8**). She/He gives some written activities and exercises to practise the target chunks in context. She/He also facilitates more fun activities and as described in items (5), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. To consolidate the target language chunks, the teacher organises different fun activity and game bundles that the students can practise and consolidate them (**CS2.13**) where their learning can be checked as described in item (10) in the section 1.2. Principles for the Implementation of the English Curriculum (**D2.5, V4.4**).

ENG6.7.W1.

PREPARATION FOR THE WRITING-EXPRESSION SESSION: Practising through writing: Writing activities help students to produce and display meaningful written language for their personal expression and communication with others, by using language including target words, grammatical structures in use and the social language in this theme, as in other themes (**V3.2, V5.2, V5.3, V18.3**).

ENG6.7.W2.

RECOGNISING THE MODEL: Initially, students produce very limited and short pieces of writing such as sentences to practise the language including the target vocabulary and grammatical structures, after hearing and seeing them through listening and reading activities in the theme "life in nature and global problems". They practise the language in a more controlled way in the beginning, by writing to repeat or simply explain what they hear and see in context and what they are asked to do. They are provided a written model/example to copy to be able to notice significant points and elements in it (**SELS3.1**). While copying a short model writing, they become aware of the aspects such as the use of words, language chunks, punctuation, spelling and so on (**D3.1, V3.4, LS1, CS2.4, CS2.16.3**).

ENG6.7.W3.

CREATING THE WRITING CONTENT: Controlled writing of words and sentences turns to short paragraphs in a process writing manner with the support of the teacher's feedback in the theme. This process is expanded and supported by several practical activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities (**D1.3, D3.1, SELS3.2, V3.4, V4.4, V7.2, LS2, LS4, LS9, CS2.20**).

ENG6.7.W4.

CONSTRUCTING AND PRACTISING WRITING: Storification and gamification techniques are actively and extensively used for further writing practice tasks. Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, projects, scripts for plays, diaries/journals, blogs, very short film scenarios, etc. to express their ideas, thoughts, and feelings (**D2.5, D3.3, SELS3.2, CS2.13**). All the content is expected to be contextual, practical,

authentic, real, and appropriate to the students' interests and language level (**V3.4, V7.2, V9.3, V12.1, LS1, LS4, LS9**).

ENG6.7.W5.

RECONSTRUCTING AND COMMUNICATING THROUGH WRITING: Students interact and communicate with peers and/or other people inside or outside school by using the language including the target words, language chunks, and the social language for the theme in their writing (**SELS2.2, SELS2.3, V3.4, V4.2, V5.2, V5.3, V18.3, LS9, CS2.20**). AI- based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home in a variety of ways (**D3.3, SELS3.2, SELS3.3, V7.2, LS2, CS2.20**). These activities are evaluated as described in items (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.7.W6.

REFLECTING ON THE WRITING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole writing-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them (**D1.5, SELS1.3, CS2.15**). Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive (**D2.4, D3.5, SELS2.2**). The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design (**V4.3, V6.2, V10.3, V20.4, LS1, LS6**).

ENG6.7.S1.

PREPARATION FOR SPEAKING: The teacher facilitates speaking activities throughout the theme from the first lesson to the end. Speaking activities enhance students' learning and help them produce and display meaningful language for personal expression and communication with others by using the language including the target words, grammatical structures in use and the social language expressions of the theme (**V3.2, V3.4, V5.2, V5.3, V18.3**).

ENG6.7.S2

RECOGNISING AND USING THE MODEL: In the beginning, through listening/watching and reading, students recognise how the language with the target language items is used (**CS2.6**). They practise the language in a controlled way, by telling, repeating, explaining what they hear and see in the context (**D1.3, D3.2, SELS3.1, V3.3, LS1, LS2, LS4, CS2.4**).

ENG6.7.S3

CONSTRUCTING SPOKEN CONTENT: In the later stages of the lessons after controlled practice sessions, the teacher creates new contexts in the form of new written/photo-picture strip/pantomime/video stories, dialogues etc. as new opportunities for the students to talk about them for practising further through questions, explanations, inferences etc (**D1.3, SELS3.2, V3.4, V4.2, V7.2, V12.1, LS1, LS4, LS9, CS2.13**).

ENG6.7.S4.

CONSTRUCTING SPOKEN MATERIALS: Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact with peers and/or other people in or outside the school by using the language including the target words,

language grammar in use, and the social language for the theme **(SELS2.2, SELS3.2, V4.2,V5.2, V5.3, V18.3, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings **(D1.2, D1.6, D3.3, V7.2,LS2, LS9, CS2.20)**.

ENG6.7.S5.

RECONSTRUCTING AND COMMUNICATING THROUGH SPEAKING: Students communicate with each other by seeing/hearing/reading/using the language including the target words and grammatical structures related to the theme “life in nature and global problems” in fun, enjoyable, varied, and versatile activities **(SELS2.3, CS2.20)**. Picture strip stories can be used at the end of each theme to provide a consolidation and revision **(V3.4, V4.2, V12.1, LS1, LS4, LS9, CS2.13, CS2.14)**. These new contents created are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. Storification and gamification techniques are actively and extensively used together with other further speaking practice throughout the theme. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact and to communicate with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme and its components such as “activities in nature; environmental problems in the world and solutions” **(V3.4, V4.2, V5.2, V5.3, V18.3 LS4, CS3.1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings **(D2.5, D3.3, SELS3.3, V7.2, LS2, CS2.20)**. These are evaluated as described in items (7), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. Then they can expand their language use and practise by communicating with others.

ENG6.7.S6.

REFLECTING ON THE SPEAKING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole speaking-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them **(SELS1.3, CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V4.3, V6.2, V10.3, V20.4, LS1, LS6)**.

DIFFERENTIATION

Expansion

Objective: To practise strong obligations in real-life urgent situations in English by encouraging teamwork, problem-solving and critical thinking.

Activity 1: Mission: Rescue Operations

The teacher divides students into small teams or pairs, depending on the number of students in class and tells them that they are members of an emergency response team, and their job is to manage various urgent situations that require quick thinking and strict rules. Their task is to come up with the actions they must take to handle the situations. She/He assigns each group different mission scenarios that are urgent and require critical thinking. She/He provides them with scenario cards or describes a situation for them to react to. Scenario Examples: Scenario 1: A fire has broken out in a building. What must the people inside do? What must the fire fighters do?; Scenario 2: A group of students is lost in the mountains. What must they do to survive? What must the rescue team do to find them?; Scenario 3: A school bus has broken down on a busy road. What must the driver do? What do the students need to do for safety?; Scenario 4: There is a leak in a chemical plant. What must the workers do? What must be done immediately to avoid a disaster? In

their groups, students discuss the steps they must take in their situation. After the discussion, each group presents their scenario and explains what must be done to resolve the situation. After each presentation, she/he encourages the rest of the class to ask questions and to give feedback. For example, "What must the rescue team do first?", "Why must you wear protective gear?" or "What else do you have to prepare?". She/He encourages students to reflect on the use of target grammar. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practise strong obligations in real-life urgent situations in English by encouraging teamwork, problem-solving and critical thinking.

Activity 1: Mission: Rescue Operations

The teacher divides students into small teams or pairs, depending on the number of students in class and tells them that they are members of an emergency response team, and their job is to manage various urgent situations that require quick thinking and strict rules. Their task is to come up with the actions they must take to handle the situations. She/He assigns each group different mission scenarios that are urgent and require critical thinking. She/He provides them with scenario cards or describes a situation for them to react to. Scenario Examples: Scenario 1: A fire has broken out in a building. What must the people inside do? What must the firefighters do?; Scenario 2: A group of students is lost in the mountains. What must they do to survive? What must the rescue team do to find them?; Scenario 3: A school bus has broken down on a busy road. What must the driver do? What do the students need to do for safety?; Scenario 4: There is a leak in a chemical plant. What must the workers do? What must be done immediately to avoid a disaster? In their groups, students discuss the steps they must take in their situation. The teacher provides a list of key verbs and phrases (e.g., "call, stay calm, evacuate, contact, protect, warn, help"). She also offers sentence starters to help them form responses like, "We must _____", "They need to _____", "You have to _____". In their groups, students discuss the steps they must take in their situation. After the discussion, each group presents their scenario and explains what must be done to resolve the situation. After each presentation, she/he asks students to create a "responsibility ladder" where they list the actions or tasks in their scenario from most urgent (what must be done immediately) to least urgent (what must be done next). Each group discusses their list and she/he encourages students to reflect on the use of target grammar. Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 8: LIFE IN THE UNIVERSE & FUTURE

Sub-themes: Planets and the Earth as a planet; life on Earth in the future

This theme is centred on the concept of “life in the universe and future” and covers the sub-themes of “planets and the Earth as a planet; life on Earth in the future”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 10

FIELD SKILLS AND SUPPORTIVE SKILLS

- FLFS1. Listening-Watching-Comprehension
- FLFS2. Reading-Comprehension
- FLFS3. Speaking-Expression
- FLFS4. Writing-Expression
- FLSS1. Grammar: Selection and Use
- FLSS2. Vocabulary: Selection and Use
- FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS –

DISPOSITIONS D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.5. Self-Confidence, D1.6. Selectivity, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning

INTERCURRICULAR COMPONENTS

Social-Emotional

Learning Skills SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1. Adaptability Skill, SELS3.2. Flexibility Skill, SELS3.3. Responsible Decision-Making Skill

Values V1. Justice, V3. Diligence, V4. Friendship, V5. Sensitivity, V6. Honesty, V7. Aesthetics, V9. Compassion, V10. Modesty, V11. Independence, V12. Patience, V13. Healthy Living, V14. Respect, V16. Responsibility, V19. Patriotism, V20. Benevolence

Literacy Skills LS1. Information Literacy, LS2. Digital Literacy, LS4. Visual Literacy, LS5. Cultural Literacy, LS6. Civic Literacy, LS7. Data Literacy, LS9. Art Literacy

Year 6 is structured based on semi-holistic/semi-inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.6.8.L1. Students can get ready for the listening/watching-comprehension process for the current content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” carefully.

- a) *Students activate their pre-existing knowledge and experience related to the current theme and content by recalling their background knowledge imaginatively in her/his own language without speaking it.*
- b) *Students identify significant relationships between their pre-existing knowledge and experiences and the clues to the current content without translation.*
- c) *Students make predictions about the current content on “life in the universe and future” by using the relationships that they recognised accurately by looking at the provided realia, pictures, and context.*
- d) *Students make predictions about the current content based on the surrounding audio/visual elements in relation to the current theme.*

ENG.6.8.L2. Students can bring information about the current content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” together through significant details and main components while listening/watching it.

- a) *Students comprehend the topic of the current content by listening(to)/watching it as a whole.*
- b) *Students recognise the significant details and components within the whole current content by listening(to) and watching it again in a careful manner.*

ENG.6.8.L3. Students can make meaning of/derive meaning from the current content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” through significant details by listening/watching it carefully.

- a) *Students check any initial predictions related to the current content by being aware of the commonalities between self-predictions and clues provided as visuals surrounding the current content.*
- b) *Students make important and necessary classifications in the current content that help them to understand it better with details.*
- c) *Students make important and necessary comparisons in the current content that help them to understand it better with details.*
- d) *Students recognise significant horizontal/vertical/spiral relationships (if any) within the generally perceived current content with the help of classifications and comparisons made earlier.*
- e) *Students make significant inferences that contribute to the understanding of the meaning of the generally perceived current content.*
- f) *Students construct the meaning of the current content in detail through the classifications/comparisons/inferences made earlier in relation to it.*
- g) *Students internalise the current content in an individualised and appropriate way according to age and language level.*

ENG.6.8.L4. Students can convey their knowledge, experience, thoughts, and feelings examined carefully about the whole listening/watching-comprehension process in relation to the current content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future”.

- a) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content.*
- b) *Students convey their personal knowledge, experiences, thoughts, and feelings examined carefully in relation to the listening/watching-comprehension process about the current content by sharing them with others.*

ENG.6.8.P1. Students can select and use the target phonological elements of the current content about “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” accurately, authentically, and naturally through spontaneous decision-making processes and use it in an appropriate and effective way when communicating with others.

- a) *Students listen to the current content by paying attention to the target phonological aspects including pronunciation and intonation of utterances.*
- b) *Students reinforce the target phonological elements by repeating them after the source several times as a whole class, in groups and individually.*
- c) *Students recognise the target phonological elements of the current content when they are heard in different contexts.*
- d) *Students recognise target phonological elements specific to the current content when they are heard in different contexts and use them accurately, authentically, and naturally through spontaneous decision-making processes.*
- e) *Students use the target theme-specific phonological elements of the current content appropriately, spontaneously and effectively when communicating with others.*

ENG.6.8.R1. Students can get ready for the reading-comprehension process about the current content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future”.

- a) *Students activate their pre-existing knowledge and past experiences related to the current theme and content efficiently.*
- b) *Students recognise significant relationships between their pre-existing knowledge, past experiences and clues to the current content.*
- c) *Students make significant preliminary predictions about the current content based on recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring the audio-visual clues surrounding it.*

ENG.6.8.R2. Students can bring information about the current content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” through skimming (looking quickly at) the audio-visual elements and reading the content very quickly.

- a) *Students review the current content by looking at the surrounding audio/visual materials to identify what it is about in general through skimming.*
- b) *Students read the current content to scan the major components silently and quickly with the help of the clues provided.*
- c) *Students carefully read the current content silently and carefully to find significant details and components belonging to the theme.*

ENG.6.8.R3. Students can make meaning of / derive meaning from the current content about “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” by reading it carefully.

- a) *Students carefully check the current content in detail for the accuracy of initial and detailed predictions that are made earlier.*

- b) *Students classify the significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- c) *Students compare significant elements of the current content that contribute to the perception of the content in a meaningful way.*
- d) *Students recognise significant horizontal/vertical/spiral relationships within the current content that contribute to the perception of the content in a meaningful way.*
- e) *Students make meaningful inferences from the information in the current content by examining it carefully.*
- f) *Students internalise the information in the current content in an individualised and appropriate way according to age and language level.*

ENG.6.8.R4. Students can convey their knowledge, experiences, thoughts, and feelings related to the reading-comprehension process about the current content, “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process.*
- b) *Students convey the knowledge, experiences, thoughts, and feelings that have been carefully examined in relation to the current reading-comprehension content and process by sharing them with others.*
- c) *Students produce new products related to the current reading-comprehension content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.8.V1. Students can select and use the target vocabulary of the current content about “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students guess the main topic of the current content from the audio/visual/written elements (e.g. sound, voices, scenes, written words) in the contextual material by listening(to)/watching/reading it several times for recognition.*
- b) *Students recognise sub-themes/key components of the target words to which they belong in the current content by scanning.*
- c) *Students recognise the target words related to the main components of the current content with the help of the audio/visual/written elements and other clues.*
- d) *Students repeat aloud the relevant target key components and target vocabulary in the current content with the whole class, in groups, and then individually together with or after listening(to)/watching/reading the source material.*
- e) *Students recognise the use of target words and expressions in the current content by making various guesses with the help of supplementary elements.*
- f) *Students make context-appropriate selections automatically by associating target words with their pre-existing conceptual meanings in the mind without analysing their contextual meaning in detail.*
- g) *Students use the target words spontaneously and appropriately in different communicative contexts by being aware of their differences when communicating with others.*

ENG.6.8.G1. Students can select and use the target grammatical elements of the current content about “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others.

- a) *Students become familiar with the current content by listening (to)/watching/reading it a few times attentively.*
- b) *Students listen (to)/watch/read the same content, attentively and mindfully, including the use of target grammatical chunks presented verbally in context with the help of body language.*
- c) *Students verbally and automatically repeat simple and meaningful clauses/sentences containing target grammatical chunks that they have noticed in the current content that they have heard/viewed/read without explicit knowledge of the rules.*
- d) *Students act out physically the clauses/sentences containing the target grammatical chunks in the current content heard/viewed/read by repeating them several times without knowing, analysing, and thinking about their rules.*
- e) *Students see and read the example sentences containing target grammatical chunks provided for language awareness carefully.*
- f) *Students gain awareness of clauses/sentences that contain target grammatical chunks that are presented for the purpose of raising language awareness.*
- g) *Students recognise the clauses/sentences containing the target grammatical chunks when they encounter them by seeing and/or hearing them in different contexts.*
- h) *Students use the recognised target grammatical chunks naturally, authentically, and automatically in new contextual tasks and activities without analysing their rules.*
- i) *Students produce new and meaningful verbal/written content about the current theme by using the target grammatical chunks in meaningful tasks without knowing and analysing their rules.*
- j) *Students use the target language chunks authentically, automatically, and naturally in communication processes without analysing their rules in meaningful contexts.*

ENG.6.8.W1. Students can get ready for the writing-expression process about the current content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future”.

- a) *Students relate their pre-existing knowledge and experience used in the initial processes of writing-expression skills to the current content by activating them in relation with the current content.*
- b) *Students understand what the writing task and its content are in relation to the current content correctly by making use of their pre-existing knowledge and experience as guided and assigned.*

ENG.6.8.W2. Students can understand the model/example for the writing task about the current content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future”.

- a) *Students understand the components and details of the content in the provided model/sample which is displayed as a guide, by examining it carefully.*

ENG.6.8.W3. Students can organise a content for the assigned writing task on the current content “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” based on the model/example provided.

- a) *Students conduct preliminary research for a prepared writing situation according to the current content appropriate to the assigned writing type, age, and language level.*
- b) *Students develop a simple draft for a prepared/or unprepared writing task about the current content appropriate to the assigned writing type, age, and language level.*
- c) *Students organise and/or produce materials relevant to the content for a prepared/unprepared writing task, appropriate to the assigned writing type, age, and language level.*

ENG.6.8.W4. Students can individually construct/form content for the assigned writing task on the current content “life in the universe and future with planets and the Earth as a planet; life on Earth in the future”.

- a) *Students present appropriate and accurate materials for a prepared and/or unprepared writing task about the current theme according to the assigned writing type, age, and language level.*
- b) *Students use appropriate discourse forms, styles, and rules relevant to the assigned writing type for a prepared and/or unprepared writing task.*
- c) *Students use target words and grammatical language chunks accurately and appropriately for a prepared and/or unprepared writing task about the current content by selecting them according to the assigned writing type, age, and language level.*
- d) *Students express important messages in the written current content to the reader accurately and appropriately for a prepared and/or unprepared writing task.*

ENG.6.8.W5. Students can reorganise (reconstruct) and use information in the new written tasks about the “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” to communicate with other people.

- a) *Students use the information in the current content or similar information in a different content by internalising and selecting it individually and reorganising it as required and meaningfully in different contexts.*
- b) *Students exchange information/ideas in written communication by sharing reconstructed meaningful knowledge meaningfully with others.*

ENG.6.8.W6. Students can reflect on their knowledge, experiences, thoughts, and feelings related to the writing-expression process about the current content, “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings reviewed in relation to the current writing-expression content and process.*
- b) *Students share the knowledge, experiences, thoughts, and feelings reviewed in relation to the writing-expression process about the current content with others.*
- c) *Students produce new written products related to the current writing-expression content and process by revising their personal work carefully after participating in reflective activities.*

ENG.6.8.S1. Students can get ready for speaking-expression process about the current content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future”.

- a) *Students make connections with the current content by activating their pre-existing knowledge and experiences that they have recalled in the listening (to)/watching/reading sections previously.*

ENG.6.8.S2. Students can use the model/example for producing verbal content about the current content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future”.

- a) *Students listen (to)/watch/read the model/example for the current content with the help of audio/visual/written elements.*

ENG.6.8.S3. Students can organise a new verbal content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” by speaking accurately, efficiently, and authentically.

- a) *Students recognise what form and type of content is expected and assigned for prepared/unprepared speaking situations based on audio/visual/written content as provided in the model/example.*

- b) Students organise the content for prepared/unprepared speaking situations in an appropriate and accurate way as they have heard/seen/read in the model/example.*
- c) Students develop a draft for prepared/unprepared speaking situations, appropriate to the age and language level as presented in the model/sample content.*
- d) Students organise supplementary audio/visual/written materials for prepared/or unprepared speaking situations, appropriate to age and language level, as provided in the model/sample content.*
- e) Students organise the information about the current content to be presented for prepared/or unprepared speaking situations in an appropriate way as required.*

ENG.6.8.S4. Students can construct a new verbal content on “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” by speaking accurately, efficiently, and authentically.

- a) Students use target pronunciation, vocabulary, language chunks, and forms of discourse related to the current content effectively by selecting them accurately and appropriately for prepared/unprepared speaking situations.*
- b) Students present individually prepared content in an accurate and efficient way as presented in the model/example for prepared speaking situations clearly, efficiently, and appropriately.*
- c) Students present individually prepared information in an accurate and efficient way as presented in the model/example for unprepared speaking situations.*
- d) Students express the message about the current content clearly to the reader by using all supplementary elements and body language in an appropriate and accurate way in context for prepared and/or unprepared speaking situations.*

ENG.6.8.S5. Students can reorganise (reconstruct) and use information about the “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” to communicate with other people.

- a) Students use the information presented in the current content by reorganising it appropriately, efficiently, individually, and verbally in different contexts.*
- b) Students engage in appropriate and efficient verbal communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.6.8.S6. Students can convey their knowledge, experiences, thoughts, and feelings related to the speaking-expression process about the current content, “life in the universe and future with planets and the Earth as a planet; life on Earth in the future” to communicate with other people in relation to themselves or others, both individually and/or with others.

- a) Students convey individually the knowledge, experiences, thoughts, and feelings examined carefully in relation to the current speaking-expression content and process.*
- b) Students share the knowledge, experiences, thoughts, and feelings examined carefully in relation to the speaking-expression process about the current content with others.*

CONTENT FRAME

LIFE IN THE UNIVERSE & FUTURE

Sub-themes: planets and the Earth as a planet; life on Earth in the future

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for planets and the Earth as a planet:

Nouns: Moon, Sun, Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, atmosphere, nature, light, land, orbit.

Vocabulary for extreme weather conditions:

Nouns: A storm, a thunder, a lightning, a flood, a draught, a storm, a tornado, a thunderstorm, a blizzard, a hurricane.

Adjectives: Close, bright, far, large, freezing, stormy.

Phrases: Extreme weather conditions.

Adverbs: Extremely.

Vocabulary for life on Earth in the future:

Nouns: An experience, an expert, a factory, a goal, knowledge, peace, population, a possibility, a purpose, a source, technology, development, distance.

Verb: To exist, to expect, to hope, to invent, to predict, to suppose, to run out, to compose of.

Adjective: Alive, flying, following, visible.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Be going to Future Tense: (Scientists are going to build new space stations to study planets outside our solar system).

-The Simple Future Tense (prediction): (I think new planets will have conditions suitable for life).

-Question tags for future tenses: (The Earth will become warmer if we don't act quickly, won't it?)

Functions of the Grammatical Structures in Use:

-Use of "Be Going to Future" Tense: Expressing future plans, intentions, or something that is likely to happen based on present evidence.

-Use of the Simple Future Tense (prediction): Expressing predictions about what might happen in the future.

-Question tags for future tenses: Confirming information or asking for agreement in a sentence about the future.

Target Social Language in Use:

Is there a bright future ahead with new technologies?

We need to take care of our green planet! The new eco-cities give us a glimpse of future living!

Tomorrow's world will be different with new technologies!

Target Phonological Sounds in Use:

v, w, x, y, z

Consonants: v: (/vi:/, /v/); w: (/w/); x: (/eks/, /ks/, /gz/); y: (/waɪ/, /waɪ/, /waɪ/, /j/, /ɪ/, /i:/); z: /zed/ (BrE.), /zi:/ (AmE.), /z/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Principles/Key Concepts**Generalisations**

The target concept of this theme “life in the universe and future” and its components such as “planets and the Earth as a planet; life on Earth in the future” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “life in the universe and future” and its components such as “planets and the Earth as a planet; life on Earth in the future” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts

Planets, the Earth, the Earth as a planet; life on Earth, life on Earth in the future

INDICATORS FOR LEARNING (Assessment and Evaluation)**EVALUATION FOR THE SKILLS AND THE CONTENT:**

PERFORMANCE ASSIGNMENT: Students will prepare a comic strip about the universe and imagine how life on Earth might change. First, they will learn about the planets in our solar system and what makes Earth unique. Then they will create a fun and creative comic strip with 6–8 panels showing their ideas about future life on Earth or other planets. In their comic strip, they can include new technologies, futuristic transportation, cool inventions, and how people interact with nature. They should use drawings, captions, and dialogue to tell the story. They can use Web 2.0 tools. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES**Basic Acceptations: Preparedness/ Readiness**

This theme is based on the students’ knowledge of “life in the universe and future” and its components such as “planets and the Earth as a planet; life on Earth in the future”. As they are lower secondary school students in year 6 (six), they can know what “life in the universe and future” and its components such as “planets and the Earth as a planet; life on Earth in the future” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 6 of lower secondary school, they can know some basic vocabulary about “life in the universe and future” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in the universe and future” and its components such as “planets and the Earth as a planet; life on Earth in the future”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and

learning the current content on the concept of “life in the universe and future”. Therefore, a dialogue game can be played to revise all vocabulary and language chunks from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices).

Establishing Links

Students can recall the current (theme) concept of “life in the universe and future” and its components such as “planets and the Earth as a planet; life on Earth in the future” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the current theme in English without translating anything until they start learning the target words in the current (new) concept in English.

To remind them of the pre-existing background knowledge they already have about the current concept, various materials such as short scene from a film, series, a part from a story, a poster etc. which is appropriate to the age, level, and pedagogy could be used before the main teaching/learning flow of the class begins. They would give a general idea of the theme. Students are facilitated with the relevant materials through various activities. When they have finished working on it, the teacher asks them in English if they understood what it was about. For checking their understanding, she/he can design several activities. For instance, they can write a related word that they know in English on a piece of paper and put it in the jar/box that she/he has prepared. Alternative ways can be tried.

The teacher asks them to wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “life in the universe and future” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being. This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote/a very short story, watching a pantomime/cartoon story, etc. that has no relation or connection to the current theme and does not require any knowledge of English **(D2.5, SELS2.1, V12.1, LS2, LS4)**.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills (listening/watching-comprehension, reading-comprehension, speaking-expression, writing-expression, vocabulary selection and use, grammar selection and use, pronunciation selection and use) are used in an integrated way around “life in the universe and future” and sub-themes “planets and the Earth as a planet; life on Earth in the future”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their vocabulary, grammar and phonological selection and use skills.

ENG6.8.L1.

PREPARING FOR LISTENING/WATCHING-COMPREHENSION: Having seen a visual about and having guessed the topic of “life in the universe and future” during the background recall session, students can have a vision of the current theme as a general concept in the current (new) theme **(D3.2, SELS1.1, V3.2, V3.3, V11.1, LS1, LS4, CS2.11, CS2.16.2)**. So, a further concept check with listening/watching for gist activities including more guessing games using clues from some pictures, realia, short video clips etc. help them prepare for the current theme **(CS2.6, CS2.8)**. For each theme, a digitally constructed story is used as the main context of the theme, and it is visited several times while going through the theme to cover target pronunciation, vocabulary, grammar, social language expressions, and semantic meaning of the whole theme **(CS2.14)**. It is both an entry material and the main context to the whole theme at the same time. The teacher asks them whether their guesses during the background recall session were correct and also what they think the introductory digital story that they are going to watch could be about **(CS2.8)**. As they have already seen a scene from a film about the theme and the pictures, realia, etc. they can easily answer what the current theme will be about and that their guesses were true **(D1.2, D1.6, D2.3, D3.2, SELS1.2, V3.3, V3.4, V3.3, V11.1, LS2, LS4, CS2.10, CS2.17)**.

ENG6.8.L2.

BRINGING INFORMATION TOGETHER THROUGH LISTENING/WATCHING: The teacher asks the students to watch the introductory digital story carefully, recalling the work done with visuals (the scene from a film, pictures, realia, or video clips about the theme shown earlier) **(CS2.11)**. Students watch the introductory digital story to consolidate the identification of the theme “life in the universe and future” in it as a whole **(CS2.13)** without stopping the video at any point, so that the students can understand the theme holistically **(D3.2, SELS1.1, V3.3, V3.4, V3.3, V11.1, LS2, LS4, CS2.14, CS2.16.2)**.

ENG6.8.L3.

MAKING MEANING THROUGH LISTENING/WATCHING-COMPREHENSION: To draw students’ attention to the content, some realia brought into the classroom by the teacher could be used **(V3.3, V11.1)**. The teacher could show the corresponding objects to the students when the corresponding vocabulary for the main components of the theme “life in the universe and future” is mentioned in the introductory digital story, without stopping the video while the students watch the story **(CS2.6)**. When they have watched the whole story, the teacher could show the realia items on the table and ask questions with two options **(CS2.5)**. As one of the words is from the previous themes, students could hear, understand, recognise, and learn the (new) target vocabulary for each main component of the theme easily **(CS2.1)**. In this way, the teacher could engage in a dialogue with the whole class to check that they have recognised the components of the theme, and that they have understood each realia item is about one component **(CS2.8)**. Further activities and games can be played at this stage to reinforce the general meaning of the theme through its main components **(D1.1, D2.5, SELS2.1, V3.4, LS1, LS2, LS4)**.

To check whether the students understand the general topic of the theme “life in the universe and future” and remember the sequence of the scenes of the introductory digital story, the teacher shows an organiser with the mixed images/pictures of the scenes on the Smart Board and asks the students to look at the images/pictures of the scenes for a while **(CS2.3)**. She/He then asks them to order the scenes in pairs in their seats with the mixed paper pictures she/he has already given to the students **(SELS2.2, V3.4, V4.2, LS1, LS4, LS6)**. When the pairs have finished sorting the pictures for the scenes of the story, the teacher asks the students to take turns or volunteer to sort the scenes on the screen of the Smart Board (or the pictures on the blackboard) **(SELS1.2, CS2.6, CS2.10)**. This will help the students to organise the story as a whole so that they can identify the main theme and the components of the theme from their memories **(D1.2, D1.6, D2.3, V16.3, V20.4, CS2.12)**.

ENG6.8.L4.

REFLECTING ON THE LISTENING/ WATCHING PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole listening-watching process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3, V3.4)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS1.2, SELS2.2, V4.2, V4.3, V12.1, LS5, LS6)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V10.3)**.

ENG6.8.P1.

RECOGNITION OF TARGET PRONUNCIATION: To practise pronunciation of the new target words, word groups, language chunks, and social language expressions about the theme “life in the universe and future” and the words and/or word groups for the sub-themes “planets and the Earth as a planet; life on Earth in the future”, the teacher asks the students to listen (to)/watch the whole or some extracts from the introductory digital story by noticing how words are pronounced **(V3.3, V11.1, LS4, LS5, LS6, CS2.6)**. She/He asks them to repeat the word aloud when she/he stops the video for a word and says it. The teacher then asks the students to listen and repeat the same words aloud a few times as a whole class after listening to the recordings that she/he has prepared beforehand using some Web 2.0 programmes **(LS2, CS2.16.3)**. The teacher could offer variations with some techniques such as showing the picture of the target word to the students to say the word or pointing to the corresponding picture when they hear the word from the recording, and then both **(CS2.8)**. To help the students pronounce the words accurately, the teacher asks them to repeat each target word aloud a few times as a whole class after her/him or the recording, then in large groups, then in small groups and then again as volunteers **(D3.2, D3.6, SELS1.2, SELS2.1, V4.2, V20.4, LS1, CS2.14)**.

SELECTION AND USE OF TARGET PRONUNCIATION: Practice of pronunciation could be done with different forms of TPR, gamification and drama activities, e.g. first the teacher says the target words/word groups for the sub-themes “planets and the Earth as a planet; life on Earth in the future”, the students listen **(CS2.9)**; then the teacher says the target words/word groups and acts them out, the students repeat after her/him **(SELS2.1, CS2.14)**. Then the teacher and the students say the target words/word groups and act them out together at the same time. Then the teacher says the words/word groups and acts them out. These activities can be done through the actions for the sub-themes “planets and the Earth as a planet; life on Earth in the future” **(D2.3, D2.5, V3.3, V3.3, V11.1)**. As a variation, they can also repeat the words after the teacher happily, sadly, angrily, etc. using different tones of voice **(SELS2.3, CS2.8, CS2.11)**. They also practise for the target social language chunks using the same or similar techniques. During the repetitions, they point to relevant pictures that the teacher has placed in different places in the classroom **(CS2.12)**. Some action sequences are also created in which the students can practise the social language in a fun way by repeating, pointing, miming, and acting out in several games **(SELS2.1, V7.2, LS5, LS6, LS9)**. The teacher facilitates some activities with dialogues and games in which students can practice the target pronunciation by selecting and using them accurately, naturally, and authentically **(CS3.1)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound drills **(SELS2.2)**. The target sounds such as vowels, consonants, and diphthongs of the theme are practised through them **(CS2.13)**. Their learning is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum **(D1.2, D1.6, D2.5, V3.4, LS1, LS2, LS4)**.

ENG6.8.R1

PREPARATION FOR THE READING-COMPREHENSION PROCESS: The teacher facilitates reading and writing activities throughout the theme from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts. Reading is done in two ways in the theme by using the written version of the introductory digital story and additional reading texts in reading sections of the instructional material to be used **(V3.2, LS2, LS4)**. Various reading styles including silent reading, speed reading, jigsaw reading and basic reading techniques including skimming, scanning, and reading for details during pre-reading, while-reading and post-reading phases are used in the theme **(V3.4, LS1, CS2.3, CS2.6)**. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop pre-critical thinking skills and critical thinking skills and the ability to comprehend and talk/write about the content in a meaningful and communicative way **(V3.3, V7.2, LS5, CS3.3)**. For the initial stage of reading, the teacher asks the students to look at the audio/visual/written elements (e.g. sound, voices, scenes, title of the text, written words) surrounding the written version of the contextual introductory story or a new text in the reading section of the instructional material to be used for skimming to recall the conceptual meanings they already have about the theme **(CS2.8)**. At this stage, the teacher could ask the students to read the title of the theme and ask the students which words they already know, and which come to mind in connection with the title **(SELS1.1, CS2.16.2)**. She/He reminds them not to ask the meanings of any new words or the words they do not know. She/He reminds them that this is just a guessing activity by using the words they know and that there is time to work on the new words of the new theme later **(D3.2, D3.6, V3.4, CS2.10, CS2.12)**.

ENG6.8.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students go on with a scanning activity to find out the most important details of the introductory digital story and/or a new text in the reading section which is organised to help students to know more about the reading content **(CS2.6, CS2.7)**. In this way they could be able to recognise the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story **(CS2.4)**. By doing so, they will be able to understand the story/text in general using the main elements **(D3.2, D3.6, V3.3, V3.4, LS1)**.

ENG6.8.R3.

MAKING MEANING THROUGH READING: Then the teacher asks the students to do a jigsaw reading activity, so she/he shows the written version of the introductory digital story or the text in the reading section on the blackboard/Smart Board (or in any other teaching material). She/He asks the students to work in pairs to share the text **(SELS2.2)**. One peer reads the first half of the text and the second peer reads the other half of the text in a given time **(CS2.6)**. They are then asked to share what they have understood from their part with their peer, also in a given time. In this way, they talk about the whole story after reading it silently, in the jigsaw reading style **(D2.4, D3.6, V3.4, V4.2, V16.2, LS1, LS6, CS2.8, CS2.9)**. Some speed-reading activities can be used to develop students' reading and comprehension skills. These activities can be evaluated as explained in the item (6) in the section 1.2. Principles for the Implementation of the English Curriculum. After sharing their parts, students proceed with the activities for dealing with the target vocabulary, grammatical chunks, and semantic meaning relatively with the help of the teacher **(CS2.14)**. For dealing with the semantic meaning, the teacher facilitates the lesson with meaningful activities including closed, semi-closed, free, open-ended, and communicative ones **(SELS2.1)**. From display to communicative open-ended, various types of questions are used to understand the meaning of the text **(SELS3.1, SELS3.2, CS2.6)**. During this process students work collaboratively to exchange information, thoughts, and feelings **(D3.2, D3.7, V3.3, V7.2, V20.2, LS2, LS4, CS2.8)**.

ENG6.8.R4.

REFLECTING ON THE READING-COMPREHENSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole reading-comprehension process and asks them to express their thoughts, ideas, and feelings about the process **(SELS1.3)**. Some volunteer students express what they think and feel about them **(CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(D2.3, D3.5, V4.2, V6.2, V10.3, V12.1, LS1, LS6)**.

ENG6.8.V1.

PREPARATION TO WORK ON THE TARGET VOCABULARY: At this stage, students remember what the theme is about through the activities that they have done during the background knowledge, pre-listening/ watching, and pre-reading sessions **(SELS1.1)**. As they know the main topic, they get ready to deal with the main components and target vocabulary of the theme **(V3.2, LS1)**.

RECOGNITION OF THE TARGET VOCABULARY: A scanning activity to find out the main details of the introductory digital story (and/or a new text in the reading section) is organised to help students to know more about the content. This could help them identify what the target words in the text could be about. The activity could be designed by listing some important pictures, words or events about the main components of the theme that take place in the story/text. Students circle or tick the ones that they have heard, seen and scanned (quickly read) in the story. In this way, they will be able to understand the story/text in general by using the main elements and also be ready to work on the target vocabulary items **(D3.2, D3.6, LS1, LS2, LS4, LS5, CS2.4, CS2.6, CS2.7)**. Then the students read the written version of the digital story again silently, (or the reading text in the reading section), to check whether they know any of the target vocabulary items about the theme **(V16.3, CS2.8)**. They underline the words whose meaning they do not know while reading silently **(CS2.17)**. Students say these words when they finish reading and the teacher writes these words on the Smart Board/blackboard/ white board as they say them. The teacher writes only the target words on the Smart Board/blackboard as active words that the students have said. She/He quickly deals with the non-target passive vocabulary items by using pictures, mimics, gestures, imitations, examples, etc. But she/he takes time to facilitate the teaching of the target words **(D1.2, D1.6, D3.2, V3.3, V3.4, LS2, LS4, CS2.4, CS2.5, CS2.7)**.

To introduce and practise the meanings of the target vocabulary related to the theme, that the students do not know, the teacher asks the students to watch the introductory digital story (or the video of the reading text if there is one) again. From the beginning, whenever a target item is mentioned, the teacher stops the video and asks several questions in the form of two options, one of which is a word from the previous themes that they already know **(V3.3, V11.1, CS2.16.1, CS2.6)**. By guessing what they are, the students hear the English equivalents of the words for the theme and they answer as a whole class in chorus. In this way, they are introduced to the meanings of the target words **(D1.2, D1.6, D3.7, CS2.10)**. This is conducted in the form of a dialogue where their learning can be checked as described in items **(SELS2.1)** (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum **(V3.3, V3.4, V11.1, LS1, LS2, LS4)**. After having watched the introductory digital story, the teacher shows some pictures for the sub-themes, on the walls as clues and says the words aloud several times in sentences by pointing to the pictures and the students repeat after her/him **(D2.3, V3.3, V11.1, CS2.6, CS2.11)**. In this way, the main vocabulary items of the theme are introduced to the students in English as described in item (3) in the section 1.2. Principles for the Implementation of the English Curriculum **(V3.3, V11.1)**.

SELECTION AND USE OF TARGET VOCABULARY: The teacher can prepare an activity using the Web 2.0 programme with images/pictures, and symbolic images for some categories about the components of the theme "life in the universe and future". She/He also prepares mixed images/pictures for target vocabulary

items for the activities which can be done in relation to the components. She/He asks the students to look at the mixed pile of images/pictures of the main components of the theme on the Smart Board screen and scan them for a while to remember them **(V3.3, V11.1, CS2.4)**. She/He explains to the students that the items will be placed under the correct category, but first she/he gives the students the cut-out pictures of the activities and a large sheet of paper with the categories written on it and the cut-out pictures will be placed under each category correctly **(V3.3, L2, LS4, CS2.5)**. The teacher asks them to work in pairs and place the cut-out pictures in the right category and ask each other some questions about the theme **(D3.2, D3.8, SELS2.2, V3.3, V11.1)**. When the students have finished working with the cut-out pictures and asking and answering questions about them, the teacher asks them to take turns or volunteer to go to the Smart Board and drag the corresponding images/pictures under the right category on the screen **(SELS1.2, V3.4, V20.4, LS1, LS4, CS2.5)**. In this way, images/pictures that are relevant to the main concept and its components are consolidated through categorisation. This activity can be done with real pictures on the white/blackboard if there is a problem with technology. The teacher asks the students to copy the words next to the pictures they have pasted or drawn in their picture dictionaries and then asks them to exchange their picture dictionaries with their peers and check each other's spelling **(D3.2, SELS1.2, SELS2.2, V4.2, V4.3, V6.2, LS9)**. To consolidate the meaning, selection, and use of the new target vocabulary items, the teacher could organise activities and tasks using pictures, flashcards, sounds, realia, and any other materials to play games such as Bingo, Pelmanism, King's game, Odd One out, Wordscapes, Scrabble, Pictionary, Letter Scramble, Acronyms, Charades etc. Games could be adapted according to the teacher's objectives (pronunciation, spelling, meaning, selection, use etc.), age, interests and language level of the students **(CS2.13)**. Students can be asked to create their own games to use the target vocabulary items in **(D2.5, D.3.3, SELS3.1, SELS3.2, V4.2, V4.4, V3.3, V11.1, V7.2, LS9, CS2.20)**. Students' learning can be checked as described in items (3), and (4) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.8.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS: To draw the students' attention to the target language chunks of the theme "life in the universe and future", the introductory digital story or an extract from it played so that the students can notice the target language chunks **(D3.2, CS2.2)**. While watching the introductory digital story, the teacher stops at the scenes where the target language chunks are used. She/He imitates the action by showing the scene, saying the chunk, and asking the students to do the same **(V3.2, LS2, CS2.14)**. She/He could hold up large pictures corresponding to the chunks when they are mentioned in the digital story to draw the students' attention. The sentences with the target chunks are also written and placed on the Smart Board/blackboard/ whiteboard. The teacher also points to these sentences while pointing to the scenes in the story where they appear. There is no analysis or teaching of grammatical structures at this stage. Students can automatically and naturally identify the use of the target language chunks in the current context created in the introductory digital story without working on any rules or structures **(SELS3.1, V3.4, LS1, LS4, CS2.3, CS2.4, CS2.16.2)**. To check the students' identification of the target language chunks, after the students have finished watching the introductory digital story, the teacher asks them to read the sentences with the target language chunks written by the teacher on the Smart Board /blackboard/ whiteboard and asks them to find the same or similar sentences in the written version of the introductory digital story or another text that is shown on the Smart Board **(D3.2, SELS3.2, V3.3)**. She/He also asks them to find the same or similar sentences with these chunks which are given in different types of tables prepared by the teacher **(CS2.7)**. These tables do not include any explanations of grammatical rules, explanations, or formulas, and they only contain example sentences with target chunks in which important words with the target grammar are written in bold or different colours to attract students' attention. The teacher asks them to look at the words in bold or in different colours and asks students to examine them **(CS2.9)**. Then the teacher asks the students to copy these sentences with target chunks written in bold or different colours into their notebooks. The teacher asks the students to make very similar sentences using the target words and asks them to share their sentences with each other in pairs, and then with the class **(SELS2.2, SELS3.2, D3.2, V4.2, CS2.13, CS2.14, CS2.16.1, CS2.16.2)**. Both the teacher and the class members give feedback to

the students as they say their sentences **(CS2.19)**. The teacher gives all students a checklist with simple symbols to evaluate each other's work as explained in the items (5) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum **(V4.3, V6.2, V10.3, LS6)**.

SELECTION AND USE OF THE TARGET GRAMMAR: To facilitate students' further practice with the target language chunks in the theme "life in the universe and future", the teacher shows some other sentences with these chunks in another context such as a short story, a short paragraph, and a short dialogue etc. and asks students to find the sentences with the target chunks in them and asks if they understand them **(SELS3.2, V3.3, V3.3, V11.1, CS2.4, CS2.6, CS2.8)**. She/He gives some written activities and exercises to practise the target chunks in context. She/He also facilitates more fun activities and as described in items (5), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. To consolidate the target language chunks, the teacher organises different fun activity and game bundles that the students can practise and consolidate them **(CS2.13)** where their learning can be checked as described in item (10) in the section 1.2. Principles for the Implementation of the English Curriculum **(D2.5, V4.4)**.

ENG6.8.W1.

PREPARATION FOR THE WRITING-EXPRESSION SESSION: Practising through writing: Writing activities help students to produce and display meaningful written language for their personal expression and communication with others, by using language including target words, grammatical structures in use and the social language in this theme, as in other themes **(V3.2, V3.3, V11.1)**.

ENG6.8.W2.

RECOGNISING THE MODEL: Initially, students produce very limited and short pieces of writing such as sentences to practise the language including the target vocabulary and grammatical structures, after hearing and seeing them through listening and reading activities in the theme "life in the universe and future". They practise the language in a more controlled way in the beginning, by writing to repeat or simply explain what they hear and see in context and what they are asked to do. They are provided a written model/example to copy to be able to notice significant points and elements in it **(SELS3.1)**. While copying a short model writing, they become aware of the aspects such as the use of words, language chunks, punctuation, spelling and so on **(D3.1, V3.4, LS1, CS2.4, CS2.16.3)**.

ENG6.8.W3.

CREATING THE WRITING CONTENT: Controlled writing of words and sentences turns to short paragraphs in a process writing manner with the support of the teacher's feedback in the theme. This process is expanded and supported by several practical activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(D1.3, D3.1, SELS3.2, V3.4, V4.4, V7.2, LS2, LS4, LS9, CS2.20)**.

ENG6.8.W4.

CONSTRUCTING AND PRACTISING WRITING: Storification and gamification techniques are actively and extensively used for further writing practice tasks. Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, projects, scripts for plays, diaries/journals, blogs, very short film scenarios, etc. to express their ideas, thoughts, and feelings **(D2.5, D3.3, SELS3.2, CS2.13)**. All the content is expected to be contextual, practical, authentic, real, and appropriate to the students' interests and language level **(V3.4, V7.2, V12.1, LS1, LS4, LS9)**.

ENG6.8.W5.

RECONSTRUCTING AND COMMUNICATING THROUGH WRITING: Students interact and communicate with peers and/or other people inside or outside school by using the language including the target words, language chunks, and the social language for the theme in their writing (**SELS2.2, SELS2.3, V3.4, V4.2, V3.3, V11.1, LS9, CS2.20**). AI- based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home in a variety of ways (**D3.3, SELS3.2, SELS3.3, V7.2, LS2, CS2.20**). These activities are evaluated as described in items (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG6.8.W6.

REFLECTING ON THE WRITING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole writing-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them (**D1.5, SELS1.3, CS2.15**). Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive (**D2.4, D3.5, SELS2.2**). The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design (**V4.3, V6.2, V10.3, V20.4, LS1, LS6**).

ENG6.8.S1.

PREPARATION FOR SPEAKING: The teacher facilitates speaking activities throughout the theme from the first lesson to the end. Speaking activities enhance students' learning and help them produce and display meaningful language for personal expression and communication with others by using the language including the target words, grammatical structures in use and the social language expressions of the theme (**V3.2, V3.4, V3.3, V11.1**).

ENG6.8.S2

RECOGNISING AND USING THE MODEL: In the beginning, through listening/watching and reading, students recognise how the language with the target language items is used (**CS2.6**). They practise the language in a controlled way, by telling, repeating, explaining what they hear and see in the context (**D1.3, D3.2, SELS3.1, V3.3, LS1, LS2, LS4, CS2.4**).

ENG6.8.S3

CONSTRUCTING SPOKEN CONTENT: In the later stages of the lessons after controlled practice sessions, the teacher creates new contexts in the form of new written/photo-picture strip/pantomime/video stories, dialogues etc. as new opportunities for the students to talk about them for practising further through questions, explanations, inferences etc (**D1.3, SELS3.2, V3.4, V4.2, V7.2, V12.1, LS1, LS4, LS9, CS2.13**).

ENG6.8.S4.

CONSTRUCTING SPOKEN MATERIALS: Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme (**SELS2.2, SELS3.2, V4.2, V3.3, V11.1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings (**D1.2, D1.6, D3.3, V7.2, LS2, LS9, CS2.20**).

ENG6.8.S5.

RECONSTRUCTING AND COMMUNICATING THROUGH SPEAKING: Students communicate with each other by seeing/hearing/reading/using the language including the target words and grammatical structures related to the theme “life in the universe and future” in fun, enjoyable, varied, and versatile activities **(SELS2.3, CS2.20)**. Picture strip stories can be used at the end of each theme to provide a consolidation and revision **(V3.4, V4.2, V12.1, LS1, LS4, LS9, CS2.13, CS2.14)**. These new contents created are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. Storification and gamification techniques are actively and extensively used together with other further speaking practice throughout the theme. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, presentations, short texts etc. to interact and to communicate with peers and/or other people in or outside the school by using the language including the target words, language grammar in use, and the social language for the theme and its components such as “planets and the Earth as a planet; life on Earth in the future” **(V3.4, V4.2, V3.3, V11.1, LS4, CS3.1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects at school and at home through recordings **(D2.5, D3.3, SELS3.3, V7.2, LS2, CS2.20)**. These are evaluated as described in items (7), (8), (9), and (10) in the section 1.2. Principles for the Implementation of the English Curriculum. Then they can expand their language use and practise by communicating with others.

ENG6.8.S6.

REFLECTING ON THE SPEAKING-EXPRESSION PROCESS INDIVIDUALLY AND COLLABORATIVELY: The teacher asks students to think about the whole speaking-expression process and asks them to express their thoughts, ideas, and feelings about the process. Some volunteer students express what they think and feel about them **(SELS1.3, CS2.15)**. Then they give feedback about their reflections to each other in pairs and take notes about the feedback they receive **(D2.4, D3.5, SELS2.2)**. The teacher facilitates different activities for creating versatile reflection sessions in a fun and collaborative design **(V4.3, V6.2, V10.3, V20.4, LS1, LS6)**.

DIFFERENTIATION**Expansion**

Objective: To practise future plans, intentions, or something that is likely to happen based on present evidence in English by making a presentation.

Activity 1: Building Tomorrow’s Earth

The teacher divides the class into groups of 4-5 students. They work in teams to make a presentation about different aspects of life in 2050. Each group focuses on a specific area of life on Earth, such as Technology (How will innovations like artificial intelligence, robots, and space exploration transform everyday life?), Environment (What environmental changes will happen by 2050?), Society and Culture (How will people live? How will family structures, education, and work environments be?), Cities (What will future cities look like? Will there be smart cities, floating cities, or green cities with zero waste?), Health & Medicine (Will people have longer and healthier lives?). Each group spends 10-15 minutes brainstorming ideas for their theme. They focus on how life will be different by 2050, using current trends and evidence to support their predictions. The groups share their presentation with the class. After each presentation, the class engages in a Question & Answer session. The teacher encourages students to ask questions like: “How do you think we will solve environmental problems by 2050?”, “Why do you think people are going to live in floating cities?”, “What makes you think robots will replace teachers in the future?”. The teacher asks students to provide positive feedback to each group, using phrases like “I like your idea because...” or “It was interesting when you said...”. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practise future plans, intentions, or something that is likely to happen based on present evidence in English by making a presentation.

Activity 1: Building Tomorrow's Earth

The teacher divides the class into groups of 4-5 students. They work in teams to make a presentation about different aspects of life in 2050. Each group focuses on a specific area of life on Earth, such as Technology (How will innovations like artificial intelligence, robots, and space exploration transform everyday life?), Environment (What environmental changes will happen by 2050?), Society and Culture (How will people live? How will family structures, education, and work environments be?), Cities (What will future cities look like? Will there be smart cities, floating cities, or green cities with zero waste?), Health & Medicine (Will people have longer and healthier lives?). Each group spends 10-15 minutes brainstorming ideas for their theme. The teacher provides visual aids, simple sentence frames (e.g., "In 2050, people will _____", "It might happen because _____"), and vocabulary lists to help them express ideas. The groups share their presentation with the class. After each presentation, the class engages in a Q&A (Question & Answer) session. The teacher encourages students to ask questions like: "How do you think we will solve environmental problems by 2050?", "Why do you think people are going to live in floating cities?", "What makes you think robots will replace teachers in the future?". The teacher asks students to provide positive feedback to each group, using phrases like "I like your idea because..." or "It was interesting when you said...". Students reflect on their thoughts and feelings about the activity.

**YEAR 7
(LEVEL: A2.3)**
THEME 1: SCHOOL LIFE & EDUCATION

Sub-themes: Extra-curricular activities at school; competitions and celebrations at school; national days and celebrations

This theme is centred on the concept of “school life and education” and covers the sub-themes of “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

- FLFS1. Listening/Watching-Comprehension
- FLFS2. Reading-Comprehension
- FLFS3. Speaking-Expression
- FLFS4. Writing-Expression
- FLSS1. Grammar: Selection and Use
- FLSS2. Vocabulary: Selection and Use
- FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS –

DISPOSITIONS

- D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

INTERCURRICULAR COMPONENTS

Social-Emotional Learning Skills

- SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1 Adaptability Skill, SELS3.2 Flexibility Skill, SELS3.3. Responsible Decision-Making Skill

Values V1. Justice, V3. Diligence, V4. Friendship, V5. Sensitivity, V6. Honesty, V7. Aesthetics, V9. Compassion, V10. Modesty, V11. Independence, V12. Patience, V13. Healthy Living, V14. Respect, V16. Responsibility, V20. Benevolence

Literacy Skills LS1. Information Literacy, LS2. Digital Literacy, LS4. Visual Literacy, LS5. Cultural Literacy, LS6. Civic Literacy, LS7. Data Literacy, LS9. Art Literacy

INTERDISCIPLINARY

RELATIONS Turkish, Maths, Social Studies, Visual Arts, Music, Physical Education and Sports, Technology and Design

INTERSKILLS CS2.1. Conflict Resolution Skill, CS2.2. Observation Skill, CS2.3. Summarising Skill, CS2.4. Analysis Skill, CS2.5. Classification Skill, CS2.6. Information Gathering Skill, CS2.7. Comparison Skill, CS2.8. Inquiry Skill, CS2.9. Generalisation Skill, CS2.10. Inference Skill, CS2.11. Observation-Based Prediction Skill, CS2.12. Data-Based Prediction Skill, CS2.13. Analogical Reasoning Skill, CS2.17. Evaluation Skill, CS2.18. Argumentation Skill, CS2.19. Logical Auditing Skill, CS2.20. Synthesis Skill, CS3.1. Decision-Making Skill, CS3.2. Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 7 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.7.1.L1. Students can prepare and get ready for listening (to)/watching about the current content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”.

- a) Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.7.1.L2. Students can bring together the information in the current content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”.

- a) Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.7.1.L3. Students can make sense of and derive meaning from the current content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”.

- a) Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.7.1.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.7.1.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.7.1.R1. Students can prepare for reading the content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.7.1.R2. Students can bring information together about the current content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.7.1.R3. Students can make sense of and derive meaning from the current content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.7.1.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.7.1.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*

- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.7.1.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.7.1.W1. Students can prepare for writing efficiently and accurately based on the current content about “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.7.1.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.7.1.W3. Students can construct new written content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.7.1.W4. Students can practise producing written content based on the current theme “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriated to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriated ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.7.1.W5. Students can engage in the process of writing related to the content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”.

- a) Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.7.1.W6. Students can reconstruct their writing about the current theme on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” to communicate effectively about it.

- a) Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.7.1.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” in relation to themselves or others, both individually and/or with others.

- a) Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.7.1.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”.

- a) Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.7.1.S2. Students can analyse and understand the model content related to “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” to support the production of spoken language.

- a) Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.7.1.S3. Students can produce meaningful and accurate spoken content related to the current theme on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”.

- a) Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*

- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.7.1.S4. Students can construct meaningful spoken content about “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.7.1.S5. Students can reconstruct the information about “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.7.1.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “school life and education with extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

SCHOOL LIFE & EDUCATION

Sub-themes: extra-curricular activities at school; competitions and celebrations at school; national days and celebrations

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for extra-curricular activities at school:

Nouns: A drama play, a drawing, football (soccer-game-AmE.), an exhibition, a congratulation.

Verbs: To act, to attend, to be keen (on),

Adjectives: Fun, religious, casual (clothes), talented,

Vocabulary for competitions and celebrations at school:

Nouns: An ability, an audience, a competition, first, an organization, a winner, a prize, a finish, a start, an organization, a choice,

Verbs: To beat, to celebrate, to race, to blow (up a balloon / candles), to break a record.

Adjectives: Excellent, fair, fascinating,

Adverbs: Fortunately, last.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Simple Present Tense: (I attend extra-curricular activities after school).

-The Present Progressive Tense (now, at present, today): (She is drawing a beautiful picture for the art competition at present).

-Adverbs of frequency: (He rarely acts in the school dramas).

-Modals must and can't (prohibition): (You must follow the competition rules to win a prize).

Functions of the Grammatical Structures in Use:

-Use of the Simple Present Tense: Describing regular actions, general truths, and habits.

-Use of the Present Progressive Tense (now, at present, today): Describing actions happening right now or around the present moment.

-Use of adverbs of frequency: Expressing the frequency of an action.

-Use of modals must and can't (prohibition): Expressing prohibition.

Target Social Language in Use:

What's on the timetable today?

Is a non-uniform day coming up?

It's my turn to be line leader today!

Target Phonological Sounds in Use:

Intonation of positive statements

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “school life and education” and its components such as “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “school life and education” and its components such as “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

An extra-curricular activity, extra-curricular activities at school; competitions, celebrations, competitions and celebrations at school, national days.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will prepare a project to reflect on the importance of extracurricular activities, competitions, and celebrations in shaping their school experience. They will create a visual presentation about their favourite extracurricular activity and explain how it helps them develop new skills and build friendships. They should also describe a memorable school competition or celebration. Finally, students will propose ideas for new activities or events that could make school life even more enjoyable and enriching for everyone. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “school life and education” and its components such as “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”. As they are lower secondary school students in year 7 (seven), they can know what “school life and education” and its components such as “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 7 of lower secondary school, they can know some basic vocabulary about “school life and education” and also some necessary structures in English from the previous themes and/or years. These grammatical items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “school life and education” and its components such as “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “school life and education”. Their knowledge of the days of the week and holidays will help them learn and practise important national holidays such as “the Republic Day of Türkiye”. Therefore, a dialogue game can be played to revise

all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of “school life and education” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “school life and education” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “school life and education” and the sub-themes of “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “school life and education” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG7.1.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V1.2, V3.4, V14.1, V14.3, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG7.1.L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V1.2, V3.4, V14.1, V14.3, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG7.1.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically. **(D3.1, V1.2, V3.4, V14.1, V14.3, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of

words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V1.2, V3.4, V14.1, V14.3, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “school life and education” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG7.1.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG7.1.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4)**. She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4)**.

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “school life and education”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2)**. To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4)**. Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum **(D3.2, D3.6, D3.7)**.

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording (s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5)**. If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2)**. During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1)**. The teacher can get help from AI-based technologies for these activities if available. Students’ performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2)**.

ENG7.1.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “school life and education”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “school life and education” **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8)**. Then she/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7)**. Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1)**. As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1)**. These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3)**. These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17)**. When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7)**. This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5)**. The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19)**. Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story **(LS2, LS4)**. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1)**. In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8)**. So, they revise and practise the meanings of the target (key) vocabulary of the theme “ school life and education”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the

form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 **(D2.5, SELS2.1, V3.4, V4.2, V4.4)**. They can be done with real pictures on the white/blackboard if there is a problem with technology **(LS4)**. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2)**. Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20)**. The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3)**. When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5)**. The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20)**. Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3)**.

ENG7.1.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE):

Consciousness raising- discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "school life and education" **(D3.2, LS7)**. The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2)**. While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2)**. Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure (s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7)**. The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7)**. The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3)**. Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7)**. The teacher asks the pairs to say what they have found **(D2.3, CS2.10)**. As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1,**

CS3.3). Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2)**. Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15)**. This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13)**. These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2)**. She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13)**. They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4)**. When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V4.2, V10.3, SELS2.2)**. This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.1.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “school life and education” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3)**. Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2)**.

ENG7.1.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8)**. Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6)**. They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” **(D3.6, V1.2, V3.4, V14.1, V14.3, LS2, LS5, CS2.7)**. Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8)**. The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1)**. They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8)**.

ENG7.1.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1)**. During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6)**. They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6)**. They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “school life and education” in terms of the sub-themes of “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13)**. The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20)**. After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V1.2, V3.4, V14.1, V14.3, LS1, LS5, LS6, CS2.13, CS2.14)**. In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20)**.

ENG7.1.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3)**. They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

ENG7.1.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing

knowledge about the current content to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12)**. This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2)**.

ENG7.1.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2)**. These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “school life and education”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1)**.

ENG7.1.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1)**. They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1)**. Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13)**.

ENG7.1.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20)**. They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2)**. Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V1.2, V3.4, V14.1, V14.3, LS5, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9)**.

ENG7.1.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher’s and also peers’ feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14)**. A. All the content is formed as contextual, practical, authentic, real, and appropriate to the students’ interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG7.1.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” through their writing tasks **(V1.2,V3.4, V14.1, V14.3, CS3.3)**. They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20)**. All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.1.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5)**.

ENG7.1.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12)**. Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2)**. Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13)**.

ENG7.1.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2)**. These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V1.2, V3.4, V14.1,V14.3, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5)**.

ENG7.1.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “school life and education” in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20)**.

ENG7.1.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20)**. These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “school life and education” as in others **(D3.6, SELS2.1, CS2.13)**.

ENG7.1.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “school life and education” on the sub-themes of “extra-curricular activities at school; competitions and celebrations at school; national days and celebrations” **(V4.5, LS5, CS2.13, CS2.14)**. Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9)**. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2)**. All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.1.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15)**. The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**.

DIFFERENTIATION

Expansion

Objective: To engage students in conversations, foster their creativity and presentation skills in English by using the target vocabulary and the language with grammatical structures (Simple Present Tense- Modal/ Must)

Activity: Role-play

The teacher prepares some questions (e.g., How do you usually feel when you win a prize? How do you celebrate when you become first? What must a person do to break a record?) and begins the activity by giving a situation (e.g., There is a student. She/He is good at swimming, and she/he usually wins the competitions) for the role-play activity. Then she/he divides the class into pairs and asks the students to make an interview with this student by using the questions she has handed out to each pair and answer them meaningfully. The paired students work together, and they act out their dialogues; one of the pairs as the swimmer, the other one as an interviewer. The students give a 'stars' rating (1-5) for their peers' performance and a short explanation by completing sentence beginnings, e.g., "I gave you _____ because your _____ is good, but you should _____". The teacher provides constructive feedback on students' performance in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To engage students in conversations, foster their creativity and presentation skills in English by using the target vocabulary and the language with grammatical structures (Simple Present Tense- Modal/ Must)

Activity: Role-play

The teacher prepares some questions and incomplete forms of the answers (e.g., How do you usually feel when you win a prize? - I feel How do you celebrate when you become first? - I blow, What must a person do to break a record? - We must) and begins the activity by giving a situation (eg., There is a student. She/He is good at swimming, and she/he usually wins the competitions) for the role-play activity. Then she/he divides the class into pairs and asks the students to make an interview with this student by using the questions she has handed out to each pair and answer them meaningfully. The paired students work together, and they act out their dialogues; one of the pairs as the swimmer, the other one as an interviewer. The students give a 'stars' rating (1-5) for their peers' performance and a short explanation by completing sentence beginnings, e.g., "I gave you _____ because your _____ is good, but you should _____". The teacher provides constructive feedback on students' performance in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students reflect on their thoughts and feelings about the activity.

THEME 2: CLASSROOM LIFE & LEARNING

Sub-themes: Technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)

This theme is centred on the concept of “classroom life and learning” and covers the sub-themes of “technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

- FLFS1. Listening/Watching-Comprehension
- FLFS2. Reading-Comprehension
- FLFS3. Speaking-Expression
- FLFS4. Writing-Expression
- FLSS1. Grammar: Selection and Use
- FLSS2. Vocabulary: Selection and Use
- FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS

DISPOSITIONS

D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

INTERCURRICULAR COMPONENTS

Social-Emotional Learning Skills

SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1 Adaptability Skill, SELS3.2 Flexibility Skill, SELS3.3. Responsible Decision-Making Skill

Values

V1. Justice, V3. Diligence, V4. Friendship, V5. Sensitivity, V6. Honesty, V7. Aesthetics, V9. Compassion, V10. Modesty, V11. Independence, V12. Patience, V13. Healthy Living, V14. Respect, V16. Responsibility, V20. Benevolence

Literacy Skills LS1. Information Literacy, LS2. Digital Literacy, LS4. Visual Literacy, LS5. Cultural Literacy, LS6. Civic Literacy, LS7. Data Literacy, LS9. Art Literacy

INTERDISCIPLINARY

RELATIONS Turkish, Maths, Social Studies, Visual Arts, Music, Physical Education and Sports, Technology and Design

INTERSKILLS CS2.1. Conflict Resolution Skill, CS2.2. Observation Skill, CS2.3. Summarising Skill, CS2.4. Analysis Skill, CS2.5. Classification Skill, CS2.6. Information Gathering Skill, CS2.7. Comparison Skill, CS2.8. Inquiry Skill, CS2.9. Generalisation Skill, CS2.10. Inference Skill, CS2.11. Observation-Based Prediction Skill, CS2.12. Data-Based Prediction Skill, CS2.13. Structuring Skill, CS2.14. Interpretation Skill, CS2.15. Reflective Thinking Skill, CS2.16.1. Inductive Reasoning Skill, CS2.16.2. Deductive Reasoning Skill, CS2.16.3. Analogical Reasoning Skill, CS2.17. Evaluation Skill, CS2.18. Argumentation Skill, CS2.19. Logical Auditing Skill, CS2.20. Synthesis Skill, CS3.1. Decision-Making Skill, CS3.2. Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 7 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.7.2.L1. Students can prepare and get ready for listening (to)/watching about the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.7.2.L2. Students can bring together the information in the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.7.2.L3. Students can make sense of and derive meaning from the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.7.2.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.7.2.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.7.2.R1. Students can prepare for reading the content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.7.2.R2. Students can bring information together about the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.7.2.R3. Students can make sense of and derive meaning from the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.7.2.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.7.2.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*

- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.7.2.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.7.2.W1. Students can prepare for writing efficiently and accurately based on the current content about “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.7.2.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.7.2.W3. Students can construct new written content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.7.2.W4. Students can practise producing written content based on the current theme “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.7.2.W5. Students can engage in the process of writing related to the content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.7.2.W6. Students can reconstruct their writing about the current theme on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.7.2.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.7.2.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.7.2.S2. Students can analyse and understand the model content related to “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.7.2.S3. Students can produce meaningful and accurate spoken content related to the current theme on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.7.2.S4. Students can construct meaningful spoken content about “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.7.2.S5. Students can reconstruct the information about “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.7.2.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500–1000); ordinal numbers (50–100)” in relation to themselves or others, both individually and/or with others.

- a) Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

CLASSROOM LIFE & LEARNING

Sub-themes: Technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for technological tools for learning:

Nouns: An app, a mobile device, a laptop, a printer, a screen, a speaker, a tablet, a tool, a website, a code, an error, electricity, a virus, an external memory.

Verbs: To connect, to print.

Adjectives: Digital.

Vocabulary for learning activities in the classroom:

Nouns: A circle, a cross, a decision, a discussion, a memory, a speech, a context, a degree, understanding, streaming, household.

Verbs: To circle, to express, to succeed, to present, to pronounce, to be good at, to be bad at, to play (a critical role).

Adverbs: Correctly, sure.

Adjectives: Confusing.

Vocabulary for cardinal numbers (500-1000)

Vocabulary for ordinal numbers (50-100)

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Simple Present Tense vs Present Progressive Tense: (I use an app every day to check my schedule. The students are expressing their opinions in the discussion right now).

-Question tags for the Simple Present Tense and Present Progressive Tense: (You use a website to learn new things, don't you? They are using a tablet to search for information, aren't they?)

-Will for help: (I will fix the virus problem on your computer).

Functions of the Grammatical Structures in Use:

-Use of the Simple Present Tense vs Present Progressive Tense: Distinguishing regular actions, habits, general truths, permanent situations and actions happening at the moment of speaking, and temporary activities.

-Use of question tags for the Simple Present Tense and Present Progressive Tense: Confirming information or actions that are happening at the moment.

-Use of will for help: Offering help.

Target Social Language in Use:

No cutting corners at school, do your best at school!

I never throw in the towel, I always try again!

Slow down and double-check your work!

Target Phonological Sounds in Use:

Intonation of negative statements

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “classroom life and learning” and its components such as “technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “classroom life and learning” and its components such as “technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts

Technology, tools, technological tools, technological tools for learning, learning activities, learning activities in the classroom, cardinal numbers, ordinal numbers.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will prepare a digital slideshow about “Classroom Life and Learning”. They will include three slides: one featuring technological tools they use for learning, another describing at least three classroom learning activities they enjoy, and a final slide using cardinal numbers (500-1000) and ordinal numbers (50-100) creatively in sentences. For instance, they might mention the number of students in their school or the rank of favourite activities. Students will present their slideshows to the class, explaining their content clearly and briefly. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “classroom life and learning” and its components such as “technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”. As they are lower-secondary school students in year 7 (seven), they can know what “classroom life and learning” and these components mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 7 of lower-secondary school, they can know some basic vocabulary about “classroom life and learning” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “classroom life and learning” and its components such as “technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous

years would be helpful as a basis for moving on and learning the current content on the concept of “classroom life and learning”. Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of “classroom life and learning” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “classroom life and learning” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “classroom life and learning” and the sub-themes of “technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “classroom life and learning” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG7.2.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the concept of “classroom life and learning”, where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about “classroom life and learning” to prepare themselves to work on guessing the topic of the current theme, “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” **(V3.2, V11.1, V16.1, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG7.2.L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on “classroom life and learning with technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” to identify the topic of the content and to answer the question “What is the whole content about” **(D3.6, V3.2, V11.1, V16.1, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG7.2.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically. **(D3.1, V3.2, V11.1, V16.1, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help

students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V3.2, V11.1, V16.1, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “classroom life and learning” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG7.2.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG7.2.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4)**. She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4)**.

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “classroom life and learning”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2)**. To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4)**. Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum **(D3.2, D3.6, D3.7)**.

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording (s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5)**. If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2)**. During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1)**. The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2)**.

ENG7.2.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “classroom life and learning”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “classroom life and learning” **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8)**. Then she/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7)**. Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1)**. As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1)**. These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3)**. These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17)**. When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7)**. This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5)**. The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19)**. Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story **(LS2, LS4)**. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1)**. In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8)**. So, they revise and practise the meanings of the target (key) vocabulary of the theme “classroom life and learning”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the

form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 **(D2.5, SELS2.1, V3.4, V4.2, V4.4)**. They can be done with real pictures on the white/blackboard if there is a problem with technology **(LS4)**. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2)**. Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20)**. The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3)**. When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5)**. The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20)**. Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3)**.

ENG7.2.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "classroom life and learning" **(D3.2, LS7)**. The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2)**. While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2)**. Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure (s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7)**. The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7)**. The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3)**. Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7)**. The teacher asks the pairs to say what they have found **(D2.3, CS2.10)**. As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3)**. Then the teacher

hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2)**. Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15)**. This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13)**. These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2)**. She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13)**. They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4)**. When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V4.2, V10.3, SELS2.2)**. This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.2.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “classroom life and learning” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3)**. Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2)**.

ENG7.2.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8)**. Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6)**. They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” **(D3.6, V3.2, V11.1, V16.1, LS2, LS5, CS2.7)**. Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8)**. The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1)**. They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8)**.

ENG7.2.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1)**. During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6)**. They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6)**. They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “classroom life and learning” in terms of the sub-themes of “technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13)**. The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20)**. After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.2, V3.4, V11.1, V16.1, LS1, LS5, LS6, CS2.13, CS2.14)**. In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20)**.

ENG7.2.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3)**. They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

ENG7.2.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12)**. This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2)**.

ENG7.2.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2)**. These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “classroom life and learning”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1)**.

ENG7.2.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own **(V16.1)**. They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1)**. Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13)**.

ENG7.2.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20)**. They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2)**. Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V3.2, V11.1, V16.1, LS5, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9)**.

ENG7.2.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories,

dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14)**. A. All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG7.2.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of "technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)" through their writing tasks **(V3.2, V11.1, V16.1, CS3.3)**. They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20)**. All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.2.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5)**.

ENG7.2.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12)**. Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2)**. Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13)**.

ENG7.2.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2)**. These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken

language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully (**V3.2, V3.3, V11.1, V16.1, LS1, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks (**D3.6, SELS1.2, V3.2, V3.4, LS5**).

ENG7.2.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “classroom life and learning” in fun, enjoyable, varied, and versatile activities (**SELS3.2, V7.2, LS9**). These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class (**D3.2, SELS2.2, V4.2, CS2.20**).

ENG7.2.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation (**SELS3.3, V3.4, CS2.20**). These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “classroom life and learning” as in others (**D3.6, SELS2.1, CS2.13**).

ENG7.2.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “classroom life and learning” on the sub-themes of “technological tools for learning; learning activities in the classroom; cardinal numbers (500-1000); ordinal numbers (50-100)” (**V4.5, LS5, CS2.13, CS2.14**). Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme (**SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9**). Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme (**SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2**). All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.2.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning (**SELS1.3**) or on their collaborative learning in pairs, groups or as a whole class collaboratively (**D2.3, SELS2.2, CS2.15**). The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form

of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**.

DIFFERENTIATION

Expansion

Objective: To offer help about technological tools in English and to improve writing and speaking skills by using the target vocabulary and the target grammatical structures (Will for help)

Activity 1: I am in trouble!

The teacher writes some scenarios about technological problems (e.g., 1-There is a virus on my computer., 2-The printer is not working., 3-I must connect to Wi-Fi.) on slips of paper. She/He divides the class into pairs and hands out the slips to the pairs. Then she/he asks the students to read the problems and offer help for those. When the students complete the task, they are ready to act it out. The pairs are invited to the board in turns and asked to be careful with body language and intonation while acting out. Each pair presents scenarios respectively. After the role-plays, each pair shares the most creative scenarios with the class. The teacher praises the students for their creativity, and presentation skills. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To offer help about technological tools in English and to improve writing and speaking skills by using the target vocabulary and the target grammatical structures (Will for help)

Activity: I am in trouble!

Instruction:

The teacher writes some scenarios about technological problems (e.g., 1-There is a virus on my computer., 2-The printer is not working., 3-I must connect to Wi-Fi.) and some phrases for offers (fix the virus problem, check the printer, ask for the password) on slips of paper. She/He divides the class into pairs and hands out the slips to the pairs. Then she/he asks the students to read the problems and offer help for those. When the students complete the task, they are ready to act it out. The pairs are invited to the board in turns and asked to be careful with body language and intonation while acting out. Each pair presents scenarios respectively. After the role-plays, each pair shares the most creative scenarios with the class. The teacher praises the students for their creativity, and presentation skills. Students reflect on their thoughts and feelings about the activity.

THEME 3: PERSONAL LIFE & WELL-BEING

Sub-themes: Body parts, illnesses, and keeping good health; the place of technology in people's lives

This theme is centred on the concept of "personal life and well-being" and covers the sub-themes of "body parts, illnesses, and keeping good health; the place of technology in people's lives". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS	FLFS1. Listening/Watching-Comprehension
	FLFS2. Reading-Comprehension
	FLFS3. Speaking-Expression
	FLFS4. Writing-Expression
	FLSS1. Grammaring: Selection and Use
	FLSS2. Vocabulary: Selection and Use
	FLSS3. Pronunciation: Selection and Use

Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 7 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.7.3.L1. Students can prepare and get ready for listening (to)/watching about the current content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.7.3.L2. Students can bring together the information in the current content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.7.3.L3. Students can make sense of and derive meaning from the current content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise, and personalise current content in an individualised, age-appropriate, and level-appropriate way.*

ENG.7.3.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.7.3.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.7.3.R1. Students can prepare for reading the content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences, and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.7.3.R2. Students can bring information together about the current content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.7.3.R3. Students can make sense of and derive meaning from the current content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.7.3.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.7.3.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.7.3.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.7.3.W1. Students can prepare for writing efficiently and accurately based on the current content about “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.7.3.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.7.3.W3. Students can construct new written content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.7.3.W4. Students can practise producing written content based on the current theme “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.7.3.W5. Students can engage in the process of writing related to the content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.7.3.W6. Students can reconstruct their writing about the current theme on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.7.3.W7. Students can be able convey (reflect on) their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.7.3.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.7.3.S2. Students can analyse and understand the model content related to “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.7.3.S3. Students can produce meaningful and accurate spoken content related to the current theme on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.7.3.S4. Students can construct meaningful spoken content about “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.7.3.S5. Students can reconstruct the information about “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.7.3.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “personal life and well-being with body parts, illnesses, and keeping good health; the place of technology in people’s lives” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

PERSONAL LIFE & WELL BEING

Sub-themes: body parts, illnesses, and keeping good health; the place of technology in people's lives

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for body parts, illnesses, and keeping good health:

Nouns: An appearance, blood, a bone, a brain, a disease, flu, a headache, a toothache, a stomachache, an illness, a condition, a drug, a sleep, an ambulance, an appointment, an accident, a chemist, a cold, a danger, an exercise, a medicine, a virus, a rest, health, a treatment.

Verbs: To break, to check, to cut, to fall.

Adjectives: Medical, ill, dangerous, sick, addictive.

Adverbs: Badly, completely.

Vocabulary for the place of technology in people's lives:

Nouns: An alternative, a benefit, a web, knowledge, smart devices, screen time, data.

Verbs: To reach, to set a limit.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Simple Past Tense (was/were): (I was sick last week).

-The Simple Past Tense (Regular verbs): (I visited the chemist yesterday).

-The question tags for "to be- was-were" and the Simple Past Tense: (You were at the hospital yesterday, weren't you? They visited the doctor last month, didn't they?)

Functions of the Grammatical Structures in Use:

-Use of the Simple Past Tense (was/were): Describing past states of being or situations.

-Use of the Simple Past Tense (Regular verbs): Describing completed actions or events that occurred in the past with regular verbs.

-Use of the question tags for "to be- was-were" and the Simple Past Tense: Confirming a past action or a past state of being.

Target Social Language in Use:

Staying active is key to feeling great!

Scroll less, live more!

Unplug and unwind!

Prepare a pack of healthy food and make sure you get your five-a-day!

Target Phonological Sounds in Use:

Intonation of questions and question tags

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “personal life and well-being” and its components such as “body parts, illnesses, and keeping good health; the place of technology in people’s lives” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “personal life and well-being” and its components such as “body parts, illnesses, and keeping good health; the place of technology in people’s lives” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

body parts, illnesses, good health, keeping good health, technology, the place of technology in people’s lives.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will make scrapbooks about a healthy life. In it, they will create pages about staying healthy and using technology wisely. One page can show body parts, healthy habits, and ways to avoid illness, like eating well and exercising. Another page can show how they use technology for school, games, and fun, but also how they spend time without screens, like playing sports or reading a book. They will use drawings, photos, and short captions to share their ideas. They can use Web 2.0 tools. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “personal life and well-being” and its components such as “body parts, illnesses, and keeping good health; the place of technology in people’s lives”. As they are lower secondary school students in year 7 (seven), they can know what “personal life and well-being” and its components such as “body parts, illnesses, and keeping good health; the place of technology in people’s lives” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 7 of lower secondary school, they can know some basic vocabulary about “personal life and well-being” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “personal life and well-being” and its components such as “body parts, illnesses, and keeping good health; the place of technology in people’s lives”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “personal life and well-being”. Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to

facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices).

Establishing Links

Students are asked to recall the concept of “personal life and well-being” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “personal life and well-being” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4)**. This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4)**. That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central “personal life and well-being” and the sub-themes of “body parts, illnesses, and keeping good health; the place of technology in people’s lives”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “personal life and well-being” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG7.3.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the concept of “personal life and well-being”, where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of

the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about “personal life and wellbeing” to prepare themselves to work on guessing the topic of the current theme **“personal life and well-being with (extended) body parts, illnesses, and keeping good health; the place of technology in people’s lives” (V10.1, V13.3, V13.4, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG7.3.L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content on “personal life and well-being with (extended) body parts, illnesses, and keeping good health; the place of technology in people’s lives” to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V10.1, V13.3, V13.4, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG7.3.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically. **(D3.1, V10.1, V13.3, V13.4, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not

take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V10.1, V13.3, V13.4, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “body parts, illnesses, and keeping good health; the place of technology in people’s lives” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “personal life and well-being” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG7.3.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG7.3.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as

the main context for noticing the target phonological elements **(LS1, LS2, LS4)**. She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4)**.

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “personal life and well-being”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2)**. To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4)**. Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum **(D3.2, D3.6, D3.7)**.

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording (s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5)**. If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2)**. During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1)**. The teacher can get help from AI-based technologies for these activities if available. Students’ performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2)**.

ENG7.3.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “personal life and well-being”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions.

The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme: (extended) body parts, illnesses, and keeping good health; the place of technology in people's lives **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find "part/paragraph context clues" in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8)**. Then she/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks

what helps them understand the meaning of the part/paragraph (**D3.6, SELS2.2, V4.1, LS1, LS7**). Students discuss the meaning of the part/paragraph in pairs (**D3.10, SELS2.2, V4.2, CS2.18**) and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story (**V6.2, LS1, LS5, CS2.16.1**). As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about (**D3.2, D3.6, SELS3.1, CS2.16.1**). These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words (**D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3**). These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word (**D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17**). When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences (**SELS3.1, V4.1, LS7**). This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided (**D3.2, D3.6, V3.3, LS5, CS2.5**). The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class (**D2.3, D3.6, SELS2.1, V4.2, CS2.19**). Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story (**LS2, LS4**). When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (**D3.6, LS5, CS2.7, CS3.1**). As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs (**D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1**). In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues (**D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8**). So, they revise and practise the meanings of the target (key) vocabulary of the theme. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 (**D2.5, SELS2.1, V3.4, V4.2, V4.4**). They can be done with real pictures on the white/blackboard if there is a problem with technology (**LS4**).

These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2)**. Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20)**. The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3)**. When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5)**. The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20)**. Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3)**.

ENG7.3.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE):

Consciousness raising- discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "personal life and well-being" **(D3.2, LS7)**. The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (LS2). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2)**. Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure (s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7)**. The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7)**. The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3)**. Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7)**. The teacher asks the pairs to say what they have found **(D2.3, CS2.10)**. As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3)**. Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the

rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2)**. Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15)**. This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13)**. These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2)**. She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13)**. They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4)**. When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V4.2, V10.3, SELS2.2)**. This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.3.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “personal life and well-being” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3)**. Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2)**.

ENG7.3.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8)**. Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6)**. They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “body parts,

illnesses, and keeping good health; the place of technology in people's lives" (**D3.6, V10.1, V13.3, V13.4, LS2, LS5, CS2.7**). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks (**V3.4, LS7, CS2.8**). The teacher could use different versions of the scanning activities as described in the "listening/watching- comprehension" section above. In this way, they can understand the text in general better with the help of scanning (**CS2.16.1**). They share the components with the whole class (**SELS2.1**) and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8**).

ENG7.3.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (**D3.2, SELS2.2, V4.1**). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) (**CS2.6**). They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities (**V3.3, V6.2, LS1, CS2.4, CS2.6**). They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme "personal life and well-being" in terms of the sub-themes of "body parts, illnesses, and keeping good health; the place of technology in people's lives" mean from different perspectives to build their own understandings (**D3.6, D3.8, SELS3.1, CS2.13**). The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process (**SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20**). After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V3.4, V10.1, V13.3, V13.4, LS1, LS5, LS6, CS2.13, CS2.14**). In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading (**SELS3.3, V7.2, CS2.20**).

ENG7.3.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process (**SELS1.3**). They talk about them individually and then share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

ENG7.3.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to write about (**D3.2, SELS1.1, CS2.12**). This includes examining all the audio/visual sources and elements provided for understanding the writing task (**V3.2, LS1, CS2.2**).

ENG7.3.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given (**CS2.2**). These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “personal life and well-being”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully (**V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks (**D3.6, SELS1.2, V3.2, LS1**).

ENG7.3.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own (V16.1). They participate in several writing activities individually, in pairs, in groups and as a whole class (**D2.3, SELS2.2, V4.1**). Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others (**SELS2.1, LS1, CS2.13**).

ENG7.3.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic (**D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20**). They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects (**D1.4, SELS2.2, V3.4, V4.1, V4.2**). Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others (**SELS3.2, SELS3.3, V10.1, V13.3, V13.4, LS5, CS2.14, CS3.3**). Storification and gamification techniques are actively and extensively used for further writing practice (**D2.5, LS9**).

ENG7.3.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities (**SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14**). A. All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students (**D3.1, SELS1.2, V12.3, LS1, CS3.1**).

ENG7.3.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of “body parts, illnesses, and keeping good health; the place of technology in people’s lives” through their writing tasks **(V10.1, V13.3, V13.4, CS3.3)**. They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20)**. All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.3.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students’ learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5)**.

ENG7.3.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12)**. Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2)**. Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13)**.

ENG7.3.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2)**. These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V10.1, V13.3, V13.4, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5)**.

ENG7.3.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “personal life and well-being” in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20)**.

ENG7.3.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20)**. These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “personal life and well-being” as in others **(D3.6, SELS2.1, CS2.13)**.

ENG7.3.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “personal life and well-being” on the sub-themes of “body parts, illnesses, and keeping good health; the place of technology in people’s lives” **(V4.5, LS5, CS2.13, CS2.14)**. Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9)**. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2)**. All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.3.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15)**. The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**.

DIFFERENTIATION

Expansion

Objective: To foster students' listening and taking note skills in English by using the target vocabulary and the target grammatical items (Simple Past Tense-regular verbs/was-were)

Activity: What happened to you?

The teacher prepares the class for a listening activity. She/He divides the class into groups of four and hands out sheets to each student. She/He informs the students that they are going to listen to a text twice about a person who has got a health problem. The students are asked to listen to it carefully and write down the regular past verbs and the body parts they hear while listening.

After they have listened twice, the teacher asks them to discuss their answers with the group mates. Then she/he displays the text on the board to the whole class and they check the answers together. The teacher provides positive feedback by praising the students' engagement in the activity. The students fill in the form given by the teacher to evaluate their performance (It was easy to, It was difficult to). Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To foster students' listening and taking note skills in English by using the target vocabulary and the target grammatical items (Simple Past Tense-regular verbs/was-were)

Activity: What happened to you?

Instruction: The teacher prepares the class for a listening activity. She/He divides the class into groups of four and hands out the sheets including a list of verbs (e.g. visit, check, rest) and body parts (e.g., a bone, a brain, a head) to each student. She/He informs the students that they are going to listen to a text twice about a person who has got a health problem. The students are asked to listen to it carefully and write down the regular past verbs and the body parts they hear while listening.

After they have listened twice, the teacher asks them to discuss their answers with the group mates. Then she/he displays the text on the board to the whole class and they check the answers together. The teacher provides positive feedback by praising the students' engagement in the activity. The students fill in the form given by the teacher to evaluate their performance (It was easy to find the verbs/ find the body parts/write the past forms of the verbs., It was difficult to find the verbs/ find the body parts/write the past forms of the verbs.). Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 4: FAMILY LIFE & HOME

Sub-themes: Family members' hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions

This theme is centred on the concept of "family life and home" and covers the sub-themes of "family members' hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammar: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS

DISPOSITIONS D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

INTERCURRICULAR COMPONENTS

Social-Emotional Learning Skills

SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1 Adaptability Skill, SELS3.2 Flexibility Skill, SELS3.3. Responsible Decision-Making Skill

Values

V1. Justice, V2. Family Integrity, V3. Diligence, V4. Friendship, V5. Sensitivity, V6. Honesty, V7. Aesthetics, V8. Privacy, V9. Compassion, V10. Modesty, V11. Independence, V12. Patience, V13. Healthy Living, V14. Respect, V15. Love and Affection, V16. Responsibility, V20. Benevolence

Literacy Skills LS1. Information Literacy, LS2. Digital Literacy, LS4. Visual Literacy, LS5. Cultural Literacy, LS6. Civic Literacy, LS7. Data Literacy, LS9. Art Literacy

INTERDISCIPLINARY

RELATIONS Turkish, Maths, Social Studies, Visual Arts, Music, Physical Education and Sports, Technology and Design

INTERSKILLS CS2.1. Conflict Resolution Skill, CS2.2. Observation Skill, CS2.3. Summarising Skill, CS2.4. Analysis Skill, CS2.5. Classification Skill, CS2.6. Information Gathering Skill, CS2.7. Comparison Skill, CS2.8. Inquiry Skill, CS2.9. Generalisation Skill, CS2.10. Inference Skill, CS2.11. Observation-Based Prediction Skill, CS2.12. Data-Based Prediction Skill, CS2.13. Structuring Skill, CS2.14. Interpretation Skill, CS2.15. Reflective Thinking Skill, CS2.16.1. Inductive Reasoning Skill, CS2.16.2. Deductive Reasoning Skill, CS2.16.3. Analogical Reasoning Skill, CS2.17. Evaluation Skill, CS2.18. Argumentation Skill, CS2.19. Logical Auditing Skill, CS2.20. Synthesis Skill, CS3.1. Decision-Making Skill, CS3.2. Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 7 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.7.4.L1. Students can prepare and get ready for listening (to)/watching about the current content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.7.4.L2. Students can bring together the information in the current content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.7.4.L3. Students can make sense of and derive meaning from the current content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.7.4.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.7.4.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.7.4.R1. Students can prepare for reading the content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.7.4.R2. Students can bring information together about the current content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.7.4.R3. Students can make sense of and derive meaning from the current content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.7.4.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.7.4.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*

- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.7.4.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.7.4.W1. Students can prepare for writing efficiently and accurately based on the current content about “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.7.4.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.7.4.W3. Students can construct new written content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.7.4.W4. Students can practise producing written content based on the current theme “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.7.4.W5. Students can engage in the process of writing related to the content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.7.4.W6. Students can reconstruct their writing about the current theme on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.7.4.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.7.4.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.7.4.S2. Students can analyse and understand the model content related to “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.7.4.S3. Students can produce meaningful and accurate spoken content related to the current theme on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current current.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.7.4.S4. Students can construct meaningful spoken content about “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.7.4.S5. Students can reconstruct the information about “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.7.4.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “family life and home with family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

FAMILY LIFE & HOME

Sub-themes: Family members' hobbies (sports, books, films, music, cooking); generation gap in the family; problems and solutions

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for family members' hobbies (sports, books, films, music, cooking):

Nouns: A possession, a novel, a story, a library, a scene, a choice, a fiction, an author, a character, an adventure, a drama, an animation, classical music, Turkish classical music, folk music, jazz.

Verbs: To manage, to publish, to taste, to collect, to bake.

Adjectives: Original, scary.

Adverbs: Nearly.

Vocabulary for generation gap in the family: problems and solutions:

Nouns: A tradition, advice, a lifestyle, a behaviour, an argument, a relationship, a teenager, an adult.

Verbs: To mind, to give a try, to have a bond, to give harm.

Adjectives: Teenage.

Adverbs: Almost, anyway, unfortunately, luckily.

Conjunction: As, since (because).

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Simple Past Tense (Irregular verbs): (The author published a new novel last year).

-Question tags for the Simple Past Tense: (They had an argument yesterday).

-Shall for suggestions: (Shall we watch an animation?)

Functions of the Grammatical Structures in Use:

-Use of the Simple Past Tense (Irregular verbs): Describing an action that happened in the past.

-Use of question tags for the Simple Past Tense: Confirming information in the past.

-Use of shall for suggestions: Suggesting actions in the near future.

Target Social Language in Use:

My mum's mad about cooking new recipes!

My parents think I'm glued to my phone!

We try to meet halfway on family activities!

Target Phonological Sounds in Use:

a, b, c, d, e

Vowels: a: (/æ/, /ae/, /ə/, /a:/, /eɪ/, /a:/, /a/, /ɔ:/, /eə/); e: (/e/, /i:/, /ə/)

Consonants: b: (/b/, silent /b/); c: (/s/, /k/); d: (/d/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme.)

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “family life and home” and its components such as “family members’ hobbies (sports , books, films, music, cooking); generation gap in the family: problems and solutions” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “family life and home” and its components such as “family members’ hobbies (sports ,books, films, music, cooking); generation gap in the family: problems and solutions” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

Family, family members, hobbies, family members’ hobbies (sports ,books, films, music, cooking); generation gap, generation gap in the family, family problems, solutions to family problems.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will create a short story about their family members’ hobbies, focusing on how different generations in their family spend their free time. They will describe at least two family members from different age groups, such as a grandparent and a sibling, emphasising their favourite hobbies like sports, films, books, music, or cooking. Students will also identify one potential problem caused by the generation gap, such as disagreements over music or technology use, and suggest a creative solution to bring the family closer together. This assignment will encourage students to explore family dynamics while practicing descriptive and problem-solving skills. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “family life and home” and its components such as “family members’ hobbies (sports ,books, films, music, cooking); generation gap in the family: problems and solutions”. As they are lower secondary school students in year 7 (seven), they can know what “family life and home” and its components such as “family members’ hobbies (sports ,books, films, music, cooking); generation gap in the family: problems and solutions” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 7 of lower secondary school, they can know some basic vocabulary about “family life and home” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “family life and home” and its components such as “family members’ hobbies (sports ,books, films, music, cooking); generation gap in the family: problems and solutions”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “family

life and home". Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of "family life and home" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme "family life and home" in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic "family life and home" and the sub-themes of "family members' hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions", allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme "family life and home" is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG7.4.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V2.3, V2.4, V8.3, V15.1, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG7.4. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V2.3, V2.4, V8.3, V15.1, LS1, LS4, LS5, CS2.2)** They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG7.4.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V2.3, V2.4, V8.3, V15.1, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of

words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V2.3, V2.4, V8.3, V15.1, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “family life and home” are introduced to the students in English **(LS5.)** At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG7.4.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG7.4.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4)**. She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4)**.

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “family life and home”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2)**. To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4)**. Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum **(D3.2, D3.6, D3.7)**.

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording (s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5)**. If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2)**. During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1)**. The teacher can get help from AI-based technologies for these activities if available. Students’ performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2)**.

ENG7.4.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “family life and home”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of “family life and home” **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8)**. Then she/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part /paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7)**. Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1)**. As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1)**. These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3)**. These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17)**. When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7)**. This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5)**. The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19)**. Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story **(LS2, LS4)**. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1)**. In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8)**. So, they revise and practise the meanings of the target (key) vocabulary of the theme “family life and home” . This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of

a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and Web 2.0 (**D2.5, SELS2.1, V3.4, V4.2, V4.4**). They can be done with real pictures on the white/blackboard if there is a problem with technology (**LS4**). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme (**D2.3, SELS1.2**). Then students say several things about the items in the picture (**D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20**). The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her (**D3.9, D3.10, SELS2.2, V3.4, CS3.3**). When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation (**D3.6, D3.7, CS2.5**). The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions (**D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20**). Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3**).

ENG7.4.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "family life and home" (**D3.2, LS7**). The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (**LS2**). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully (**D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2**). Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure (s) in the theme to those written by her/him on the smart board/blackboard/whiteboard (**SELS2.2, V3.4, CS2.7**). The students look at the written version of the story and find similar sentences to those given by the teacher as examples (**D3.2, D3.6, CS2.4, CS2.7**). The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way (**D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3**). Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities (**D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7**). The teacher asks the pairs to say what they have found (**D2.3, CS2.10**). As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them (**D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3**). Then the teacher hands out a piece of paper and asks the

students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2)**. Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15)**. This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13)**. These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2)**. She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13)**. They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4)**. When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V4.2, V10.3, SELS2.2)**. This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.4.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “family life and home” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3)**. Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2)**.

ENG7.4.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8)**. Then they read the text very quickly (scanning) to check the main components and categories with

the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6)**. They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “family members’ hobbies (sports , books, films, music, cooking); generation gap in the family: problems and solutions **(D3.6, V2.3, V2.4, V8.3, V15.1, LS2, LS5, CS2.7)**. Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8)**. The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1)**. They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8)**.

ENG7.4.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (D3.2, SELS2.2, V4.1). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6)**. They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6)**. They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “family life and home” in terms of the sub-themes of “family members’ hobbies (sports , books, films, music, cooking); generation gap in the family: problems and solutions” mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13)**. The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20)**. After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current **(D3.5, SELS3.2, V2.3, V2.4, V8.3, V15.1, LS1, LS5, LS6, CS2.13, CS2.14)**. In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20)**.

ENG7.4.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3)**. They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

ENG7.4.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12)**. This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2)**.

ENG7.4.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2)**. These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “family life and home” . Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1)**.

ENG7.4.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own. They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1)**. Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13)**.

ENG7.4.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20)**. They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2)**. Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V2.3, V2.4, V8.3, V15.1, LS5, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9)**.

ENG7.4.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14)**. A. All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG7.4.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of “family members’ hobbies (sports , books, films, music, cooking); generation gap in the family: problems and solutions” through their writing **tasks (V2.3, V2.4, V8.3, V15.1, CS3.3)**. They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20)**. All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.4.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students’ learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5)**.

ENG7.4.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12)**. Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2)**. Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13)**.

ENG7.4.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2)**. These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V2.3, V2.4, V8.3, V15.1, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5)**.

ENG7.4.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “family life and home” in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20)**.

ENG7.4.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20)**. These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “family life and home” as in others **(D3.6, SELS2.1, CS2.13)**.

ENG7.4.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “family life and home” on the sub-themes of “family members’ hobbies (sports, books, films, music, cooking); generation gap in the family: problems and solutions” **(V4.5, LS5, CS2.13, CS2.14)**. Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9)**. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2)**. All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.4.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15)**. The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**.

DIFFERENTIATION

Expansion

Objective: To engage in creating stories about family members and their hobbies in English by using the target vocabulary and target grammatical items (Simple Past Tense-irregular verbs)

Activity: We had fun, didn't we?

The teacher prepares hobby cards (e.g., cooking, watching, reading, fishing). She/He divides the class into groups of four/five and informs the students that they're going to create a story about a family sharing hobby during a weekend. Then she/he gives each group a hobby card and assigns family roles to the group members (e.g., a mother/father, a grandmother/grandfather, a son/daughter). Each group represents a family. The teacher writes some questions on the board (Where was the family?, What did they do?, What went wrong?, What funny thing happened?) and asks the students to create their stories by answering those questions. Each student makes a sentence in turns. When each group finishes writing, they present the stories to the classmates. The rest of the groups give a 'stars' rating (1-5) for their peers' performance and chooses the most creative story. The teacher provides constructive feedback on language use, grammar and presentation. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To engage in creating stories about family members and their hobbies in English by using the target vocabulary and target grammatical items (Simple Past Tense-irregular verbs)

Activity: We had fun, didn't we?

The teacher prepares hobby cards (e.g., cooking, watching, reading, fishing) and verb cards related to the hobby cards (e.g., bake, argue, teach, catch, cook). She/He divides the class into groups of four/five and informs the students that they're going to create a story about a family sharing hobby during a weekend. Then she/he gives each group a hobby card and the verb cards and assigns family roles to the group members (e.g., a mother/father, a grandmother/grandfather, a son/daughter). Each group represents a family. The teacher writes some questions on the board (Where was the family?, What did they do?, What went wrong?, What funny thing happened?) and asks the students to create their stories by answering those questions. Each student makes a sentence in turns. When each group finishes writing, they present the stories to the classmates. The rest of the groups give a 'stars' rating (1-5) for their peers' performance and choose the most creative story. The teacher provides constructive feedback on language use, grammar and presentation. Students reflect on their thoughts and feelings about the activity.

THEME 5: LIFE IN THE NEIGHBOURHOOD & CITY AND SOCIAL LIFE

Sub-themes: Public services in the neighbourhood and city; life in different kinds of cities

This theme is centred on the concept of “life in the neighbourhood and city and social life” and covers the sub-themes of “public services in the neighbourhood and city; life in different kinds of cities”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
 FLFS2. Reading-Comprehension
 FLFS3. Speaking-Expression
 FLFS4. Writing-Expression

Year 7 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.7.5.L1. Students can prepare and get ready for listening (to)/watching about the current content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.7.5.L2. Students can bring together the information in the current content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.7.5.L3. Students can make sense of and derive meaning from the current content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.7.5.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.7.5.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.7.5.R1. Students can prepare for reading the content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.7.5.R2. Students can bring information together about the current content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.7.5.R3. Students can make sense of and derive meaning from the current content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.7.5.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.7.5.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.7.5.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.7.5.W1. Students can prepare for writing efficiently and accurately based on the current content about “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.7.5.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.7.5.W3. Students can construct new written content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.7.5.W4. Students can practise producing written content based on the current theme “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.7.5.W5. Students can engage in the process of writing related to the content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.7.5.W6. Students can reconstruct their writing about the current theme on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*
- c) *Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” in relation to themselves or others, both individually and/or with others.*
- d) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- e) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- f) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.7.5.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.7.5.S2. Students can analyse and understand the model content related to “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.7.5.S3. Students can produce meaningful and accurate spoken content related to the current theme on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.7.5.S4. Students can construct meaningful spoken content about “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.7.5.S5. Students can reconstruct the information about “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.7.5.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “life in the neighbourhood and city including social life with public services in the neighbourhood and city; life in different kinds of cities” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE NEIGHBOURHOOD & CITY AND SOCIAL LIFE

Sub-themes: Public services in the neighbourhood and city; life in different kinds of cities

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for public services in the neighbourhood and city:

Nouns: An experience, an advertisement, a comment, a colleague, a bank, a department, a post (mail-AmE.), an ad, an advertisement, advertising, public, a promise, a store, a user.

Verbs: To manage, to respond, to reply, to consider, to advertise, to post (to mail-AmE.), to promise, to wish.

Adjectives: Public, safe.

Adverbs: Inside.

Phrases: An emergency service, a community centre, a fire department, once upon a time, social media account.

Vocabulary for life in different kinds of cities:

Nouns: A community, a creature, husbandry.

Verbs: To feed, to collect, to develop, to look after.

Adjectives: Downtown, simple, safe, lively, peaceful, historical, charming.

Adverbs: Easily, free.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

***Local Cultural, Social and Moral Considerations of the Theme**

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Past Progressive Tense: (The street performers were entertaining a large crowd downtown).

-Question tags for the Past Progressive Tense: (People were chatting at the café about the new community center, weren't they?).

Functions of the Grammatical Structures in Use:

-The Past Progressive Tense: Expressing actions that were ongoing at a specific time in the past or were interrupted by another action.

-Question tags for the Past Progressive Tense: Confirming information or asking for agreement about actions that were ongoing at a specific time in the past or were interrupted by another action.

Target Social Language in Use:

Our community is close-knit, everybody knows each other!

Our neighbourhood is family-friendly with parks and schools!

There are many well-maintained gardens in this area!

Target Phonological Sounds in Use:

f, g, h, i, j, k

Vowel: i: (/aɪ/, /ɪ/, /i:/)

Consonants: f: (/f/); g: (/g/, /dʒ/); h: (/h/); j: (/dʒeɪ/, /dʒ/); k: (/k/)

*(Phonetic symbols will not be taught. Only sounds will be practised.)

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “life in the neighbourhood and city and social life” and its components such as “public services in the neighbourhood and city; life in different kinds of cities” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “life in the neighbourhood and city and social life” and its components such as “public services in the neighbourhood and city; life in different kinds of cities” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

Public services, neighbourhood, city, public services in the neighbourhood, public services in the city, different cities, life in the city, life in different kinds of cities.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will prepare a short story titled “A Day in My Classroom and City” that reflects classroom life and connects it with public services in their neighbourhood or city, such as libraries, chemists, or hospitals, and highlights how these services support learning. They will also imagine their classroom in a smart city and describe how technology or innovative systems enhance their learning experience. Students will write their story by using at least three paragraphs and include details about the characters, setting, and events. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “life in the neighbourhood and city and social life” and its components such as “public services in the neighbourhood and city; life in different kinds of cities”. As they are lower secondary school students in year 7 (seven), they can know what “life in the neighbourhood and city and social life” and its components such as “public services in the neighbourhood and city; life in different kinds of cities” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 7 of lower secondary school, they can know some basic vocabulary about “life in the neighbourhood and city and social life” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in the neighbourhood and city and social life” and its components such as “public services in the neighbourhood and city; life in different kinds of cities”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “life in the neighbourhood and city and social life”. Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are

able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of “life in the neighbourhood and city and social life” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “life in the neighbourhood and city and social life” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being **(D1.5, V12.1, V13.4)**. This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English **(D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4)**. That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “life in the neighbourhood and city and social life” and the sub-themes of “public services in the neighbourhood and city; life in different kinds of cities”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “life in the neighbourhood and city and social life” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG7.5.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V5.1, V16.2, V17.3, LS1, LS5, LS8)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG7.5. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V5.1, V16.2, V17.3, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG7.5.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V5.1, V16.2, V17.3, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of

words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V5.1, V16.2, V17.3, LS5, LS8)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “public services in the neighbourhood and city; life in different kinds of cities” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “life in the neighbourhood and city and social life” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG7.5.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG7.5.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4)**. She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4)**.

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme "life in the neighbourhood and city and social life". After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2)**. To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4)**. Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum **(D3.2, D3.6, D3.7)**.

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording (s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5)**. If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2)**. During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1)**. The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2)**.

ENG7.5.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “life in the neighbourhood and city and social life”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “life in the neighbourhood and city and social life” **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary

related to the theme that the students do not know part by part. Then she/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8)**. Then she/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7)**. Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1)**. As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1)**. These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3)**. These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17)**. When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7)**. This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5)**. The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19)**. Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story **(LS2, LS4)**. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1)**. In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8)**. So, they revise and practise the meanings of the target (key) vocabulary of the theme “life in the neighbourhood and city and social life”. This kind of technique could be

applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 **(D2.5, SELS2.1, V3.4, V4.2, V4.4)**. They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2)**. Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20)**. The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3)**. When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5)**. The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20)**. Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3)**.

ENG7.5.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "life in the neighbourhood and city and social life" **(D3.2, LS7)**. The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2)**. While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2)**. Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure (s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V 3.4, CS2.7)**. The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7)**. The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3)**. Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7)**. The teacher asks the pairs to say what they have

found **(D2.3, CS2.10)**. As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3)**. Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2)**. Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15)**. This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13)**. These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2)**. She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13)**. They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4)**. When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V4.2, V10.3, SELS2.2)**. This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.5.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “life in the neighbourhood and city and social life” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3)**. Students are provided a new text (s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2)**.

ENG7.5.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8)**. Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6)**. They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “public services in the neighbourhood and city; life in different kinds of cities” **(D3.6, V5.1, V16.2, V17.3, LS2, LS5, LS8, CS2.7)**. Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8)**. The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1)**. They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8)**.

ENG7.5.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1)**. During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6)**. They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6)**. They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “life in the neighbourhood and city and social life” in terms of the sub-themes of “public services in the neighbourhood and city; life in different kinds of cities” mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13)**. The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20)**. After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V5.1, V16.2, V17.3, LS1, LS5, LS6, CS2.13, CS2.14)**. In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20)**.

ENG7.5.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3)**. They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

ENG7.5.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing

knowledge about the current content to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12)**. This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2)**.

ENG7.5.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2)**. These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “life in the neighbourhood and city and social life”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/ example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1)**.

ENG7.5.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own. They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1)**. Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13)**.

ENG7.5.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20)**. They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2)**. Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V5.1, V16.2, V17.3, LS5, LS8, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9)**.

ENG7.5.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher’s and also peers’ feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14)**. A. All the content is formed as contextual, practical, authentic, real, and appropriate to the students’ interests,

and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG7.5.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of “public services in the neighbourhood and city; life in different kinds of cities” through their writing tasks **(V5.1, V16.2, V17.3, CS3.3)**. They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20)**. All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.5.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students’ learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5)**.

ENG7.5.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12)**. Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2)**. Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13)**.

ENG7.5.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2)**. These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V5.1, V16.2, V17.3, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge

they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5)**.

ENG7.5.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “life in the neighbourhood and city and social life” in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20)**.

ENG7.5.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20)**. These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “life in the neighbourhood and city and social life” as in others **(D3.6, SELS2.1, CS2.13)**.

ENG7.5.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “life in the neighbourhood and city and social life” on the sub-themes of “public services in the neighbourhood and city; life in different kinds of cities” **(V4.5, LS5, CS2.13, CS2.14)**. Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9)**. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2)**. All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.5.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15)**. The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**.

DIFFERENTIATION

Expansion

Objective: To practise actions on-going at a specific time in the past in English by using time travel scenarios.

Activity 1: Echoes of the Past

The teacher divides the class into pairs or small groups with 3-4 students. She/He starts the activity by engaging students in a brief discussion about time travel. She/He asks them to imagine they could travel to any time in the past. She/He provides visual aids (e.g., photos of the Conquest of Istanbul, the French Revolution, the moon landing, or medieval feasts) to help them better visualise the scenes. This can stimulate their imagination and make it easier for them to describe what they were seeing, hearing, and feeling. Then she/he gives pairs or small groups the following time travel prompts and asks them to choose a time travel location among the printed handouts. Possible time travel locations are as follows: "The year 1453-the conquest of Istanbul, The year 1969-watching the first moon landing, a medieval castle-experiencing a royal feast and celebration, a music concert in the 1970s-attending a live concert". Students imagine that they are observing the events as they happen and write about what they were seeing, hearing, and experiencing at that moment. (e.g., "The people were cheering as the rocket launched"). She/He encourages them to use additional structures to connect actions that were happening simultaneously, for example: "While the rocket was launching, people were clapping and shouting". Once the students have written their diary entries, the teacher allows them to share their entries in small groups and asks them to give feedback by asking questions to learn about their classmates' experiences. The teacher highlights creative examples from the students' work and praises their engagement to the activity. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practise actions on-going at a specific time in the past in English by using time travel scenarios.

Activity 1: Echoes of the Past

The teacher divides the class into pairs or small groups with 3-4 students. In this activity, students imagine they are time travellers who have just returned from a specific moment in history. Then she/he gives pairs or small groups the following time travel prompts and asks them to choose a time travel location among the printed handouts. Possible time travel locations are as follows: "The Conquest of Istanbul, the year 1969-watching the first moon landing, a medieval castle-experiencing a royal feast and celebration, a music concert in the 1970s-attending a live concert". The teacher provides a list of useful vocabulary related to each time travel scenario (e.g., for "Moon Landing", words like "rocket, astronaut, cheering, space) to help students describe the scene and visual aids (e.g., photos of the moon landing, or medieval feasts) to help them better visualize the scenes. This can stimulate their imagination and make it easier for them to describe what they were seeing, hearing, and feeling. She/He breaks down the task into smaller and asks them to first describe what they saw (e.g., "The people were cheering"), then move on to describe the sounds they heard or actions they witnessed. Once the students have written their entries, the teacher allows them to share their entries in small groups and asks them to give feedback by asking questions to learn about their classmates' experiences. The teacher highlights creative examples from the students' work. Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 6: LIFE IN THE WORLD & CULTURE

Sub-themes: Capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world

This theme is centred on the concept of “life in the world and culture” and covers the sub-themes of “capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
 FLFS2. Reading-Comprehension
 FLFS3. Speaking-Expression
 FLFS4. Writing-Expression
 FLSS1. Gramming: Selection and Use
 FLSS2. Vocabulary: Selection and Use
 FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS -

DISPOSITIONS

D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

INTERCURRICULAR COMPONENTS

Social-Emotional

Learning Skills

Year 7 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.7.6.L1. Students can prepare and get ready for listening (to)/watching about the current content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.7.6.L2. Students can bring together the information in the current content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.7.6.L3. Students can make sense of and derive meaning from the current content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.7.6.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.7.6.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.7.6.R1. Students can prepare for reading the content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.7.6.R2. Students can bring information together about the current content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.7.6.R3. Students can make sense of and derive meaning from the current content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.7.6.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.7.6.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning the find key components of the theme.*

- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.7.6.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.7.6.W1. Students can prepare for writing efficiently and accurately based on the current content about “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.7.6.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.7.6.W3. Students can construct new written content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.7.6.W4. Students can practise producing written content based on the current theme “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.7.6.W5. Students can engage in the process of writing related to the content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.7.6.W6. Students can reconstruct their writing about the current theme on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.7.6.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.7.6.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.7.6.S2. Students can analyse and understand the model content related to “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.7.6.S3. Students can produce meaningful and accurate spoken content related to the current theme on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.7.6.S4. Students can construct meaningful spoken content about “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.7.6.S5. Students can reconstruct the information about “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.7.6.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “life in the world and culture with capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

- b) Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE WORLD & CULTURE

Sub-themes: Capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for capitals, landmarks, famous places and activities in capitals:

Nouns: A crowd, an attraction, a palace, a square, a bridge, a castle, a tower, a site, a hall, a coast, an adventure.

Verbs: To tour, to pack, to cycle, to experience.

Adjectives: Wide, wooden, bright, light, historic, active, ancient, hidden.

Adverbs: Clearly, locally.

Phrases: To take a tour, to attend an event, to take a photograph.

Adverbs: Abroad, especially, aggressively.

Vocabulary for sports events in different parts of the world:

Nouns: A tournament, an event, a runner, a run, running, a score, a seat, a medal, a track, a field, a pain, a movement, weight.

Verbs: To compete, to score, to attack, to support, to touch, to cheer.

Adjectives: First, second, third, exciting, global, international, likely.

Adverbs: Either.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Present Perfect Tense with "for": (People have celebrated cultural festivals for centuries).

-Question tags for The Present Perfect Tense: (They have preserved their heritage through traditional dances, haven't they?)

Functions of the Grammatical Structures in Use:

-Use of The Present Perfect Tense with "for": Expressing actions or states that began in the past and have continued up to the present for a specific duration.

-Use of question tags for The Present Perfect Tense: Confirming information, encouraging agreement, or seeking reassurance about actions or experiences that started in the past and continue into the present.

Target Social Language in Use:

Some souvenir shops are tourist traps in this city!

The stadium is packed, everyone here is football mad!

We're taking in the sights of İstanbul this weekend!

Target Phonological Sounds in Use:

l, m, n, (ng), o, p

Vowel: o: (/əʊ/, /o/, /əʊ/)

Consonants: l: (/ɛl/ /l/); m (/ɛm/, /m/); n: (/ɛn/, /n/); p: (/pi:/ /p/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Principles/Key Concepts**Generalisations**

The target concept of this theme “life in the world and culture” and its components such as “capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower secondary school student will know what “life in the world and culture” and its components such as “capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts

Capitals, landmarks, famous places; capitals, landmarks, famous places, and activities in capitals; sports events, sport events in different parts of the world.

INDICATORS FOR LEARNING (Assessment and Evaluation)**EVALUATION FOR THE SKILLS AND THE CONTENT:**

PERFORMANCE ASSIGNMENT: Students will prepare a puzzle or crossword about capitals, landmarks, famous places, and sports events in different parts of the world. First, they will choose target vocabulary about the given topics. Then they will create a puzzle or crossword. They may use Web 2.0 tools. The puzzles or crosswords may include visuals, photos or drawings. Finally, they will bring their crosswords or puzzles to the classroom and solve them in groups. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES**Basic Acceptations: Preparedness/ Readiness**

This theme is based on the students’ knowledge of “life in the world and culture” and its components such as “capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world”. As they are lower secondary school students in year 7 (seven), they can know what “life in the world and culture” and its components such as “capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case, English.

As they are students in year 7 of lower secondary school, they can know some basic vocabulary about “life in the world and culture” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in the world and culture” and its components such as “capitals, landmarks, famous

places, and activities in capitals; sports events in different parts of the world". Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of "life in the world and culture". Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices).

Establishing Links

Students are asked to recall the concept of "life in the world and culture" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme "life in the world and culture" in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic "life in the world and culture" and the sub-themes of "capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world", allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme "life in the world and culture" is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG7.6.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V4.5, V5.1, V14.3, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG7.6. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V4.5, V5.1, V14.3, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG7.6.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically. **(D3.1, V4.5, V5.1, V14.3, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of

words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V4.5, V5.1, V14.3, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “life in the world and culture” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5)**.

ENG7.6.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG7.6.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4)**. She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4)**.

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “life in the world and culture”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2)**. To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4)**. Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum **(D3.2, D3.6, D3.7)**.

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording (s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5)**. If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2)**. During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1)**. The teacher can get help from AI-based technologies for these activities if available. Students’ performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2)**.

ENG7.6.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “life in the world and culture”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “life in the world and culture” **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8)**. Then she/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7)**. Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1)**. As each part/paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1)**. These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3)**. These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17)**. When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7)**. This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5)**. The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19)**. Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story **(LS2, LS4)**. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1)**. In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8)**. So, they revise and practise the meanings of the target (key) vocabulary of the theme “life in the world and culture”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the

form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 **(D2.5, SELS2.1, V3.4, V4.2, V4.4)**. They can be done with real pictures on the white/blackboard if there is a problem with technology (LS4). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2)**. Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20)**. The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3)**. When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5)**. The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20)**. Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3)**.

ENG7.6.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "life in the world and culture" **(D3.2, LS7)**. The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (LS2). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2)**. Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure (s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7)**. The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7)**. The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3)**. Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7)**. The teacher asks the pairs to say what they have found **(D2.3, CS2.10)**. As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3)**. Then the teacher

hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2)**. Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15)**. This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13)**. These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2)**. She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13)**. They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4)**. When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V4.2, V10.3, SELS2.2)**. This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.6.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “life in the world and culture” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3)**. Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2)**.

ENG7.6.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8)**. Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6)**. They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” **(D3.6, V4.5, V5.1, V14.3, LS2, LS5, CS2.7)**. Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8)**. The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1)**. They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8)**.

ENG7.6.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1)**. During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6)**. They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6)**. They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “life in the world and culture” in terms of the sub-themes of “capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13)**. The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20)**. After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V4.5, V5.1, V14.3, LS1, LS5, LS6, CS2.13, CS2.14)**. In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20)**.

ENG7.6.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3)**. They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

ENG7.6.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to

write about **(D3.2, SELS1.1, CS2.12)**. This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2)**.

ENG7.6.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2)**. These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “life in the world and culture”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1)**.

ENG7.6.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own. They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1)**. Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13)**.

ENG7.6.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20)**. They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2)**. Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V4.5, V5.1, V14.3, LS5, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9)**.

ENG7.6.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14)**. A. All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG7.6.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of “capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” through their writing tasks **(V1.2, V3.4, V14.1, V14.3, CS3.3)**. They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20)**. All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.6.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5)**.

ENG7.6.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12)**. Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2)**. Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13)**.

ENG7.6.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2)**. These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V4.5, V5.1, V14.3, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5)**.

ENG7.6.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “life in the world and culture” in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20)**.

ENG7.6.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20)**. These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “life in the world and culture” as in others **(D3.6, SELS2.1, CS2.13)**.

ENG7.6.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “life in the world and culture” on the sub-themes of “capitals, landmarks, famous places, and activities in capitals; sports events in different parts of the world” **(V4.5, LS5, CS2.13, CS2.14)**. Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9)**. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2)**. All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.6.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15)**. The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**.

DIFFERENTIATION

Expansion

Objective: To practise talking about adventures by considering actions beginning in the past and having continued up to the present for specific duration in English through engaging students in a series of adventurous scenarios.

Activity 1: The Amazing Adventure

The teacher divides the class into pairs or small groups to share their experiences and explore what they have or haven't done in the context of a series of adventurous scenarios. The teacher presents a simple "adventure map" with different locations and activities. She/He draws it on the board or hands out a printed version. Each location represents an activity or experience that students can talk about using the target language. Examples of adventure map locations and activities: The Jungle, The Desert, The Mountain, The Beach, The Space Station, or The City. Each group chooses one location from the adventure map and works together to share their experiences. Example questions: "What have you seen in the jungle?", "What have you eaten in the jungle?" or "What have you done in the jungle?" They take turns asking and answering questions about what they have or haven't done at that location. After completing the conversation in groups, each group presents their answers to the class. The storyteller in each group shares what their group has discovered about the adventure location. To conclude the activity, she/he asks the students to share one thing they have never done but would like to try in the future. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practise actions beginning in the past and having continued up to the present for specific duration in English by engaging students in a series of adventurous scenarios.

Activity 1: The Amazing Adventure

The teacher divides the class into pairs or small groups to share their experiences and explore what they have or haven't done in the context of a series of adventurous scenarios. The teacher presents a simple "adventure map" with different locations and activities. She/He draws it on the board or hands out a printed version. Each location represents an activity or experience that students can talk about using the target language. Examples of adventure map locations and activities: The Jungle, The Desert, The Mountain, The Beach, The Space Station, or The City. Each group chooses one location from the adventure map and works together to share their experiences. The teacher provides pre-written questions ("Have you seen a tiger in the jungle?", "Have you eaten a strange fruit in the jungle?" or "Have you travelled to the jungle?") and sentence starters for students and uses pictures or flashcards of animals, places, or activities that relate to the locations to help students visualise the experience. She gives students sentence frames to make the conversation easier, such as: "I have been to ___", "I haven't done ___", "I've never been to ___". They take turns asking and answering questions about what they have or haven't done at that location. After completing the conversation in groups, each group presents their answers to the class. The storyteller in each group shares what their group has discovered about the adventure location. To conclude the activity, she/he asks the students to share one thing they have never done but would like to try in the future. Students reflect on their thoughts and feelings about the activity.

THEME 7: LIFE IN NATURE

Sub-themes: Animals and natural resources in nature; protecting animals and nature

This theme is centred on the concept of “life in nature” and covers the sub-themes of “animals and natural resources in nature; protecting animals and nature”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS	FLFS1. Listening/Watching-Comprehension
	FLFS2. Reading-Comprehension
	FLFS3. Speaking-Expression
	FLFS4. Writing-Expression
	FLSS1. Grammmaring: Selection and Use
	FLSS2. Vocabulary: Selection and Use
	FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS

DISPOSITIONS	D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

INTERCURRICULAR COMPONENTS

Social-Emotional Learning Skills

SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1 Adaptability Skill, SELS3.2 Flexibility Skill, SELS3.3. Responsible Decision-Making Skill

Values

V1. Justice, V3. Diligence, V4. Friendship, V5. Sensitivity, V6. Honesty, V7. Aesthetics, V9. Compassion, V10. Modesty, V11. Independence, V12. Patience, V13. Healthy Living, V14. Respect, V16. Responsibility, V20. Benevolence

Literacy Skills

LS1. Information Literacy, LS2. Digital Literacy, LS4. Visual Literacy, LS5. Cultural Literacy, LS6. Civic Literacy, LS7. Data Literacy, LS8. Sustainability Literacy, LS9. Art Literacy

INTERDISCIPLINARY

RELATIONS Turkish, Maths, Social Studies, Visual Arts, Music, Physical Education and Sports, Technology and Design

INTERSKILLS CS2.1. Conflict Resolution Skill, CS2.2. Observation Skill, CS2.3. Summarising Skill, CS2.4. Analysis Skill, CS2.5. Classification Skill, CS2.6. Information Gathering Skill, CS2.7. Comparison Skill, CS2.8. Inquiry Skill, CS2.9. Generalisation Skill, CS2.10. Inference Skill, CS2.11. Observation-Based Prediction Skill, CS2.12. Data-Based Prediction Skill, CS2.13. Structuring Skill, CS2.14. Interpretation Skill, CS2.15. Reflective Thinking Skill, CS2.16.1. Inductive Reasoning Skill, CS2.16.2. Deductive Reasoning Skill, CS2.16.3. Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 7 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.7.7.L1. Students can prepare and get ready for listening (to)/watching about the current content on “life in nature with animals and natural resources in nature; protecting animals and nature”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.7.7.L2. Students can bring together the information in the current content on “life in nature with animals and natural resources in nature; protecting animals and nature”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.7.7.L3. Students can make sense of and derive meaning from the current content on “life in nature with animals and natural resources in nature; protecting animals and nature”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.7.7.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “life in nature with animals and natural resources in nature; protecting animals and nature” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.7.7.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “life in nature with animals and natural resources in nature; protecting animals and nature” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.7.7.R1. Students can prepare for reading the content on “life in nature with animals and natural resources in nature; protecting animals and nature” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.7.7.R2. Students can bring information together about the current content on “life in nature with animals and natural resources in nature; protecting animals and nature” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*

- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.7.7.R3. Students can make sense of and derive meaning from the current content on “life in nature with animals and natural resources in nature; protecting animals and nature”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.7.7.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “life in nature with animals and natural resources in nature; protecting animals and nature” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.7.7.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “life in nature with animals and natural resources in nature; protecting animals and nature” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watching the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.7.7.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “life in nature with animals and natural resources in nature; protecting animals and nature”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.7.7.W1. Students can prepare for writing efficiently and accurately based on the current content about “life in nature with animals and natural resources in nature; protecting animals and nature”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.7.7.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “life in nature with animals and natural resources in nature; protecting animals and nature”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.7.7.W3. Students can construct new written content on “life in nature with animals and natural resources in nature; protecting animals and nature” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.7.7.W4. Students can practise producing written content based on the current theme “life in nature with animals and natural resources in nature; protecting animals and nature”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriated to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriated ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.7.7.W5. Students can engage in the process of writing related to the content on “life in nature with animals and natural resources in nature; protecting animals and nature”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.7.7.W6. Students can reconstruct their writing about the current theme on “life in nature with animals and natural resources in nature; protecting animals and nature” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.7.7.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “life in nature with animals and natural resources in nature; protecting animals and nature” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.7.7.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “life in nature with animals and natural resources in nature; protecting animals and nature”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.7.7.S2. Students can analyse and understand the model content related to “life in nature with animals and natural resources in nature; protecting animals and nature” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.7.7.S3. Students can produce meaningful and accurate spoken content related to the current theme on “life in nature with animals and natural resources in nature; protecting animals and nature”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.7.7.S4. Students can construct meaningful spoken content about “life in nature with animals and natural resources in nature; protecting animals and nature” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.7.7.S5. Students can reconstruct the information about “life in nature with animals and natural resources in nature; protecting animals and nature” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.7.7.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “life in nature with animals and natural resources in nature; protecting animals and nature” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN NATURE

Sub-themes: Animals and natural resources in nature; protecting animals and nature

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for animals and natural resources in nature:

Nouns: A fly, a frog, an insect, a deer, a fox, an eagle, an owl, a lizard, a turtle, a dolphin, a shark, a whale, an octopus, a butterfly, a bee, an ant, a spider, a creature.

Natural resources in nature:

Nouns: Rain, soil, sand, grass, a bush, wildlife, oil, mineral, sunlight, wind.

Vocabulary for protecting animals and nature:

Nouns: Balance, environment, a resource, eco-system, pollination, a habitat, climate (change), pollution.

Verb: To save, to care, to feed, to plant, to volunteer, to destroy.

Adjective: Endangered, strategic, huge

Quantifier: Several.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Zero Conditional: (If it rains, the plants in the forest grow faster).

-Comparatives of regular and irregular adjectives (less, good, bad, more): (This year's drought is worse for wildlife than last year's).

-Superlatives of regular and irregular adjectives: (The cheetah is the fastest land animal in nature).

Functions of the Grammatical Structures in Use:

-Use of Zero Conditional: Express general truths, scientific facts, or habits that occur when a condition is met.

-Use of comparatives of regular and irregular adjectives (less, good, bad, more): Comparing two things, highlighting differences.

-Use of superlatives of regular and irregular adjectives: Expressing the highest or lowest degree of a quality among three or more things.

Target Social Language in Use:

Take a leaf out of your brother's book-he always protects the nature!

Cut down on waste and use reusable bottles!

Make a change by planting more trees!

Target Phonological Sounds in Use:

q, r, s, t, u

Vowel: u: (/ju: /, /ʌ /, /ju: /)

Consonants: q: /kju: /, r: /ɑ: / (Br), /r / (AmE.); s: (/s /, /ɛs /, /z /); t: (/ti: /, /t /)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme.)

Generalisations/Principles/Key Concepts**Generalisations**

The target concept of this theme “life in nature” and its components such as “animals and natural resources in nature; protecting animals and nature” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “life in nature” and its components such as “animals and natural resources in nature; protecting animals and nature” means but will not know how to say them in another language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

Animals, natural resources, nature; animals, natural resources in nature, protecting animals protecting nature.

INDICATORS FOR LEARNING (Assessment and Evaluation)**EVALUATION FOR THE SKILLS AND THE CONTENT:**

PERFORMANCE ASSIGNMENT: Students will focus on a creative exploration of animals and natural resources in their surroundings. They will choose an animal or a natural resource (like water, trees, or minerals) and create a short story, poster, or video to highlight its importance in nature. Students are asked to explain how this animal or resource contributes to the environment and what challenges it faces. Additionally, they will brainstorm and present practical steps individuals can take to protect animals and preserve natural resources. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES**Basic Acceptations: Preparedness/ Readiness**

This theme is based on the students’ knowledge of “life in nature” and its components such as “animals and natural resources in nature; protecting animals and nature”. As they are lower secondary school students in year 7 (seven), they can know what “life in nature” and its components such as “animals and natural resources in nature; protecting animals and nature” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 7 of lower secondary school, they can know some basic vocabulary about “life in nature” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in nature” and its components such as “animals and natural resources in nature; protecting animals and nature”. Recalling and practising with relevant vocabulary and grammatical items

in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “life in nature”. Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of “life in nature” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “life in nature” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “life in nature” and the sub-themes of “animals and natural resources in nature; protecting animals and nature”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “life in nature” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG7.7.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V5.2, V9.3, V16.2, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG7.7.L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V5.2, V9.3, V16.2, LS1, LS4, LS5, LS8, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG7.7.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically. **(D3.1, V5.2, V9.3, V16.2, LS2, LS4, LS5, LS8)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of

words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V5.2, V9.3, V16.2, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “animals and natural resources in nature; protecting animals and nature” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “life in nature” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5)**.

ENG7.7.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG7.7.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4)**. She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4)**.

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “life in nature”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2)**. To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4)**. Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum **(D3.2, D3.6, D3.7)**.

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording (s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5)**. If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2)**. During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1)**. The teacher can get help from AI-based technologies for these activities if available. Students’ performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2)**.

ENG7.7.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “life in nature”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “life in nature” **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8)**. Then she/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7)**. Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1)**. As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1)**. These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3)**. These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17)**. When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7)**. This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5)**. The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19)**. Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story **(LS2, LS4)**. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1)**. In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8)**. So, they revise and practise the meanings of the target (key) vocabulary of the theme “life in nature”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue

where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 **(D2.5, SELS2.1, V3.4, V4.2, V4.4)**. They can be done with real pictures on the white/blackboard if there is a problem with technology **(LS4)**. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2)**. Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20)**. The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3)**. When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5)**. The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20)**. Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3)**.

ENG7.7.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "life in nature" **(D3.2, LS7)**. The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures **(LS2)**. While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2)**. Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure (s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7)**. The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7)**. The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3)**. Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7)**. The teacher asks the pairs to say what they have found **(D2.3, CS2.10)**. As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3)**. Then the teacher hands out a piece of paper and asks the

students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2)**. Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15)**. This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13)**. These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2)**. She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context **(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13)**. They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4)**. When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V4.2, V10.3, SELS2.2)**. This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.7.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “life in nature” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3)**. Students are provided a new text (s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2)**.

ENG7.7.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson **(SELS1.2, V3.4, LS1, CS2.8)**. Then they read the text very quickly (scanning) to check the main components and categories with

the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher **(V3.3, LS4, LS7, CS2.4, CS2.6)**. They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “animals and natural resources in nature; protecting animals and nature” **(D3.6, V5.2, V9.3, V16.2, LS2, LS5, LS8, CS2.7)**. Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks **(V3.4, LS7, CS2.8)**. The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning **(CS2.16.1)**. They share the components with the whole class **(SELS2.1)** and then they discuss the accuracy of the results as a whole class **(D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8)**.

ENG7.7.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier **(D3.2, SELS2.2, V4.1)**. During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) **(CS2.6)**. They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities **(V3.3, V6.2, LS1, CS2.4, CS2.6)**. They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “life in nature” in terms of the sub-themes of “animals and natural resources in nature; protecting animals and nature” mean from different perspectives to build their own understandings **(D3.6, D3.8, SELS3.1, CS2.13)**. The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process **(SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20)**. After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme **(D3.5, SELS3.2, V3.4, V5.2, V9.3, V16.2, LS1, LS5, LS6, CS2.13, CS2.14)**. In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading **(SELS3.3, V7.2, CS2.20)**.

ENG7.7.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process **(SELS1.3)**. They talk about them individually and then share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

ENG7.7.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12)**. This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2)**.

ENG7.7.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2)**. These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “life in nature”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1)**.

ENG7.7.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own. They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1)**. Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13)**.

ENG7.7.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20)**. They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2)**. Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V5.2, V9.3, V16.2, LS5, LS8, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9)**.

ENG7.7.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14)**. A. All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG7.7.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the the sub-themes of “animals and natural resources in nature; protecting animals and nature” through their writing tasks **(V5.2, V9.3, V16.2, CS3.3)**. They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20)**. All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.7.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students’ learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. **(V3.4, V4.5, LS1, LS5)**.

ENG7.7.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12)**. Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2)**. Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13)**.

ENG7.7.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2)**. These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V5.2, V9.3, V16.2, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5)**.

ENG7.7.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “life in nature” in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20)**.

ENG7.7.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20)**. These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “life in nature” as in others **(D3.6, SELS2.1, CS2.13)**.

ENG7.7.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “life in nature” on the sub-themes of “animals and natural resources in nature; protecting animals and nature” **(V4.5, LS5, CS2.13, CS2.14)**. Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9)**. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2)**. All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.7.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15)**. The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**.

DIFFERENTIATION

Expansion

Objective: To engage in group work activities about nature in English to improve reading, writing and speaking skills by using the target vocabulary and the grammatical structures (Zero Conditional-Comparatives-Superlatives).

Activity 1: Let's Save The Wildlife

The teacher divides the class into groups and hands out a text about how the wildlife was in the past and asks the students to discuss and compare the past times to the present times in terms of environmental problems and the problems in the wildlife by reading the text. The students can make at least five comparisons (e.g., There are more endangered animals today than there was in the past., It rains less today.). Then they are asked to write a fact about how to protect wildlife (e.g., If we plant trees, it rains more.). The teacher invites the groups one after another and asks them to present their outcomes to their classmates. At the end of the session, the students complete the form given by the teacher to share their ideas and feelings about the activity (e.g., I really enjoyed this activity because _____, This was a bit hard activity because _____). The teacher provides constructive feedback on grammar, vocabulary and presentation skills. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To engage in group work activities about nature in English to improve reading, writing and speaking skills by using the target vocabulary and the language grammatical structures (Zero Conditional-Comparatives-Superlatives).

Activity 1: Let's Save The Wildlife

The teacher divides the class into groups and hands out a text about how the wildlife was in the past and asks the students to discuss and compare the past times to the present times in terms of environmental problems and the problems in the wildlife by reading the text. The students can make at least five comparisons by completing the sentences given by the teacher (e.g., There are _____(endangered) animals today than there was in the past., It rains _____(little)today.). Then they are asked to write a fact about how to protect wildlife by looking at the example supplied by the teacher (e.g., If we plant trees, it rains more.). The teacher invites the groups one after another and asks them to present their outcomes to their classmates. At the end of the session, the students choose the most appropriate choices in the form given by the teacher to share their ideas and feelings about the activity (e.g., I really enjoyed this activity because it made me feel like I can make a difference in helping the environment., This was a bit hard activity because I had difficulty creating a fact.). The teacher provides constructive feedback on grammar, vocabulary and presentation skills. Students reflect on their thoughts and feelings about the activity.

THEME 8: LIFE IN THE UNIVERSE & FUTURE

Sub-themes: Space technology; life in the future with robots

This theme is centred on the concept of “life in the universe and future” and covers the sub-themes of “space technology; life in the future with robots”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS	FLFS1. Listening/Watching-Comprehension
	FLFS2. Reading-Comprehension
	FLFS3. Speaking-Expression
	FLFS4. Writing-Expression
	FLSS1. Grammaring: Selection and Use
	FLSS2. Vocabulary: Selection and Use
	FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS –

DISPOSITIONS	D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

Year 7 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.7.8.L1. Students can prepare and get ready for listening (to)/watching about the current content on “life in the universe and future with space technology; life in the future with robots”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.7.8.L2. Students can bring together the information in the current content on “life in the universe and future with space technology; life in the future with robots”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.7.8.L3. Students can make sense of and derive meaning from the current content on “life in the universe and future with space technology; life in the future with robots”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.7.8.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “life in the universe and future with space technology; life in the future with robots” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*

- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.7.8.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “life in the universe and future with space technology; life in the future with robots” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.7.8.R1. Students can prepare for reading the content on “life in the universe and future with space technology; life in the future with robots” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.7.8.R2. Students can bring information together about the current content on “life in the universe and future with space technology; life in the future with robots” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*

- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.7.8.R3. Students can make sense of and derive meaning from the current content on “life in the universe and future with space technology; life in the future with robots”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.7.8.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “life in the universe and future with space technology; life in the future with robots” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.7.8.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “life in the universe and future with space technology; life in the future with robots” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watching the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*

- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.7.8.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “life in the universe and future with space technology; life in the future with robots”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identifies and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target ‘grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.7.8.W1. Students can prepare for writing efficiently and accurately based on the current content about “life in the universe and future with space technology; life in the future with robots”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.7.8.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “life in the universe and future with space technology; life in the future with robots”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.7.8.W3. Students can construct new written content on “life in the universe and future with space technology; life in the future with robots” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.7.8.W4. Students can practise producing written content based on the current theme “life in the universe and future with space technology; life in the future with robots”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriated to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriated ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.7.8.W5. Students can engage in the process of writing related to the content on “life in the universe and future with space technology; life in the future with robots”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.7.8.W6. Students can reconstruct their writing about the current theme on “life in the universe and future with space technology; life in the future with robots” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.7.8.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “life in the universe and future with space technology; life in the future with robots” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.7.8.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “life in the universe and future with space technology; life in the future with robots”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.7.8.S2. Students can analyse and understand the model content related to “life in the universe and future with space technology; life in the future with robots” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.7.8.S3. Students can produce meaningful and accurate spoken content related to the current theme on “life in the universe and future with space technology; life in the future with robots”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.7.8.S4. Students can construct meaningful spoken content about “life in the universe and future with space technology; life in the future with robots” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.7.8.S5. Students can reconstruct the information about “life in the universe and future with space technology; life in the future with robots” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.7.8.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “life in the universe and future with space technology; life in the future with robots” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE UNIVERSE & FUTURE

Sub-themes: Space technology; life in the future with robots

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for space technology:

Nouns: An app, a discovery, an equipment, an experiment, a programme, a secret, a planet, a vehicle, the universe, a spaceship, a function, a research.

Verb: To discover, to produce, to research.

Adjective: Future (tech), accurate.

Adverbs: beyond, gradually.

Prepositions: Towards.

Vocabulary for life in the future with robots:

Nouns: Industry, a researcher, a machine, a scientist, a trick, workforce, a solution, an earthquake, a survivor.

Verb: To achieve, to appear, to lead, to progress, to locate.

Adjective: Smart, scientific, advanced, experienced, intelligent.

Adverb: Instead, likely.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

- "Be Going to Future Tense": (Scientists are going to work on how machines can progress in space programs).

- The Simple Future Tense: (A smart vehicle will appear in the market to assist astronauts).

- Question tags for the future with "be going to" and "will": (The researchers are going to produce new equipment for exploring distant planets, aren't they?)

Functions of the Grammatical Structures in Use:

- Use of "Be Going to Future Tense": Expressing future plans, intentions, or something that is likely to happen based on present evidence.

- Use of the Simple Future Tense: Expressing predictions about what might happen in the future or decisions made at the moment of speech.

- Use of question tags for the future with "be going to" and "will": Confirming information, encouraging agreement, or seeking reassurance about future actions, plans, intentions and predictions.

Target Social Language in Use:

We can change the world with technology!

The Earth is our blue planet!

Recycling is a step in the right direction!

Target Phonological Sounds in Use:

V, W, X, Y, Z

Consonants: v: (/vi:/); w: (/dʌbəlju:/, /w/); x: (/ɛks/, /ks/, /gz/); y: (/waɪ/, /j/, /ɪ/, /i:/); z: (/zed/ (Br), /zi:/ (AmE.), /z/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Principles/Key Concepts**Generalisations**

The target concept of this theme “life in the universe and future” and its components such as “space technology; life in the future with robots” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower secondary school student will know what “life in the universe and future” and its components such as “space technology; life in the future with robots” means but will not know how to say them in another language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

Space, technology, space technology, life, future, robots, life in the future, life in the future with robots.

INDICATORS FOR LEARNING (Assessment and Evaluation)**EVALUATION FOR THE SKILLS AND THE CONTENT:**

PERFORMANCE ASSIGNMENT: Students will write a short science fiction story imagining life in the future where robots and advanced space technology play a central role. They will describe a day in the life of a character who lives in a futuristic city or space station, highlighting how robots assist in daily tasks and how space technology influences their lifestyle. Students will include dialogues and creative details about the setting, such as futuristic transportation, communication devices, or space exploration activities. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES**Basic Acceptations: Preparedness/ Readiness**

This theme is based on the students’ knowledge of “life in the universe and future” and its components such as “space technology; life in the future with robots”. As they are lower secondary school students in year 7 (seven), they can know what “life in the universe and future” and its components such as “space technology; life in the future with robots” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 7 of lower secondary school, they can know some basic vocabulary about “life in universe and future” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in the universe and future” and its components such as “space technology; life in the future with robots”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “life in the universe and future”. Therefore, a dialogue game can be played to revise

all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices).

Establishing Links

Students are asked to recall the concept of “life in the universe and future” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “life in the universe and future” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “life in the universe and future” and the sub-themes of “space technology; life in the future with robots”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “life in the universe and future” is characterised by a balanced integration of all the skills, where students engage with input (listening/ watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG7.8.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V1.2, V3.4, V11.1, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG7.8. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V3.3, V11.1, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG7.8.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V3.3, V11.1, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of

words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V3.3, V11.1, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “space technology; life in the future with robots” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/ pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “life in the universe and future” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG7.8.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG7.8.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4)**. She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4)**.

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “life in the universe and future”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2)**. To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4)**. Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum **(D3.2, D3.6, D3.7)**.

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording (s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5)**. If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2)**. During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1)**. The teacher can get help from AI-based technologies for these activities if available. Students’ performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2)**.

ENG7.8.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “life in the universe and future”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “life in the universe and future” **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8)**. Then she/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7)**. Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1)**. As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1)**. These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3)**. These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17)**. When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7)**. This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5)**. The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19)**. Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story **(LS2, LS4)**. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1)**. In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues **(D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8)**. So, they revise and practise the meanings of the target (key) vocabulary of the theme “life in the universe and future”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted

in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 **(D2.5, SELS2.1, V3.4, V4.2, V4.4)**. They can be done with real pictures on the white/blackboard if there is a problem with technology. **(LS4)** These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme **(D2.3, SELS1.2)**. Then students say several things about the items in the picture **(D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20)**. The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her **(D3.9, D3.10, SELS2.2, V3.4, CS3.3)**. When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation **(D3.6, D3.7, CS2.5)**. The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions **(D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20)**. Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V6.1, V9.2, V10.3)**.

ENG7.8.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE):

Consciousness raising- discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "life in the universe and future" **(D3.2, LS7)**. The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (LS2). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully **(D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2)**. Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure (s) in the theme to those written by her/him on the smart board/blackboard/whiteboard **(SELS2.2, V3.4, CS2.7)**. The students look at the written version of the story and find similar sentences to those given by the teacher as examples **(D3.2, D3.6, CS2.4, CS2.7)**. The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way **(D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3)**. Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities **(D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7)**. The teacher asks the pairs to say what they have found **(D2.3, CS2.10)**. As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them **(D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1,**

CS3.3). Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules **(D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1)**. The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs **(D3.1, SELS2.2, V4.2)**. Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt **(D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15)**. This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns **(D2.2, D2.3, V3.3, V3.4, CS2.13)**. These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily **(D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3)**. She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups **(SELS2.2)**. She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context

(D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13). They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content **(D3.5, SELS2.2, V3.4)**. When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class **(D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15)**. They also give feedback to each other **(D2.1, D2.4, V4.2, V10.3, SELS2.2)**. This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.8.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “life in the universe and future” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way **(V3.2, LS1, CS3.3)**. Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text **(D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2)**.

ENG7.8.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson (**SELS1.2, V3.4, LS1, CS2.8**). Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher (**V3.3, LS4, LS7, CS2.4, CS2.6**). They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “space technology; life in the future with robots” (**D3.6, V3.3, V11.1, LS2, LS5, CS2.7**). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks (**V3.4, LS7, CS2.8**). The teacher could use different versions of the scanning activities as described in the “listening/watching-comprehension” section above. In this way, they can understand the text in general better with the help of scanning (CS2.16.1). They share the components with the whole class (**SELS2.1**) and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8**).

ENG7.8.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (**D3.2, SELS2.2, V4.1**). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) (**CS2.6**). They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities (**V3.3, V6.2, LS1, CS2.4, CS2.6**). They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “life in the universe and future” in terms of the sub-themes of “space technology; life in the future with robots” mean from different perspectives to build their own understandings (**D3.6, D3.8, SELS3.1, CS2.13**). The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process (**SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20**). After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V3.3, V3.4, V11.1, LS1, LS5, LS6, CS2.13, CS2.14**). In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading (**SELS3.3, V7.2, CS2.20**).

ENG7.8.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process (**SELS1.3**). They talk about them individually and then share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

ENG7.8.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to

write about **(D3.2, SELS1.1, CS2.12)**. This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2)**.

ENG7.8.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2)**. These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “life in the universe and future”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1)**.

ENG7.8.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own (V16.1). They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1)**. Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13)**.

ENG7.8.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20)**. They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2)**. Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V3.3, V11.1, LS5, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9)**.

ENG7.8.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14)**. A. All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG7.8.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of “space technology; life in the future with robots” through their writing tasks (V3.3, V11.1, CS3.3). They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing (**D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20**). All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.8.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process (**SELS1.3**) and students talk about them individually and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students’ learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme. (**V3.4, V4.5, LS1, LS5**).

ENG7.8.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it (**SELS1.1, CS2.12**). Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts (**SELS3.2**). Then they can expand their language use and practice in each section by increasing the amount of speaking they do (**D1.3, V3.4, LS1, CS2.13**).

ENG7.8.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given (**CS2.2**). These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully (**V3.3, V11.1, LS1, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks (**D3.6, SELS1.2, V3.2, V3.4, LS5**).

ENG7.8.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “life in the universe and future” in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20)**.

ENG7.8.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20)**. These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “life in the universe and future” as in others **(D3.6, SELS2.1, CS2.13)**.

ENG7.8.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “life in the universe and future” on the sub-themes of “space technology; life in the future with robots” **(V4.5, LS5, CS2.13, CS2.14)**. Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9)**. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2)**. All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG7.8.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15)**. The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**.

DIFFERENTIATION

Expansion

Objective: To engage in conversations about the space and the future, and to foster the students' creativity and presentation skills in English by using the target vocabulary and the target grammatical items (Will - Simple Future).

Activity 1: Come and meet my Robot!

The teacher sets up 4 stations (eg. Station 1- Home Robots, Station 2- School Robots, Station 3- Robots in Space) around the classroom, each with a different focus about robots in the future and placing a large sheet of paper and markers at each station. Then she/he asks each station to draw a robot, name it and write how it will contribute to us according to their station topic. Each station is supposed to write at least two things. Then the students will rotate in groups to each station and get information about the robots and contribute ideas if they like. The teacher provides constructive feedback and highlights creative ideas. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To engage in conversations about the space and the future, and to foster the students' creativity and presentation skills in English by using the target vocabulary and the grammatical items (Will - Simple Future).

Activity 1: Come and meet my Robot!

The teacher sets up 4 stations (eg. Station 1- Home Robots, Station 2- School Robots, Station 3- Robots in Space) around the classroom, each with a different focus about robots in the future and places a large sheet of paper, markers and slips of paper giving some contribution ideas (e.g., help students learn new subjects, clean the house every day, build homes on Mars) at each station. Then she/he asks each station to draw a robot, name it and write how it will contribute to us according to their station topic. Each station is supposed to write at least two things. Then the students will rotate in groups to each station and get information about the robots and contribute ideas if they like. The teacher provides constructive feedback and highlights creative ideas. Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

YEAR 8 (LEVEL: A2.4)

THEME 1: SCHOOL LIFE & EDUCATION

Sub-themes: School events and celebrations (sports, music, drama); developing the environment; national days and celebrations

This theme is centred on the concept of “school life and education” and covers the sub-themes of “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS

FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammatical: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS

DISPOSITIONS

D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

INTERCURRICULAR COMPONENTS

Social-Emotional Learning Skills

SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1. Adaptability Skill, SELS3.2. Flexibility Skill, SELS3.3. Responsible Decision-Making Skill

Values

V1. Justice, V3. Diligence, V4. Friendship, V5. Sensitivity, V6. Honesty, V7. Aesthetics, V9. Compassion, V10. Modesty, V11. Independence, V12. Patience, V13. Healthy Living, V14. Respect, V16. Responsibility, V19. Patriotism, V20. Benevolence

Literacy Skills LS1. Information Literacy, LS2. Digital Literacy, LS4. Visual Literacy, LS5. Cultural Literacy, LS6. Civic Literacy, LS7. Data Literacy, LS9. Art Literacy

INTERDISCIPLINARY

RELATIONS

Turkish, Maths, Atatürk's Principles and History of Revolution, Physical Education and Sports, Visual Arts, Music, Counselling and Career Planning, Technology and Design

INTERSKILLS

CS2.1. Conflict Resolution Skill, CS2.2. Observation Skill, CS2.3. Summarising Skill, CS2.4. Analysis Skill, CS2.5. Classification Skill, CS2.6. Information Gathering Skill, CS2.7. Comparison Skill, CS2.8. Inquiry Skill, CS2.9. Generalisation Skill, CS2.10. Inference Skill, CS2.11. Observation-Based Prediction Skill, CS2.12. Data-Based Prediction Skill, CS2.13. Structuring Skill, CS2.14. Interpretation Skill, CS2.15. Reflective Thinking Skill, CS2.16.1. Inductive Reasoning Skill, CS2.16.2. Deductive Reasoning Skill, CS2.16.3. Analogical Reasoning Skill, CS2.17. Evaluation Skill, CS2.18. Argumentation Skill, CS2.19. Logical Auditing Skill, CS2.20. Synthesis Skill, CS3.1. Decision-Making Skill, CS3.2. Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 8 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTSé

ENG.8.1.L1. Students can prepare and get ready for listening (to)/watching about the current content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.8.1.L2. Students can bring together the information in the current content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.8.1.L3. Students can make sense of and derive meaning from the current content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.8.1.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.8.1.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.8.1.R1. Students can prepare for reading the content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.8.1.R2. Students can bring information together about the current content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” through skimming, scanning, and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.8.1.R3. Students can make sense of and derive meaning from the current content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.8.1.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.8.1.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*

- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.8.1.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.8.1.W1. Students can prepare for writing efficiently and accurately based on the current content about “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.8.1.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.8.1.W3. Students can construct new written content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.8.1.W4. Students can practise producing written content based on the current theme “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.8.1.W5. Students can engage in the process of writing related to the content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.8.1.W6. Students can reconstruct their writing about the current theme on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.8.1.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.8.1.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.8.1.S2. Students can analyse and understand the model content related to “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.8.1.S3. Students can produce meaningful and accurate spoken content related to the current theme on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.8.1.S4. Students can construct meaningful spoken content about “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.8.1.S5. Students can reconstruct the information about “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.8.1.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

SCHOOL LIFE & EDUCATION

Sub-themes: school events and celebrations (sports, music, drama); developing the environment; “national days and celebrations”

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for school events and celebrations (sports, music, drama):

Nouns: A goal, an instructor, a musician, a script, a performance, a costume, a curtain, an event, a stage.

Verbs: To perform, to drop, to hit, to throw (a ball), to catch (a ball), to arrange, to set (the stage), to participate, to decorate, to announce, to achieve.

Adjectives: Able, classical, extreme, musical, deep, fit, competitive, determined, talented, entertaining, powerful.

Adverbs: Actually.

Vocabulary for developing the environment:

Nouns: The environment, respect, responsibility, safety, communication, friendship, achievement, a volunteer, percent.

Verbs: To care, to collect, to develop, to expect, to plant, to behave, to encourage, to participate, to respect, to care (for), to protect.

Adjectives: Responsible.

Adverbs: Responsibly.

***National and Religious Days, Festivals, and Celebrations:** “29 October Republic Day”, “23 April National Sovereignty and Children’s Day”, “19 May Commemoration of Atatürk, Youth and Sports Day”, “15 July Democracy and National Unity Day”, “30 August Victory Day”, “Eid al-Fitr (Eid-al-Ramadan)”, “Festival of Sacrifice (Eid-al-Adha)”.

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners’ social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Simple Present Tense versus Present Progressive Tense: (The instructor announces the names of the performers every year during the festival. The students are decorating the hall for the upcoming drama performance).

-Obligation with must: (You must respect the environment and plant trees to keep the area clean).

-Prohibition with mustn’t: (Students mustn’t drop litter during school celebrations).

-“Must” vs have to: (I must eat something. I have to pass an English test).

-“Can” to ask for permission: (Can I leave now?)

-“Can” for possibility: (Volunteers can plant trees to protect the environment.)

-Question tags for modals: (You must care for the environment, mustn’t you? We can arrange the performance for next week, can’t we?)

Functions of the Grammatical Structures in Use:

-Use of the Simple Present Tense vs Present Progressive Tense: Distinguishing regular actions, habits, general truths, permanent situations, and actions happening at the moment of speaking, and temporary activities.

-Use of “must” (obligation): Expressing necessity or duty.

- Use of “mustn’t” (prohibition): Expressing prohibition or restrictions.
- Use of “must” vs “have to”: Expressing strong internal obligation and expressing external obligation.
- Use of “can” (permission): Requesting permission.
- Use of “can” (possibility): Expressing ability or possibility.

Target Social Language in Use:

Our new project will be world class!

Think outside the box to come up with a creative idea!

It’s hard to keep my head above the water with all these exams!

Target Phonological Sounds in Use:

Intonation of positive statements

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “school life and education” and its components such as “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “school life and education” and its components such as “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

School events, celebrations (sports, music, drama), school events and celebrations, the environment, developing the environment, national days, celebrations, national days and celebrations.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will work in teams to plan and write the proposal for a new event or celebration for their school that combines creativity and environmental awareness. They can choose from categories such as sports, music, or drama and integrate a theme focused on developing the school environment. For example, they might propose a “Green Drama Festival” where performances centre around environmental protection or a “Sustainable Sports Day” with eco-friendly practices like recycling stations and tree planting. Students will prepare a presentation outlining their event’s purpose, schedule, and expected outcomes, emphasising how it fosters school spirit and contributes to a better environment. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “school life and education” and its components such as “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”. As they are lower secondary school students in year 8 (eight), they can know what “school life and education” and its components such as “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 8 of lower secondary school, they can know some basic vocabulary about “school life and education” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “school life and education” and its components such as “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “school life and education”. Their knowledge of the days of the week and holidays will help them learn and practise important national holidays such as “the Republic Day of Türkiye”. Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices).

Establishing Links

Students are asked to recall the concept of “school life and education” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “school life and education” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “school life and education” and the sub-themes of “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “school life and education” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG8.1.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept of “school life and education”, where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) (**D3.2, V3.4, LS1, LS2, LS4**). They remember what they already know about “school life and education” to prepare themselves to work on guessing the topic of the current theme “school life and education with school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” (**V7.2, V13.2, V14.3, V19.1, LS1, LS5**). They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session (**D3.8, V3.3, LS1, LS4**).

ENG8.1. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” (**D3.6, V7.2, V13.2, V14.3, V19.1, LS1, LS4, LS5, CS2.2**). They can realise that there might be different elements related to this concept (**D2.1, V4.5**). The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story (**D3.8, V4.5, LS1, LS4, LS5, CS2.11**). The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title (**D3.4, LS2, CS2.12, CS2.16.2**). She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later (**D1.4, V12.2**). At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools (**D2.5, D3.3, LS2, LS4, CS2.12**).

ENG8.1. L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later

stages of the lesson(s) **(D3.2, V3.4)**. The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V7.2, V13.2, V14.3, V19.1, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING:

Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/ blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V7.2, V13.2, V14.3, V19.1, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “school life and education” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6)(7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG8.1.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme,

the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG8.1.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4)**. She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4)**.

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “school life and education”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2)**. To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4)**. Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum **(D3.2, D3.6, D3.7)**.

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5)**. If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2)**.

During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion **(D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1)**. The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2)**.

ENG8.1. V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme "school life and education", the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme "school life and education" **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8,**

V3.3, V6.2, LS1, LS4). When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below (**D3.2, D3.6, V1.2, V3.4, LS2, LS4**).

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances (**D3.2, D3.6, SELS3.1, V3.4, LS1, LS4**). She/He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear (**D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8**). Then she/he asks them whether they understand the meaning of the part/paragraph (**D3.8, SELS3.1**). She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph (**D3.6, SELS2.2, V4.1, LS1, LS7**). Students discuss the meaning of the part/paragraph in pairs (**D3.10, SELS2.2, V4.2, CS2.18**) and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/phrase/sentence in the story (**V6.2, LS1, LS5, CS2.16.1**). As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about (**D3.2, D3.6, SELS3.1, CS2.16.1**). These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/ “the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words (**D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3**). These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word (**D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17**). When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences (**SELS3.1, V4.1, LS7**). This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided (**D3.2, D3.6, V3.3, LS5, CS2.5**). The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class (**D2.3, D3.6, SELS2.1, V4.2, CS2.19**). Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story (**LS2, LS4**). When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (**D3.6, LS5, CS2.7, CS3.1**). As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer

them after talking about them in pairs (**D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1**). In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues (**D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8**). So, they revise and practise the meanings of the target (key) vocabulary of the theme “school life and education”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials (**D2.5, SELS2.1, V3.4, V4.2, V4.4**). They can be done with real pictures on the white/blackboard if there is a problem with technology (**LS4**). These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme (**D2.3, SELS1.2**). Then students say several things about the items in the picture (**D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20**). The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her (**D3.9, D3.10, SELS2.2, V3.4, CS3.3**). When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation (**D3.6, D3.7, CS2.5**). The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other’s spelling and definitions (**D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20**). Students’ learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3**).

ENG8.1. G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme “school life and education” (**D3.2, LS7**). The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (**LS2**). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully (**D3.2, D3.6,**

LS7, CS2.2, CS2.6, CS3.2). Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard (**SELS2.2, V3.4, CS2.7**). The students look at the written version of the story and find similar sentences to those given by the teacher as examples (**D3.2, D3.6, CS2.4, CS2.7**). The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way (**D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3**). Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities (**D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7**). The teacher asks the pairs to say what they have found (**D2.3, CS2.10**). As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them (**D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3**). Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules (**D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1**). The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs (**D3.1, SELS2.2, V4.2**). Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15**). This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns (**D2.2, D2.3, V3.3, V3.4, CS2.13**). These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily (**D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3**). She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups (**SELS2.2**). She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context (**D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13**). They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content (**D3.5, SELS2.2, V3.4**). When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V4.2, V10.3, SELS2.2**). This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.1.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme "school life and education" from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend

and talk about the current content and related issues in a meaningful way (**V3.2, LS1, CS3.3**). Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text (**D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2**).

ENG8.1.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson (**SELS1.2, V3.4, LS1, CS2.8**). Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher (**V3.3, LS4, LS7, CS2.4, CS2.6**). They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” (**D3.6, V7.2, V13.2, V14.3, V19.1, LS2, LS5, CS2.7**). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks (**V3.4, LS7, CS2.8**). The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning (**CS2.16.1**). They share the components with the whole class (**SELS2.1**) and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8**).

ENG8.1.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (**D3.2, SELS2.2, V4.1**). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) (**CS2.6**). They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities (**V3.3, V6.2, LS1, CS2.4, CS2.6**). They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “school life and education” in terms of the sub-themes of “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” mean from different perspectives to build their own understandings (**D3.6, D3.8, SELS3.1, CS2.13**). The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process (**SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20**). After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V3.4, V7.2, V13.2, V14.3, V19.1, LS1, LS5, LS6, CS2.13, CS2.14**). In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading (**SELS3.3, V7.2, CS2.20**).

ENG8.1.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process (**SELS1.3**). They talk about them individually and then share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

ENG8.1.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to write about (**D3.2, SELS1.1, CS2.12**). This includes examining all the audio/visual sources and elements provided for understanding the writing task (**V3.2, LS1, CS2.2**).

ENG8.1.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given (**CS2.2**). These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “school life and education”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully (**V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks (**D3.6, SELS1.2, V3.2, LS1**).

ENG8.1.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own (**V16.1**). They participate in several writing activities individually, in pairs, in groups and as a whole class (**D2.3, SELS2.2, V4.1**). Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others (**SELS2.1, LS1, CS2.13**).

ENG8.1.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic (**D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20**). They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects (**D1.4, SELS2.2, V3.4, V4.1, V4.2**). Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others (**SELS3.2, SELS3.3, V7.2, V13.2, V14.3, V19.1, LS5, CS2.14, CS3.3**). Storification and gamification techniques are actively and extensively used for further writing practice (**D2.5, LS9**).

ENG8.1.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher’s and also peers’ feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in

fun, enjoyable, varied, and versatile activities (**SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14**). All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students (**D3.1, SELS1.2, V12.3, LS1, CS3.1**).

ENG8.1.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of "school events and celebrations (sports, music, drama); developing the environment; national days and celebrations" through their writing tasks (**V7.2, V13.2, V14.3, V19.1, CS3.3**). They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing (**D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20**). All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.1.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process (**SELS1.3**) and students talk about them individually and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme (**V3.4, V4.5, LS1, LS5**).

ENG8.1.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it (**SELS1.1, CS2.12**). Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts (**SELS3.2**). Then they can expand their language use and practice in each section by increasing the amount of speaking they do (**D1.3, V3.4, LS1, CS2.13**).

ENG8.1.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given (**CS2.2**). These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully (**V3.3, V7.2, V13.2, V14.3, V19.1, LS1, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they

have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks (**D3.6, SELS1.2, V3.2, V3.4, LS5**).

ENG8.1.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “school life and education” in fun, enjoyable, varied, and versatile activities (**SELS3.2, V7.2, LS9**). These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class (**D3.2, SELS2.2, V4.2, CS2.20**).

ENG8.1.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation (**SELS3.3, V3.4, CS2.20**). These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “school life and education” as in others (**D3.6, SELS2.1, CS2.13**).

ENG8.1.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “school life and education” on the sub-themes of “school events and celebrations (sports, music, drama); developing the environment; national days and celebrations” (**V4.5, LS5, CS2.13, CS2.14**). Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme (**SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9**). Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme (**SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2**). All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.1.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning (**SELS1.3**) or on their collaborative learning in pairs, groups or as a whole class collaboratively (**D2.3, SELS2.2, CS2.15**). The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement (**SELS1.2, SELS2.1**) and also they contribute to the improvement of their peers in their learning processes (**V4.1, V4.3, V12.1, V12.3, LS1**).

DIFFERENTIATION

Expansion

Objective: To talk about sports, music or drama competitions, events or celebrations in English by using the target vocabulary and grammar.

Activity 1: Role-play

The class is divided into pairs or small groups of 3-4 students, and each student is assigned a role, such as an event organiser, a participant, a referee, an attendee or a spectator. The students work collaboratively in their pairs or groups to develop a scenario based on a sports, music or drama event. As an additional task, students may create slogans or design brochures to promote their event. Each pair/group takes turns presenting their scenario through a role-play in front of the class. The rest of the class is given an evaluation form with performance categories such as "effective use of target vocabulary", "effective use of grammar", "great questioning skills", "amazing explanation", etc. Students use the form to evaluate each performance, giving constructive feedback and noting at least one positive highlight for each group. Completed evaluation forms can be exhibited on the class board for each student to check during the break. The teacher provides constructive feedback on students' performances in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students write down one thing they did well and one thing they want to improve for next time. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about sports, music or drama competitions, events or celebrations in English by using the target vocabulary and grammar.

Activity 1: Role-play

The class is divided into pairs or small groups of 3-4 students, and each student is assigned a role, such as an event organiser, a participant, a referee, an attendee or a spectator. The teacher prepares scenario prompts for each pair or group to guide their discussion. For example, "Your group is planning a school festival that includes sports competitions, music performances, and a drama contest. You will take on specific roles (e.g., organiser, referee, spectator) and plan the event together". The teacher gives role cards with sample sentences, e.g., "May I help with....?" Or "Can you explain the rules of the tournament?" and detailed role descriptions in simple sentences. The teacher may also provide a vocabulary box that has target words and encourage them to use as many of them as possible. Groups perform their role-plays one by one. Students are allowed to use their notes if needed. The rest of the class is provided with a form, which can be used to evaluate different performance categories such as "effective use of target vocabulary", "effective use of grammar", "great questioning skills", "amazing explanation", etc. so that they can be engaged while listening to their classmates and assign at least one highlight to each performance. The finalized forms can be exhibited on the class board for each student to check during the break. The teacher provides constructive feedback on students' performances in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students complete the sentence beginnings to reflect on one thing they did well and one thing they want to improve for next time. They also give a 'stars' rating (1-5) for their peer's performance and a short explanation by completing sentence beginnings, e.g., "I gave you _____ because your _____ is good, but you should _____". Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 2: CLASSROOM LIFE & LEARNING

Sub-themes: Preferences for different learning activities; preferences for different learning technologies

This theme is centred on the concept of “classroom life and learning” and covers the sub-themes of “preferences for different learning activities; preferences for different learning technologies”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS	FLFS1. Listening/Watching-Comprehension
	FLFS2. Reading-Comprehension
	FLFS3. Speaking-Expression
	FLFS4. Writing-Expression
	FLSS1. Grammatical: Selection and Use
	FLSS2. Vocabulary: Selection and Use
	FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS -

DISPOSITIONS	D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

INTERCURRICULAR COMPONENTS

Social-Emotional Learning Skills

SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1. Adaptability Skill, SELS3.2. Flexibility Skill, SELS3.3. Responsible Decision-Making Skill

Values	V1. Justice, V3. Diligence, V4. Friendship, V5. Sensitivity, V6. Honesty, V7. Aesthetics, V9. Compassion, V10. Modesty, V11. Independence, V12. Patience, V13. Healthy Living, V14. Respect, V16. Responsibility, V20. Benevolence

Literacy Skills	LS1. Information Literacy, LS2. Digital Literacy, LS4. Visual Literacy, LS5. Cultural Literacy, LS6. Civic Literacy, LS7. Data Literacy, LS9. Art Literacy

Analogical Reasoning Skill, CS2.17. Evaluation Skill, CS2.18. Argumentation Skill, CS2.19. Logical Auditing Skill, CS2.20. Synthesis Skill, CS3.1. Decision-Making Skill, CS3.2. Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 8 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.8.2.L1. Students can prepare and get ready for listening (to)/watching about the current content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.8.2.L2. Students can bring together the information in the current content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.8.2.L3. Students can make sense of and derive meaning from the current content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.8.2.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.8.2.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.8.2.R1. Students can prepare for reading the content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.8.2.R2. Students can bring information together about the current content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.8.2.R3. Students can make sense of and derive meaning from the current content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.8.2.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.8.2.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.8.2.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.8.2.W1. Students can prepare for writing efficiently and accurately based on the current content about “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*

- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.8.2.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.8.2.W3. Students can construct new written content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.8.2.W4. Students can practise producing written content based on the current theme “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.8.2.W5. Students can engage in the process of writing related to the content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*

- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.8.2.W6. Students can reconstruct their writing about the current theme on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.8.2.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.8.2.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.8.2.S2. Students can analyse and understand the model content related to “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.8.2.S3. Students can produce meaningful and accurate spoken content related to the current theme on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*

- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.8.2.S4. Students can construct meaningful spoken content about “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.8.2.S5. Students can reconstruct the information about “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.8.2.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “classroom life and learning with preferences for different learning activities; preferences for different learning technologies” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

CLASSROOM LIFE & LEARNING

Sub-themes: preferences for different learning activities; preferences for different learning technologies

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for preferences for different learning activities:

Nouns: Background, education, progress, improvement, an essay, a lecture, a process, a strategy, a survey, a task, thought.

Verbs: To achieve, to present, to question, to succeed, to dislike, to manage.

Adjectives: Ideal, individual, successful, creative, effective.

Adverbs: Well, successfully, (all right).

Preposition: According to.

Vocabulary for preferences for different learning technologies:

Nouns: A comment, a document, a download, a network, social media, a setting, a diagram, a challenge, an effort, a set, management, an account, an assignment, a disadvantage, an issue.

Verbs: To save, to download, to set up.

Adjectives: Necessary, outdoor, practical, related, suitable, educational, complex, technical.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Simple Present Tense for the Future: (Students present their essays tomorrow in the lecture hall).

-The Present Progressive Tense for the Future: (The instructor is presenting a lecture on educational strategies next week).

- "Can" for ability: (He can save the document to the network effortlessly).

- "Can't" for ability: (They can't succeed in completing the assignment without further explanation).

- "Have to" for obligations in Present: (She has to save all related documents for her assignment today).

- "Had to" for obligations in the Past: (They had to download the educational material last night).

-Necessity with "Need": (You need to set the diagram in the most suitable format for the presentation).

- "Needn't" for permission: (You needn't present your assignment in this complex setting).

-Question Tags for "Modals": (Students can download the document easily, can't they?)(She had to save the diagram for the task, didn't she?)

Functions of the Grammatical Structures in Use:

Use of the Simple Present Tense for the Future: Describing scheduled or planned (timetabled) actions in the future.

Use of the Present Progressive Tense for the Future: Indicating fixed arrangements or actions already planned for the future.

Use of "can" for abilities: Expressing ability or skill to perform an action.

Use of "can't" for abilities: Expressing lack of ability or skill to perform an action.

Use of "have to" for obligations in present: Indicating present external necessity, obligation or requirement.

Use of "had to" for obligations in past: Indicating past external necessity or requirement.

Use of necessity with “need”: Expressing a requirement or necessity for action.

Use of “needn’t” for permissions: Indicating lack of necessity or optionality in action.

Use of question tags for modals: Seeking confirmation or agreement about ability, obligation, or necessity.

Target Social Language in Use:

Brush up on your English before the exam!

I finally got the hang of doing Maths!

I’ve been burying myself in books lately!

Target Phonological Sounds in Use:

Intonation of negative statements

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “classroom life and learning” and its components such as “preferences for different learning activities; preferences for different learning technologies” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “classroom life and learning” and its components such as “preferences for different learning activities; preferences for different learning technologies” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

Preferences, learning activities, preferences for different learning activities, technology, learning technologies, preferences for different learning technologies.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will create a short video or a digital presentation where they describe their preferences for different learning activities and technologies used in the classroom. In their video or presentation, they will include at least three types of learning activities (e.g., group work, individual projects, games) and three types of learning technologies (e.g., tablets, interactive boards, educational apps). They will explain why they like these methods and technologies, giving simple reasons such as “I like group work because I can share ideas with my friends” or “I prefer using educational apps because they are fun and helpful.” The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “classroom life and learning” and its components such as “preferences for different learning activities; preferences for different learning technologies”. As they are lower-secondary school students in year 8 (eight), they can know what “classroom life and learning” and its components such as “preferences for different learning activities; preferences for different learning technologies” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 8 of lower-secondary school, they can know some basic vocabulary about

“classroom life and learning” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “classroom life and learning” and its components such as “preferences for different learning activities; preferences for different learning technologies”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “classroom life and learning”. Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of “classroom life and learning” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “classroom life and learning” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “classroom life and learning” and the sub-themes of “preferences for different learning activities; preferences for different learning technologies”,

allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “classroom life and learning” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG8.2.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V10.1, V11.1, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG8.2. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V10.1, V11.1, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG8.2.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V10.1, V11.1, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING:

Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story (**D3.6, V3.4, LS2, LS4, LS7**). The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes (**D3.2, D3.6, D3.7, LS1, CS2.4**). In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them (**D2.3, SELS2.1, V4.4**). Then they discuss the accuracy of the findings as a whole class (**SELS2.2, CS2.8**). This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme (**D3.7, V10.1, V11.1, LS5**). She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson (**SELS1.2**). Students work on these categories with the help of the scenes from the introductory digital story (**D3.6, LS2, LS4**). The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “preferences for different learning activities; preferences for different learning technologies” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) (**D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4**). Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “classroom life and learning” are introduced to the students in English (**LS5**). At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session (**D1.2, D1.6, D3.8, SELS1.1, V3.4**). This could be evaluated as described in items (1), (2), (3), (6)(7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference (**D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7**).

ENG8.2.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct (**D3.8, V4.2, V4.3, LS2, LS4**). As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct (**D3.4, V3.3, LS1, LS2, LS4, CS2.8**). The teacher

asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/ watching process and students talk about them individually (**SELS1.3**) and share them with the whole class (**D2.3, SELS.2.1, V4.2**). After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas (**SELS2.2, V4.2, V10.3**).

ENG8.2.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements (**LS1, LS2, LS4**). She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context (**D3.2, D3.6, V3.4**).

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “classroom life and learning”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies (**D3.2, V3.4, LS1, LS2**). To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording (**D3.2, D3.7, D2.3**). Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies (**D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4**). Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum (**D3.2, D3.6, D3.7**).

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home (**D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5**). They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings (**D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5**). If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens (**D2.3, D2.4, SELS2.2**). During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion (**D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1**). The teacher can get help from AI-based technologies for these activities if available. Students’ performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually (**SELS1.3**) and share them with the whole

class **(D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS1.2, V3.3, V6.2, V10.3, LS1, LS2)**.

ENG8.2.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “classroom life and learning”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “classroom life and learning” **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances (**D3.2, D3.6, SELS3.1, V3.4, LS1, LS4**). He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear (**D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8**). Then she/he asks them whether they understand the meaning of the part/paragraph (**D3.8, SELS3.1**). She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph (**D3.6, SELS2.2, V4.1, LS1, LS7**). Students discuss the meaning of the part/paragraph in pairs (**D3.10, SELS2.2, V4.2, CS2.18**) and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/phrase/sentence in the story (**V6.2, LS1, LS5, CS2.16.1**). As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about (**D3.2, D3.6, SELS3.1, CS2.16.1**). These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/ “the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words (**D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3**). These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word (**D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17**). When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences (**SELS3.1, V4.1, LS7**). This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided (**D3.2, D3.6, V3.3, LS5, CS2.5**). The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class (**D2.3, D3.6, SELS2.1, V4.2, CS2.19**). Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story (**LS2, LS4**). When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (**D3.6, LS5, CS2.7, CS3.1**). As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs (**D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1**). In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues (**D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8**). So, they revise and practise the meanings of the target (key) vocabulary of the theme “classroom life and learning”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 (**D2.5, SELS2.1, V3.4, V4.2, V4.4**). They can be done with real pictures on the white/blackboard if there is a problem with technology. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme (**D2.3, SELS1.2**). Then students say several things about the items in the picture (**D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20**). The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her (**D3.9, D3.10, SELS2.2, V3.4, CS3.3**). When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation (**D3.6, D3.7, CS2.5**). The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other’s spelling and definitions (**D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20**). Students’ learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3**).

ENG8.2.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme “classroom life and learning” (**D3.2, LS7**). The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (**LS2**). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully (**D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2**). Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard (**SELS2.2, V 3.4, CS2.7**). The students look at the written version of the story and find similar sentences to those given by the teacher as examples (**D3.2, D3.6, CS2.4, CS2.7**). The teacher then asks

the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way (**D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3**). Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities (**D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7**). The teacher asks the pairs to say what they have found (**D2.3, CS2.10**). As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them (**D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3**). Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules (**D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1**). The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs (**D3.1, SELS2.2, V4.2**). Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15**). This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns (**D2.2, D2.3, V3.3, V3.4, CS2.13**). These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily (**D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3**). She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups (**SELS2.2**). She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context (**D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13**). They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content (**D3.5, SELS2.2, V3.4**). When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V4.2, V10.3, SELS2.2**). This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.2.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme "classroom life and learning" from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way (**V3.2, LS1, CS3.3**). Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading

content and they make predictions to be checked after reading the text (**D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2**).

ENG8.2.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson (**SELS1.2, V3.4, LS1, CS2.8**). Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher (**V3.3, LS4, LS7, CS2.4, CS2.6**). They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “preferences for different learning activities; preferences for different learning technologies” (**D3.6, V10.1, V11.1, LS2, LS5, CS2.7**). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks (**V3.4, LS7, CS2.8**). The teacher could use different versions of the scanning activities as described in the “listening/watching-comprehension” section above. In this way, they can understand the text in general better with the help of scanning (**CS2.16.1**). They share the components with the whole class (**SELS2.1**) and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8**).

ENG8.2.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (**D3.2, SELS2.2, V4.1**). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) (**CS2.6**). They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities (**V3.3, V6.2, LS1, CS2.4, CS2.6**). They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “classroom life and learning” in terms of the sub-themes of “preferences for different learning activities; preferences for different learning technologies” mean from different perspectives to build their own understandings (**D3.6, D3.8, SELS3.1, CS2.13**). The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process (**SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20**). After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V3.4, V10.1, V11.1, LS1, LS5, LS6, CS2.13, CS2.14**). In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading (**SELS3.3, V7.2, CS2.20**).

ENG8.2.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process (**SELS1.3**). They talk about them individually and then share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

ENG8.2.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to write about (**D3.2, SELS1.1, CS2.12**). This includes examining all the audio/visual sources and elements provided for understanding the writing task (**V3.2, LS1, CS2.2**).

ENG8.2.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given (**CS2.2**). These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “classroom life and learning”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully (**V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks (**D3.6, SELS1.2, V3.2, LS1**).

ENG8.2.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own (**V16.1**). They participate in several writing activities individually, in pairs, in groups and as a whole class (**D2.3, SELS2.2, V4.1**). Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others (**SELS2.1, LS1, CS2.13**).

ENG8.2.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic (**D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20**). They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects (**D1.4, SELS2.2, V3.4, V4.1, V4.2**). Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others (**SELS3.2, SELS3.3, V10.1, V11.1, LS5, CS2.14, CS3.3**). Storification and gamification techniques are actively and extensively used for further writing practice (**D2.5, LS9**).

ENG8.2.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher’s and also peers’ feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in

fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14)**. All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG8.2.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of "preferences for different learning activities; preferences for different learning technologies" through their writing tasks **(V10.1, V11.1, CS3.3)**. They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20)**. All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.2.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme **(V3.4, V4.5, LS1, LS5)**.

ENG8.2.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12)**. Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2)**. Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13)**.

ENG8.2.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2)**. These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V3.3, V10.1, V11.1, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they

have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5)**.

ENG8.2.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “classroom life and learning” in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20)**.

ENG8.2.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20)**. These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “classroom life and learning” as in others **(D3.6, SELS2.1, CS2.13)**.

ENG8.2.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “classroom life and learning” on the sub-themes of “preferences for different learning activities; preferences for different learning technologies” **(V4.5, LS5, CS2.13, CS2.14)**. Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9)**. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2)**. All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.2.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15)**. The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**.

DIFFERENTIATION

Expansion

Objective: To discuss preferences for learning activities and technologies in English by using the target vocabulary and grammar.

Activity 1: Find Someone Who

Students move around the classroom to ask their classmates questions, find people who match the specific description of learning activities and technologies, and note their names down. The teacher prepares the worksheet with 15-20 words or phrases and students walk around the classroom to ask and answer these questions, e.g., "Do you prefer.....? I prefer....". The students are encouraged to ask follow-up questions to their friends, e.g., "Can you give one/two clue(s) about your preference?" After completing the worksheet, the teacher starts a whole-class discussion to share and discuss findings. Each student reports as many interesting findings as they like. The rest of the class listens to their friends and tries to determine if they have the same names for the same learning activities and technologies. The teacher may encourage students to ask follow-up questions to the reporting student. The teacher also utters a student's name and asks the rest of the class to report their findings about him/her. The teacher provides constructive feedback on students' performances in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students write down one thing they did well and one thing they want to improve for next time. They also give a 'stars' rating (1-5) for their peer's performance, followed by a short explanation: "I gave you 4 stars because your pronunciation is good, but you should give more details". Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To discuss preferences for learning activities and technologies in English by using the target vocabulary and the grammar.

Activity 1: Find Someone Who

The teacher prepares a worksheet with 15-20 phrases related to learning activities and technologies, e.g., "working in pairs", "using digital tools", and "learning through games". Students walk around the classroom, asking their classmates to find people whose preferences match specific items on the worksheet. They ask and answer questions, e.g., "Do you prefer learning through games?" and "I prefer learning through games because it's fun". To make conversations more dynamic, students are encouraged to ask follow-up questions, e.g., "Can you give an example of a game you like?" or "Why do you like this activity?" Once the worksheet is completed, the teacher facilitates a whole-class discussion where students share their findings, reporting what they've learned about their classmates, e.g., "I found out that likes using flashcards to study vocabulary", and the rest of the class tries to guess who that might be and why. The teacher provides constructive feedback on students' performances in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students complete the sentence beginnings to reflect on one thing they did well and one thing they want to improve for next time. They also give a 'stars' rating (1-5) for their peer's performance and a short explanation by completing sentence beginnings, e.g., "I gave you _____ because your _____ is good, but you should _____". Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 3: PERSONAL LIFE & WELL-BEING

Sub-themes: Mobile phones and their impact on health and social life; personal preferences for films and visual arts

This theme is centred on the concept of “personal life and well-being” and covers the sub-themes of “mobile phones and their impact on health and social life; personal preferences for films and visual arts”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

Turkish, Maths, Atatürk's Principles and History of Revolution, Physical Education and Sports, Visual Arts, Music, Counselling and Career Planning, Technology and Design

INTERSKILLS

CS2.1. Conflict Resolution Skill, CS2.2. Observation Skill, CS2.3. Summarising Skill, CS2.4. Analysis Skill, CS2.5. Classification Skill, CS2.6. Information Gathering Skill, CS2.7. Comparison Skill, CS2.8. Inquiry Skill, CS2.9. Generalisation Skill, CS2.10. Inference Skill, CS2.11. Observation-Based Prediction Skill, CS2.12. Data-Based Prediction Skill, CS2.13. Structuring Skill, CS2.14. Interpretation Skill, CS2.15. Reflective Thinking Skill, CS2.16.1. Inductive Reasoning Skill, CS2.16.2. Deductive Reasoning Skill, CS2.16.3. Analogical Reasoning Skill, CS2.17. Evaluation Skill, CS2.18. Argumentation Skill, CS2.19. Logical Auditing Skill, CS2.20. Synthesis Skill, CS3.1. Decision-Making Skill, CS3.2. Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 8 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.8.3.L1. Students can prepare and get ready for listening (to)/watching about the current content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.8.3.L2. Students can bring together the information in the current content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.8.3.L3. Students can make sense of and derive meaning from the current content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity, and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise, and personalise current content in an individualised, age-appropriate, and level-appropriate way.*

ENG.8.3.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.8.3.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.8.3.R1. Students can prepare for reading the content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.8.3.R2. Students can bring information together about the current content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.8.3.R3. Students can make sense of and derive meaning from the current content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.8.3.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.8.3.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.8.3.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.8.3.W1. Students can prepare for writing efficiently and accurately based on the current content about “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.8.3.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.8.3.W3. Students can construct new written content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.8.3.W4. Students can practise producing written content based on the current theme “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*

- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.8.3.W5. Students can engage in the process of writing related to the content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.8.3.W6. Students can reconstruct their writing about the current theme on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.8.3.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.8.3.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.8.3.S2. Students can analyse and understand the model content related to “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.8.3.S3. Students can produce meaningful and accurate spoken content related to the current theme on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*

- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.8.3.S4. Students can construct meaningful spoken content about “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.8.3.S5. Students can reconstruct the information about “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.8.3.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “personal life and well-being with mobile phones and their impact on health and social life; personal preferences for films and visual arts” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*

- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

PERSONAL LIFE & WELL BEING

Sub-themes: mobile phones and their impact on health and social life; personal preferences for films and visual arts

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for mobile phones and their impact on health and social life:

Nouns: An advantage, an argument, a rate, a smartphone, a need, a reply, use, a user, usage, an application, an app, a screen.

Verbs: To accept, to allow, to avoid, to cause, to prevent, to refuse, to text, to reply, to use.

Adjectives: Mobile, worried, electronic, online.

Adverbs: Definitely.

Conjunction: While.

Vocabulary for personal preferences for films and visual arts:

Nouns: An expression, a character, acting, special effects, a context, a personality, a decision, a taste.

Verbs and phrases: To be a fan of, to enjoy, to prefer, to film, to care for.

Adjectives: Ordinary, adult.

Adverbs: Rather, mostly, completely (all).

Target Grammatical Structures in Use:

-The Past Simple Tense: (She texted her reply to the argument rather quickly).

-Question tags for the Simple Past Tense: (He accepted the need for an online survey, didn't he?)

-Used to: (We used to care for ordinary characters in older films).

-Past simple of "can" or "can't" for ability: (She could avoid causing arguments when she was younger).

-Polite request with "could" and "couldn't": (Could you reply to the rate of smartphone users, please?)

- "Shall" for suggestions: (Shall we avoid using electronic devices during the argument?)

- "Should" for giving advice: (You should prevent mobile distractions while studying).

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Functions of the Grammatical Structures in Use:

Use of the Simple Past Tense: Describing completed actions or events in the past.

Use of question tags: Seeking confirmation or agreement about a past statement.

Use of "used to": Expressing habitual actions or states in the past.

Use of the Past Simple of "can" or "can't" for ability: Indicating abilities or lack of abilities in the past.

Use of polite requests with "could" and "couldn't": Making polite requests in formal or informal contexts.

Use of "shall" for suggestions: Offering suggestions or making proposals.

Use of "should" for giving advice: Providing recommendations or expressing opinions about what is right.

Target Social Language in Use:

He's a total phone zombie!

The new superhero film is a blockbuster hit this summer!

This film will keep you on the edge of your seat!

Target Phonological Sounds in Use:

Intonation of questions and question tags

Generalisations/Principles/Key Concepts**Generalisations**

The target concept of this theme "personal life and well-being" and its components such as "mobile phones and their impact on health and social life; personal preferences for films and visual arts" is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what "personal life and well-being" and its components such as "mobile phones and their impact on health and social life; personal preferences for films and visual arts" means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

Mobile phones, health, social life, mobile phones' impact on health and social life, personal preferences, films, visual arts, personal preferences for films and visual arts.

INDICATORS FOR LEARNING (Assessment and Evaluation)**EVALUATION FOR THE SKILLS AND THE CONTENT:**

PERFORMANCE ASSIGNMENT: Students will prepare a collage about their favourite films and visual arts. In this collage, they will gather pictures, drawings, and printed images of scenes from their favourite films and artworks. They can add short captions or descriptions explaining why they love these films and visual arts, how they make them feel, and what they enjoy about them. They will also write a few sentences about how watching films or enjoying art helps them relax, learn new things, or express their feelings. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES**Basic Acceptations: Preparedness/ Readiness**

This theme is based on the students' knowledge of "personal life and well-being" and its components such as "mobile phones and their impact on health and social life; personal preferences for films and visual arts". As they are lower secondary school students in year 8 (eight), they can know what "personal life and well-being" and its components such as "mobile phones and their impact on health and social life; personal preferences for films and visual arts" mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 8 of lower secondary school, they can know some basic vocabulary about "personal life and well-being" and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the "Revision Programme" at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students' physical, cognitive, affective, and social factors are appropriate and suitable for learning about the "personal life and well-being" and its components such as "mobile phones and their impact on health and social life; personal preferences for films and visual arts". Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of "personal life and well-being". Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of "personal life and well-being" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher. They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme "personal life and well-being" in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic "personal life and well-being" and the sub-themes of "mobile phones and their impact on health and social life; personal preferences for films and visual arts", allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative

competence. The theme “personal life and well-being” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG8.3.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V7.3, V10.1, V13.3, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG8.3. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V7.3, V10.1, V13.3, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG8.3.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s)) **(D3.2, V3.4)**. The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V7.3, V10.1, V13.3, LS2, LS4, LS5, LS9)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as

the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V7.3, V10.1, V13.3, LS5, LS9)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “mobile phones and their impact on health and social life; personal preferences for films and visual arts” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “personal life and well-being” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied., but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6)(7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG8.3.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/ watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG8.3.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements (**LS1, LS2, LS4**). She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context (**D3.2, D3.6, V3.4**).

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “personal life and well-being”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies (**D3.2, V3.4, LS1, LS2**). To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording (**D3.2, D3.7, D2.3**). Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies (**D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4**). Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum (**D3.2, D3.6, D3.7**).

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home (**D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5**). They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings (**D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5**). If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens (**D2.3, D2.4, SELS2.2**). During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion (**D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1**). The teacher can get help from AI-based technologies for these activities if available. Students’ performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually (**SELS1.3**) and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15**). After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas (**SELS1.2, V3.3, V6.2, V10.3, LS1, LS2**).

ENG8.3.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “personal life and well-being”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again (**D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7**). Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “personal life and well-being” (**D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8**). Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats (**D3.2, D3.6, V3.4**). The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes (**LS1, LS7, CS2.4, CS2.8**). In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones (**D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1**). Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them (**D2.3, SELS2.1**). Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8**).

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity (**D3.2, SELS2.2**). One peer reads the first half of the story/text and the second peer reads the other half silently in a given time (**V3.4, V4.1, V9.2, LS1, CS2.6**). The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions (**D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7**). They are then asked to share these words with their peers without discussing their meanings in the text (**D2.4, D3.2, SELS2.2, V4.2, V6.2**). The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that (**D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4**). When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below (**D3.2, D3.6, V1.2, V3.4, LS2, LS4**).

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances (**D3.2, D3.6, SELS3.1, V3.4, LS1, LS4**). He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear (**D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8**). Then she/he asks them whether they understand the meaning of the part/paragraph (**D3.8, SELS3.1**). She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph (**D3.6, SELS2.2, V4.1, LS1, LS7**). Students discuss the meaning of the part/paragraph in pairs (**D3.10, SELS2.2, V4.2, CS2.18**) and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/phrase/sentence in the story (**V6.2, LS1, LS5, CS2.16.1**). As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about (**D3.2, D3.6, SELS3.1, CS2.16.1**). These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/ “the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words (**D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3**). These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word (**D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17**). When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences (**SELS3.1, V4.1, LS7**). This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided (**D3.2, D3.6, V3.3, LS5, CS2.5**). The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class (**D2.3, D3.6, SELS2.1, V4.2, CS2.19**). Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story (**LS2, LS4**). When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (**D3.6, LS5, CS2.7, CS3.1**). As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs (**D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1**). In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues (**D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8**). So, they revise and practise the meanings of the target (key) vocabulary of the theme “personal life and well-being”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the

form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 materials (**D2.5, SELS2.1, V3.4, V4.2, V4.4**). They can be done with real pictures on the white/blackboard if there is a problem with technology. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme (**D2.3, SELS1.2**). Then students say several things about the items in the picture (**D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20**). The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her (**D3.9, D3.10, SELS2.2, V3.4, CS3.3**). When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation (**D3.6, D3.7, CS2.5**). The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions (**D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20**). Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3**).

ENG8.3.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "personal life and well-being" (**D3.2, LS7**). The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (**LS2**). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully (**D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2**). Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard (**SELS2.2, V3.4, CS2.7**). The students look at the written version of the story and find similar sentences to those given by the teacher as examples (**D3.2, D3.6, CS2.4, CS2.7**). The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way (**D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3**). Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities (**D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7**). The teacher asks the pairs to say what they have found (**D2.3, CS2.10**). As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them (**D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3**). Then the teacher

hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules (**D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1**). The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs (**D3.1, SELS2.2, V4.2**). Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15**). This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns (**D2.2, D2.3, V3.3, V3.4, CS2.13**). These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily (**D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3**). She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups (**SELS2.2**). She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context (**D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13**). They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content (**D3.5, SELS2.2, V3.4**). When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V4.2, V10.3, SELS2.2**). This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.3.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “personal life and well-being” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way (**V3.2, LS1, CS3.3**). Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text (**D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2**).

ENG8.3.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson (**SELS1.2, V3.4, LS1, CS2.8**). Then they read the text very quickly (scanning) to check the main components and categories

with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher (**V3.3, LS4, LS7, CS2.4, CS2.6**). They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “mobile phones and their impact on health and social life; personal preferences for films and visual arts” (**D3.6, V7.3, V10.1, V13.3, LS2, LS5, LS9, CS2.7**). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks (**V3.4, LS7, CS2.8**). The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning (**CS2.16.1**). They share the components with the whole class (**SELS2.1**) and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8**).

ENG8.3.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (**D3.2, SELS2.2, V4.1**). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) (**CS2.6**). They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities (**V3.3, V6.2, LS1, CS2.4, CS2.6**). They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “personal life and well-being” in terms of the sub-themes of “mobile phones and their impact on health and social life; personal preferences for films and visual arts” mean from different perspectives to build their own understandings (**D3.6, D3.8, SELS3.1, CS2.13**). The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process (**SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20**). After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V3.4, V7.3, V10.1, V13.3, LS1, LS5, LS6, CS2.13, CS2.14**). In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading (**SELS3.3, V7.2, CS2.20**).

ENG8.3.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process (**SELS1.3**). They talk about them individually and then share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

ENG8.3.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to write about (**D3.2, SELS1.1, CS2.12**). This includes examining all the audio/visual sources and elements provided for understanding the writing task (**V3.2, LS1, CS2.2**).

ENG8.3.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given (**CS2.2**). These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “personal life and well-being”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully (**V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks (**D3.6, SELS1.2, V3.2, LS1, LS9**).

ENG8.3.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own (**V16.1**). They participate in several writing activities individually, in pairs, in groups and as a whole class (**D2.3, SELS2.2, V4.1**). Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others (**SELS2.1, LS1, CS2.13**).

ENG8.3.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic (**D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20**). They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects (**D1.4, SELS2.2, V3.4, V4.1, V4.2**). Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others (**SELS3.2, SELS3.3, V7.3, V10.1, V13.3, LS5, CS2.14, CS3.3**). Storification and gamification techniques are actively and extensively used for further writing practice (**D2.5, LS9**).

ENG8.3.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher’s and also peers’ feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities (**SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14**). All the content is formed as contextual, practical, authentic, real, and appropriate to the students’ interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students (**D3.1, SELS1.2, V12.3, LS1, CS3.1**).

ENG8.3.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of “mobile phones and their impact on health and social life; personal preferences for films and visual arts” through their writing tasks (**V7.3, V10.1, V13.3, CS3.3**). They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing (**D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20**). All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.3.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process (**SELS1.3**) and students talk about them individually and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme (**V3.4, V4.5, LS1, LS5**).

ENG8.3.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it (**SELS1.1, CS2.12**). Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts (**SELS3.2**). Then they can expand their language use and practice in each section by increasing the amount of speaking they do (**D1.3, V3.4, LS1, CS2.13**).

ENG8.3.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given (**CS2.2**). These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully (**V3.3, V7.3, V10.1, V13.3, LS1, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks (**D3.6, SELS1.2, V3.2, V3.4, LS5**).

ENG8.3.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “personal life and well-being” in fun, enjoyable, varied, and versatile activities **(SELS3.2, V7.2, LS9)**. These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class **(D3.2, SELS2.2, V4.2, CS2.20)**.

ENG8.3.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation **(SELS3.3, V3.4, CS2.20)**. These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “personal life and well-being” as in others **(D3.6, SELS2.1, CS2.13)**.

ENG8.3.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “personal life and well-being” on the sub-themes of “mobile phones and their impact on health and social life; personal preferences for films and visual arts” **(V4.5, LS5, LS9, CS2.13, CS2.14)**. Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme **(SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9)**. Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme **(SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20)**. AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings **(D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2)**. All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.3.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning **(SELS1.3)** or on their collaborative learning in pairs, groups or as a whole class collaboratively **(D2.3, SELS2.2, CS2.15)**. The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement **(SELS1.2, SELS2.1)** and also they contribute to the improvement of their peers in their learning processes **(V4.1, V4.3, V12.1, V12.3, LS1)**.

DIFFERENTIATION

Expansion

Objective: To talk about the impact of mobile phones on health and social life, as well as on films and visual arts in English by using target vocabulary and grammar.

Activity 1: Memory Lane Interview

Students pair up and take on the roles of a journalist and an interviewee. Each student selects a new identity, e.g., a famous artist, a tech enthusiast, or a film critic, and answers the questions as this persona. Journalists prepare 5 main questions and at least 3 spontaneous follow-up questions based on their peer's responses. Examples include, e.g., "What were you doing when you first started using social media apps?", "Were you watching any specific films or documentaries that inspired you?", and "What impact has your phone had on your daily routine in the past?". Interviewers take notes while their peers respond. Then roles are switched, and the process is repeated. After both interviews are completed, each student writes a short narrative about their peer's past experiences based on the notes. The teacher collects all the papers and asks each student to choose one randomly and read it aloud. The rest of the class listens very carefully and tries to guess who that might be and why. The teacher provides constructive feedback on students' performances in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students write down one thing they did well and one thing they want to improve for next time. They also give a 'stars' rating (1-5) for their peer's performance, followed by a short explanation: "I gave you 4 stars because your pronunciation is good, but you should give more details". Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about the impact of mobile phones on health and social life, as well as on films and visual arts in English by using target vocabulary and grammar.

Activity 1: Memory Lane Interview

Students pair up and take on the roles of a journalist and an interviewee. Each student selects a new identity, e.g., a famous artist, a tech enthusiast, or a film critic, and answers the questions as this persona. The teacher provides a bowl of simple questions for students to choose 3 questions from, e.g. "What did you do on your phone yesterday?" or "What were you doing at this time on Saturday?". The teacher also provides a language box with sample grammar for students to get help from while answering questions. Then they switch roles and follow the same procedure. After that, each pair collaboratively writes a short paragraph about their past experiences. The teacher collects all the papers and asks each student to choose one randomly and read it aloud. The rest of the class listens very carefully and tries to guess who that might be. The teacher provides constructive feedback on students' performances in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students complete the sentence beginning to reflect on one thing they did well and one thing they want to improve for next time. They also give a 'stars' rating (1-5) for their peer's performance and a short explanation by completing sentence beginnings, e.g., "I gave you _____ because your _____ is good, but you should _____". Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 4: FAMILY LIFE & HOME

Sub-themes: Relationships, problems and solutions in the family; different houses and living styles

This theme is centred on the concept of “family life and home” and covers the sub-themes of “relationships, problems and solutions in the family; different houses and living styles”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS	FLFS1. Listening/Watching-Comprehension
	FLFS2. Reading-Comprehension
	FLFS3. Speaking-Expression
	FLFS4. Writing-Expression
	FLSS1. Grammmaring: Selection and Use
	FLSS2. Vocabulary: Selection and Use
	FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS -

DISPOSITIONS	D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

INTERCURRICULAR COMPONENTS

Social-Emotional Learning Skills

SELS1.1. Self-Awareness Skill, SELS1.2. Self-Regulation Skill, SELS1.3. Self-Reflection Skill, SELS2.1. Communication Skill, SELS2.2. Cooperation Skill, SELS2.3. Social Awareness Skill, SELS3.1. Adaptability Skill, SELS3.2. Flexibility Skill, SELS3.3. Responsible Decision-Making Skill

Values	V1. Justice, V2. Family Integrity, V3. Diligence, V4. Friendship, V5. Sensitivity, V6. Honesty, V7. Aesthetics, V8. Privacy, V9. Compassion, V10. Modesty, V11. Independence, V12. Patience, V13. Healthy Living, V14. Respect, V16. Responsibility, V20. Benevolence

Literacy Skills	LS1. Information Literacy, LS2. Digital Literacy, LS4. Visual Literacy, LS5. Cultural Literacy, LS6. Civic Literacy, LS7. Data Literacy, LS9. Art Literacy

INTERSKILLS

CS2.1. Conflict Resolution Skill, CS2.2. Observation Skill, CS2.3. Summarising Skill, CS2.4. Analysis Skill, CS2.5. Classification Skill, CS2.6. Information Gathering Skill, CS2.7. Comparison Skill, CS2.8. Inquiry Skill, CS2.9. Generalisation Skill, CS2.10. Inference Skill, CS2.11. Observation-Based Prediction Skill, CS2.12. Data-Based Prediction Skill, CS2.13. Structuring Skill, CS2.14. Interpretation Skill, CS2.15. Reflective Thinking Skill, CS2.16.1. Inductive Reasoning Skill, CS2.16.2. Deductive Reasoning Skill, CS2.16.3. Analogical Reasoning Skill, CS2.17. Evaluation Skill, CS2.18. Argumentation Skill, CS2.19. Logical Auditing Skill, CS2.20. Synthesis Skill, CS3.1. Decision-Making Skill, CS3.2. Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 8 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.8.4.L1. Students can prepare and get ready for listening (to)/watching about the current content on “family life and home with relationships, problems and solutions in the family; different houses and living styles”.

- a) Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.8.4.L2. Students can bring together the information in the current content on “family life and home with relationships, problems and solutions in the family; different houses and living styles”.

- a) Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.8.4.L3. Students can make sense of and derive meaning from the current content on “family life and home with relationships, problems and solutions in the family; different houses and living styles”.

- a) Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.8.4.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “family life and home with relationships, problems and solutions in the family; different houses and living styles” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.8.4.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “family life and home with relationships, problems and solutions in the family; different houses and living styles” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.8.4.R1. Students can prepare for reading the content on “family life and home with relationships, problems and solutions in the family; different houses and living styles” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.8.4.R2. Students can bring information together about the current content on “family life and home with relationships, problems and solutions in the family; different houses and living styles” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.8.4.R3. Students can make sense of and derive meaning from the current content on “family life and home with relationships, problems and solutions in the family; different houses and living styles”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.8.4.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “family life and home with relationships, problems and solutions in the family; different houses and living styles” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.8.4.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “family life and home with relationships, problems and solutions in the family; different houses and living styles” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*

- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.8.4.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “family life and home with relationships, problems and solutions in the family; different houses and living styles”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.8.4.W1. Students can prepare for writing efficiently and accurately based on the current content about “family life and home with relationships, problems and solutions in the family; different houses and living styles”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.8.4.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “family life and home with relationships, problems and solutions in the family; different houses and living styles”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.8.4.W3. Students can construct new written content on “family life and home with relationships, problems and solutions in the family; different houses and living styles” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.8.4.W4. Students can practise producing written content based on the current theme “family life and home with relationships, problems and solutions in the family; different houses and living styles”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.8.4.W5. Students can engage in the process of writing related to the content on “family life and home with relationships, problems and solutions in the family; different houses and living styles”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.8.4.W6. Students can reconstruct their writing about the current theme on “family life and home with relationships, problems and solutions in the family; different houses and living styles” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.8.4.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “family life and home with relationships, problems and solutions in the family; different houses and living styles” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.8.4.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “family life and home with relationships, problems and solutions in the family; different houses and living styles”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.8.4.S2. Students can analyse and understand the model content related to “family life and home with relationships, problems and solutions in the family; different houses and living styles” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.8.4.S3. Students can produce meaningful and accurate spoken content related to the current theme on “family life and home with relationships, problems and solutions in the family; different houses and living styles”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.8.4.S4. Students can construct meaningful spoken content about “family life and home with relationships, problems and solutions in the family; different houses and living styles” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.8.4.S5. Students can reconstruct the information about “family life and home with relationships, problems and solutions in the family; different houses and living styles” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.8.4.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “family life and home with relationships, problems and solutions in the family; different houses and living styles” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

FAMILY LIFE & HOME

Sub-themes: relationships, problems and solutions in the family; different houses and living styles

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for relationships, problems and solutions in the family:

Nouns: A behaviour, a relationship, a control, a guest, an invitation, a matter, a promise, a trouble.

Verbs: To control, to matter, to promise, to appear, to argue, to communicate, to deal, to depend, to disagree, to invite, to marry, to react, to divorce, to change.

Adjectives: Alone, close, divorced, independent, own, together.

Adverbs: Alone, anymore.

Vocabulary for different houses and living styles:

Nouns: An arrangement, an owner, a pattern.

Verbs: To replace, to live, to stay.

Adjectives: Enormous, future, normal, safe, typical, intelligent, comfortable, double.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Past Progressive Tense: (She was crying alone in her room when the guest appeared unexpectedly).

-Question Tags: (They invited their close relatives to the wedding, didn't they?)

-Used to: (They used to communicate better when they lived in their enormous house).

-Adverbial Phrases of Time, Place and Frequency: (They argue about typical matters in the family every evening in the living room).

Functions of the Grammatical Structures in Use:

-Use of the Past Progressive Tense: Describing ongoing actions or events in the past interrupted by another action.

-Use of question tags: Seeking confirmation or agreement about a past statement or action.

-Use of "used to": Expressing past habits, routines, or states that no longer happen or exist.

-Use of adverbial phrases of time, place and frequency: Indicating when, where, or how often actions occur with proper word order.

Target Social Language in Use:

Sorry, mum. I didn't mean to spill the water!

Don't glue yourself to the telly when your favourite show is on!

It feels so cosy in our home when we light the fireplace!

Target Phonological Sounds in Use:

a, b, c, d, e

Vowels: a: (/æ/, /ae/, /ə/, /a:/, /eɪ/, /a:/, /a/, /ɔ:/, /eə/); e: (/e/, /i:/, /ə/)

Consonants: b: (/b/), silent /b/; c: (/s/, /k/); d: (/d/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “family life and home” and its components such as “relationships, problems and solutions in the family; different houses and living styles” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “family life and home” and its components such as “relationships, problems and solutions in the family; different houses and living styles” means but will not know how to say them in a foreign language in another language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

Family, relationships, problems, relationships in the family, problems in the family, solutions, solutions to family problems, houses, types of houses, styles, living styles.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will design a model house and present it in the classroom. First, they will decide the type of their model houses (apartment, house with a garden, a small city flat, a village house, an igloo etc.). Then, they will design their model houses. They may use various materials, or they may design with the help of Web 2.0 tools. Finally, they will exhibit their houses in the class and give information about the daily routines of the people who live in these houses. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “family life and home” and its components such as “relationships, problems and solutions in the family; different houses and living styles”. As they are lower secondary school students in year 8 (eight), they can know what “family life and home” and its components such as “relationships, problems and solutions in the family; different houses and living styles” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 8 of lower secondary school, they can know some basic vocabulary about “family life and home” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “family life and home” and its components such as “relationships, problems and solutions in the family; different houses and living styles”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “family life and home”. Therefore, a dialogue game can

be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of “family life and home” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “family life and home” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “family life and home” and the sub-themes of “relationships, problems and solutions in the family; different houses and living styles”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “family life and home” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG8.4.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V2.3, V2.4, V8.3, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG8.4. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V2.3, V2.4, V8.3, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG8.4.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V2.3, V2.4, V8.3, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of words/phrases,

etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V2.3, V2.4, V8.3, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “relationships, problems and solutions in the family; different houses and living styles” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “family life and home” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG8.4.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/ watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG8.4.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements (**LS1, LS2, LS4**). She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context (**D3.2, D3.6, V3.4**).

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “family life and home”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies (**D3.2, V3.4, LS1, LS2**). To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording (**D3.2, D3.7, D2.3**). Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies (**D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4**). Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum (**D3.2, D3.6, D3.7**).

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home (**D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5**). They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings (**D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5**). If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens (**D2.3, D2.4, SELS2.2**). During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion (**D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1**). The teacher can get help from AI-based technologies for these activities if available. Students’ performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually (**SELS1.3**) and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15**). After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas (**SELS1.2, V3.3, V6.2, V10.3, LS1, LS2**).

ENG8.4.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “family life and home”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again (**D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7**). Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “family life and home” (**D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8**). Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats (**D3.2, D3.6, V3.4**). The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes (**LS1, LS7, CS2.4, CS2.8**). In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones (**D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1**). Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them (**D2.3, SELS2.1**). Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8**).

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity (**D3.2, SELS2.2**). One peer reads the first half of the story/text and the second peer reads the other half silently in a given time (**V3.4, V4.1, V9.2, LS1, CS2.6**). The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions (**D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7**). They are then asked to share these words with their peers without discussing their meanings in the text (**D2.4, D3.2, SELS2.2, V4.2, V6.2**). The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that (**D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4**). When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below (**D3.2, D3.6, V1.2, V3.4, LS2, LS4**).

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances (**D3.2, D3.6, SELS3.1, V3.4, LS1, LS4**). He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear (**D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8**). Then she/he asks them whether they understand the meaning of the part/paragraph (**D3.8, SELS3.1**). She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph (**D3.6, SELS2.2, V4.1, LS1, LS7**). Students discuss the meaning of the part/paragraph in pairs (**D3.10, SELS2.2, V4.2, CS2.18**) and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story (**V6.2, LS1, LS5, CS2.16.1**). As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about (**D3.2, D3.6, SELS3.1, CS2.16.1**). These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/ “the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words (**D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, CS2.1, CS2.16.3**). These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word (**D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17**). When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences (**SELS3.1, V4.1, LS7**). This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided (**D3.2, D3.6, V3.3, LS5, CS2.5**). The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class (**D2.3, D3.6, SELS2.1, V4.2, CS2.19**). Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story (**LS2, LS4**). When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (**D3.6, LS5, CS2.7, CS3.1**). As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs (**D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1**). In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues (**D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8**). So, they revise and practise the meanings of the target (key) vocabulary of the theme “family life and home”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of

a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 (**D2.5, SELS2.1, V3.4, V4.2, V4.4**). They can be done with real pictures on the white/blackboard if there is a problem with technology. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme (**D2.3, SELS1.2**). Then students say several things about the items in the picture (**D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20**). The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her (**D3.9, D3.10, SELS2.2, V3.4, CS3.3**). When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation (**D3.6, D3.7, CS2.5**). The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions (**D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20**). Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3**).

ENG8.4.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE):

Consciousness raising- discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "family life and home" (**D3.2, LS7**). The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (**LS2**). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully (**D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2**). Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard (**SELS2.2, V3.4, CS2.7**). The students look at the written version of the story and find similar sentences to those given by the teacher as examples (**D3.2, D3.6, CS2.4, CS2.7**). The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way (**D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3**). Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities (**D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7**). The teacher asks the pairs to say what they have found (**D2.3, CS2.10**). As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them (**D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3**). Then the teacher

hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules (**D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1**). The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs (**D3.1, SELS2.2, V4.2**). Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15**). This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns (**D2.2, D2.3, V3.3, V3.4, CS2.13**). These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily (**D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3**). She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups (**SELS2.2**). She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context (**D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13**). They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content (**D3.5, SELS2.2, V3.4**). When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V4.2, V10.3, SELS2.2**). This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.4.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “family life and home” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way (**V3.2, LS1, CS3.3**). Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text (**D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2**).

ENG8.4.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson (**SELS1.2, V3.4, LS1, CS2.8**). Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher (**V3.3, LS4, LS7, CS2.4, CS2.6**). They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “relationships, problems and solutions in the family; different houses and living styles” (**D3.6, V2.3, V2.4, V8.3, LS2, LS5, CS2.7**). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks (**V3.4, LS7, CS2.8**). The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning (**CS2.16.1**). They share the components with the whole class (**SELS2.1**) and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8**).

ENG8.4.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (**D3.2, SELS2.2, V4.1**). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) (**CS2.6**). They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities (**V3.3, V6.2, LS1, CS2.4, CS2.6**). They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “family life and home” in terms of the sub-themes of “relationships, problems and solutions in the family; different houses and living styles” mean from different perspectives to build their own understandings (**D3.6, D3.8, SELS3.1, CS2.13**). The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process (**SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20**). After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V2.3, V2.4, V8.3, LS1, LS5, LS6, CS2.13, CS2.14**). In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading (**SELS3.3, V7.2, CS2.20**).

ENG8.4.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process (**SELS1.3**). They talk about them individually and then share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

ENG8.4.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing

knowledge about the current content to make a link between what they know and what they are going to write about (**D3.2, SELS1.1, CS2.12**). This includes examining all the audio/visual sources and elements provided for understanding the writing task (**V3.2, LS1, CS2.2**).

ENG8.4.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given (**CS2.2**). These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “family life and home”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully (**V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks (**D3.6, SELS1.2, V3.2, LS1**).

ENG8.4.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own. They participate in several writing activities individually, in pairs, in groups and as a whole class (**D2.3, SELS2.2, V4.1**). Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others (**SELS2.1, LS1, CS2.13**).

ENG8.4.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic (**D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20**). They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects (**D1.4, SELS2.2, V3.4, V4.1, V4.2**). Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others (**SELS3.2, SELS3.3, V2.3, V2.4, V8.3, LS5, CS2.14, CS3.3**). Storification and gamification techniques are actively and extensively used for further writing practice (**D2.5, LS9**).

ENG8.4.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher’s and also peers’ feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities (**SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14**). All the content is formed as contextual, practical, authentic, real, and appropriate to the students’ interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students (**D3.1, SELS1.2, V12.3, LS1, CS3.1**).

ENG8.4.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of “relationships, problems and solutions in the family; different houses and living styles” through their writing tasks (**V2.3, V2.4, V8.3, CS3.3**). They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing (**D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20**). All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.4.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process (**SELS1.3**) and students talk about them individually and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme (**V3.4, V4.5, LS1, LS5**).

ENG8.4.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it (**SELS1.1, CS2.12**). Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts (**SELS3.2**). Then they can expand their language use and practice in each section by increasing the amount of speaking they do (**D1.3, V3.4, LS1, CS2.13**).

ENG8.4.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given (**CS2.2**). These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully (**V2.3, V2.4, V8.3, LS1, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks (**D3.6, SELS1.2, V3.2, V3.4, LS5**).

ENG8.4.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “family life and home” in fun, enjoyable, varied, and versatile activities (**SELS3.2, V7.2, LS9**). These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class (**D3.2, SELS2.2, V4.2, CS2.20**).

ENG8.4.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation (**SELS3.3, V3.4, CS2.20**). These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “family life and home” as in others (**D3.6, SELS2.1, CS2.13**).

ENG8.4.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “family life and home” on the sub-themes of “relationships, problems and solutions in the family; different houses and living styles” (**V4.5, LS5, CS2.13, CS2.14**). Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme (**SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9**). Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme (**SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2**). All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.4.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning (**SELS1.3**) or on their collaborative learning in pairs, groups or as a whole class collaboratively (**D2.3, SELS2.2, CS2.15**). The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement (**SELS1.2, SELS2.1**) and also they contribute to the improvement of their peers in their learning processes (**V4.1, V4.3, V12.1, V12.3, LS1**).

DIFFERENTIATION

Expansion

Objective: To talk about relationships, problems, and solutions in the family, different families, and family houses in English by using target vocabulary and grammar.

Activity 1: Family Feud

The teacher prepares a list of guesses about imaginary family problems in different families and as many identity cards of famous people as possible. The cards have only the name of the person. The class is divided into 5-6 teams. The students are asked to work in their groups and collect as much information as they can about each famous person's family to be able to answer the teacher's questions. When the teacher presents a family-related problem, e.g., "Family members argue about chores", each team must come up with a possible solution using the Present Perfect Tense, e.g., "Yasemin and her siblings have created a chore chart to avoid arguments". The teacher encourages other students to ask follow-up questions, e.g., "How long have they been using the chore chart?". Each team earns a point for correctly identifying the family problem, matching with an appropriate famous person, and providing solutions using the Present Perfect Tense. The winners get a badge that says, "Family Champion". The teacher provides constructive feedback on students' performances in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students write down one thing they did well and one thing they want to improve for next time. They also give a 'stars' rating (1-5) for their peer's performance, followed by a short explanation: "I gave you 4 stars because your pronunciation is good, but you should give more details". Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about relationships, problems, and solutions in the family, different families, and family houses in English by using target vocabulary and grammar.

Activity 1: Family Feud

The teacher prepares a list of guesses about imaginary family problems in different families and as many identity cards of famous people as possible. Each group gets one copy of all cards. The cards have brief information about each famous person's family. The class is divided into 5-6 teams. When the teacher presents a family-related problem, e.g., "Family members argue about chores", each team must come up with a possible solution using the Present Perfect Tense, e.g., "Yasemin and her siblings have created a chore chart to avoid arguments". The students are provided with a language box that includes sample grammar that students need to answer the questions. Each team earns a point for correctly identifying the family problem, matching with an appropriate famous person, and providing solutions using the Present Perfect Tense. The winners get a badge that says, "Family Champion". The teacher provides constructive feedback on students' performances in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students complete the beginning parts of sentences to reflect on one thing they did well and one thing they want to improve for next time. They also give a 'stars' rating (1-5) for their peer's performance and a short explanation by completing sentence beginnings, e.g., "I gave you _____ because your _____ is good, but you should _____". Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 5: LIFE IN THE NEIGHBOURHOOD & CITY & SOCIAL LIFE

Sub-themes: Sports events in the city and rural areas; pros and cons of living in rural areas and in the city

This theme is centred on the concept of “life in the neighbourhood and city and social life” and covers the sub-themes of “sports events in the city and rural areas; pros and cons of living in rural areas and in the city”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammatical: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS -

DISPOSITIONS D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 8 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.8.5.L1. Students can prepare and get ready for listening (to)/watching about the current content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.8.5.L2. Students can bring together the information in the current content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.8.5.L3. Students can make sense of and derive meaning from the current content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity, and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.8.5.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.8.5.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.8.5.R1. Students can prepare for reading the content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.8.5.R2. Students can bring information together about the current content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.8.5.R3. Students can make sense of and derive meaning from the current content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.8.5.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.8.5.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*

- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately, and effectively through careful selection when communicating with others.*

ENG.8.5.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*

- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.8.5.W1. Students can prepare for writing efficiently and accurately based on the current content about “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.8.5.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.8.5.W3. Students can construct new written content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.8.5.W4. Students can practise producing written content based on the current theme “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.8.5.W5. Students can engage in the process of writing related to the content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.8.5.W6. Students can reconstruct their writing about the current theme on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.8.5.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.8.5.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.8.5.S2. Students can analyse and understand the model content related to “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.8.5.S3. Students can produce meaningful and accurate spoken content related to the current theme on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.8.5.S4. Students can construct meaningful spoken content about “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.8.5.S5. Students can reconstruct the information about “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.8.5.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “life in the neighbourhood and city including social life with sports events in the city and rural areas; pros and cons of living in rural areas and in the city” in relation to themselves or others, both individually and/or with others.

- a) Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE NEIGHBOURHOOD & CITY & SOCIAL LIFE

Sub-themes: sports events in the city and rural areas; pros and cons of living in rural areas and in the city

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for sports events in the city and rural areas:

Nouns: Equipment, an injury, an award, a prize, a final, a trainer (a coach-AmE.), a winner.

Verbs: To apply (for a race/competition), to fall, to hurt, to hit, to sail, to receive, to reach, to involve.

Adjectives: Fit, fair, professional, broken, far.

Adverbs: Finally.

Vocabulary for pros and cons of living in rural areas and in the city:

Nouns: Nature, noise, an insect, an opportunity, lifestyle, fishing, farming, an option, the environment, peace, countryside.

Verbs: To afford, to connect, to last.

Adjectives: Natural, reduced, certain.

Adverbs: Exactly.

Phrases: Low/high cost of living, affordable housing, less pollution, less stress, medical services (healthcare services-AmE.), crime rates, noise pollution.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Present Perfect Tense: (They have never dealt with noise pollution in their peaceful rural environment).

-Question tags: (He has reached the final round of the competition, hasn't he?)

-Forming nouns from verbs using -ing: (Sailing is a great option for living a natural lifestyle by the coast).

Functions of the Grammatical Structures in Use:

-Use of the Present Perfect Tense: Expressing actions or events that occurred at an unspecified time in the past and have relevance to the present.

-Use of question tags: Seeking confirmation or agreement about an action or statement related to the present perfect.

-Use of forming nouns from verbs using -ing: Creating gerund forms of verbs to describe activities or ongoing actions as nouns.

Target Social Language in Use:

I love the peace and quiet in the countryside!

The city can feel like a concrete jungle!

Living close to the city is the best of both worlds!

Target Phonological Sounds in Use:

f, g, h, i, j, k

Vowel: i: (/aɪ/, /ɪ/, /i:/)

Consonants: f: (/f/); g: (/g/, /dʒ/); h: (/h/); j (/dʒeɪ/, /dʒ/); k: (/k/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “life in the neighbourhood and city and social life” and its components such as “sports events in the city and rural areas; pros and cons of living in rural areas and in the city” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “life in the neighbourhood and city and social life” and its components such as “sports events in the city and rural areas; pros and cons of living in rural areas and in the city” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

Sports events, cities, rural areas, sport events in the city, sport events in the rural areas, pros and cons, living, pros and cons of living in the rural areas, pros and cons of living in the city.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students can create a fun marketing book to tell the pros and cons of living in rural areas. In the book, they will use drawings, photos, slogans, and short texts to share what rural life is like, including sports events, community activities, and daily routines. They will add persuasive text and creative slogans to highlight the benefits of rural life, such as fresh air, open spaces, and a strong community feel, while also mentioning any challenges. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “life in the neighbourhood and city and social life” and its components such as “sports events in the city and rural areas; pros and cons of living in rural areas and in the city”. As they are lower secondary school students in year 8 (eight), they can know what “life in the neighbourhood and city and social life” and its components such as “sports events in the city and rural areas; pros and cons of living in rural areas and in the city” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 8 of lower secondary school, they can know some basic vocabulary about “life in the neighbourhood and city and social life” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in the neighbourhood and city and social life” and its components such as “sports events in the city and rural areas; pros and cons of living in rural areas and in the city”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “life in the neighbourhood

and city and social life". Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of "life in the neighbourhood and city and social life" by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as "a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc." related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme "life in the neighbourhood and city and social life" in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic "life in the neighbourhood and city and social life" and the sub-themes of "sports events in the city and rural areas; pros and cons of living in rural areas and in the city", allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme "life in the neighbourhood and city and social life" is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG8.5.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V1.2, V13.2, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG8.5. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V1.2, V13.2, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG8.5.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V1.2, V13.2, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of words/phrases,

etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes (**D3.2, D3.6, D3.7, LS1, CS2.4**). In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them (**D2.3, SELS2.1, V4.4**). Then they discuss the accuracy of the findings as a whole class (**SELS2.2, CS2.8**). This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme (**D3.7, V1.2, V13.2, LS5**). She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson (**SELS1.2**). Students work on these categories with the help of the scenes from the introductory digital story (**D3.6, LS2, LS4**). The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “sports events in the city and rural areas; pros and cons of living in rural areas and in the city” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/ pin/ drag it on the white/black board or the smart board (if the teacher asks) (**D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4**). Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “life in the neighbourhood and city and social life” are introduced to the students in English (**LS5**). At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session (**D1.2, D1.6, D3.8, SELS1.1, V3.4**). This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference (**D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7**).

ENG8.5.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct (**D3.8, V4.2, V4.3, LS2, LS4**). As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct (**D3.4, V3.3, LS1, LS2, LS4, CS2.8**). The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/ watching process and students talk about them individually (**SELS1.3**) and share them with the whole class (**D2.3, SELS.2.1, V4.2**). After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas (**SELS2.2, V4.2, V10.3**).

ENG8.5.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements (**LS1, LS2, LS4**). She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context (**D3.2, D3.6, V3.4**).

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “life in the neighbourhood and city and social life”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies (**D3.2, V3.4, LS1, LS2**). To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording (**D3.2, D3.7, D2.3**). Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies (**D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4**). Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum (**D3.2, D3.6, D3.7**).

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home (**D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5**). They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings (**D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5**). If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens (**D2.3, D2.4, SELS2.2**). During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion (**D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1**). The teacher can get help from AI-based technologies for these activities if available. Students’ performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually (**SELS1.3**) and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15**). After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas (**SELS1.2, V3.3, V6.2, V10.3, LS1, LS2**).

ENG8.5.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “life in the neighbourhood and city and social life”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again (**D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7**). Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “life in the neighbourhood and city and social life” (**D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8**). Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats (**D3.2, D3.6, V3.4**). The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes (**LS1, LS7, CS2.4, CS2.8**). In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones (**D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1**). Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them (**D2.3, SELS2.1**). Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8**).

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity (**D3.2, SELS2.2**). One peer reads the first half of the story/text and the second peer reads the other half silently in a given time (**V3.4, V4.1, V9.2, LS1, CS2.6**). The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions (**D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7**). They are then asked to share these words with their peers without discussing their meanings in the text (**D2.4, D3.2, SELS2.2, V4.2, V6.2**). The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that (**D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4**). When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below (**D3.2, D3.6, V1.2, V3.4, LS2, LS4**).

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances (**D3.2, D3.6, SELS3.1, V3.4, LS1, LS4**). He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear (**D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8**). Then she/he asks them whether they understand the meaning of the part/paragraph (**D3.8, SELS3.1**). She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph (**D3.6, SELS2.2, V4.1, LS1, LS7**). Students discuss the meaning of the part/paragraph in pairs (**D3.10, SELS2.2, V4.2, CS2.18**) and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/phrase/sentence in the story (**V6.2, LS1, LS5, CS2.16.1**). As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about (**D3.2, D3.6, SELS3.1, CS2.16.1**). These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words (**D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3**). These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word (**D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17**). When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences (**SELS3.1, V4.1, LS7**). This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided (**D3.2, D3.6, V3.3, LS5, CS2.5**). The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class (**D2.3, D3.6, SELS2.1, V4.2, CS2.19**). Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story (**LS2, LS4**). When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (**D3.6, LS5, CS2.7, CS3.1**). As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs (**D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1**). In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues (**D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8**). So, they revise and practise the meanings of the target (key) vocabulary of the theme “life in the neighbourhood and city and social life”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted

in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 (**D2.5, SELS2.1, V3.4, V4.2, V4.4**). They can be done with real pictures on the white/blackboard if there is a problem with technology. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme (**D2.3, SELS1.2**). Then students say several things about the items in the picture (**D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20**). The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her (**D3.9, D3.10, SELS2.2, V3.4, CS3.3**). When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation (**D3.6, D3.7, CS2.5**). The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions (**D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20**). Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3**).

ENG8.5.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "life in the neighbourhood and city and social life" (**D3.2, LS7**). The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (**LS2**). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully (**D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2**). Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard (**SELS2.2, V3.4, CS2.7**). The students look at the written version of the story and find similar sentences to those given by the teacher as examples (**D3.2, D3.6, CS2.4, CS2.7**). The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way (**D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3**). Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities (**D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7**). The teacher asks the pairs to say what they have found (**D2.3, CS2.10**). As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them (**D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3**). Then the teacher

hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules (**D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1**). The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs (**D3.1, SELS2.2, V4.2**). Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15**). This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns (**D2.2, D2.3, V3.3, V3.4, CS2.13**). These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily (**D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3**). She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups (**SELS2.2**). She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context (**D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13**). They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content (**D3.5, SELS2.2, V3.4**). When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V4.2, V10.3, SELS2.2**). This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.5.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “life in the neighbourhood and city and social life” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way (**V3.2, LS1, CS3.3**). Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text (**D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2**).

ENG8.5.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson (**SELS1.2, V3.4, LS1, CS2.8**). Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher (**V3.3, LS4, LS7, CS2.4, CS2.6**). They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “sports events in the city and rural areas; pros and cons of living in rural areas and in the city” (**D3.6, V1.2, V13.2, LS2, LS5, CS2.7**). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks (**V3.4, LS7, CS2.8**). The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning (**CS2.16.1**). They share the components with the whole class (**SELS2.1**) and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8**).

ENG8.5.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (**D3.2, SELS2.2, V4.1**). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) (**CS2.6**). They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities (**V3.3, V6.2, LS1, CS2.4, CS2.6**). They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “life in the neighbourhood and city and social life” in terms of the sub-themes of “sports events in the city and rural areas; pros and cons of living in rural areas and in the city” mean from different perspectives to build their own understandings (**D3.6, D3.8, SELS3.1, CS2.13**). The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process (**SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20**). After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V1.2, V13.2, LS1, LS5, LS6, CS2.13, CS2.14**). In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading (**SELS3.3, V7.2, CS2.20**).

ENG8.5.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process (**SELS1.3**). They talk about them individually and then share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

ENG8.5.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing

knowledge about the current content to make a link between what they know and what they are going to write about (**D3.2, SELS1.1, CS2.12**). This includes examining all the audio/visual sources and elements provided for understanding the writing task (**V3.2, LS1, CS2.2**).

ENG8.5.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given (**CS2.2**). These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “life in the neighbourhood and city and social life”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/ example writing carefully (**V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks (**D3.6, SELS1.2, V3.2, LS1**).

ENG8.5.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own. They participate in several writing activities individually, in pairs, in groups and as a whole class (**D2.3, SELS2.2, V4.1**). Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others (**SELS2.1, LS1, CS2.13**).

ENG8.5.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic (**D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20**). They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects (**D1.4, SELS2.2, V3.4, V4.1, V4.2**). Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others (**SELS3.2, SELS3.3, V1.2, V13.2, LS5, CS2.14, CS3.3**). Storification and gamification techniques are actively and extensively used for further writing practice (**D2.5, LS9**).

ENG8.5.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher’s and also peers’ feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities (**SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14**). All the content is formed as contextual, practical, authentic, real, and appropriate to the students’ interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral,

cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG8.5.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of “sports events in the city and rural areas; pros and cons of living in rural areas and in the city” through their writing tasks **(V1.2, V13.2, CS3.3)**. They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20)**. All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.5.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students’ learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme **(V3.4, V4.5, LS1, LS5)**.

ENG8.5.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12)**. Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2)**. Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13)**.

ENG8.5.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2)**. These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully **(V1.2, V13.2, LS1, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks **(D3.6, SELS1.2, V3.2, V3.4, LS5)**.

ENG8.5.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “life in the neighbourhood and city and social life” in fun, enjoyable, varied, and versatile activities (**SELS3.2, V7.2, LS9**). These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class (**D3.2, SELS2.2, V4.2, CS2.20**).

ENG8.5.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation (**SELS3.3, V3.4, CS2.20**). These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “life in the neighbourhood and city and social life” as in others (**D3.6, SELS2.1, CS2.13**).

ENG8.5.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “life in the neighbourhood and city and social life” on the sub-themes of “sports events in the city and rural areas; pros and cons of living in rural areas and in the city” (**V4.5, LS5, CS2.13, CS2.14**). Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme (**SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9**). Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme (**SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2**). All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.5.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning (**SELS1.3**) or on their collaborative learning in pairs, groups or as a whole class collaboratively (**D2.3, SELS2.2, CS2.15**). The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement (**SELS1.2, SELS2.1**) and also they contribute to the improvement of their peers in their learning processes (**V4.1, V4.3, V12.1, V12.3, LS1**).

DIFFERENTIATION

Expansion

Objective: To talk about life in the neighbourhood, city, and social life in English by using target vocabulary and grammar.

Activity 1: Debate

The teacher starts by showing two contrasting images: one of a busy city and the other one of a quiet neighbourhood. Students brainstorm vocabulary related to each setting, e.g., crowded, peaceful, noisy, community-oriented, opportunities, and traffic. The class is divided into two teams: Team City and Team Neighbourhood. Each team discusses the advantages and disadvantages of living in their assigned location. Teams prepare their arguments using cause-and-effect (because, so, as) and contrasting language (while, whereas, but), e.g., "Cities have more opportunities because they are centres of business and education", and "While cities are more dynamic, neighbourhoods are more peaceful and family-friendly". Teams take turns presenting their arguments, with each student contributing at least one point. After each argument, the opposing team can ask questions or offer counter arguments using contrasting language, e.g., "But don't you think neighbourhoods lack cultural activities compared to cities?" or "Although cities are exciting, don't you think they're also overcrowded?". After the debate, students individually write a short paragraph about their personal preferences, e.g., "I prefer living in a neighbourhood because it is peaceful, but cities are too noisy for me". The teacher provides constructive feedback on students' performances in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students write down one thing they did well and one thing they want to improve for next time. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about life in the neighbourhood, city, and social life in English by using target vocabulary and grammar.

Activity 1: Debate

The teacher starts by showing two contrasting images: one of a busy city and the other one of a quiet neighbourhood. Students brainstorm vocabulary related to each setting, e.g., crowded, peaceful, noisy, community-oriented, opportunities, and traffic. The teacher gives more clues by pointing out some details and trying to elicit the answers. The class is divided into two teams: Team City and Team Neighbourhood. Each team discusses the advantages and disadvantages of living in their assigned location. Teams prepare their arguments using cause-and-effect (because, so, as) and contrasting language (while, whereas, but), e.g., "Cities have more opportunities because they are centres of business and education" and "While cities are more dynamic, neighbourhoods are more peaceful and family-friendly". The teacher gives some sample sentences for students to use. Teams take turns presenting their arguments, with each student contributing at least one point. After each argument, the opposing team can ask questions or offer counterarguments using contrasting language, e.g., "But don't you think neighbourhoods lack cultural activities compared to cities?" or "Although cities are exciting, don't you think they're also overcrowded?". The teacher gives a bank of possible questions to guide the students. After the debate, students work in pairs to complete a short paragraph about their personal preferences, e.g., "I prefer living in _____ because it is _____, but _____ are too _____ for me". The teacher provides constructive feedback on students' performances in terms of accurate and adequate use of target vocabulary and grammar and their presentation. Students write down one thing they did well and one thing they want to improve for next time. Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 6: LIFE IN THE WORLD AND CULTURE

Sub-themes: Different cooking styles and preferences in the world; different food cultures in the world

This theme is centred on the concept of “life in the world and culture” and covers the sub-themes of “different cooking styles and preferences in the world; different food cultures in the world”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS FLFS1. Listening/Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression
FLSS1. Grammatical: Selection and Use
FLSS2. Vocabulary: Selection and Use
FLSS3. Pronunciation: Selection and Use

CONCEPTUAL SKILLS -

DISPOSITIONS D1.1. Curiosity, D1.2. Independence, D1.3. Perseverance and Determination, D1.4. Self-Efficacy, D1.5. Self-Confidence, D1.6. Selectivity, D2.1. Empathy, D2.2. Responsibility, D2.3. Assertiveness, D2.4. Trust, D2.5. Playfulness, D3.1. Reasoning, D3.2. Focus, D3.3. Creativity, D3.4. Seeking the Truth, D3.5. Open-Mindedness, D3.6. Analyticalness, D3.7. Being Systematic, D3.8. Questioning, D3.9. Doubting, D3.10. Critical Perspective

Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 8 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.8.6.L1. Students can prepare and get ready for listening (to)/watching about the current content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”.

- a) Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.8.6.L2. Students can bring together the information in the current content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”.

- a) Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.8.6.L3. Students can make sense of and derive meaning from the current content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”.

- a) Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.8.6.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.8.6.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.8.6.R1. Students can prepare for reading the content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation with it.*

ENG.8.6.R2. Students can bring information together about the current content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.8.6.R3. Students can make sense of and derive meaning from the current content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.8.6.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.8.6.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.8.6.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.8.6.W1. Students can prepare for writing efficiently and accurately based on the current content about “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.8.6.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.8.6.W3. Students can construct new written content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.8.6.W4. Students can practise producing written content based on the current theme “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.8.6.W5. Students can engage in the process of writing related to the content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.8.6.W6. Students can reconstruct their writing about the current theme on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.8.6.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.8.6.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.8.6.S2. Students can analyse and understand the model content related to “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.8.6.S3. Students can produce meaningful and accurate spoken content related to the current theme on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*

- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.8.6.S4. Students can construct meaningful spoken content about “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.8.6.S5. Students can reconstruct the information about “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.8.6.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “life in the world and culture with different cooking styles and preferences in the world; different food cultures in the world” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE WORLD AND CULTURE

Sub-themes: different cooking styles and preferences in the world; different food cultures in the world

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for different cooking styles and preferences in the world:

Nouns: A region, heat, sauce, dressing, a choice, a chance.

Verbs: To burn, to cover, to allow, to contain, to produce, to taste.

Adjectives: Covered, boiling, regional, deep, dry, ideal.

Adverbs: Especially, before.

Phrases: A small amount of, dietary laws, regional cuisines.

Vocabulary for different food cultures in the world:

Nouns: A can, a top, a bottom, a bit, amount, fat, sauce, tip, a bowl, a dessert, a drink (a beverage-AmE.), beef, beans, quality.

Verbs: To pick, to complain, to recommend, to suggest, to organise.

Adjectives: Homemade, boiled, healthy, sweet, fried.

Adverbs: Already, recently, yet.

Phrases: To put on weight, to lose weight, at/on the top of.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-The Present Perfect Tense: (He has already recommended the ideal amount of sauce for the regional dessert).

-The Simple Past Tense: (They covered the boiling pot before the heat burned the food).

-The Simple Past Tense vs. The Past Progressive Tense: (She was organising the table while he picked the top-quality beef for the bowl.)(He dried the beans before they were boiling in the pot).

-Question tags: (They have recently suggested a healthy dietary choice, haven't they?)(She covered the dessert with sauce, didn't she?)

-Phrasal verbs: (The chef put on a bit of fat on the beef to improve the flavour.)(He complained about how the dish turned out after they put on too much heat).

Functions of the Grammatical Structures in Use:

-Use of the Present Perfect Tense: Expressing actions or events that occurred at an unspecified time in the past and have relevance to the present.

-Use of the Simple Past Tense: Describing completed actions or events that occurred at a specific time in the past.

-Use of the Simple Past Tense vs. the Past Progressive Tense: Comparing actions that were completed in the past with those that were ongoing or interrupted by other actions.

-Use of Question Tags for the past and present: Seeking confirmation or agreement about statements or actions related to past or present events.

-Use of Phrasal Verbs: Expressing actions or meanings using combinations of verbs and particles.

Target Social Language in Use:

İstanbul is a real melting pot with so many cultures!
 I ran into my classmate in London. It's a small world!
 The world is a global village now!

Target Phonological Sounds in Use:

l, m, n, (ng), o, p

Vowel: o: (/əʊ/, /ɒ/, /əʊ/)

Consonants: l: (/ɛl/ /l/); m (/ɛm/, /m/); n: (/ɛn/, /n/); p: (/pi:/ /p/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Principles/Key Concepts**Generalisations**

The target concept of this theme "life in the world and culture" and its components such as "different cooking styles and preferences in the world, different food cultures in the world" is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower secondary school student will know what "life in the world and culture" and its components such as "different cooking styles and preferences in the world, different food cultures in the world" means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts

Cooking, cooking style, different cooking styles, different cooking styles in the world, preferences, cooking preferences, different cooking preferences in the world, culture, food culture, different food cultures in the world.

INDICATORS FOR LEARNING (Assessment and Evaluation)**EVALUATION FOR THE SKILLS AND THE CONTENT:**

PERFORMANCE ASSIGNMENT: Students will work in pairs and explore the theme "life in the world and culture" with a focus on different cooking styles and food cultures around the world. Students will choose two countries and research their traditional cuisines, popular ingredients, and unique cooking techniques. They will compare and contrast the chosen cuisines, discussing how culture, geography, and history influence food traditions. The findings will be presented creatively in one of the following formats: a visually engaging poster with images and descriptions, a recipe booklet featuring two iconic dishes, or a short cooking demo video preparing a simple dish from one of the countries. Each of the students in pairs will present one of two countries in the classroom with a brief reflection on which cuisine they found most interesting and what they learned about the connection between food and culture. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES**Basic Acceptations: Preparedness/ Readiness**

This theme is based on the students' knowledge of "life in the world and culture" and its components such as "different cooking styles and preferences in the world, different food cultures in the world". As they are lower secondary school students in year 8 (eight), they can know what "life in the world and culture" and its components such as "different cooking styles and preferences in the world, different food cultures in the world" mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 8 of lower secondary school, they can know some basic vocabulary about “life in the world and culture” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in the world and culture” and its components such as “different cooking styles and preferences in the world, different food cultures in the world”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “life in the world and culture”. Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of “life in the world and culture” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “life in the world and culture” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/ singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “life in the world and culture” and the sub-themes of “different cooking styles and preferences in the world; different food cultures in the world”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “life in the world and culture” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG8.6.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V4.5, V5.1, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG8.6. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V4.5, V5.1, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG8.6.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the

scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V4.5, V5.1, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING:

Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of words/phrases, etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V4.5, V5.1, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “different cooking styles and preferences in the world; different food cultures in the world” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/ pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “life in the world and culture” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6)(7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG8.6.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at

visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG8.6.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements **(LS1, LS2, LS4)**. She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context **(D3.2, D3.6, V3.4)**.

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “life in the world and culture”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies **(D3.2, V3.4, LS1, LS2)**. To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording **(D3.2, D3.7, D2.3)**. Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies **(D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4)**. Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum **(D3.2, D3.6, D3.7)**.

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home **(D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5)**. They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings **(D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5)**. If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens **(D2.3, D2.4, SELS2.2)**. During this session, the teacher records their discussions. After each group’s performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who

have spoken during the discussion (**D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1**). The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually (**SELS1.3**) and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15**). After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas (**SELS1.2, V3.3, V6.2, V10.3, LS1, LS2**).

ENG8.6.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme "life in the world and culture", the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again (**D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7**). Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme "life in the world and culture" (**D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8**). Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats (**D3.2, D3.6, V3.4**). The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes (**LS1, LS7, CS2.4, CS2.8**). In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones (**D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1**). Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them (**D2.3, SELS2.1**). Then they discuss the accuracy of the findings as a whole class (**D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8**).

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity (**D3.2, SELS2.2**). One peer reads the first half of the story/text and the second peer reads the other half silently in a given time (**V3.4, V4.1, V9.2, LS1, CS2.6**). The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions (**D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7**). They are then asked to share these words with their peers without discussing their meanings in the text (**D2.4, D3.2, SELS2.2, V4.2, V6.2**). The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that (**D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4**). When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the

non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear **(D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8)**. Then she/he asks them whether they understand the meaning of the part/paragraph **(D3.8, SELS3.1)**. She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph **(D3.6, SELS2.2, V4.1, LS1, LS7)**. Students discuss the meaning of the part/paragraph in pairs **(D3.10, SELS2.2, V4.2, CS2.18)** and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story **(V6.2, LS1, LS5, CS2.16.1)**. As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about **(D3.2, D3.6, SELS3.1, CS2.16.1)**. These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words **(D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3)**. These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word **(D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17)**. When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences **(SELS3.1, V4.1, LS7)**. This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided **(D3.2, D3.6, V3.3, LS5, CS2.5)**. The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class **(D2.3, D3.6, SELS2.1, V4.2, CS2.19)**. Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story **(LS2, LS4)**. When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know **(D3.6, LS5, CS2.7, CS3.1)**. As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs **(D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1)**. In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues (**D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8**). So, they revise and practise the meanings of the target (key) vocabulary of the theme “life in the world and culture”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 (**D2.5, SELS2.1, V3.4, V4.2, V4.4**). They can be done with real pictures on the white/blackboard if there is a problem with technology. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme (**D2.3, SELS1.2**). Then students say several things about the items in the picture (**D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20**). The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her (**D3.9, D3.10, SELS2.2, V3.4, CS3.3**). When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation (**D3.6, D3.7, CS2.5**). The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other’s spelling and definitions (**D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20**). Students’ learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3**).

ENG8.6.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme “life in the world and culture” (**D3.2, LS7**). The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (**LS2**). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully (**D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2**). Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard (**SELS2.2, V 3.4, CS2.7**). The students look at the written version of the story and find similar sentences to those given by the teacher as examples (**D3.2, D3.6, CS2.4, CS2.7**). The teacher then asks

the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way (**D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3**). Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities (**D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7**). The teacher asks the pairs to say what they have found (**D2.3, CS2.10**). As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them (**D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3**). Then the teacher hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules (**D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1**). The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs (**D3.1, SELS2.2, V4.2**). Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15**). This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns (**D2.2, D2.3, V3.3, V3.4, CS2.13**). These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily (**D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3**). She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups (**SELS2.2**). She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context (**D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13**). They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content (**D3.5, SELS2.2, V3.4**). When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V4.2, V10.3, SELS2.2**). This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.6.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme "life in the world and culture" from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way (**V3.2, LS1, CS3.3**). Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading

content and they make predictions to be checked after reading the text (**D1.1, SELS3.1,V3.3, LS4, CS2.2, CS2.11, CS2.16.2**).

ENG8.6.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson (**SELS1.2, V3.4, LS1, CS2.8**). Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher (**V3.3,LS4, LS7, CS2.4, CS2.6**). They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “different cooking styles and preferences in the world; different food cultures in the world” (**D3.6, V4.5, V5.1, LS2, LS5, CS2.7**). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks (**V3.4, LS7, CS2.8**). The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning (**CS2.16.1**). They share the components with the whole class (**SELS2.1**) and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8**).

ENG8.6.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (**D3.2, SELS2.2,V4.1**). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) (**CS2.6**). They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities (**V3.3, V6.2, LS1, CS2.4, CS2.6**). They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “life in the world and culture” in terms of the sub-themes of “different cooking styles and preferences in the world; different food cultures in the world” mean from different perspectives to build their own understandings (**D3.6, D3.8, SELS3.1, CS2.13**). The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process (**SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20**). After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V3.4, V4.5, V5.1,LS1, LS5, LS6, CS2.13, CS2.14**). In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading (**SELS3.3, V7.2, CS2.20**).

ENG8.6.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process (**SELS1.3**). They talk about them individually and then share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1,V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

ENG8.6.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to write about **(D3.2, SELS1.1, CS2.12)**. This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2)**.

ENG8.6.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2)**. These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme "life in the world and culture". Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1)**.

ENG8.6.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own. They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1)**. Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13)**.

ENG8.6.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20)**. They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2)**. Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V4.5, V5.1, LS5, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9)**.

ENG8.6.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories,

dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities (**SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14**). All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students (**D3.1, SELS1.2, V12.3, LS1, CS3.1**).

ENG8.6.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of "different cooking styles and preferences in the world; different food cultures in the world" through their writing tasks (**V4.5, V5.1, CS3.3**). They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing (**D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20**). All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.6.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process (**SELS1.3**) and students talk about them individually and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme (**V3.4, V4.5, LS1, LS5**).

ENG8.6.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it (**SELS1.1, CS2.12**). Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts (**SELS3.2**). Then they can expand their language use and practice in each section by increasing the amount of speaking they do (**D1.3, V3.4, LS1, CS2.13**).

ENG8.6.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given (**CS2.2**). These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or

what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully (**V3.3, V4.5, V5.1, LS1, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks (**D3.6, SELS1.2, V3.2, V3.4, LS5**).

ENG8.6.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “life in the world and culture” in fun, enjoyable, varied, and versatile activities (**SELS3.2, V7.2, LS9**). These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class (**D3.2, SELS2.2, V4.2, CS2.20**).

ENG8.6.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation (**SELS3.3, V3.4, CS2.20**). These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “life in the world and culture” as in others (**D3.6, SELS2.1, CS2.13**).

ENG8.6.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “life in the world and culture” on the sub-themes of “different cooking styles and preferences in the world; different food cultures in the world” (**V4.5, LS5, CS2.13, CS2.14**). Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme (**SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9**). Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme (**SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2**). All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.6.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning (**SELS1.3**) or on their collaborative learning in pairs, groups or as a whole class collaboratively (**D2.3, SELS2.2, CS2.15**). The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement (**SELS1.2, SELS2.1**) and also they contribute to the improvement of their peers in their learning processes (**V4.1, V4.3, V12.1, V12.3, LS1**).

DIFFERENTIATION

Expansion

Objective: To talk about different types of food and cooking styles in English by using target vocabulary and grammar.

Activity 1: ExpertChef Challenge

The teacher shows pictures of different foods and cooking styles (e.g., grilling, baking, frying, steaming) and elicits key vocabulary. Students discuss their favourite dishes and cooking methods in pairs. Students are divided into small groups (3-4 per group). Each group becomes an "ExpertChef Team" to create a unique recipe using given ingredients. Each group writes their recipe using target grammar, e.g., "imperatives for instructions, sequencing words like first, then, next, and simple present tense", e.g., "First, chop the vegetables. Then, fry them in olive oil". Groups present their recipes to the class, explaining the ingredients, the cooking method, and why their dish is special. After all groups present their dishes, the class votes on the most creative or delicious-sounding dish. Each team receives feedback from peers and the teacher on their use of vocabulary and grammar. Each student writes a short paragraph about a dish they'd like to cook, using the target language, e.g., "I'd like to cook _____ because it's _____. I would _____ and use _____". Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about different types of food and cooking styles in English by using target vocabulary and grammar.

Activity 1: ExpertChef Challenge

The teacher shows pictures of different foods and cooking styles, e.g., grilling, baking, frying, and steaming, and elicits key vocabulary. Students talk about their favourite dishes and cooking methods in pairs by completing sample sentence beginnings, e.g., "My favourite dish is _____" or "I really like _____". Students are divided into small groups (3-4 per group). Each group becomes an "ExpertChef Team" to create a unique recipe using given ingredients. Each group writes their recipe using target grammar, e.g., "imperatives for instructions, sequencing words like first, then, next, and simple present tense", e.g., "First, chop the vegetables. Then, fry them in olive oil", by completing sentence beginnings to create the paragraph. Groups present their recipes to the class, explaining the ingredients, the cooking method, and why their dish is special. The students check their notes if needed. After all groups present their dishes, the class votes on the most creative or delicious-sounding dish. Each team receives feedback from peers and the teacher on their use of vocabulary and grammar. Each student writes a short paragraph about a dish they'd like to cook, using the target language, e.g., "I'd like to cook _____ because it's _____. I would _____ and use _____". Students reflect on their thoughts and feelings about the activity.

THEME 7: LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: Natural disasters and their damage on animals and nature; natural disasters and their damage on people's lives

This theme is centred on the concept of "life in nature and global problems" and covers the sub-themes of "natural disasters and their damage on animals and nature; natural disasters and their damage on people's lives". These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners' developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS	FLFS1. Listening/Watching-Comprehension
	FLFS2. Reading-Comprehension
	FLFS3. Speaking-Expression
	FLFS4. Writing-Expression
	FLSS1. Grammatical: Selection and Use
	FLSS2. Vocabulary: Selection and Use

Year 8 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.8.7.L1. Students can prepare and get ready for listening (to)/watching about the current content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”.

- a) *Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) *Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) *Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) *Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.8.7.L2. Students can bring together the information in the current content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”.

- a) *Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) *Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.8.7.L3. Students can make sense of and derive meaning from the current content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”.

- a) *Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) *Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) *Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) *Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) *Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) *Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) *Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) *Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.8.7.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.8.7.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.8.7.R1. Students can prepare for reading the content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*

- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.8.7.R2. Students can bring information together about the current content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*
- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.8.7.R3. Students can make sense of and derive meaning from the current content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.8.7.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.8.7.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*

- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watch the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*
- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.8.7.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identified and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*

- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.8.7.W1. Students can prepare for writing efficiently and accurately based on the current content about “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.8.7.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.8.7.W3. Students can construct new written content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.8.7.W4. Students can practise producing written content based on the current theme “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriate to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*

- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriate ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.8.7.W5. Students can engage in the process of writing related to the content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*
- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.8.7.W6. Students can reconstruct their writing about the current theme on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.8.7.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.8.7.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.8.7.S2. Students can analyse and understand the model content related to “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.8.7.S3. Students can produce meaningful and accurate spoken content related to the current theme on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*
- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.8.7.S4. Students can construct meaningful spoken content about “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.8.7.S5. Students can reconstruct the information about “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.8.7.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “life in nature and global problems with natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” in relation to themselves or others, both individually and/or with others.

- a) Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

THEME 7: LIFE IN NATURE & GLOBAL PROBLEMS

Sub-themes: natural disasters and their damage on animals and nature; natural disasters and their damage on people's lives

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for natural disasters and their damage on animals and nature: A disaster, an earthquake, a flood, a twister/storm (tornado-AmE.), a forest fire (wildfire-AmE.), a volcano, a tsunami, a landslide, a cyclone/storm (hurricane-AmE.), drought.

Verbs: To shake, to affect, to destroy, to harm, to burn, to disappear, to collapse, to damage, to rescue.

Adverbs: Immediately, certainly.

Vocabulary for natural disasters and their damage on people's lives: A charity, a factor, a solution, injury, death, fear, damage.

Verbs: To avoid, to provide, to injure, to survive, to support, to cause, to prevent.

Adjectives: Safe, homeless, destructive.

Adverbs: Badly, suddenly.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

-Conditional 1: (If we provide immediate support to homeless people, they will certainly survive the disaster).

-Wish clauses: (I wish the earthquake hadn't destroyed so many homes and injured so many people).

Functions of the Grammatical Structures in Use:

-Use of conditional 1: Expressing possible future events or actions and their results based on specific conditions.

-Use of wish clauses: Expressing regrets or desires for situations to be different in the past, present, or future.

Target Social Language in Use:

It's the calm before the storm!

In the wake of the flood, many animals lost their habitats!

The flood was a wake-up call for better construction of houses!

Target Phonological Sounds in Use:

q, r, s, t, u

Vowel: u: (/ju:/, /ʌ/, /ju:/)

Consonants: q: /kju:/; r: /ɑ:/ (BrE.), /r/ (AmE.); s: (/s/, /ɛs/, /z/); t: (/ti:/, /t/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Principles/Key Concepts

Generalisations

The target concept of this theme “life in nature and global problems” and its components such as “natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “life in nature and global problems” and its components such as “natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” means but will not know how to say them in a foreign language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts

Natural disasters, natural disasters’ damage on animals, natural disasters’ damage on nature, natural disasters’ damage on people’s lives.

INDICATORS FOR LEARNING (Assessment and Evaluation)

EVALUATION FOR THE SKILLS AND THE CONTENT:

PERFORMANCE ASSIGNMENT: Students will prepare a poster about a natural disaster of their choice, such as earthquakes, floods, hurricanes, or wildfires. In their project, they will explain how people’s acts cause that natural disaster, how that natural disaster affects animals, nature, and people’s lives. They should include at least three specific examples, such as how floods destroy homes, how wildfires harm forests and animals, or how earthquakes impact cities and human life. The poster should include visuals such as pictures, drawings, or charts to show the damage and should use simple sentences. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES

Basic Acceptations: Preparedness/ Readiness

This theme is based on the students’ knowledge of “life in nature and global problems” and its components such as “natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”. As they are lower secondary school students in year 8 (eight), they can know what “life in nature and global problems” and its components such as “natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 8 of lower secondary school, they can know some basic vocabulary about “life in nature and global problem” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in nature and global problems” and its components such as “natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and learning the current content on the concept of “life in nature and global problems”. Therefore, a dialogue game can be played to revise all vocabulary and grammatical items

from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of “life in nature and global problems” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “life in nature and global problems” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “life in nature and global problems” and the sub-themes of “natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “life in nature and global problems” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG8.7.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V5.2, V5.3, V9.2, V16.2, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG8.7. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V5.2, V5.3, V9.2, V16.2, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG8.7.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V5.2, V5.3, V9.2, V16.2, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of words/phrases,

etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V5.2, V5.3, V9.2, V16.2, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “life in nature and global problems” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6)(7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG8.7.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/ watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG8.7.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements (**LS1, LS2, LS4**). She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context (**D3.2, D3.6, V3.4**).

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “life in nature and global problems”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies (**D3.2, V3.4, LS1, LS2**). To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording (**D3.2, D3.7, D2.3**). Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies (**D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4**). Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum (**D3.2, D3.6, D3.7**).

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home (**D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5**). They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings (**D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5**). If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens (**D2.3, D2.4, SELS2.2**). During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion (**D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1**). The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually (**SELS1.3**) and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15**). After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas (**SELS1.2, V3.3, V6.2, V10.3, LS1, LS2**).

ENG8.7.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “life in nature and global problems”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “life in nature and global problems” **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear (**D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8**). Then she/he asks them whether they understand the meaning of the part/paragraph (**D3.8, SELS3.1**). She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph (**D3.6, SELS2.2, V4.1, LS1, LS7**). Students discuss the meaning of the part/paragraph in pairs (**D3.10, SELS2.2, V4.2, CS2.18**) and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/clause/sentence in the story (**V6.2, LS1, LS5, CS2.16.1**). As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about (**D3.2, D3.6, SELS3.1, CS2.16.1**). These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words (**D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3**). These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word (**D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17**). When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences (**SELS3.1, V4.1, LS7**). This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided (**D3.2, D3.6, V3.3, LS5, CS2.5**). The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class (**D2.3, D3.6, SELS2.1, V4.2, CS2.19**). Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story (**LS2, LS4**). When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (**D3.6, LS5, CS2.7, CS3.1**). As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs (**D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1**). In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues (**D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8**). So, they revise and practise the meanings of the target (key) vocabulary of the theme “life in nature and global problems”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of

a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 (**D2.5, SELS2.1, V3.4, V4.2, V4.4**). They can be done with real pictures on the white/blackboard if there is a problem with technology. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme (**D2.3, SELS1.2**). Then students say several things about the items in the picture (**D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20**). The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her (**D3.9, D3.10, SELS2.2, V3.4, CS3.3**). When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation (**D3.6, D3.7, CS2.5**). The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions (**D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20**). Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3**).

ENG8.7.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "life in nature and global problems" (**D3.2, LS7**). The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures. (**LS2**). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully (**D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2**). Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard (**SELS2.2, V3.4, CS2.7**). The students look at the written version of the story and find similar sentences to those given by the teacher as examples (**D3.2, D3.6, CS2.4, CS2.7**). The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way (**D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3**). Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities (**D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7**). The teacher asks the pairs to say what they have found (**D2.3, CS2.10**). As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them (**D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3**). Then the teacher

hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules (**D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1**). The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs (**D3.1, SELS2.2, V4.2**). Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15**). This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns (**D2.2, D2.3, V3.3, V3.4, CS2.13**). These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily (**D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3**). She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups (**SELS2.2**). She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context (**D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13**). They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content (**D3.5, SELS2.2, V3.4**). When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V4.2, V10.3, SELS2.2**). This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.7.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “life in nature and global problems” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way (**V3.2, LS1, CS3.3**). Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text (**D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2**).

ENG8.7.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson (**SELS1.2, V3.4, LS1, CS2.8**). Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher (**V3.3, LS4, LS7, CS2.4, CS2.6**). They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” (**D3.6, V5.2, V5.3, V9.2, V16.2, LS2, LS5, LS8, CS2.7**). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks (**V3.4, LS7, CS2.8**). The teacher could use different versions of the scanning activities as described in the “listening/watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning (**CS2.16.1**). They share the components with the whole class (**SELS2.1**) and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8**).

ENG8.7.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (**D3.2, SELS2.2, V4.1**). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) (**CS2.6**). They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities (**V3.3, V6.2, LS1, CS2.4, CS2.6**). They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “life in nature and global problems” in terms of the sub-themes of “natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” mean from different perspectives to build their own understandings (**D3.6, D3.8, SELS3.1, CS2.13**). The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process (**SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20**). After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V3.4, V5.2, V5.3, V9.2, V16.2, LS1, LS5, LS6, CS2.13, CS2.14**). In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading (**SELS3.3, V7.2, CS2.20**).

ENG8.7.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process (**SELS1.3**). They talk about them individually and then share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

ENG8.7.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to write about (**D3.2, SELS1.1, CS2.12**). This includes examining all the audio/visual sources and elements provided for understanding the writing task (**V3.2, LS1, CS2.2**).

ENG8.7.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given (**CS2.2**). These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “life in nature and global problems”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/ example writing carefully (**V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks (**D3.6, SELS1.2, V3.2, LS1**).

ENG8.7.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own. They participate in several writing activities individually, in pairs, in groups and as a whole class (**D2.3, SELS2.2, V4.1**). Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others (**SELS2.1, LS1, CS2.13**).

ENG8.7.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic (**D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20**). They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects (**D1.4, SELS2.2, V3.4, V4.1, V4.2**). Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others (**SELS3.2, SELS3.3, V5.2, V5.3, V9.2, V16.2, LS5, CS2.14, CS3.3**). Storification and gamification techniques are actively and extensively used for further writing practice (**D2.5, LS9**).

ENG8.7.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher's and also peers' feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories,

dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14)**. All the content is formed as contextual, practical, authentic, real, and appropriate to the students' interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG8.7.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of "natural disasters and their damage on animals and nature; natural disasters and their damage on people's lives" through their writing tasks **(V5.2, V5.3, V9.2, V16.2, CS3.3)**. They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing **(D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20)**. All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.7.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process **(SELS1.3)** and students talk about them individually and share them with the whole class **(D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15)**. After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas **(SELS1.2, SELS2.2, V4.3, V12.1, LS1)**.

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students' learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme **(V3.4, V4.5, LS1, LS5)**.

ENG8.7.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it **(SELS1.1, CS2.12)**. Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts **(SELS3.2)**. Then they can expand their language use and practice in each section by increasing the amount of speaking they do **(D1.3, V3.4, LS1, CS2.13)**.

ENG8.7.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given **(CS2.2)**. These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more

controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully (**V3.3, V5.2, V5.3, V9.2, V16.2, LS1, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks (**D3.6, SELS1.2, V3.2, V3.4, LS5**).

ENG8.7.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “life in nature and global problems” in fun, enjoyable, varied, and versatile activities (**SELS3.2, V7.2, LS9**). These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class (**D3.2, SELS2.2, V4.2, CS2.20**).

ENG8.7.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation (**SELS3.3, V3.4, CS2.20**). These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “life in nature and global problems” as in others (**D3.6, SELS2.1, CS2.13**).

ENG8.7.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “life in nature and global problems” on the sub-themes of “natural disasters and their damage on animals and nature; natural disasters and their damage on people’s lives” (**V4.5, LS5, CS2.13, CS2.14**). Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme (**SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9**). Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme (**SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2**). All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.7.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning (**SELS1.3**) or on their collaborative learning in pairs, groups or as a whole class collaboratively (**D2.3, SELS2.2, CS2.15**). The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement (**SELS1.2, SELS2.1**) and also they contribute to the improvement of their peers in their learning processes (**V4.1, V4.3, V12.1, V12.3, LS1**).

DIFFERENTIATION

Expansion

Objective: To talk about natural disasters, their causes and impacts in English by using target vocabulary and grammar.

Activity 1: Survivors' Stories

The teacher divides the class into small groups of 3-4 students. Each group represents a news team reporting on a natural disaster. The teacher hands each group a disaster event card with key information. Groups use the information on their card to create a short "live news report" about the disaster, e.g., "Example card: Type of disaster: Earthquake, Location: A small town in Japan, Cause: Movement of tectonic plates, Impacts: Buildings destroyed, people evacuated, rescue operations underway". Their task is to create a report using relative clauses to describe the disaster and its impact. Groups prepare a short "live report" describing the disaster. Each student must contribute at least one sentence using a relative clause. The teacher encourages groups to make the report dynamic and include key vocabulary. All groups present their news report. Each group receives feedback from peers and the teacher on their use of vocabulary and grammar. Each student writes a short reflection on what they liked and enjoyed in today's lesson. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To talk about natural disasters, their causes and impacts in English by using target vocabulary and grammar.

Activity 1: Survivors' Stories

The teacher divides the class into small groups of 3-4 students. Each group represents a news team reporting on a natural disaster. The teacher hands each group a disaster event card with key information. The event cards are simplified, and they support students by providing sentence starters, e.g., "The tsunami, which _____, caused...". Their task is to create a report using relative clauses to describe the disaster and its impact. Groups prepare a short "live report" describing the disaster. Each student must contribute at least one sentence using a relative clause. The teacher encourages groups to make the report dynamic and include key vocabulary. All groups present their news report. Each group receives feedback from peers and the teacher on their use of vocabulary and grammar. Each student writes a short reflection on what they liked and enjoyed in today's lesson. Students reflect on their thoughts and feelings about the activity.

TEACHER REFLECTIONS

THEME 8: LIFE IN THE UNIVERSE & FUTURE

Sub-themes: Transport in the future; self-driving cars; flying vehicles in the future

This theme is centred on the concept of “life in the universe and future” and covers the sub-themes of “transport in the future; self-driving cars; flying vehicles in the future”. These components (sub-themes) are integrated into the learning process through the contextualised use of target vocabulary, grammatical structures, phonological features, and social language expressions. The learning and teaching activities are designed to be meaningful, collaborative, and communicative, and are tailored to align with the learners’ developmental level, interests, needs, and preferences. The ultimate aim of this theme is to equip learners with the knowledge, skills, and experiences needed to effectively use English in their daily lives, both within and beyond the school environment.

CLASS HOURS 14

FIELD SKILLS AND SUPPORTIVE SKILLS FLFS1. Listening-Watching-Comprehension
FLFS2. Reading-Comprehension
FLFS3. Speaking-Expression
FLFS4. Writing-Expression

Problem Solving Skill, CS3.3. Critical Thinking Skill

Year 8 is structured based on inductive approach.

LEARNING OUTCOMES and PROCESS COMPONENTS

ENG.8.8.L1. Students can prepare and get ready for listening (to)/watching about the current content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”.

- a) Students activate their pre-existing knowledge and experience about the current theme and content to recall their background knowledge by investigating it carefully.*
- b) Students identify significant and necessary relationships and connections between their pre-existing knowledge, their past experience and the clues to the current content by responding to meaningful questions about it (without speaking Turkish or using a translation).*
- c) Students make detailed predictions about the current content by using their pre-existing knowledge and past experience of the content.*
- d) Students make rational predictions about the current content by looking at the supplementary visual elements provided.*

ENG.8.8.L2. Students can bring together the information in the current content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”.

- a) Students identify the main topic of the current content in general by listening (to)/watching it as a whole in its context.*
- b) Students recognise the significant details and basic components of the current content within the whole by listening (to) and watching the whole content carefully to notice them.*

ENG.8.8.L3. Students can make sense of and derive meaning from the current content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”.

- a) Students check their initial predictions about the current content by being aware of the commonalities between their self-predictions and the clues provided as visuals surrounding the content.*
- b) Students make significant and necessary classifications in the current content that affect the meaning of the generally perceived content.*
- c) Students make significant and necessary comparisons in the generally perceived current content to highlight differences between two or more different things by using visuals, ensuring clarity and meaning.*
- d) Students recognise significant branching, linear or spiral relationships (if any) within the generally perceived current content.*
- e) Students make essential inferences and deductions to understand the meaning of the generally perceived current content better.*
- f) Students strongly recognise the holistic meaning formed by the components, comparisons, classifications, and details related to the current content.*
- g) Students construct a detailed understanding of the meaning of the current content through prior classifications, comparisons, and inferences/deductions.*
- h) Students position, internalise and personalise current content in an individualised, age-appropriate and level-appropriate way.*

ENG.8.8.L4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the listening (to)/watching process about the current content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” in relation to themselves or others, both individually and/or with others.

- a) *Students individually convey their personal knowledge, experiences, thoughts, and feelings that are critically reviewed in relation to the current listening (to)/watching contents and the process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current listening (to)/watching content and process with others.*
- c) *Students produce new audio/visual products individually by revising their personal work after participating in reflective activities related to the listening (to)/watching process of the current content.*

ENG.8.8.P1. Students can select and use target phonological aspects such as pronunciation and intonation of target sounds, words, phrases, clauses, and sentences in utterances authentically, naturally, and accurately in the current content about “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” to develop holistic and conscious pronunciation skills after recognising them in context.

- a) *Students recognise the target phonological aspects such as pronunciation and intonation of target sounds, words, phrases and sentences in utterances within the current content by listening (to)/ watching it, first as a whole and then with pauses.*
- b) *Students repeat utterances, including target sentences, clauses, phrases, and words with target theme-specific sounds by considering phonological aspects such as pronunciation and intonation accurately and naturally in the content several times as a whole class and then in groups and individually.*
- c) *Students talk about the current content by taking part in small group conversations by paying attention to select and use accurate phonological aspects such as pronunciation, intonation, stress, and other features as they are understood.*
- d) *Students reflect personally on their pronunciation and other target phonological aspects such as intonation after recording and listening to group conversations about the target content.*
- e) *Students evaluate feedback from others and their personal feedback and reflection by listening to or watching the audio/visual content again to check for accuracy.*
- f) *Students utilise the target phonological aspects such as pronunciation and intonation of utterances including target sounds of the current content, appropriately, effectively, accurately, naturally, automatically, and consciously when communicating with others in different contexts.*

ENG.8.8.R1. Students can prepare for reading the content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” efficiently and effectively.

- a) *Students recall and activate significant pre-existing knowledge and past experiences that can be related to the current theme and content through careful exploration.*
- b) *Students recognise significant relationships between pre-existing knowledge, past experiences and clues to current content.*
- c) *Students make strong preliminary predictions about the current content based on explored and recognised relationships.*
- d) *Students make detailed predictions about the current content by exploring and examining the audio-visual clues in relation to it.*

ENG.8.8.R2. Students can bring information together about the current content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” through skimming, scanning and detailed reading.

- a) *Students skim the current content by looking very quickly and carefully at the surrounding visual materials to identify its general focus.*

- b) *Students scan the current content by reading it silently and quickly to find key and major components.*
- c) *Students read the current content again silently and carefully to examine any significant semantic and structural details.*
- d) *Students examine the semantic details in the content carefully to check the accuracy of their initial predictions.*

ENG.8.8.R3. Students can make sense of and derive meaning from the current content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”.

- a) *Students classify significant and necessary elements of the current content in a meaningful way.*
- b) *Students compare significant and key elements of the current content with each other or with similar ones in a meaningful way.*
- c) *Students recognise significant and basic spiral, causal, and logical relationships in the current content through careful examination and analysis.*
- d) *Students make meaningful inferences from information in the current content by examining it critically.*
- e) *Students internalise their meaningful inferences from information in the current content in an individualised way appropriate to their age and language level.*

ENG.8.8.R4. Students can reflect on the information, experiences, thoughts, ideas, and feelings related to the reading process about the current content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they review critically in relation to the current reading-comprehension content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current reading-comprehension content and process.*

ENG.8.8.V1. Students can select and use target vocabulary efficiently, effectively, and accurately, based on the current content about “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” after recognising them in context and developing their conscious and inductive vocabulary learning skills.

- a) *Students make predictions about the main topic of the current content by identifying “general contextual clues” from the visual, audio, and written preparation materials provided during the “listening/watching for gist” and/or reading for “skimming” sessions.*
- b) *Students check the accuracy of the predictions related to the “general contextual clue” by listening to, watching, and/or reading the audio, visual, and/or written content in context.*
- c) *Students search the target audio/visual, and/or written content by scanning to find key components of the theme.*
- d) *Students listen/watching the content carefully and/or read it silently to identify and underline/ circle target unknown words.*
- e) *Students separate target (key-active) words from the other (non-key-passive) words in the target content.*
- f) *Students examine relevant target words, phrases, and expressions in the current content to understand how and where they are used.*

- g) *Students determine paragraph context clues to identify the topics of the parts/paragraphs containing unknown target words.*
- h) *Students discuss the meaning of the target words by finding indirect sentence context clues in the assigned sentences of the parts/paragraphs of the content.*
- i) *Students determine the correct meanings of the target words in the current content in pairs or groups by comparing the meanings/definitions proposed.*
- j) *Students confirm the accuracy of the meanings/definitions of the target words in the current content by consulting with the teacher, the class and/or by using printed or digital dictionaries.*
- k) *Students make use of the target words of the current theme in a range of semantically associated contextual activities and tasks accurately, naturally, authentically, and appropriately.*
- l) *Students make use of the target words of the current theme accurately, naturally, appropriately and effectively through careful selection when communicating with others.*

ENG.8.8.G1. Students can select and use target grammatical language items efficiently, effectively, and accurately, based on the current content about “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”, after recognising them in context and developing their conscious and inductive grammaring skills through consciousness-raising and discovery.

- a) *Students listen to, watch, and/or read the audio, visual, and written current content presented in context that introduces the general use of the target language structures in the current theme.*
- b) *Students examine example sentences provided by the teacher or instructional materials including target grammatical items to see how the target grammatical structure(s) of the target theme is/are used to construct a meaning or contribute to meaning.*
- c) *Students analyse current audio, visual, and/or written content presented in context to identify sentences similar to those provided as examples.*
- d) *Students find the commonalities between the sentences identifies and those exemplified by the teacher or materials through careful comparison in pairs and/or groups.*
- e) *Students discover the characteristics of the commonalities in the sentences in the current content by discussing them in pairs or groups as an awareness/consciousness-raising activity.*
- f) *Students formulate rule(s) about the same/target ‘grammar structure(s) of the current theme based on their observations and discussions in pairs or groups.*
- g) *Students engage in contextual activities on the use of target grammatical structures (grammaring) of the current theme to explain and justify the grammar rule(s) they have discovered.*
- h) *Students practise to consolidate their understanding of the target grammar that they discovered by selecting accurate and meaningful items in meaningful and contextualised activities.*
- i) *Students produce accurate and unique verbal or written content by using target grammar consciously and in a natural way, without thinking about the rules.*
- j) *Students produce new spoken/written content by using the target grammatical structures efficiently, authentically, automatically, and naturally in context when communicating with others without thinking about rules.*

ENG.8.8.W1. Students can prepare for writing efficiently and accurately based on the current content about “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”.

- a) *Students relate pre-existing knowledge and experiences from initial listening, watching, and reading processes to current content by examining and activating them.*
- b) *Students understand what the current writing task requires in terms of content and purpose in relation to the current content accurately by applying pre-existing knowledge and experiences, following guided instructions.*

ENG.8.8.W2. Students can analyse and understand a provided model to guide them in producing similar writing tasks related to the content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”.

- a) *Students grasp the significant and basic components of the content in the model/sample provided for the assigned writing task, including word selection and use, grammar selection and use, and other details such as type, style, and meaning as required.*

ENG.8.8.W3. Students can construct new written content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” based on their understanding of the model(s) provided.

- a) *Students share their ideas and thoughts by brainstorming through collaborative discussion to generate ideas for the new (prepared and/or unprepared) writing task related to the current theme.*
- b) *Students plan how the knowledge and ideas generated during the brainstorming session can be applied to their new (prepared and/or unprepared) writing task related to the current theme.*
- c) *Students conduct preliminary research relevant to the assigned (prepared and/or unprepared) writing task on the current content, considering the type of writing, age appropriateness, and language level.*
- d) *Students produce a well-organised and detailed draft relevant to the (prepared and/or unprepared) type of writing and appropriate for the age and language level.*
- e) *Students organise and develop contextual materials relevant to the type of the assigned task (prepared and/or unprepared) and appropriate to age and language level.*
- f) *Students modify the content they produce for the assigned writing task in a coherent and meaningful way, consistent with the assigned (prepared and/or unprepared) type of writing, and appropriate to the age and language level.*

ENG.8.8.W4. Students can practise producing written content based on the current theme “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”.

- a) *Students present relevant supportive materials appropriate to the assigned (prepared and/or unprepared) writing task, considering the type of writing and appropriated to the age and language level.*
- b) *Students use appropriate discourse forms, styles, and strategies for the assigned (prepared and/or unprepared) writing task, considering its writing type and appropriate to their age and language level.*
- c) *Students use target words and grammatical language structures accurately and appropriately in their writing tasks, by selecting necessary and appropriated ones in line with the assigned type of writing and appropriate to the age and language level.*
- d) *Students express their messages about the current content clearly to the reader in the assigned (prepared and/or unprepared) writing task.*

ENG.8.8.W5. Students can engage in the process of writing related to the content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”.

- a) *Students review the feedback from the teacher and/or peers critically on their prepared and/or unprepared writing task(s).*

- b) *Students revise to reorganise the written content of their prepared and/or unprepared task based on the feedback received from the teacher and/or peers.*
- c) *Students refine and develop their written content produced for their prepared/unprepared writing task through the iterative feedback process.*

ENG.8.8.W6. Students can reconstruct their writing about the current theme on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” to communicate effectively about it.

- a) *Students adapt and use individually internalised information in current or similar content by selecting and reorganising it meaningfully in written form as necessary when communicating with other people in different contexts.*
- b) *Students exchange information and ideas in written communication by sharing reconstructed meaningful knowledge and content with others.*

ENG.8.8.W7. Students can reflect on their experiences, thoughts, ideas, and feelings related to the writing process about the current content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” in relation to themselves or others, both individually and/or with others.

- a) *Students convey individually the knowledge, experiences, thoughts, and feelings they review critically in relation to their current writing-expression content and process.*
- b) *Students share their personal verbal and written knowledge, experiences, thoughts, and feelings that they critically review in relation to the current writing-expression content and process with others.*
- c) *Students produce their new verbal and written work after participating in reflective activities related to the current writing-expression content and process.*

ENG.8.8.S1. Students can prepare themselves to speak meaningfully, fluently, and efficiently about the current content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”.

- a) *Students relate current content by analysing pre-existing knowledge and experiences from earlier listening, watching, and reading sessions to associate them with the current content.*

ENG.8.8.S2. Students can analyse and understand the model content related to “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” to support the production of spoken language.

- a) *Students grasp what the provided model/example is about with the help of audio, visual, and/or written elements after listening, watching, and/or reading the current content.*

ENG.8.8.S3. Students can produce meaningful and accurate spoken content related to the current theme on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future”.

- a) *Students recognise which form and type of spoken content is expected and assigned based on the model/example about the current theme for both prepared and/or unprepared speaking situations through careful examination.*
- b) *Students conduct preliminary research on the expected and assigned content to be produced for prepared and/or unprepared speaking situations.*
- c) *Students develop a draft outline in accordance with the assigned prepared and/or unprepared speaking situations as presented in the model/example, appropriate to the age and language level based on the current theme.*
- d) *Students organise supplementary audio-visual materials in accordance with the assigned task as presented in the model/example for prepared and/or unprepared speaking situations and appropriate to their age and language level.*

- e) *Students organise information related to the current content to be presented, appropriate to the model/example for prepared and/or unprepared speaking situations.*
- f) *Students critically review their prepared presentation content for accuracy, coherence, and appropriateness to audience and context in prepared and/or unprepared speaking situations.*

ENG.8.8.S4. Students can construct meaningful spoken content about “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” through efficient and meaningful practice.

- a) *Students make spoken content clear and understandable to listeners by selecting and using style and form appropriate to age and language level in prepared and/or unprepared speaking situations.*
- b) *Students present their spoken content by selecting and using materials appropriate to the context, age, language level, style, and type of discourse, similar to those presented in the model/example for prepared and/or unprepared speaking situations.*
- c) *Students present their spoken content by selecting and using target vocabulary and language structures similar and/or appropriate to those presented in the model/example considering their age, language level, context, style, and type of discourse for prepared and/or unprepared speaking situations.*
- d) *Students convey relevant explicit, implicit, and/or complex messages related to the current content clearly in context to the listeners by using appropriate material and body language in prepared and/or unprepared speaking situations.*
- e) *Students convey their messages about the current content clearly to the listeners by incorporating all the necessary semantic elements in prepared and/or unprepared speaking situations.*

ENG.8.8.S5. Students can reconstruct the information about “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” when communicating with others.

- a) *Students use the same or similar information presented in the current content in verbal or written forms in different contexts by reorganising it meaningfully, accurately, effectively, efficiently, functionally, and individually as required.*
- b) *Students engage in verbal and/or written communication by sharing the reconstructed meaningful information about the current content with others.*

ENG.8.8.S6. Students can reflect on their experiences, thoughts, ideas, and feelings related to the speaking process about the current content on “life in the universe and future with transport in the future; self-driving cars; flying vehicles in the future” in relation to themselves or others, both individually and/or with others.

- a) *Students reveal their knowledge, experiences, thoughts, and feelings that they review critically in relation to the current speaking-expression content and process.*
- b) *Students share their personal knowledge, experiences, thoughts, and feelings that they critically review in relation to the current speaking-expression content and process with others.*
- c) *Students produce new verbal and written work after participating in reflective activities related to the current speaking-expression content and process.*

CONTENT FRAME

LIFE IN THE UNIVERSE & FUTURE

Sub-themes: transport in the future; self-driving cars; flying vehicles in the future

Target Vocabulary in Use (with revisional vocabulary):

Vocabulary for transport in the future: An accident, an airline, a distance, a drone, an engine, fuel/petrol (gas-AmE.), a passenger, power, a route, speed, a traveller (traveler-AmE.), a vehicle.

Verbs: To move, to charge.

Adjectives: Electrical, international, public (transport), efficient, powerful, noisy, advanced.

Adverbs: Loudly, quietly, instead.

Phrases: A sharing system, environmentally friendly.

Vocabulary for self-driving cars, flying vehicles in the future: An aircraft, a movement, jam, a destination, navigation, a battery, a wing, a sensor, air-taxi.

Verbs: To land, to take off, to prepare.

Adjectives: Electronic, alternative, high-tech, safe, reliable.

Adverbs: Differently.

Preposition: Except.

***National and Religious Days, Festivals, and Celebrations:** "29 October Republic Day", "23 April National Sovereignty and Children's Day", "19 May Commemoration of Atatürk, Youth and Sports Day", "15 July Democracy and National Unity Day", "30 August Victory Day", "Eid al-Fitr (Eid-al-Ramadan)", "Festival of Sacrifice (Eid-al-Adha)".

*(Relevant language content and (communicative) activities related to these national and religious days, festivals, and celebrations will be developed and integrated across all themes and in all appropriate sections wherever and whenever possible.)

*Local Cultural, Social, and Moral Considerations of the Theme

In this theme, specific examples, cases, situations, events, and practices reflecting Turkish social, cultural, and moral customs, traditions, and heritage will be included across all sub-themes. This consideration will be age-and-level appropriate and selected with the Turkish learners' social and cultural context in mind. A table for this section is provided in the introduction to the whole English Language Curriculum.

Target Grammatical Structures in Use:

- "Be going to Future" Tense: (The airline is going to prepare an environmentally friendly route for international passengers).

- The Simple Future Tense (will): (Self-driving vehicles will move more efficiently and reduce traffic jams in cities).

- Question Tags for the future: (Flying cars will land quietly at their destinations, won't they?)

Functions of the Grammatical Structures in Use:

- Use of "Be Going to Future" Tense: Expressing planned or intended actions or events in the near future.

- Use of the Simple Future Tense (will): Describing spontaneous decisions, predictions, or promises about the future.

- Use of Question Tags for the Future: Seeking confirmation or agreement about future actions or statements.

Target Social Language in Use:

Self-driving cars are like taking a ride to the future!

Flying cars are here.

The future is now!

We're on the fast track to the future with flying cars!

Target Phonological Sounds in Use:

V, W, X, Y, Z

Consonants: v: (/vi:/, /v/); w: (/w/); x: (/eks/, /ks/, /gz/); y: (/wai/, /j/, /ɪ/, /i:/); z: (/zed/ (Br), /zi:/ (AmE.), /z/)

*(Phonetic symbols will not be taught. Only sounds will be practised through the target words in the theme).

Generalisations/Principles/Key Concepts**Generalisations**

The target concept of this theme “life in the universe and future” and its components such as “transport in the future; self-driving cars; flying vehicles in the future” is present in almost all languages. People who start to learn a new language bring their pre-existing knowledge with them and transfer it to their new language learning. For instance, a lower-secondary school student will know what “life in the universe and future” and its components such as “transport in the future; self-driving cars; flying vehicles in the future” means but will not know how to say them in a foreign language in another language if this has not yet been covered in their existing curriculum. However, this existing knowledge in their own language will help them recognise, understand, and learn the new information more easily in a foreign language, in this case, English.

Key Concepts:

Transportation, future, transportation in the future, self-driving cars, flying vehicles, self-driving cars in the future, flying vehicles in the future.

INDICATORS FOR LEARNING (Assessment and Evaluation)**EVALUATION FOR THE SKILLS AND THE CONTENT:**

PERFORMANCE ASSIGNMENT: Students will write a creative story set in the future, imagining a day in their life using self-driving cars and flying vehicles. They will describe how these technologies make travel easier, safer, or more exciting and include details about the vehicles’ design and features. Students will also reflect on how this advanced transportation affects daily life and the environment. The stories will be shared in class or displayed on a bulletin board. The assignment will be evaluated by using a rubric scheme, a rating scale, and/or a marking scheme.

LEARNING-TEACHING EXPERIENCES**Basic Acceptations: Preparedness/ Readiness**

This theme is based on the students’ knowledge of “life in the universe and future” and its components such as “transport in the future; self-driving cars; flying vehicles in the future”. As they are lower secondary school students in year 8 (eight), they can know what “life in the universe and future” and its components such as “transport in the future; self-driving cars; flying vehicles in the future” mean in their own language as it is known that almost all people who start to learn a new language bring their pre-existing knowledge (in their own language) with them and transfer it to their new language learning context. However, they may not know how to say these things in a foreign language if this has not yet been covered in their existing curriculum. Fortunately, this existing knowledge in their own language can help them recognise, understand, and learn them more easily in a foreign language, in this case English.

As they are students in year 8 of lower secondary school, they can know some basic vocabulary about “life in the universe and future” and also some necessary structures in English from the previous themes and/or years. These grammar items and vocabulary are revised during the “Revision Programme” at the beginning of the year, and they can be used as a basis for learning the new vocabulary and grammatical items in the current theme, so that the new grammatical elements in the current theme can be learnt easily.

Pre-Evaluation Process

It is expected that students’ physical, cognitive, affective, and social factors are appropriate and suitable for learning about the “life in the universe and future” and its components such as “transport in the future; self-driving cars; flying vehicles in the future”. Recalling and practising with relevant vocabulary and grammatical items in English that they have learnt in the previous years would be helpful as a basis for moving on and

learning the current content on the concept of “life in the universe and future”. Therefore, a dialogue game can be played to revise all vocabulary and grammatical items from the previous themes in previous years by giving instructions in English as a preparation practice. In this way, their performance can be evaluated by seeing how much they remember and how much they are able to understand and use the previously learnt vocabulary and chunks to build their competence in the current theme. It can be decided what to emphasise or practise in order to revise the previous knowledge and to facilitate the new vocabulary and chunks in the current theme. (Their performance can be evaluated by rubrics throughout these practices.)

Establishing Links

Students are asked to recall the concept of “life in the universe and future” by remembering their pre-existing background knowledge about it (imaginatively through thinking) in their own language to make links with the current activities in the theme in English without saying anything in Turkish and without translating anything until they start learning the target words in the current (new) concept in English. To remind them of their pre-existing background knowledge they already have about the current concept, many materials such as “a scene from a short film, a passage from a book, a part from a personal diary (journal), a part of a story, a collection of pictures, a part of an animation, a poster, an excerpt from a video etc.” related to this content can be shared with the class before the main teaching/learning flow begins. The materials about the current concept would give a general idea of the theme. Students are work on the material according to the instructions and try to grasp it. The teacher tries to check if they have an idea about the topic of the new theme with several activities. When they have finished working on them, the teacher asks them in English if they have understood what has been in the material. She/He asks them to write a related words that they already know (learnt in previous years) in English on a piece of paper and put it in the jar/ box that she/he has prepared. Alternative ways for checking their comprehension could be tried by the teacher.

They wait for it until they see the next visual, which is the main entry material of the theme, the digital introductory story, to see if their thoughts/guesses are true or not without asking any further questions.

Learning-Teaching Practices

WARM-UP TO THE WHOLE THEME (WELL-BEING)

Before starting to work on the theme “life in the universe and future” in the classroom, to prepare the students emotionally, cognitively, psychologically, and physically, a fun non-theme warm-up activity can be done as an icebreaker to help the students feel positive and ready for the whole learning process in class for their well-being (**D1.5, V12.1, V13.4**). This could be an activity such as a short game, a physical activity, listening to/singing a song/chant/rhyme, doing a riddle, solving a puzzle, saying a tongue twister, listening to an anecdote, a very short story, watching a pantomime/online story, etc. that has no relation or connection to the current theme and does not require any knowledge of the current theme in English (**D2.5, D3.3, SELS2.1, V4.4, V7.2, V13.2, LS4**). That is only for relaxation and preparation for the lesson.

INTEGRATION OF LANGUAGE SKILLS IN THE THEME

All language skills are used in an integrated way around a central topic “life in the universe and future” and the sub-themes of “transport in the future; self-driving cars; flying vehicles in the future”, allowing students to build background knowledge through receptive skills before moving on to productive tasks throughout the theme. They are combined in a meaningful and purposeful way and are integrated to support the learning outcomes of the theme. Although they are sequenced from receptive to productive in the teaching-learning practices, they are always used in a closely linked way that means each activity builds on the previous one to promote language development and to increase communicative competence. The theme “life in the universe and future” is characterised by a balanced integration of all the skills, where students engage with input (listening/watching-comprehension and reading-comprehension) and respond through output (speaking-expression and writing-expression) with the help of their grammar, vocabulary and phonological selection and use skills.

ENG8.8.L1.

PREPARATION FOR LISTENING/WATCHING: Students prepare to access the introduction to the whole theme. The teacher asks the students to remember what they have done during the “establishing links” session for recalling background knowledge about the related concept where they watched a short film scene prepared for that section (which is not a part of the introductory digital story of the theme) **(D3.2, V3.4, LS1, LS2, LS4)**. They remember what they already know about the content to prepare themselves to work on guessing the topic of the current theme **(V11.1, V16.2, LS1, LS5)**. They prepare to access the main materials of the theme for having connections by making predictions based on the short film in the “establishing links” session **(D3.8, V3.3, LS1, LS4)**.

ENG8.8. L2

BRINGING INFORMATION TOGETHER BY LISTENING/WATCHING: Students collect “general context clues” to understand the whole content by looking at visual clues before listening (to)/watching. The teacher asks the students to look at any visual material such as pictures, posters, and realia related to the current content to identify the topic of the content and to answer the question “What is the whole content about?” **(D3.6, V11.1, V16.2, LS1, LS4, LS5, CS2.2)**. They can realise that there might be different elements related to this concept **(D2.1, V4.5)**. The teacher asks them to look at the visuals quickly to make predictions about the topic of the whole theme by using the “listening (to)/watching for gist” strategy before listening/watching the main visual material of the theme, which is the introductory digital story **(D3.8, V4.5, LS1, LS4, LS5, CS2.11)**. The teacher asks the students to read the title of the theme and asks them to brainstorm by thinking about which words they already know and which words come to mind in connection with the title **(D3.4, LS2, CS2.12, CS2.16.2)**. She/He reminds them not to ask the meanings of any new/target words they do not know at this stage of the lesson. She/He reminds them that this is just a guessing activity to guess the general topic/theme of the context by using the words they already know and that there will be time to work on the new words of the current content later **(D1.4, V12.2)**. At this stage, some guessing games can be played to guess the main topic of the current content/theme by using the clues from the additional visuals such as pictures, posters, etc. related to the content, prepared and produced by the teacher, by using web 2.0 tools **(D2.5, D3.3, SELS2.1, V3.4, LS2, LS4, CS2.12)**.

ENG8.8.L3

MAKING MEANING THROUGH LISTENING/WATCHING: Students identify and recognise the topic of the current theme by listening (to)/watching the introductory digital story that provides a context for the whole theme. The teacher asks the students to listen (to)/watch the introductory digital story to recognise the topic of the theme in general (This is a kind of preparation to work on the target key vocabulary in the later stages of the lesson(s) **(D3.2, V3.4)**). The teacher asks the students to recall the work done with visuals (the scene from a short film) in the “establishing links” session about the current context shown earlier during the listening (to)/ watching session **(D3.2, LS2)**. Students watch the digital introductory story and consolidate the identification of the target theme as a whole **(CS2.13)** without stopping the video at any point, so that the students can hear/ see the context as a whole and understand the theme holistically **(D3.1, V11.1, V16.2, LS2, LS4, LS5)**.

MAKING MEANING THROUGH THE MAIN COMPONENTS OF THE THEME BY LISTENING/WATCHING: Students find and identify the main components of the current content by listening (to)/watching the context quickly through scanning. The teacher organises a scanning activity to find out the components as the basic and most important details of the current content through the introductory digital story to help students learn and know more about the current theme. She/He asks the students to listen and watch the story again without stopping, by scanning/looking for any relevant words or concepts that are heard in the story **(D3.6, V3.4, LS2, LS4, LS7)**. The teacher hands out a sheet to the students on which there is a list of words/phrases,

etc. to tick, circle or underline. Students circle or tick the ones that they have heard through watching the story very quickly without stopping. The teacher could apply different versions of scanning activities such as finding important elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(D3.2, D3.6, D3.7, LS1, CS2.4)**. In this way, they will be able to understand the story in general through the main elements and components by eliminating the irrelevant ones. Students share with the whole class the words and components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1, V4.4)**. Then they discuss the accuracy of the findings as a whole class **(SELS2.2, CS2.8)**. This is evaluated as described in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. After having watched the introductory digital story, the teacher places five headings on the smart board/whiteboard/blackboard which are on the target vocabulary list of the related theme as clues to the components of the current theme **(D3.7, V11.1, V16.2, LS5)**. She/He places a corresponding picture next to each component and writes the name of each heading. She/He guides students to understand the heading of each category with the help of pictures. The teacher asks the students to work with the words they already know during this phase of the lesson **(SELS1.2)**. Students work on these categories with the help of the scenes from the introductory digital story **(D3.6, LS2, LS4)**. The teacher reads the headings aloud a few times by pointing to the corresponding pictures on the board and the students repeat them. Then the students say the headings all together. For working on the sub-themes of “transport in the future; self-driving cars; flying vehicles in the future” further, the teacher asks volunteers to go to the board and choose the picture (already provided by the teacher) to stick/ pin/ drag it on the white/black board or the smart board (if the teacher asks) **(D1.2, D1.6, D2.3, SELS1.2, V3.4, V20.4, LS2, LS4)**. Then, they say the headings (components) together as a whole class. In this way, the main components of the theme “life in the universe and future” are introduced to the students in English **(LS5)**. At this stage, the meanings of the target words are not studied, but the categorisation of the basic components contributes to their recognition of the concept in general. The teacher could ask the students to decide which words in the introductory digital story they do not know and to note them while reading the text later in the reading session **(D1.2, D1.6, D3.8, SELS1.1, V3.4)**. This could be evaluated as described in items (1), (2), (3), (6) (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. All this work helps them understand the main categories through classifications and also the inferences they make while listening to and watching the introductory digital story and/or examining the picture related to the content. In this way, they recognise and comprehend the main concept as a whole through categorisation, comparison, and inference **(D3.6, D3.7, CS2.5, V3.3, LS2, LS4, LS7)**.

ENG8.8.L4.

REFLECTING ON THE LISTENING/WATCHING PROCESS: Students check the accuracy of their prior guesses, reflect on their ideas and feelings about the listening/watching session, and give feedback to each other. After the students listen (to)/watch the introductory digital story to find the main components of the theme, the teacher asks them whether their guesses they made during the “establishing links” session, looking at visuals session, and their first listening (to)/watching session have been correct **(D3.8, V4.2, V4.3, LS2, LS4)**. As they have already seen a scene from a short film created about the concept of the current theme, during the “establishing links” session earlier, and looked at some supplementary visuals (pictures, the title of the theme) and also they saw the picture related to the introductory digital story they can easily answer what the current theme is about and that their guesses were correct **(D3.4, V3.3, LS1, LS2, LS4, CS2.8)**. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole listening (to)/ watching process and students talk about them individually **(SELS1.3)** and share them with the whole class **(D2.3, SELS.2.1, V4.2)**. After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas **(SELS2.2, V4.2, V10.3)**.

ENG8.8.P1.

RECOGNITION OF TARGET PRONUNCIATION: Students recognise the pronunciation and other phonological aspects of target utterances, including sentences, clauses, phrases, words, and sounds in the current theme. The teacher asks the students to listen (to)/watch an extract from the introductory digital story as the main context for noticing the target phonological elements (**LS1, LS2, LS4**). She/He asks them to pay attention to the target pronunciation and/or other phonological aspects in the current content. The teacher asks them to notice how the target phonological aspects are used in context. Starting with the extract from the digital story, students go on with other contextual examples and activities to hear and understand the use of target elements in context (**D3.2, D3.6, V3.4**).

SELECTION AND USE OF TARGET PRONUNCIATION (AND OTHER PHONOLOGICAL ASPECTS): Students select and use accurate, natural, and authentic target pronunciation and other phonological aspects of the target utterances including sentences, clauses, phrases, words, and sounds in the current theme “life in the universe and future”. After recognition activities, students repeat the target utterances including sentences, clauses, phrases, words, and sounds in the current theme aloud a few times as a whole class with accurate and natural pronunciation and other phonological aspects after listening (to)/watching the recordings that the teacher has prepared beforehand using some Web 2.0 programmes or some other AI-based technologies (**D3.2, V3.4, LS1, LS2**). To help the students pronounce the target utterances including sentences, clauses, phrases, words, and sounds accurately, the teacher could offer variations with some techniques such as showing the target utterance to the students and they say it or letting them listen to the recording, then turning off the recording randomly and students say the utterances they hear from the recording (**D3.2, D3.7, D2.3**). Several fun pronunciation games could be played, such as shadow reading, bingo, odd one out, pronunciation maze, minimal pairs, rhyming games, and several sound exercises by getting help from AI technologies (**D2.5, SELS2.1, V3.4, V4.2, LS1, LS2, LS4**). Along with the target utterances, the target sounds such as vowels, consonants, and diphthongs of the theme are also practised in the same ways. This is evaluated as described in items (1) and (2) as described in the section 1.2. Principles for the Implementation of the English Curriculum (**D3.2, D3.6, D3.7**).

FURTHER PRACTICE OF THE TARGET PRONUNCIATION: Students practise pronunciation with further activities for practice, consolidation, feedback and reflection. The teacher could use tape recording and feedback techniques. Students read aloud and record a text with the target utterances including sentences, clauses, phrases, words, and sounds in the current theme provided by the teacher, at home (**D1.2, D1.6, D2.3, SELS3.1, V4.1, V5.1, LS2, LS5**). They bring their recording(s) to school. First, they listen to the correct pronunciation of the text, provided by the teacher, in class. Then they listen to the recordings of individual students. During or after listening to the texts recorded by the students at home, the students give self-feedback or peer feedback on the pronunciation of the words in the recordings (**D2.4, D3.6, SELS1.3, SELS2.2, V4.1, V12.1, V14.1, LS1, LS5**). If available, a different version of the recording technique could be applied in the class. The teacher asks the students to discuss, say/talk about something, which they already know, related to the theme. Groups take turns to talk and the rest of the class listens (**D2.3, D2.4, SELS2.2**). During this session, the teacher records their discussions. After each group's performance, the class listens to the recording for pronunciation and everyone gives feedback on it, including the individual students who have spoken during the discussion (**D1.2, D1.6, D2.4, SELS2.2, V4.2, V5.1, V9.2, LS1**). The teacher can get help from AI-based technologies for these activities if available. Students' performances are evaluated as explained in items (1) and (2) in the section 1.2. Principles for the Implementation of the English Curriculum. The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole pronunciation process and students talk about them individually (**SELS1.3**) and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, SELS2.2, V4.2, V5.1, V9.2, LS2, CS2.15**). After the reflection and feedback session, they talk again about the components of the theme, by correcting their mistakes or improving their ideas (**SELS1.2, V3.3, V6.2, V10.3, LS1, LS2**).

ENG8.8.V1

PREPARATION FOR THE WORK ON THE TARGET VOCABULARY: To scan for finding the main components of the theme “life in the universe and future”, the teacher asks the students to listen to and watch the introductory digital story to remember the topic of content mentioned in the previous listening/watching sessions. The teacher also asks them to check their predictions made in the first listening/watching session at the beginning of the lessons on the current theme once more again **(D3.8, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS7)**. Then the teacher asks the students to read the relevant parts of the written version of the introductory digital story provided by the teacher by scanning (reading very quickly) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations with the headings that the teacher has previously written on the smart board/white board/blackboard in relation to the main components of the theme “life in the universe and future” **(D3.7, D3.2, D3.6, V3.4, LS1, LS2, LS4, LS5, CS2.4, CS2.8)**. Students read the written extract from the story very quickly to check the main components corresponding to the headings that the teacher has written on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their seats **(D3.2, D3.6, V3.4)**. The teacher could apply different versions of scanning activities such as finding important components, categories, and elements on a list and circle them, looking at a list and finding which elements do not take place in the story, etc. whenever she/he likes **(LS1, LS7, CS2.4, CS2.8)**. In this way, they can understand the story in general better with the help of reading this time after the listening/watching sessions held earlier through the main elements and components by eliminating the irrelevant ones **(D3.2, D3.6, D3.7, V3.4, LS1, LS2, CS2.16.1)**. Students share with the whole class the components they have found and ticked/circled/underlined on the list given by the teacher to them **(D2.3, SELS2.1)**. Then they discuss the accuracy of the findings as a whole class **(D2.4, D3.6, D3.10, SELS2.2, V3.4, V4.2, V16.3, LS1, CS2.8)**.

RECOGNITION OF TARGET VOCABULARY (AS CONTENT KNOWLEDGE): To read for the details for finding the new target vocabulary the teacher asks the students to read the written version of the introductory digital story (or another written text for working on the target vocabulary) in pairs in a jigsaw reading activity **(D3.2, SELS2.2)**. One peer reads the first half of the story/text and the second peer reads the other half silently in a given time **(V3.4, V4.1, V9.2, LS1, CS2.6)**. The teacher asks them to look out for new words whose meanings they do not know during this silent and detailed reading and asks them to look out for new (target) words they have previously noted during the listening/watching sessions **(D1.2, D1.6, D3.6, D3.8, V3.3, V16.1, LS7)**. They are then asked to share these words with their peers without discussing their meanings in the text **(D2.4, D3.2, SELS2.2, V4.2, V6.2)**. The teacher starts working on the new (target) words here. In this way, they have a detailed reading, understand the story better, and find the new (target) words that they do not know to work on.

RECOGNITION OF TARGET VOCABULARY: To separate key (active) and non-key (passive) target vocabulary in context: To check whether the students know any of the target key vocabulary about the content, the teacher asks them to say the new words whose meaning they do not know and which they have noticed and noted during their silent jigsaw reading session and the students do that **(D1.2, D1.6, D2.4, D3.2, D3.8, V3.3, V6.2, LS1, LS4)**. When they say the words, the teacher writes them on the smart board/blackboard/whiteboard by putting them on two lists. She/He writes the key (active) target words on one list and the non-key (passive) target words on the other list (that she/he has already decided on earlier when planning the lesson). She/He quickly covers the non-key words with examples, pictures, question-answers, however, spends more time on the key target words as described below **(D3.2, D3.6, V1.2, V3.4, LS2, LS4)**.

RECOGNITION OF TARGET VOCABULARY: To find “part/paragraph context clues” in the parts/paragraphs of the story (context): The teacher asks the students to watch the introductory digital story again, paying attention to which part of the story the unknown words that they do not know are in the utterances **(D3.2, D3.6, SELS3.1, V3.4, LS1, LS4)**. He wants to introduce the meanings of the target key (active) vocabulary related to the theme that the students do not know part by part. Then she/he asks them to read the first

part/paragraph in the written version of the story (or similar text) where the unknown words (active key target vocabulary) appear (**D3.2, D3.6, SELS3.1, V3.3, LS5, LS7, CS2.8**). Then she/he asks them whether they understand the meaning of the part/paragraph (**D3.8, SELS3.1**). She/He asks them to discuss the meaning of the part/paragraph in pairs in general without knowing the meaning of each new target word and asks what helps them understand the meaning of the part/paragraph (**D3.6, SELS2.2, V4.1, LS1, LS7**). Students discuss the meaning of the part/paragraph in pairs (**D3.10, SELS2.2, V4.2, CS2.18**) and report back to the class. The teacher takes notes on the board and writes what the part/paragraph is about in one word/phrase/sentence in the story (**V6.2, LS1, LS5, CS2.16.1**). As each part/ paragraph covers a different but related piece of the whole topic, they realise that each part/paragraph contains new target words about a specific part of the whole theme. This helps them think about what each new target word in each part/paragraph could be about (**D3.2, D3.6, SELS3.1, CS2.16.1**). These activities are evaluated as described in items (3), (4), (5), (6), (7), and (8) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION OF TARGET VOCABULARY: To find “sentence clues”/“the indirect context clues” for the target key (active) words in the sentences in context: The teacher helps the students deal with each target key word by looking around these words in the sentences for collecting clues which can help them understand the meaning of these unknown target words. Starting from the first unknown target (key) word, students are asked to look at the words around the target (key) words (**D3.2, D3.6, D3.8, D3.9, D3.10, SELS3.1, LS1, S2.1, CS2.16.3**). These clues could be linking words, adjectives, adverbs, determiners, suffixes, prefixes, time expressions that can help them understand the meaning of the unknown target word (but they do not talk about the terminology and parts of speeches, instead they talk about the meanings and functions of these supportive surrounding words). The teacher asks students to work in pairs to go through and list the “indirect clues” for each word (**D3.5, D3.7, SELS2.2, V3.4, V4.2, CS2.7, CS2.17**). When they finish working in pairs, the teacher goes through each word with the whole class and listens to what clues they have found to understand the meaning of the unknown target (key) word in the sentences (**SELS3.1, V4.1, LS7**). This is evaluated as described in items (3), (4), (6), (7), (8), and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

RECOGNITION AND SELECTION OF TARGET VOCABULARY: To practise with the target words: To practise with the target vocabulary that the students work on through “sentence clues/indirect context clues”, the teacher checks their understanding again by showing them some realia that she/he has already provided (**D3.2, D3.6, V3.3, LS5, CS2.5**). The teacher shows them to the students and asks them to think about what they are and share them with their peers and then they check the answers with the whole class (**D2.3, D3.6, SELS2.1, V4.2, CS2.19**). Then the teacher asks the students to watch the introductory digital story again and shows the corresponding pictures to the students when the corresponding vocabulary is mentioned in the story, without stopping the video while they are watching the story (**LS2, LS4**). When they have watched the whole story, the teacher shows the realia/visual elements, etc. about the content and asks in the form of two options, one of which is a word from the previous themes that they already know (**D3.6, LS5, CS2.7, CS3.1**). As they have studied the words through the “part/paragraph and sentences clues” in reading the text earlier, the students can choose the correct option when they hear the words for the related theme and they answer them after talking about them in pairs (**D3.6, SELS2.2, V4.1, V6.2, LS2, LS4, LS5, CS3.1**). In this way they can further practise the meaning of the target words. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2 Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Further vocabulary practice through dialogical work: The teacher shows the story again, and from the beginning, whenever a target vocabulary item is mentioned in the story, the teacher stops the video and asks questions (or lets the students ask and answer each other). In this way, they are engaged in various dialogues and use the target words in these dialogues (**D2.3, D3.8, SELS2.1, V4.1, V6.2, LS5, LS6, CS2.8**). So, they revise and practise the meanings of the target (key) vocabulary of the theme “life in the universe and future”. This kind of technique could be applied with different and enjoyable activities according to the preference of the teacher. These activities are conducted in the form of

a dialogue where their learning can be checked as described in items (2) and (6) in the section 1.2. Principles for the Implementation of the English Curriculum. Further activities and games are played at this stage to reinforce the meaning of the target words by using several materials including AI-based and web 2.0 (**D2.5, SELS2.1, V3.4, V4.2, V4.4**). They can be done with real pictures on the white/blackboard if there is a problem with technology. These activities are evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET VOCABULARY: Consolidation of the target vocabulary: To further practise the target vocabulary, the teacher can prepare an activity with images/pictures of target vocabulary using the web 2.0 tools. She/He mixes these images/pictures for the target vocabulary items and puts them in a raffle programme by using a web 2.0 tools or a real box in the classroom. She/He asks the students to take turns to go to the white/black board and to draw a picture related to the target components of the current theme (**D2.3, SELS1.2**). Then students say several things about the items in the picture (**D1.5, D2.3, V3.4, LS1, LS5, LS6, CS2.20**). The teacher asks the students in their seats to take notes while the student at the white/black board talks about the picture she/he has drawn and to give feedback by raising yes/no cards, or correcting if there are mistakes, etc., and also repeat the sentences after him/her (**D3.9, D3.10, SELS2.2, V3.4, CS3.3**). When the student at the white/black board finishes, the teacher asks her/him to put the picture under the right category that she/he has previously placed on the white/black board earlier. In this way, images/pictures that are relevant to the concepts of the target theme will be revised and consolidated once again through categorisation (**D3.6, D3.7, CS2.5**). The teacher asks the students to write a definition or an example sentence in their personal dictionaries and then asks them to exchange their dictionaries with their peers and check each other's spelling and definitions (**D1.2, D1.6, D3.1, SELS2.2, V3.4, V6.2, CS2.20**). Students' learning can be checked and evaluated as described in items (3), (4), (6), (7), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum. When the vocabulary session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.1, SELS1.3, SELS2.1, SELS2.2, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V6.1, V9.2, V10.3**).

ENG8.8.G1

RECOGNITION OF TARGET GRAMMATICAL ITEMS (AS CONTENT KNOWLEDGE): Consciousness raising-discovery for the use of target language structures in inductive learning process: The teacher writes some sentences on the smart board/blackboard/whiteboard and asks them to read the sentences. Then she/he asks them to watch the introductory digital story again to draw their attention to the use of target grammatical structures of the theme "life in the universe and future" (**D3.2, LS7**). The introductory digital story is replayed so that the students can notice the use of language with the target grammar structures (**LS2**). While watching the introductory digital story, the teacher stops at the scenes where the language with the target grammatical structures is used. When the students finish watching the introductory digital story again, the teacher asks the students to read and examine the example sentences carefully (**D3.2, D3.6, LS7, CS2.2, CS2.6, CS3.2**). Then she/he asks the students to work in pairs and find similar sentences with the target grammar structure(s) in the theme to those written by her/him on the smart board/blackboard/whiteboard (**SELS2.2, V3.4, CS2.7**). The students look at the written version of the story and find similar sentences to those given by the teacher as examples (**D3.2, D3.6, CS2.4, CS2.7**). The teacher then asks the students to discuss and list the common features in these sentences and what kind of things are used repeatedly and why they think they are used in that way (**D3.1, D3.6, D3.10, SELS3.1, V3.3, V4.2, CS2.4, CS3.3**). Students examine the teacher's example sentences, find the similar sentences in the written version of the story and discuss them by making a list of similarities and repeated commonalities (**D3.6, SELS3.2, V3.3, V3.4, V4.2, LS7, CS2.4, CS2.7**). The teacher asks the pairs to say what they have found (**D2.3, CS2.10**). As the pairs say what they have found, the teacher writes them on the board and gives the class time to look at them and think about them (**D3.6, D3.10, SELS2.2, V3.3, CS2.10, CS2.16.1, CS3.3**). Then the teacher

hands out a piece of paper and asks the students to make a rule about what they have noticed regarding the target structures. Students create a rule about the use of target grammatical structures of the theme by working in pairs and they read it to the class and give each other feedback on the rules (**D3.1, SELS2.2, SELS3.3, V3.3, LS1, CS2.9, CS2.16.1**). The teacher shows a sentence that explains the rule correctly and asks the students to check if their rules are correct or the teacher gives a table in which the rule for the language with the target grammatical structure is incomplete. She/He asks the students to complete it by working in pairs (**D3.1, SELS2.2, V4.2**). Then they check the rule as the whole class and reflect on their experiences on how and how much they have learnt (**D2.4, SELS1.1, SELS1.3, V6.1, V10.3, LS1, CS2.15**). This process is applied again for the other target grammatical structures in the theme if there are any. These activities are evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

SELECTION AND USE OF TARGET GRAMMATICAL ITEMS IN CONTEXT: Students practise the use of the language including the target grammatical structures: The teacher asks the students to work on grammar tasks she/he assigns (**D2.2, D2.3, V3.3, V3.4, CS2.13**). These tasks could be the ones that the teacher provides. The teacher shows some other contents in the form of a dialogue, a short paragraph, a short story, etc. with sentences including the target grammar structures and asks the students to find the sentences with the target grammatical structures in them and asks if they understand them easily (**D3.2, D3.7, D3.10, CS2.13, CS2.20, CS3.3**). She/He facilitates some oral or written activities and exercises for the students to further practise the target grammatical structures in context in pairs or groups (**SELS2.2**). She/He also facilitates more fun activities and games in which students talk, act out, mime, write, etc. with pen and paper, digital, AI-based, etc. materials and contexts so that they can practise and consolidate the target grammatical structures by selecting and using them accurately, efficiently, and naturally in context (**D2.5, D3.2, D3.3, SELS2.1, V4.2, V4.4, LS2, CS2.13**). They engage in several dialogic activities in which they share information, ideas and thoughts for communicating with their classmates. They exchange information and ideas to others by using target grammatical content (**D3.5, SELS2.2, V3.4**). When the session is over, the teacher asks the students to reflect on their ideas, thoughts, and feelings about the grammar discovery and use process. Students reflect on their experiences individually and share them with their classmates and the whole class (**D1.2, D1.6, D2.3, SELS1.3, V6.1, LS6, CS2.15**). They also give feedback to each other (**D2.1, D2.4, V4.2, V10.3, SELS2.2**). This is evaluated as described in items (5), (8) and (9) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.8.R1

PREPARING FOR READING: The teacher facilitates reading activities throughout the theme “life in the universe and future” from the first lesson to the end, when and where necessary with precise techniques and the necessary amount. Reading starts from earlier stages and continues throughout the theme in various forms and amounts as it is explained above (in the vocabulary section) in terms of how it is taught and when it needs to be clarified. Various reading styles such as silent reading, jigsaw reading and speed reading are used during the pre-reading, while-reading and post-reading phases. The ultimate aim of reading practice is to enhance comprehension, improve fluency, develop critical thinking skills and the ability to comprehend and talk about the current content and related issues in a meaningful way (**V3.2, LS1, CS3.3**). Students are provided a new text(s) to practise their reading skills through the current theme. They look at the surrounding visual materials, the title of the text and other supportive elements to guess the topic of the new reading content and they make predictions to be checked after reading the text (**D1.1, SELS3.1, V3.3, LS4, CS2.2, CS2.11, CS2.16.2**).

ENG8.8.R2

BRINGING INFORMATION TOGETHER THROUGH READING: Students read the new reading text carefully to check their predictions made in the preparation session at the beginning of the lesson (**SELS1.2, V3.4, LS1, CS2.8**). Then they read the text very quickly (scanning) to check the main components and categories with the help of visual elements such as pictures, symbols, drawings, illustrations that are provided by the teacher (**V3.3, LS4, LS7, CS2.4, CS2.6**). They compare the components they have found in the text with those written by the teacher on the smart board/whiteboard related to the sub-themes of “transport in the future; self-driving cars; flying vehicles in the future” (**D3.6, V11.1, V16.2, LS2, LS5, CS2.7**). Students read the text very quickly to check that the main components correspond to the headings written by the teacher on the board and then they tick/circle/underline them on the list (already provided by the teacher) at their desks (**V3.4, LS7, CS2.8**). The teacher could use different versions of the scanning activities as described in the “listening/ watching- comprehension” section above. In this way, they can understand the text in general better with the help of scanning (**CS2.16.1**). They share the components with the whole class (**SELS2.1**) and then they discuss the accuracy of the results as a whole class (**D2.3, D3.6, SELS2.2, V4.2, LS1, CS2.8**).

ENG8.8.R3.

MAKING MEANING THROUGH READING: Students read the new text silently in pairs in a jigsaw reading activity as they have done in the vocabulary session earlier (**D3.2, SELS2.2, V4.1**). During the reading session, they look out for new words whose meanings they do not know (if there are any, other than the target words previously covered in the listening/watching-comprehension and vocabulary recognition sessions) (**CS2.6**). They work on the new words in the same way as in the vocabulary sessions. Then they deal with the semantic meaning conveyed in the text through display questions, then semi-closed activities and then open-ended activities (**V3.3, V6.2, LS1, CS2.4, CS2.6**). They deal with the meaning by using strategies from the closed to the open-ended range to understand the theme “life in the universe and future” in terms of the sub-themes of “transport in the future; self-driving cars; flying vehicles in the future” mean from different perspectives to build their own understandings (**D3.6, D3.8, SELS3.1, CS2.13**). The teacher facilitates a number of activities to help the students improve their comprehension, synthesis and evaluation skills after applying the knowledge they have gained from the reading process (**SELS3.2, SELS3.3, CS2.3, CS2.17, CS2.20**). After this stage, they work on activities to connect their knowledge and skills they have acquired about the current content with CLIL (history, maths, science, etc.) and cultural issues to be able to enrich their perspectives on the current theme (**D3.5, SELS3.2, V3.4, V11.1, V16.2, LS1, LS5, LS6, CS2.13, CS2.14**). In this way, they will have the opportunity to develop their knowledge and language competence through reading. They can have the opportunity to develop their cognitive, emotional, cultural, social, and creative skills through the process of reading (**SELS3.3, V7.2, CS2.20**).

ENG8.8.R4.

REFLECTING ON THE READING PROCESS: Students reflect on their thoughts, ideas and feelings in relation to the whole reading-comprehension process (**SELS1.3**). They talk about them individually and then share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

ENG8.8.W1.

PREPARATION FOR WRITING-EXPRESSION: Students are facilitated throughout the theme with writing activities, from the first lesson to the last when and where necessary with precise techniques and the necessary amount of writing. At the beginning of the writing process, students recall their pre-existing knowledge about the current content to make a link between what they know and what they are going to

write about **(D3.2, SELS1.1, CS2.12)**. This includes examining all the audio/visual sources and elements provided for understanding the writing task **(V3.2, LS1, CS2.2)**.

ENG8.8.W2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the writing task they have been given **(CS2.2)**. These are limited and short pieces of writing to see how the language, including the target vocabulary and grammatical structures, is used in the written language, after hearing and seeing them through listening and reading activities in the theme “life in the universe and future”. Initially, they practise the language in a more controlled way, writing to repeat or simply explain what they have heard and seen and/ or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the model/example writing carefully **(V3.4, LS2, LS5, CS2.4, CS2.19, CS3.2)**. They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to current content in their later free writing tasks **(D3.6, SELS1.2, V3.2, LS1)**.

ENG8.8.W3.

CONSTRUCTION OF NEW WRITTEN CONTENT: After working on a sample/model writing task, students begin to produce/construct similar tasks of their own. They participate in several writing activities individually, in pairs, in groups and as a whole class **(D2.3, SELS2.2, V4.1)**. Their products could range from writing a word to a phrase, a clause to a full sentence, a group of sentences to a short paragraph, an essay to a short story. These writing activities will help students to produce and display meaningful written language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme as in others **(SELS2.1, LS1, CS2.13)**.

ENG8.8.W4.

PRACTISING BY PRODUCING WRITTEN CONTENT: Students are encouraged to produce a variety of written products such as sentences, acronyms, paragraphs, messages, posters, e-mails, quotes, poems, songs, essays, diaries/journals, blogs, scripts for plays, documentaries, films, etc. to express their ideas, thoughts, and feelings in relation to the current topic **(D1.5, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.20)**. They take part in individual or collaborative projects to improve their writing skills together with social, cultural, cognitive, and affective aspects **(D1.4, SELS2.2, V3.4, V4.1, V4.2)**. Within this variety, they can find the opportunities to show how they can use the language that they have learnt to describe and comment on the current content for developing new ideas about them in different genres of writing, according to their potential needs for expressing themselves and communication with others **(SELS3.2, SELS3.3, V11.1, V16.2, LS5, CS2.14, CS3.3)**. Storification and gamification techniques are actively and extensively used for further writing practice **(D2.5, LS9)**.

ENG8.8.W5.

PROCESS WRITING: Controlled writing of words, sentences and paragraphs turns to process writing with the support of the teacher’s and also peers’ feedback in the theme. This process is expanded and supported with additional activities. New contexts in the form of written/photo-picture strip/pantomime/video stories, dialogues, etc. for students to write responses, lines, parts, answers, scripts, etc. to practise further by writing with the language including the target words and grammatical structures related to the theme in fun, enjoyable, varied, and versatile activities **(SELS2.2, SELS3.2, V3.4, V7.2, V7.3, LS9, CS2.13, CS2.14)**. All the content is formed as contextual, practical, authentic, real, and appropriate to the students’ interests, and language level. Students improve their writing after reviewing the feedback they receive and this spiral, cyclical, and ongoing work becomes a progressive path for students **(D3.1, SELS1.2, V12.3, LS1, CS3.1)**.

ENG8.8.W6.

RECONSTRUCTING/COMMUNICATING THROUGH WRITING: Students communicate their ideas, thoughts and feelings about the sub-themes of “transport in the future; self-driving cars; flying vehicles in the future” through their writing tasks (**V11.1, V16.2, CS3.3**). They can use AI-based technologies for various activities, by having access to authentic materials. They can also produce digital written materials and projects at school and at home in a variety of ways to interact and communicate with peers and/or other people inside and outside school by using the language including target words, language chunks, and the social language expressions for the relevant theme in their writing (**D3.3, SELS2.3, V3.4, V4.2, V11.1, LS2, LS4, LS5, CS2.20**). All writing activities can be evaluated as described in items (3), (4), (5), (9), (10), (11) and (12) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.8.W7.

REFLECTING THROUGH WRITING: The teacher asks the students to reflect on their thoughts, ideas and feelings in relation to the whole writing-expression process (**SELS1.3**) and students talk about them individually and share them with the whole class (**D1.2, D1.6, D2.3, SELS2.1, V4.2, CS2.15**). After the reflection and feedback session, they revise their work by correcting their mistakes and improving their ideas (**SELS1.2, SELS2.2, V4.3, V12.1, LS1**).

SPEAKING-EXPRESSION

Practising through speaking from controlled to communicative stages: The teacher facilitates speaking activities throughout the theme from the first lesson to the last. Speaking activities support students’ learning and help them to produce meaningful language for personal expression and communication with others, by using the language including the target words, grammatical structures and social language expressions of the theme (**V3.4, V4.5, LS1, LS5**).

ENG8.8.S1.

PREPARATION FOR SPEAKING: In the beginning, students recall their background knowledge about the theme through listening/watching and/or reading and then they talk about it (**SELS1.1, CS2.12**). Students practise the target language items in a controlled way, by saying, repeating, explaining what they hear and see in the context, for instance, in the introductory digital story and the listening and reading sections in different contexts (**SELS3.2**). Then they can expand their language use and practice in each section by increasing the amount of speaking they do (**D1.3, V3.4, LS1, CS2.13**).

ENG8.8.S2.

ANALYSING AND UNDERSTANDING THE MODEL: Students listen (to)/watch and/or read some models of the speaking task they have been given (**CS2.2**). These are limited and short pieces of speaking to see how the language, including the target vocabulary and grammatical structures, is used in the spoken language, after hearing them through listening activities in the theme. Initially, they practise the language in a more controlled way, repeating some utterances, simply explaining what they have heard and seen, and/or what they are asked to do about the target theme in context. At this stage, they try to understand how the language is used in the target content by examining the speaking model/example carefully (**V3.3, V11.1, V16.2, LS1, CS2.4, CS2.19, CS3.2**). They try to understand and plan how they can convey the knowledge they have gained throughout the theme, the thoughts, ideas, and feelings they have developed in relation to the current theme in their later free speaking tasks (**D3.6, SELS1.2, V3.2, V3.4, LS5**).

ENG8.8.S3.

PRODUCTION OF MEANINGFUL AND ACCURATE CONTENT: In the later stages of the lessons, the teacher prepares new contexts for the students in the form of new written/photo-picture strip/pantomime/video stories, dialogues, etc. as new opportunities to practise further by seeing/hearing/reading the language including the target words and grammatical structures related to the theme “life in the universe and future” in fun, enjoyable, varied, and versatile activities (**SELS3.2, V7.2, LS9**). These newly created contents are contextual, practical, authentic, real, and appropriate to the students’ age, interests, and language level. They participate in such speaking activities individually, in pairs, in groups and as a whole class (**D3.2, SELS2.2, V4.2, CS2.20**).

ENG8.8.S4.

CONSTRUCTING MEANINGFUL SPOKEN CONTENT: Students produce various spoken content and their products could range from producing a simple utterance including a word to a phrase, a clause to a full sentence, a group of sentences to a short speech, a dialogue to a spoken presentation (**SELS3.3, V3.4, CS2.20**). These speaking activities will help students to produce accurate and meaningful spoken language for personal expression by selecting and using target words, grammatical structures and social language expressions in this theme “life in the universe and future” as in others (**D3.6, SELS2.1, CS2.13**).

ENG8.8.S5.

RECONSTRUCTING/COMMUNICATING THROUGH SPEAKING: Collaborative and communicative activities are designed and used to revise and consolidate the whole theme “life in the universe and future” on the sub-themes of “transport in the future; self-driving cars; flying vehicles in the future” (**V4.5, LS5, CS2.13, CS2.14**). Storification, drama, and gamification techniques are actively and extensively used for further speaking practice throughout the theme (**SELS2.1, SELS2.2, V4.1, V4.2, LS4, LS9**). Students are encouraged to produce several spoken products related to the extended contexts such as dialogues, speeches, short texts, presentations, etc. to interact and to communicate with peers and/or other people inside and/or outside the school by using the language including the target words, language chunks, and social language expressions for the current theme (**SELS2.3, V3.4, V7.1, V7.2, LS1, CS2.20**). AI-based technologies can be used for various activities, giving students access to authentic materials. They can also produce digital materials and projects for speaking at school and at home through recordings (**D3.3, SELS3.1, SELS3.2, V7.3, V11.1, LS2**). All these speaking activities can be evaluated as described in items (1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) in the section 1.2. Principles for the Implementation of the English Curriculum.

ENG8.8.S6.

REFLECTING THROUGH SPEAKING: Students are encouraged to reflect individually or collaboratively in groups on their own individual learning (**SELS1.3**) or on their collaborative learning in pairs, groups or as a whole class collaboratively (**D2.3, SELS2.2, CS2.15**). The activities will help and support students in these feedback and reflection sessions. Their feedback is shared with peers and the teacher and takes the form of interactive and ongoing feedback that can help their own improvement (**SELS1.2, SELS2.1**) and also they contribute to the improvement of their peers in their learning processes (**V4.1, V4.3, V12.1, V12.3, LS1**).

DIFFERENTIATION

Expansion

Objective: To practise the language to solve problems and make decisions related to a space mission in English by using the target vocabulary and grammar.

Activity 1: Space Mission: Decision Time

The teacher informs the students that they are part of a space crew heading to Mars. Along the way, they face several challenges and must decide what to do using the first conditional. She/He divides the class into groups of 4-5 and assigns each student a role (Commander, Engineer, Scientist) and provides each role with specific expertise. (Engineer: Deals with technical problems/ Scientist: Evaluates the impact on research/ Astronaut: Ensures safety and well-being). Then, the teacher gives each group a problem card and tells students that they have 3-5 minutes to discuss solutions using the first conditional. (Example problems: The solar panels are damaged /An oxygen tank is leaking). When the time is up each group shares their decision with the class. All members must justify their suggestions using the first conditional. Example solution: Commander: "We decided to fix the solar panels immediately". Engineer: "If we repair the panels now, we'll have enough power for the rest of the mission". As a follow-up activity, students record a voice note as an astronaut reporting to mission control, explaining the challenges they faced and their decisions using the first conditional. Students reflect on their thoughts and feelings about the activity.

Supporting

Objective: To practise the language to solve problems and make decisions related to a space mission in English by using the target vocabulary and grammar.

Activity 1: Space Mission: Decision Time

The teacher tells students they are part of a space crew heading to Mars. Along the way, they face several problems and must decide what to do using the first conditional. She/He divides the class into groups of 4-5 and assigns each student a role (commander, engineer, scientist) and provides each role with a problem card with simplified vocabulary and visuals. (Example problem card: Problem: "The rocket is running out of fuel". Support Prompts: If we, we the mission. Provide a choice of solutions on the card to guide responses, e.g., "We can find extra fuel. /Turn back to Earth". Then, the teacher tells students that they have 3-5 minutes to discuss solutions using the first conditional. When the time is up each group shares their decision with the class. All members must justify their suggestions using the first conditional. Each group receives feedback from peers and the teacher on their use of vocabulary and grammar. Each student writes a short reflection on what they liked and enjoyed in today's lesson. Students reflect on their thoughts and feelings about the activity.
